§1. Mission of System

The Legislature of the State of Maine created the EMS Act to "promote and provide for a comprehensive and effective Emergency Medical Services system to ensure optimum patient care...with standards for all providers...." The Maine EMS system consists of emergency medical dispatchers, pre-out-of-hospital and hospital patient care providers, system planners, and system coordinators. It is their mission to provide emergency patient care, enforce minimum baseline standards and encourage optimum standards. Maine EMS system personnel in every capacity and position in the system, whether paid or volunteer, will be respected as professionals and judged by professional standards for that capacity or position.

§2. Mission of Maine EMS

It is the mission of Maine EMS’ vision is to assure the successful operation of the Maine EMS system through planning, evaluation, coordination, facilitation, and only as a last resort, regulation. To this end, Maine EMS and its regional councils will coordinate and facilitate the establishment of standards by consensus of EMS system personnel and will promote and enforce those standards. Maine EMS will strive to facilitate the operation of this system and its personnel through the coordination of provider services and personnel, promotion of the system and recognition of the importance of volunteers to the system. Maine EMS will develop resources to improve the professional capabilities of team members and to make EMS work safe, healthful, and satisfying.

§3. Maine EMS Goals

Maine EMS shall pursue those goals as set forth and approved by the Board within the Maine EMS Strategic Plan.

1. Maine EMS will fulfill its mission and pursue its vision in accordance with the following core values:

   A. Excellence in out-of-hospital care
   B. Support and guidance to system providers and organizations
   C. Collaboration and coordination with the overarching health care system
   D. Integrity, transparency, and equanimity of motives and actions

AUTHORITY: 32 M.R.S.A. § 203-C, Chapter 2-B.

As used in these Rules, unless the context indicates otherwise, the following terms have the following meanings:

§1. ADVANCED EMERGENCY MEDICAL TREATMENT means those portions of emergency medical treatment:

A. Defined by the board to be advanced; and

B. That the board determines may be performed by persons licensed under this chapter within a system of emergency care approved by the board when acting under the supervision of:

   (1) An appropriate physician; or

   (2) A physician assistant or nurse practitioner, licensed by the State, and authorized by a hospital to supervise and direct the actions of an emergency medical services person.

§2. AMBULANCE means any vehicle, whether an air, ground or water vehicle, that is designed, constructed, or routinely used or intended to be used for the transportation of ill or injured persons. The licensing of these vehicles is in addition to any registration required by any other authorities. For the purposes of these Rules, vehicles operated by the Maine Army National Guard, Maine Air National Guard or the United States armed forces are not considered ambulances.

§3. AMBULANCE SERVICE means any person, persons or organization, which holds itself out to be a provider of transportation for ill or injured persons or which routinely provides transportation for ill or injured persons. For the purposes of these Rules, the Maine Army National Guard, Maine Air National Guard and the United States armed forces are not considered ambulance services. It does not mean a person, persons, or an organization which transports ill or injured persons for reasons not connected with their illness or injury. It does not mean a nursing home licensed under 22 M.R.S.A. chapter 405, a children's home licensed under 22 M.R.S.A. chapter 1669, a boarding home licensed under 22 M.R.S.A. chapter 1663, or similar residential facility when transporting its own residents or those of another similarly licensed facility when those residents do not require emergency medical treatment. The types of Ambulance Services licensed by Maine EMS are listed below:

1. **Ground Ambulance Services** are those services licensed by the Board that treat patients and transport them in ambulance vehicles that are licensed by the Board and are designed to be operated on the roads and highways of the State.

2. **Scene Response Air Ambulance Services** are those services licensed by the Board that transport patients, utilizing aircraft licensed by the Board, from the scene of the
patient's illness or injury to the hospital or provide air transfer of patients being transferred from a hospital or health care facility to another place.

3. **Transfer Air Ambulance Services** are those services licensed by the Board that transport patients utilizing aircraft licensed by the Board and that may only provide air transfer of patients being transferred from a hospital or health care facility to another place.

4. **Restricted Response Air Ambulance Services (RRAAS)** are those services licensed by the Board and that utilize aircraft licensed by the Board to provide limited air ambulance services in order to meet a need within the State not otherwise fulfilled by a Scene Response Air Ambulance Service or a Transfer Air Ambulance Service.

