

FIREFIGHTER I & II REGIONAL GRANT

Recent legislative activity by the Maine Fire Protection Services Commission in support of fire training and education is being implemented. We are proud to announce a Firefighter I & II Regional Grant that fully funds firefighter training programs.

The training will be provided by Maine Fire Service Institute to collaborate with and support the efforts of regional fire service leaders.

About the Program: Interested parties will complete a short grant application that is designed to help Maine Fire Protection Service Commission members award funding for programs based on firefighter training demand, local support, and commitment to assist MFSI with program success. Keep an eye out this winter for emails from MFSI, the Maine Fire Chiefs

Association, the Maine State Federation of Firefighters, and Professional Firefighters of Maine with additional details about where and how to apply.

MFSI & the Maine Fire Protection Services Commission will also be adding more information about this grant opportunity on our websites in the coming months.

We look forward to supporting many successful programs throughout the state while this funding remains available.

mfsi.me.edu

Our goal is to have the application available by December of 2022 with at least one award issued by late January of 2023.
