

Northern Maine Development Commission

December 14, 2024

The Honorable Secretary of Transportation
U.S. Department of Transportation
1200 New Jersey Ave, SE
Washington, DC 20590

RE: Maine Department of Transportation's application to fund the *Sparkling New Life into Maine's Star City Project* under the FY 2025 Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant Program

Dear Secretary of Transportation,

Northern Maine Development Commission (NMDC) supports the Maine Department of Transportation's (MaineDOT) application for an FY 2025 Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant. The *Sparkling New Life into Maine's Star City Project* (Project) consists of significantly improving multimodal infrastructure and increasing safe access to businesses along Main Street/U.S. Route 1 through downtown Presque Isle.

The City of Presque Isle is a significant regional service center in rural northern Maine. U.S. Route 1, which bisects downtown, has long been the sole freight route in the region, serving the area's important forestry, agriculture, and military industries and is a vital trade lane with Canada. Because of growing freight and regional traffic, the city's downtown transportation infrastructure experiences significant deterioration and contributes to unsafe conditions for users of all transportation modes.

The Project includes:

- Redesigning numerous streets to include safe traffic calming features, sidewalks, and crosswalks;
- Repaving or rebuilding roadways, sidewalks, and pathways to address structural deficiencies; and
- Reconfiguring a dangerous five-way intersection to reduce crashes and increase multimodal safety.

The Project will return transportation in Presque Isle to a state of good repair while maintaining the character of the community through safe mobility options and connectivity to employment and businesses. Improving multimodal access Presque Isle will result in a safer, walkable, and bikeable downtown and provides an additional tool for stronger economic development in the City. We respectfully request the Office of the Secretary of Transportation give favorable consideration to the *Sparkling New Life into Maine's Star City Project*.

Sincerely,

Robert P. Clark