§4. **BASE LOCATION** has the following meanings dependent upon the type of service license held:

1. For services licensed as Ground Ambulance Services, Scene Response Air Ambulance Services or Restricted Response Air Ambulance Services, Base Location means the physical location within a municipality, designated by the service and approved by the Board, from which a service responds its ambulances to the service’s Primary Response Area(s).

Ground Ambulance Services may position ambulances within municipalities abutting the municipality in which the Base Location is situated, for the purpose of enhancing emergency response.

4-2. For Non-Transporting Services or Transfer Air Ambulance Services, Base Location means that the service maintains a single phone listing for public access.

§5. **BASIC EMERGENCY MEDICAL TREATMENT** means those portions of emergency medical treatment:

A. Defined by the board to be basic; and

B. That the board determines may be performed by persons licensed under this chapter within a system of emergency care approved by the board when acting under the supervision of:

   (1) An appropriate physician; or

   (2) A physician assistant or nurse practitioner, licensed by the State, and authorized by a hospital to supervise and direct the actions of an emergency medical services person.

§6. **BOARD** means the Emergency Medical Services Board established pursuant to this chapter.
§7. **BOARD APPROVAL.** When no other method of gaining Board approval is specified, the person who seeks the approval shall apply in writing to the chairperson of the Board in care of the office of Maine Emergency Medical Services, stating the action to be considered, the section in the Rules under which approval is sought and the grounds in support of the request.

§8. **CERTIFICATE** means a document issued as evidence that a person has completed a course of training or a particular test or recertification.

§9. **CPR CERTIFICATION TRAINING** means successful completion of a Maine EMS approved Cardio-Pulmonary Resuscitation (CPR) program, or equivalent. This is interpreted to include semiautomatic defibrillation when that module is successfully completed.

1. CPR certification is valid until the expiration date, or recommended renewal date, of the document recognized as proof of certification.

§10. **DEPARTMENT** means the Maine Department of Public Safety.

§11. **EMERGENCY MEDICAL CALL** means a medical situation in which requiring an immediate response to a scene is required in order to prevent life or limb-threatening medical deterioration of a person requiring emergency medical treatment or a situation when dispatch or responding personnel do not have information to determine the existence or condition of persons at a scene who may require emergency medical treatment. means any actual or perceived event which threatens the life, limb, or well-being of an individual in such a manner that a need for emergency medical treatment is created.

§12. **EMERGENCY MEDICAL DISPATCH PRIORITY REFERENCE SYSTEM** means a system approved by the Emergency Services Communications Bureau and the board that includes:

1. A protocol for emergency medical dispatcher response to calls;
2. A continuous quality improvement program that measures compliance with the protocol through ongoing random case review of each emergency medical dispatcher; and
3. A training curriculum and testing process consistent with the protocol.

§13. **EMERGENCY MEDICAL DISPATCH CENTER** means any entity that holds itself out to be a provider of emergency medical dispatch services.

§14. **EMERGENCY MEDICAL DISPATCH SERVICES** means any of the following services provided in the context of an emergency call made to the E-9-1-1 system:

1. Reception, evaluation or processing of calls;
2. Provision of dispatch life support;

3. Management of requests for emergency medical assistance; and

4. Evaluation or improvement of the emergency medical dispatch process, including identifying the nature of an emergency request, prioritizing the urgency of a request, dispatching necessary resources, providing medical aid and safety instructions to the caller and coordinating the responding resources as needed.

§14. EMERGENCY MEDICAL DISPATCHER means a person licensed by the Board who provides emergency medical dispatch services as a member of an emergency medical dispatch center licensed by the Board.

