

IMAGETREND
ELITE™

The Future Has Arrived

ImageTrend Elite™ is the future of electronic documentation and reporting. It was developed with the user in mind, with a fluid interface optimized across multiple platforms and operating systems. The smart dashboard and real-time validation further improve productivity by allowing flexibility and reducing inaccuracies.

Built on Standards

You can count on standardized data formats - including certified compliant NEMESIS version 3 and NFIRS 5.0 - from the field to final reporting in national databases.

Multi-Device Ready

Choose the right type of device for your department, rather than being tied to one type of operating system, or even run a mix of devices. Ruggedized Windows-based laptops can coexist with Apple iPad Air and a Google Nexus 10 tablets – all using the same software. That equates to less configuration time, faster training and consistent user experience, even in a mixed-platform environment. See *Elite Platform System Requirements* for details.

Fluid, Intelligent Interface

The new Elite interface was built from the ground up for the ultimate user experience in data collection and reporting.

- Up-front view of key performance indicators (KPIs) with the dashboard
- Visual cues for users with color-blindness
- Contrasting hues provide quick alerts to validation status
- Rapidly assign fields to a form with the Form Manager
- Experience a layout that automatically adjusts to each device with the Elite interface engine

Report and Analyze

ImageTrend's powerful reporting database gives you the flexibility to quickly and easily create dynamic reports. Monitor key performance indicators, set up alerts or triggers, or integrate multiple data sources to reveal the trends in your community.

Connected at All Levels

Elite connects multiple disciplines with a single platform and integrates with other systems to aid data sharing and submission. It doesn't just collect data; it becomes a portal for patient care providers.

Enterprise-ready Capabilities

One of the key reasons Elite can do so much is because of its extended enterprise capabilities.

- Scalable from smaller agencies or departments with 200 incidents/year to a large statewide system
- Configurable access and security based on permission groups
- Tiered administration and reporting based on your organizational structure
 - ◊ Statewide
 - ◊ Regional or district
 - ◊ Countywide
 - ◊ Cooperative
 - ◊ Custom groupings of more than one agency or department
- Users associated with multiple agencies can belong to a different permission group for each
- System configurable and service configurable settings

Elite Platform System Requirements † (client-side access)

The ImageTrend Elite platform was built for a variety of device platforms. ImageTrend recommends using or procuring device platform, operating system and browser combinations that have been tested and on which ImageTrend will support the use of Elite. Elite may also work on other devices not yet tested.

Supported Operating Systems

- Window 7 (all versions)
- Windows 8/8.1 (Standard, Pro, Enterprise)
- Windows 10* (Standard, Pro, Enterprise)
- Android 4.0 or greater*
- Apple iOS8 or greater
- Mac OS X

EKG Interfacing Tablets – Recommended Tablets

- Windows-based tablet devices:
 - ◊ Microsoft Surface 3/4
 - ◊ Motion R12
 - ◊ Panasonic Toughpad® FZ-G1

Tablets Requiring Cloud-Based EKG Solution

- Apple/Android tablet devices:
 - ◊ iPad Air (and Air 2) - 9.7"
 - ◊ iPad Mini (and Mini HD, Mini 2, Mini 3) - 7.9"
 - ◊ Galaxy Tab Pro - 8.4"
 - ◊ Nexus 10

Supported Web Browsers

- On iPad/iOS: Safari only
- All other hardware/OS platforms:
 - ◊ Edge (25.10586.0+), EdgeHTML (13.10586+)
 - ◊ Latest Chrome, Chrome Mobile, Safari, or Firefox
 - ◊ IE 11 or greater
 - ◊ IE 10 for all of Elite, except EMS/Fire incident forms

* Not supported: Kindle devices (software has security and functionality issues).

† Requirements and supported systems as of 04/01/16. See website for updates.
