Preparer's Note

This New Law Update contains summaries of selected public laws of interest and relevance to most Maine law enforcement officers. The Update includes the new or amended statutory citations as well as links to the chaptered laws and the LDs that started it all. It is strongly recommended that the entire text of the chaptered law be examined for a more comprehensive understanding, particularly before taking any enforcement action.

As you know, there are diverse types of law enforcement officers in Maine. To keep the length of this document manageable, new or amended laws that may be of interest to only those officers who focus on specialized enforcement are not included.

The summaries are those of the preparer and do not represent the legal opinions or advice of Dirigo Safety, LLC.