§15. EMERGENCY MEDICAL SERVICES PERSON means any person who routinely provides emergency medical treatment to the sick and/or injured. The following persons are not considered to be routinely providing emergency medical treatment for the purpose of these Rules and may provide emergency medical treatment only as specified below when called upon:

1. Those persons as specified in 32 M.R.S.A. § 82(2) subject to any restrictions stated in that section;

2. Any person having current CPR certification, for the purpose of providing CPR within the scope of that certification;

3. Any person who provides automatic external defibrillation in accordance with 22 M.R.S.A. § 2150-C;

4. Any student currently enrolled in a course leading to licensure may practice procedures learned in that course when that student:
   A. Has received permission to practice those procedures from the Instructor/Coordinator of the course Maine EMS authorized Training Center conducting the course;
   B. Is participating in a scheduled field internship session approved by the course's clinical coordinator;
   C. Is practicing those procedures with a Maine EMS-licensed service that complies with guidelines as developed by Maine EMS to conduct field internship sessions; and,
   D. Is supervised by a preceptor licensed to perform those procedures and who is acting in accordance with any requirements or guidelines as approved and published by Maine EMS.
If such a person is also licensed under these Rules, any emergency medical treatment he/she provides that is within the scope of his/her license will be considered as routine and not subject to such supervision.

5. Any person operating as a member of a police, fire, ambulance or non-transporting EMS service who has current CPR certification and who, within the past three years, has completed a Maine EMS-approved training program in cardio-pulmonary resuscitation CPR and automatic external defibrillation (AED), hemorrhage control and oxygen delivery during CPR and whose service maintains a record of such certification and training, may provide emergency medical treatment within the scope of that training program and certification at the scene of a medical emergency to which that service has been called.

§16. EMERGENCY MEDICAL SERVICES VEHICLE means a vehicle, authorized by Maine EMS pursuant to 29-A M.R.S.A. § 2054, for the purpose of transporting personnel and/or equipment to the scene of a medical emergency that is not otherwise licensed as an ambulance or registered as a fire department vehicle. An emergency medical services vehicle must be exclusively leased or owned, and operated by a service licensed by Maine EMS or by an agency designated by Maine EMS.

§17. EMERGENCY MEDICAL TREATMENT means those skills, techniques and judgments, as defined by the Board, which are directed to maintaining, improving or preventing deterioration of the medical condition of the patient and which are appropriate to be delivered by trained persons at the scene of a patient's illness or injury outside the hospital and during transportation to the hospital.

§18. EMERGENCY RESPONSE MODE means the operation of the ambulance’s or emergency medical services vehicle's warning lights and siren in accordance with the Maine Motor Vehicle Statutes, 29-A M.R.S.A. M.R.S.

§19. EMERGENCY SERVICES COMMUNICATIONS BUREAU means the Emergency Services Communication Bureau within the Public Utilities Commission.

§20. FAA means Federal Aviation Administration.

§21. FAR means Federal Aviation Regulations

§22. FULL TIME DISPATCH means a communications center that:

1. Operates twenty-four hours per day;
2. Records telephone and radio transmissions regarding calls for medical assistance;
3. Communicates with Emergency Medical Services providers via two-way radio; and other methods.
CHAPTER 2: DEFINITIONS

§22.LICENSE means a full, temporary, provisional or conditional license issued under these Rules.

§23. LOCATED OUTSIDE THE STATE OF MAINE. An ambulance service is located outside the State of Maine provided that it is licensed in another state or territory, does not maintain a base of operations in Maine, and does not routinely carry patients between points, both of which are in Maine.

§24. MAINE EMERGENCY MEDICAL SERVICES, or MAINE EMS means the Board, the emergency medical services director, and staff within the Department of Public Safety responsible for carrying out the responsibilities of 32 M.R.S.A. § 81 et seq. and these Rules.

§25. MEDICAL CONTROL (DIRECTION) is physician supervision of pre-hospital emergency medical care. More specifically, it is those actions taken to ensure that care provided on behalf of ill or injured patients is medically appropriate. Medical Control includes:

1. Interaction with operational and administrative aspects of EMS (for example, education and training, quality improvement, ambulance staffing, dispatch issues, and hospital destination).

2. Direct Online Medical Control (on-line or immediate medical control):
   A. The contemporaneous physician direction of a field provider utilizing radio, or telephone, or actual contact with a physician on scene in-person contact.
   B. This physician direction may be provided by a Physician Assistant or Advanced Practice Registered Nurse delegated by the physician(s) charged with medical oversight, that is credentialed by that hospital to do so.

2. Indirect Medical Control:
   A. The administrative medical direction of EMS personnel by a physician as designated in these Rules. Medical Direction includes interaction with operational and administrative aspects of EMS (for example, education and training, quality improvement, ambulance staffing, dispatch issues, and hospital destination).

