

# Working Waterfront Resilience

## Workshop Series

### What we'll cover:

#### **Funding opportunities**

Learn about funding programs available to support working waterfront infrastructure and access projects.

#### **Existing programs**

Hear from regional planning organizations, experts in engineering and design, representatives from permitting agencies, and more.

#### **Tools and resources**

Access modeling and planning tools, fact sheets, and resource guides to support your resilience goals.

#### **Advice from experts**

Visit interactive stations staffed by experts, ask your questions, and learn from other workshop participants.

**February 4, 5 & 9**

**4-7 PM**

**Machias, Portland and Belfast**

**The goal of this series is to help working waterfront communities**, including public and private entities that own, manage, or use waterfront infrastructure like piers and wharves, **gain access to resources available for infrastructure resilience and protection.**

Municipal officials and committee members, wharf and pier owners, marine businesses, waterfront managers, and members of the public are all encouraged to attend.

**Register now!**
