Honorable Janet T. Mills
Governor, State of Maine 1
State House Station Augusta,
ME 04333-0001

Dear Governor Mills:

It is my privilege to submit to you and the members of the 132nd Legislature the "2024 Crimes in Maine Annual Report," pursuant to section 1544 of Title 25 of the Maine Revised Statutes Annotated. This report is the product of the cooperative collection and submission efforts 126 municipal, county and state law enforcement agencies in Maine to the State Bureau of Identification and the Records Management Unit of the Maine State Police.

National Incident Based Reporting System data provides law enforcement administrators, lawmakers, special interest groups and the public with valuable information that supports the formulation of public safety policy in the areas of law enforcement and crime prevention.

Maine's law enforcement community and its partners in the public and private sectors has a long-standing reputation of hard work and collaboration that has traditionally made Maine one of the safest states in the country.

We are sincerely grateful for the continued participation by Maine's police chiefs and sheriffs in this valuable program.

Sincerely,

Colonel William G. Ross
Maine State Police

DEDICATION

This publication is dedicated to Maine's fallen heroes, the 90 police officers who have died in the line of duty. Their names are engraved in granite on the Maine Law Enforcement Officer's Memorial in Augusta, next to the State House. The memorial was dedicated on May 25, 1991, following a fundraising effort by the Maine Chiefs of Police Association. Uniform Crime Reporting assisted that effort by providing historical research on each officer.

The Maine Uniform Crime Reporting Program joins the criminal justice community in the state of Maine in extending sincere sympathy to the families of these law enforcement officers killed in the line of duty in Maine's history.

INTRODUCTION

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort of over 16,000 city, county and state law enforcement agencies voluntarily reporting data on crime brought to their attention. Maine has 126 municipal, county and state law enforcement agencies that contribute to the annual Crime in Maine publication. 124 agencies contributed all 12 months of reports for the Crime in Maine 2024 publication, 2 agencies, however, did not submit reports. Law enforcement agencies represent the initial step in establishing an efficient statewide criminal justice information system (CJIS). Ideally, the UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, corrections) to form an integrated system for the exchange of vital management information. The availability of such data will allow for the provision of complete and timely criminal histories of offenders and their progress through the criminal justice system.

Since July 1973, the State Police have administered the program as a statewide, uniform method of collecting statistics on crime as it is reported to law enforcement and producing a reliable set of criminal statistics for use in law enforcement administration, operation and management. Additionally, Maine's statistics are forwarded monthly to the Federal Bureau of Investigation for inclusion in the annual Crime in the U.S. Report.

Over the years the UCR data has become one of Maine's and America's leading social indicators. Maine's citizens look to UCR as the primary information source on the nature and extent of crime, while criminologists, sociologists, legislators, state and local planners, the media and academicians use the statistics for wide and varied research and planning purposes.

NATIONAL UCR REPORTING SYSTEM

During the 1920s the members of the International Association of Chiefs of Police formed the Committee on Uniform Crime Reporting with the intent to develop a standardized system of police statistics.

After much studying of state criminal codes nationwide and the methods of bookkeeping, the committee completed a reporting plan which identified seven basic offense definitions and data requirements.

In January of 1930, 400 cities representing 20 million inhabitants in 43 states began participating in the UCR program. In that same year Congress authorized the Attorney General to gather crime information. He in turn designated the FBI to serve as the national clearinghouse for the collection of crime statistics.

Since that time the FBI has continued to serve as the coordinator for the UCR program, which has since grown to a system representing over 16,000 municipal, county and state law enforcement agencies voluntarily reporting data on crimes brought to their attention.

The National Sheriffs Association in June 1966 established a Committee on UCR, serving in joint capacity with the IACP UCR committee in an advisory capacity, to encourage sheriffs throughout the country to participate in UCR. In 1979 a congressional mandate made Arson a Part I Index offense in the UCR program.

For over 62 years the UCR program virtually remained unchanged in terms of the amount and type of data collected and disseminated. By the 1980s it had become obvious the nature of modern-day law enforcement had outstripped the utilization of UCR system and was in need of a thorough evaluation.