§26. MEDICAL DIRECTION AND PRACTICES BOARD means the board, chaired by the State Emergency Medical Services Medical Director, and consisting of each
regional medical director, a representative of the Maine Chapter of the American College of Emergency Physicians, an at-large member, a toxicologist or licensed pharmacist, the statewide assistant emergency medical services medical director and the State Emergency Medical Services Medical Director. The Medical Direction and Practices Board is responsible for creation, adoption and maintenance of Maine Emergency Medical Services pre-hospital treatment protocols.

§26. NON-EMERGENCY MEDICAL CALL means a situation in which an immediate response to a scene, hospital, health care facility or other place is not required to prevent life-or limb-threatening medical deterioration of a person.

§27. NON-EMERGENCY RESPONSE MODE means operation of the ambulance or emergency medical services vehicle in a non-emergency mode obeying all traffic laws.

§28. NON-TRANSPORTING SERVICE means any organization, person or persons who hold themselves out as providers of emergency medical treatment and who do not routinely provide transportation to ill or injured persons, and who routinely offer to or provide services to the general public beyond the boundaries of a single recreational site, business, school or other facility. For the purposes of these Rules, a physician making house calls as a part of ordinary medical practice is not considered to be a non-transporting service. For the purposes of this definition, “routinely” means regularly, as part of the usual way of doing things.

1. A police or fire department which does not hold itself out as a provider of emergency medical care shall not be considered a non-transporting service solely because members of that department (who are licensed emergency medical services persons) provide medical care at the scene of a medical emergency to which they were dispatched for police or fire assistance.

§29. OFFICE OR OFFICE OF EMERGENCY MEDICAL SERVICES means the administrative unit within the Department of Public Safety to which the Board assigns responsibility for carrying out the purposes of 32 M.R.S.A-M.R.S. § 81, et seq. Responsibility for implementation, enforcement and administration of these Rules is delegated to the Director of the Office.

§30. PATIENT CARE REPORT means the report generated and filed by Ambulance Services and Non-Transporting Services documenting each request for service or for each patient when more than one patient is involved.

§31. PARAMEDIC INTER-FACILITY TRANSFER (PIFT) means a transfer of a patient after initial assessment and stabilization from and to a health care facility, or other location designated by medical control, or a primary patient care physician, conducted in accordance with the Maine EMS PIFT guidelines.

§32. PARAMEDIC INTER-FACILITY TRANSFER (PIFT) SERVICE means a Maine EMS licensed Ambulance Service that has been approved as a PIFT Service by Maine EMS after fulfilling the PIFT Service eligibility requirements.
CHAPTER 2: DEFINITIONS

§33. §36. **PARAMEDIC INTER-FACILITY TRANSFER (PIFT) PROVIDER** means a Maine EMS Paramedic who has completed the Maine EMS PIFT Training Program.

§34. §37. **PROTOCOL OR MAINE EMERGENCY MEDICAL SERVICES PROTOCOL** means the written statement approved by the Medical Direction and Practices Board and filed with the Board, specifying the conditions under which some form of emergency medical care is to be given by emergency medical services persons. These protocols are coordinated and published through Maine EMS as a single, statewide common set of protocols.

§35. §38. **PROVIDER OF EMERGENCY MEDICAL DISPATCH SERVICES** means an Emergency Medical Dispatcher or Emergency Medical Dispatch Center licensed by the Board.

§36. §39. **PUBLIC SAFETY ANSWERING POINT** has the same meaning as in Title 25, section 2921 M.R.S. § 2921.

§37. §40. **REGIONAL COUNCILS** means those groups of business entities recognized by the Board that represent the various regions of the state, as designated by the Board, with respect to matters subject to 32 M.R.S.A. §§ 81 et seq. and these Rules.

§38. §41. **REGIONAL MEDICAL DIRECTOR** means the physician designated in each EMS region by the regional council, subject to approval by the Board, to oversee all matters of medical control and to advise the regional council on medical matters. In designating/approving the regional medical director, the Board will be advised by the regional council for the region.

§41. **RESPONSE ASSIGNMENT PLAN** means a Maine EMS-approved plan developed by a Maine licensed service and its service medical director that identifies the service’s level-of-response and response mode in accordance with Maine EMS Emergency Medical Dispatch (EMD) protocol determinant codes.

