Washington, DC 20590

RE: Support Letter for Maine Department of Transportation (MaineDOT) Application to the Federal Transit Administration Low or No Emission Grant Program

Dear Secretary Buttigieg,

The Bangor Area Comprehensive Transportation System (BACTS) submits this letter in support of the Maine Department of Transportation's (MaineDOT) application for funding through the Federal Transit Administration Low or No Emission Grant Program. MaineDOT, in partnership with seven Maine transit agencies, is seeking funding for low and no emissions buses and vans for transit service across Maine, including associated infrastructure and staff training and workforce development.

These hybrid and electric vehicles will replace existing diesel and gasoline vehicles, expanding access to clean and sustainable transportation for thousands of Maine transit riders. The supporting infrastructure, which includes vehicle chargers, will ensure that these vehicles operate reliably and efficiently for the duration of their useful lives. Furthermore, the training and workforce development will ensure a skilled, diverse, and sustainable labor pool.

Introducing these vehicles will reduce greenhouse gas emissions, mitigating the impacts of climate change, and directly supporting the goals of the state's climate action plan "Maine Won't Wait" and corresponding Clean Transportation Roadmap, which calls for continuing to decarbonize Maine's transportation sector.

As the greater Bangor region's fixed route transit provider, the Community Connector is a vital part of our region's transportation infrastructure. BACTS strongly supports MaineDOT's grant application for this important project. I am hopeful that you will give the project your full consideration and award the requested funding.

Respectfully,

Sara Devlin

Sara Devlin, Executive Director
Bangor Area Comprehensive Transportation System