Commencing in 1982 the FBI and the Bureau of Justice Statistics (BJS) began a joint venture to formulate a phased-in redesign effort intent upon meeting the needs of law enforcement into the 21st century. Utilizing the services of Abt Associates of Cambridge, Massachusetts, the joint steering committee produced a draft report entitled *Blueprint for the Future of the Uniform Crime Reporting Program*. Based on the recommendations of their 1985 report, the FBI and BJS have proceeded to implement significant revisions to the UCR system to include:

- the addition of significant new offenses
- increased information on victims, offenders, arrestees
- improved quality control
- expanded user services

The major point of revision is the change from a summary-based reporting program to incident-based reporting where information on each offense, offender, victim, and arrestee is linked by a common incident number.

NATIONAL UCR REPORTING SYSTEM

Based on the success of a pilot project in South Carolina, the FBI released the final data elements and offense specifications in July 1988. At that time Maine and other state programs commenced a careful implementation of the enhanced program, now known as the National Incident Based Reporting System (NIBRS).

Due to the increased reporting requirements of the new program, the FBI is encouraging a phased-in transition where law enforcement agencies will be able to adopt the new program as they acquire the data-processing capabilities. It is anticipated that many states will be operating a dual collection program with some departments reporting under summary-based guidelines while others with automated records systems will make a quick transition.

OBJECTIVES OF UNIFORM CRIME REPORTING

The fundamental objective of the Uniform Crime Reporting Program is to produce a reliable set of criminal statistics on a state and national basis for use in law enforcement administration, operation, and management. This compiled data is also intended for the use of other professionals and scholars who have an interest in the crime problem. At the same time, this information is important as a reference source for the general public as an indicator of the crime factor in our society. The objectives of the Maine Uniform Crime Reporting Program are:

1. Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in Maine - its magnitude and its trends.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age and sex, in order to find the proper focus for crime prevention and enforcement.
4. Provide proper base data and statistics to measure the workload and effectiveness of Maine's Criminal Justice System.
5. Provide base data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.

6. Provide base data and statistics to measure the effects of prevention and deterrence programs.

7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

STATEMENT OF POLICY FOR RELEASE OF UCR STATISTICAL INFORMATION

The following regulations will be observed by this agency concerning the release of UCR statistical information. Employees of this agency will observe these procedures and will not deviate from this policy without the express consent of the Supervisor, UCR Division. All information to be released will originate from, and will be approved prior to being released by, the UCR Division.

REGULATIONS

1. This agency will publish an annual report reflecting crime in Maine. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to law enforcement agencies or to any agency or committee dedicated to law enforcement or criminal justice work.

2. Published reports will be released to the abovenamed agencies prior to their being released to individuals or agencies extraneous to the criminal justice community.

3. UCR Information requests: *No person or agency will be furnished statistical information which has not previously been published, concerning any individual agency's report, without the written consent of the Chief Administrator of that agency. The Uniform Crime Reporting division will maintain for one year a copy of the information released along with the request and the authority of release.*

A. Information contained in the published annual report may be released via phone, letter, etc., to any interested party.

B. All requests for unpublished information from agencies or individuals should be directed by letter to the Supervisor, UCR Division. These special requests will be honored only with the written consent of the agency whose statistics are requested.

C. Law enforcement agencies may receive interim, unpublished specialized reports identifying their agency only, providing the request is not unreasonable. Law enforcement agencies may also receive their respective county totals along with state or district totals.

MAINE UCR PROGRAM DEVELOPMENT

The Maine UCR Program started July 15, 1973, as a module of the Comprehensive Data System Program. It was originally funded by LEAA Discretionary Grant No. 74-DF-01-0001 to the Maine Criminal Justice Planning and Assistance Agency with the State Bureau of Identification, Bureau of State Police, as the implementing subgrantee.

On July 1, 1974, the Maine UCR system was certified as operational by Director Clarence Kelly of the FBI, and Maine became the 22nd state to have a Uniform Crime Reporting System. Forty-one states have state-level Uniform Crime Reporting systems acting as effective intermediaries between the FBI and local contributors.

Crime in Maine July–December 1974 was our first publication. This year we are publishing our forty-eighth publication. All publications have been well received, and the accumulated information becomes more valuable and widely used each year. *Crime in Maine 2021* itself is a product of new technology utilizing the new NIBRS reporting data elements.