§42. **STATE LICENSURE EXAMINATIONS** means the written (cognitive) tests and practical (psychomotor) evaluations approved by the Board and used to determine the minimum competency of a person seeking licensure as an EMS provider.

§43. **TRAINING CENTER** means an entity that meets the requirements of the Maine EMS Training Center Standards and is authorized by Maine EMS to conduct Maine EMS-approved EMS educational courses and training programs leading to EMS provider licensure.

§43. §44. **TRAUMA RAUMA** means a single or multisystem life-threatening or limb-threatening injury requiring immediate medical or surgical intervention or treatment to prevent death or permanent disability.

§44. §45. **WILDERNESS EMERGENCY MEDICAL TECHNICIAN** means the graduate of any wilderness emergency medical technician course, approved by Maine EMS, who may apply the principles of care taught in that course as defined. This is not a Maine EMS
licensure level in itself, but is a certification of skills and knowledge that may be employed by
those licensed by Maine EMS.

EFFECTIVE DATE: July 3, 1978 (EMERGENCY)

AMENDED:
- April 1, 1982
- December 25, 1982 - Sec. 2.31, 3131, 6.311, 6.63 and 6.73
- January 1, 1984 - Sec. 1, 2, 3, 5, 6, 8.32, 10.2, 10.3, 11.1066 and 11.1067
- April 30, 1985 - Sec. 1, 2.846.222, 6.332, 9.313, 8.3216 and 9.11
- January 1, 1986 - Sec. 1, 6. 8.15, 8.2, 8.3, 8.4 and 11.103
- September 1, 1986
- August 25, 1987 - Sec. 5, 6.011 and 12 (added)
- July 1, 1988
- March 4, 1992
- September 1, 1996

EFFECTIVE DATE (ELECTRONIC CONVERSION): July 1, 2000

REPEALED AND REPLACED:
- July 1, 2000
- July 1, 2003
- September 1, 2006
- October 1, 2009
- May 1, 2013
§1. No ground ambulance service or non-transporting service shall operate unless it is duly licensed by the Board under these Rules.

§2. License Factors - a ground ambulance service license or a non-transporting service license is issued for a specific:

1. **Service Type of service** - which may be:
   - A. A Non-Transporting Service; or
   - B. An Ambulance Service

2. **License Level of care** - which may be:
   - A. Emergency Medical Responder (EMR) (only if the service is licensing as a Non-Transporting service type); or
   - B. Emergency Medical Technician (EMT); or
   - C. Advanced EMT (AEMT); or
   - D. Paramedic

3. **Permit Level** – which may be:
   - A. Emergency Medical Technician (EMT) (only if a service is licensing as a Non-Transporting service type); or
   - B. Advanced Emergency Medical Technician (AEMT); or
   - C. Paramedic

3-4. Ownership

Upon request of the Board, an applicant for, or licensee of, a ground ambulance service or non-transporting service license must provide the Board with the identity and legal status (e.g. municipality, corporation, limited liability company, sole proprietorship) of the person or entity that holds, or is making application for
the license. Failure to provide this information may result in an application being treated as incomplete.

4.5. Service Area

A. The service area consists of the primary response area, which is any area to which the service is routinely made available when called by the public to respond to medical emergencies. In defining a primary response area, a service will be expected to meet reasonable standards in regard to distance and response times from its base of operations to emergency scenes. Maine EMS will determine if such standards are met using the following criteria:

1. Dispatch time/availability of ambulance and crew;
2. Response times;
3. Organized/coordinated dispatch;
4. Public perception;
5. Emergency responses across jurisdictions/public safety implications;
6. Impact on patient care;

B. The service receiving the request to respond to an emergency medical call outside of its primary response area shall coordinate with that area's primary EMS service to ensure the most appropriate response based upon patient status.

C. A service area does not include areas outside the primary response area to which the service may be made available for non-emergency medical calls.

5.6. Base Location.

A. Unless otherwise approved by Maine EMS, a service must be separately licensed for each base location from which it operates; or,

A service must be separately licensed for each base location from which it operates, except that a service may apply for a single license to operate from multiple locations provided it has a Service Medical Director and a single Quality Assurance / Quality Improvement program that is approved by the Board and the State Medical Director.

