Subject: Letter of Commitment for the State of Maine, Biddeford Saco Old Orchard Beach Transit and CityLink/AVCOG LoNo Application

Dear Ms. Veltri:

Proterra Inc (Proterra) is pleased to provide this letter of commitment to the State of Maine along with Biddeford Saco Old Orchard Beach Transit and CityLink/AVCOG in support of your proposed capital acquisition and deployment of more zero-emission transit buses in response to FTA's LoNo grant program. Proterra is excited to continue to work with the State of Maine, Biddeford Saco Old Orchard Beach Transit and CityLink/AVCOG to deliver clean, quiet transportation to the communities of the State of Maine.

The State of Maine, Biddeford Saco Old Orchard Beach Transit and CityLink/AVCOG proposed project will deploy six (6) more 35' ZX5+ Proterra zero emission battery-electric buses in the state along with turn-key installation of two (2) more 180kW charging infrastructure. This will bring the total number of Proterra buses to 12 in the State of Maine. Participation in the LoNo grant program will help the State of Maine further reduce emissions and lower the total cost of ownership of its transit fleet.

As the market leader of battery-electric buses in North America and the State of Maine's partner, Proterra brings considerable experience and reliability to the project as the bus OEM partner selected by the State of Maine.

Proterra pledges its full commitment to the State of Maine's goal to provide environmentally friendly, Altoona-tested transportation to the citizens of Maine. Proterra looks forward to participating with the State of Maine on this project.

Sincerely,

Lauren Cochran Scoville
Vice President of Sales, Transit
Proterra Inc