Following the completion of the UCR program's high level design specifications for the FBI's new National Incident-Based Reporting System (NIBRS), Maine identified a software vendor capable of delivering a NIBRS compliant repository package. July 2004 Maine was certified with the FBI to submit NIBRS data from reporting agencies. A number of agencies tested their RMS systems and were certified to submit NIBRS data vs. Summary. In order to keep with the same format for Crime in Maine publication these agencies crime reports were translated down to summary crime numbers to keep crime reporting on the same level as previous publications.

Maine Authority:

The Maine Uniform Crime Reporting Act was passed by the Special Session of the 106th Legislature and was signed into law by the Honorable GOVERNOR KENNETH M. CURTIS on February 28, 1974.

AN ACT RELATING TO THE INSTALLATION OF A UNIFORM CRIME REPORTING SYSTEM

Revised Statutes, Title 25, Section 1544, amended. Section 1544 of Title 25 is amended by adding the new paragraph at the end to read as follows:

It shall be the duty of all state, county, and municipal law enforcement agencies, including those employees of the University of Maine appointed to act as policemen, to submit to the State Bureau of Identification uniform crime reports, to include such information as is necessary to establish a Criminal Justice Information System and to enable the supervisor to comply with section 1544. It shall be the duty of the Bureau to prescribe the form, general content, time, and manner of submission of such uniform crime reports. The Bureau shall correlate the reports submitted to it and shall compile and submit to the Governor and Legislature annual reports based on such reports. A copy of such annual reports shall be furnished to all law enforcement agencies.

The Bureau shall establish a category for abuse by adults of family or household members and a category for crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity, or disability that are supplementary to its other reported information. The Bureau shall prescribe the information to be submitted in the same manner as for all other categories of the uniform crime reports.

Maine NIBRS Repository Program – Beyond2020

Maine utilizes a NIBRS repository for all NIBRS data submitted by local, state and county law enforcement agencies. This program is also available to the public to search for statistics they are researching.

The website is: <https://me.beyond2020.com/>

Once you bring up the website there are prebuilt reports where you can look up statistics.

If there are any questions you can contact the UCR office at Maine.IBR@maine.gov

PROFILE OF THE STATE OF MAINE:

This profile is presented to provide some general knowledge and facts about the state of Maine. It is hoped that this information might assist in understanding the environment in which reported crime incidence and arrest data detailed in this report occurred.

Facts about Maine...

- ◆ *Summer temperatures averaging 70°F and winter temperatures averaging 20°F*
- ◆ *Maine is 320 miles long and 210 miles wide with a total area of 33,215 square miles, or about as big as all the other five New England states combined. Maine consists of 16 counties with 23 cities, 432 towns, 34 plantations and 429 unorganized townships. Has one county (Aroostook) so big, 6,453 square miles, that it actually covers an area greater than the combined size of Connecticut and Rhode Island.*
- ◆ *Maine has 65 lighthouses including Portland Head Light commissioned by George Washington. It also boasts of 6,000 lakes and ponds, 37,000 miles of rivers and streams, 17.5 million acres of forestland and 5,500 beautiful miles of coastline, including that of its 2,000 islands.*
- ◆ *Population for Maine in 2024: 1,476,360*
- ◆ *It became the 23rd state on March 15, 1820. 2020 marked Maine's Bicentennial.*

Maine Products:

Blueberries — Blueberry plants are plentiful in Maine because their hardy nature allows them to withstand the harsh weather and rough soil that are common in the rural parts of this state. With over 99% of the nation's low bush blueberries harvested in Maine this fruit has become one of Maine's larger exports. Blueberries are commonly used in jams, jellies, pies, and fruit salads.

Maine Lobsters — This tough-looking shellfish thrives in the cold waters off the coast of Maine. Fresh Maine lobsters are enjoyed by people all over the world, making this crustacean a vital part of Maine's economy. Over 90% of the nation's lobsters are caught all along the Maine coast. Over 86 million pounds of lobsters were harvested in 2024. The total of all shellfish and fin harvested was approximately 202 million pounds with a total value of approximately \$709 million in 2024.