§3. Change in License Factors.
A service must apply for and/or receive a new license before changing in order to change one or more any licensing factors. However, a service may apply for a new permit level on a renewal application.

§4. Approval of License.

Once a service's application for a new or renewed license has been accepted as complete by Maine EMS, Maine EMS shall grant, refuse, or conditionally grant the license within seventy days.

§5. Licensing Standards

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure. To obtain a new license, a service applicant must:

   A. Apply on forms available from Maine EMS.

   B. Submit a fee of $100.00

   C. Demonstrate to Maine EMS that:

      1. The applicant has placed a notice, approved by Maine EMS, in the most widely circulated newspaper(s) serving the proposed primary service area(s). This requirement does not apply for a new license sought for an upgrade in level of care. The notice must state:

         (a) The name and legal status of the entity making application

         (b) The name of the proposed service;

         (c) The type of service proposed;

         (d) The proposed license level of care to be provided;

         (e) The names of the municipalities within the primary response area of the proposed service;

         (f) That the public is invited to make comment to Maine EMS regarding the proposed application, and that comments must be
received by Maine EMS within 30 calendar days after the date of the notice's publication; and,

(g) The current mailing address of the Maine EMS office.

2. The applicant can provide the equipment, vehicles, and trained personnel required by these Rules for the type of service and level of care proposed.

2.3. The applicant can provide personnel required by these Rules for the type of service and license level of care proposed.

4. The applicant, if applying for a license that includes a primary service area, has made adequate arrangements for has full time dispatch, dispatching necessary for the proposed type of service and level of care and can provide the

3.5. The applicant possesses two-way radio communications equipment and frequencies to accomplish this for the proposed type of service, including but not limited to the hospital-ambulance frequencies utilized in the service area(s) pursuant to these Rules. As of January 1, 2001, services licensed by Maine EMS shall have the capability of communicating via and the designated Maine EMS statewide frequency "155.385."

4.6. If the application is for a new service or a change of service ownership: the applicant, if an individual is of good character, and if a partnership or corporation, its partners or principal officers are of good character. Four character references, written within the past year, must be submitted as a condition of meeting this requirement; none may be from a relative or employee of the applicant.

5.7. If the application is for a non-transporting service, the non-transporting service has either (1) entered into written agreements with the ambulance services which will transport its patients, guaranteeing continuity of care for the patient and simultaneous dispatch of the non-transporting and ambulance services, or (2) otherwise addresses these concerns in a plan approved by Maine EMS which includes as a component a written agreement of this nature with at least one ambulance service.

(a) An ambulance service is not required to approve of or enter into a written agreement with a non-transporting EMS service.

3-4
8. The applicant has established a service level Quality Assurance/Quality Improvement Committee (for approval under M.R.S.A. § 92-A), or has identified a Board-approved Quality Assurance/Quality Improvement committee in which the service will participate, and has submitted a quality assurance plan that is subject to Maine EMS approval.

6.9. The applicant meets the quality assurance/quality improvement requirements of Chapter 18 of these Rules.

10. The applicant has designated a service director, who shall act as the point of contact for the service.

7.11. The applicant has designated a person whose serves as the training and education point of contact for the service.

12. The applicant has identified the designated infection control officer for the proposed service. Pursuant to 42 U.S.C. §300ff-136, each emergency medical services agency licensed under this chapter shall designate an infectious control officer (ICO) to perform the duties and responsibilities established in the Ryan White Comprehensive AIDS Resources Emergency Act, P.L. 111-381. Pursuant to 42 U.S.C. §300ff-136, each employer of emergency response employees in the State of Maine must have a designated infection control officer (ICO) for the purposes of receiving notifications and responses and making requests under 42 U.S.C. Chapter 6A, Subchapter XXIV, Part G. The licensee shall provide the ICO name and contact information to Maine Emergency Medical Services, and promptly notify Maine EMS of any changes in ICO during the term of its license. Maine EMS will provide this information to the Department of Health and Human Services, Maine Center for Disease Control, Division of Infectious Disease.

13. The applicant, if applying for a license or permit to the Advanced EMT (AEMT) or Paramedic levels, has a service-specific medical director.