Potatoes — Maine ranks as one of the top three potato-producing states in the country. These hardy vegetables are predominantly grown in the Northern Maine area known as Aroostook County.

Maple Syrup — Maine maple syrup is usually harvested during the cold winter months from the thousands of maple trees which dot the Maine countryside. Over 11% of the nation's maple syrup comes from the state of Maine.

Pulp, Paper, and Wood Products — Almost 89% of Maine is forested, making it a prime location for the production of wood and paper products. Maine is currently the home of many of the largest paper-producing mills in the country. Many forms of Maine paper products are used in schools and offices throughout the country.

Apples — Every fall, orchards all over the state are bustling with activity as apples become ripe for picking. Many different varieties of apples are grown in the state of Maine, including Macintosh and Yellow Delicious. In 2016, approximately 36,500,000 bushels of apples were harvested in Maine.

Tourmaline — This gemstone has the distinction of being the official mineral of Maine. Tourmaline stones can be found in a variety of colors ranging from black to light pink and are often fashioned into beautiful jewelry. In the late 1800s, Maine became established as one of the best places in North America for tourmaline mining.

CONTRIBUTING LAW ENFORCEMENT AGENCIES:

Maine Law Enforcement agencies are required by Maine Statute Title 25, Section 1544 to submit their agencies monthly crime stats.

Before you read *Crime in Maine 2024*, please take a minute to read the following information in order to better understand some of the changes to the data contained within the publication.

Crime in Maine 2024 is the fourth Crime in Maine publication to report out only **Incident Based Reporting** (IBR) data. Up until 2021, the FBI utilized summary **Uniform Crime Reporting** (UCR) data collection. The end of 2020 marked the end date for summary UCR data collection, which had been in place since the 1920s. The transition to IBR data collection means that multiple things have changed in comparison to summary UCR, which may cause some confusion if you try to compare IBR data against summary data from previous years.

The first thing to bear in mind is that IBR data collection is a different data set with different collection rules, so that comparison against summary UCR data is often not “apples to apples”. In essence, we are beginning at year zero in terms of a lot of data comparison to previous years, due to the transition to IBR reporting. For example, IBR collects data as related to 29 offense categories, compared to summary UCR’s 8 categories. This has a direct impact on things like the overall crime rate for Maine, as IBR is now collecting overall reported crime totals from 21 more categories than summary UCR. That doesn’t mean the crimes didn’t exist prior to 2021. It just means there was no mechanism in place to count and report them under summary UCR.

While some of the category names remain the same from summary UCR, what is collected under the category name, may now be different. For example, summary UCR had the single category of Theft. Now in IBR, there is no single category of Theft. Instead, IBR has multiple categories, such as purse snatching, shoplifting, and theft from a motor vehicle. While these categories provide more detailed insight into the type of theft that occurred, it makes it very difficult to compare against summary UCR data, as all IBR theft categories would need to be added together to come up with an approximation of the old summary UCR theft category. Similarly, summary UCR had a single category for Rape, whereas IBR has three separate categories of Rape, Sodomy and Object Rape. All three of those categories would have been collected under the single rape category in summary UCR.

One other thing to bear in mind is that IBR data is a “living” data set. That means that crime totals from prior years may have changed over time due to agencies submitting updated information or new incidents that haven’t been submitted previously. Changes would be submitted even though we are not in that current year. The FBI allows a 2-year window to update incidents. This more accurately reflects the nature of crime investigation, since cases often continue to be worked on and solved by law enforcement long after the initial report is made. Again, this is substantially different from summary UCR, where the previous year would be closed from updates by the FBI in March of the following year. The static numbers of summary UCR were easier to work with for publications and comparisons over time but did not as accurately reflect the changing nature of crime statistics. ***Due to this, you will even see minor differences in totals for larger numbers in tables throughout Crime in Maine, as the publication’s tables were compiled over the course of several months.***

To this end, the FBI emphasizes that IBR should be utilized for recognizing general trends, not exact numbers, and comparisons against other agencies. One additional tool being offered by the State

to offset frustration from the changing numbers that come with a “living” data set is an online search, freely available to the public. The link to the online tool is listed at the bottom of page 6 of the *Crime in Maine 2024* publication.

If you have any questions about IBR rules, the statistics themselves, or how they are interpreted, please feel free to contact the UCR Unit of the Maine State Police at (207) 624-7276, or via email at maine.IBR@maine.gov. A copy of the FBI’s IBR Reporting Manual, which provides in-depth explanation as to how IBR reporting is determined and categorized, is also available at <https://le.fbi.gov/file-repository/nibrs-user-manual.pdf/view>.

Violent Crimes

Intimate Relationships consist of: Spouse, Ex-Spouse, Common-Law Spouse, Boyfriend/Girlfriend, Homosexual Relationships, & Ex- Relationship (Ex-Boyfriend/Girlfriend)

Family Relationships consist of: Child, Stepchild, Grandchild, Sibling (Brother or Sister), Stepsibling, Parent, Grandparent, In-Law, & Other Family Member

Acquaintance Relationships consist of: Child of Boyfriend/Girlfriend, Babysitter (the baby), Friend, Employer, Employee, Neighbor, Acquaintance, & Otherwise Known

Stranger is used when it is known - that the victim did not know the offender.

Victim/Offender is used when the participant in the incident was the victim and the offender in the incident, such as domestic disputes where both husband and wife are charged with assault, double murders (two people kill each other) or barroom brawls where many participants are arrested. Mutual combatant is also another reason to use this category.

Unknown/Missing is submitted when there is nothing submitted on the suspect.

Domestic Violence

Due to problems of abuse and domestic violence between family or household members, the 109th Maine Legislature enacted a law entitled “An Act Concerning Abuse between Household and Family Members.” The law, Chapter 578 of the Public Laws of 1979, mandates the reporting of domestic violence data by law enforcement agencies and the collection of such data (Title 19, § 770 [1]) by the Uniform Crime Reporting Unit, State Bureau of Identification, Department of Public Safety.

Domestic Violence is a crime against person in NIBRS, therefore incidents are reported based on the number of victims involved in the incident. The categories that are selected to report a DV incident for this report are Simple Assault and Aggravated Assault. The Domestic Violence report is a Maine report that is published according to Maine Statutes. Definitions being “Family or household members”, present or former spouses or domestic partners, Individuals presently or formerly living together as spouses, Parents of the same child, adult household members related by consanguinity or affinity, Minor children of a parent or guardian when the defendant is an adult household member of that parent or guardian, Individual presently or formerly living together and Individuals who are or were sexual partners. The relationship between the victim and the suspect reflects whether the incident is reported as a domestic violence incident.

2021 was a transition year for all law enforcement agencies in Maine to begin reporting crime statistics in the new NIBRS format. With this new reporting change, and additional victim/offender relationship being submitted in an automated format, there has been an increase in the number of reported domestic violence incidents for 2021. This is most likely due to more accurate and expanded relationship data available under the new reporting system, and the now automated process for NIBRS data to be checked for errors and missing information.

During 2024:

- A grand total of 11,367 assaults were reported for 2024. 3,803 victims of reported Aggravated and Simple assaults were domestic related based on the victim/offender relationship that has been reported.
- Domestic Assaults decrease of -3.94% with an decrease of 156 victims from 2023.
- Law Enforcement agencies cleared 2,830 domestic assaults, resulting in a clearance rate of 74.41%
- Of the 3,803 Domestic Violence assaults, 3,043 involved personal weapons being used which consists of Hands, Fists, Feet, Arms, Teeth, Etc.

HATE CRIME

Hate Bias

The reported number of hate crime incidents in Maine in 2024 was 43. These incidents involved 49 victims with 41 offenders and resulted in a total of 50 offenses.

Commencing in 1992, law enforcement officers are to report hate crimes as a supplementary report to the UCR program. Under Title 25 sec. 1544, hate crimes are defined as those that “manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity ...”. On June 26, 1997, disability bias was added to the definition of hate crime, creating two new categories: Anti-Mental Disability and Anti-Physical Disability.

Two new categories are added to Hate Crime Motivation: Gender and Gender Identity. There have also been numerous other additions to Bias Types. Maine’s hate crimes are further reported to the FBI as part of the federal Hate Crimes Statistics Act.