8.14. If the applicant lists a service-specific medical director, the application must include a medical director agreement.

9.15. The applicant has entered into a written contract with a single hospital which has a pharmacy, several hospitals with either...
individual or central supply points, or some other source approved
by the Board which will provide a system of control and
accountability of drugs/medications pursuant to these Rules.

16. If the applicant intends to provide Paramedic Inter-facility
Transfers (PIFT), a separate application must be submitted to and
approved by Maine EMS before the service performs such
transfers. Personnel providing PIFT treatment on behalf of the
service must successfully complete a Maine EMS-approved PIFT
course prior to performing such treatment.

17. The applicant has submitted an agency safety plan that addresses
patient, provider, and public safety.

2. Except as provided in paragraph 3, below, a service license is issued for a period
of 12 months. Maine EMS may issue a license that expires prior to the twelfth
month, and prorate the licensing fee if it is determined that such a change is in the
best interest of the service and the system.

3. Effective January 1, 2020, initial and renewal service applications will be
issued/renewed with a November 30, 2020 expiration date in order to establish a
common month of expiration for all services. Maine EMS will prorate service and
vehicle fees during the transition period.

2-4. Notwithstanding the notice requirements of §5(C)-(1), Maine EMS may issue a
temporary service license for up to 60 days to an applicant if Maine EMS
determines that issuance of the temporary license will avert the disruption of
emergency medical services in the primary service area(s) listed in the applicant’s
application.

§6. Renewal of Service License

1. Renewal of a service license must be obtained each year, not later than the twelfth
month after the license is issued. If Maine EMS and the service agree, a license
may be renewed in less than a year, and the licensing fee prorated in order to shift
the service’s licensing anniversary.

2. A licensee shall submit an application for renewal prior to the expiration date of the
license. To ensure timely processing, the application should be submitted to Maine
EMS thirty (30) days prior to the expiration of a license.

3.5.
4.6. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.

5.7. A service may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license. A service with an expired license cannot act as an ambulance or non-transporting service until a renewed license has been issued. An application submitted more than 90 days after the license expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

6.8. In order to obtain a license renewal, a service must:

A. Apply on forms available from Maine EMS.

B. Submit a fee of $100.00.

C. Submit a fee of $100.00. If the applicant intends to provide Paramedic Inter-Facility Transfers (PIFT) a separate application must be submitted to and approved by Maine EMS before the service performs such transfers. Personnel providing PIFT treatment on behalf of the service must successfully complete a Maine EMS-approved PIFT course prior to performing such treatment.

D. The applicant has submitted an agency safety plan that addresses patient, provider, and public safety.

E. Demonstrate, as may be required by Maine EMS, that it meets the licensure requirements called for in these Rules.

§7. Personnel Requirements for Ground Ambulance Service or Non-Transporting Service Licensees

1. A ground ambulance service or non-transporting service will be licensed at the level at which it agrees to provide, on all emergency medical calls, at least one emergency medical services person who is licensed and able to provide care at or above the service license level. The phrase “able to provide care” means that the EMS person who is licensed at or above the service license level must be in the ambulance. If the higher-level EMS person is in the ambulance, he or she is able to render care. The higher-level EMS person must assess the patient prior to transport and determine
that the lower-level EMS person can appropriately provide care during transport. In addition, the higher-level EMS person who is driving the vehicle needs to have the ability to communicate constantly with the lower-level EMS person who is caring for the patient. If the patient’s needs change, the higher-level EMS person must switch roles with the lower-level EMS person. 

In the following situations, a service or non-transporting service does not need to be licensed at the level at which it agrees to provide, on all emergency medical calls, at least one emergency medical services person who is licensed and able to provide care at or above the service license level:

A. When utilizing personnel not required to be licensed by Maine EMS as provided for in 32 M.R.S.A. § 86 (2). This person will limit care to the level of the service license pursuant to these Rules. This person will be responsible for patient care; or,

B. When the service’s response is in accordance with a Maine EMS-approved Response Assignment Plan.

2. A ground ambulance service or non-transporting service must notify Maine EMS of the addition of any licensed EMS person to its roster of responding personnel prior to that person responding on behalf of the service and must report the termination or resignation of any EMS provider from its service within 5 days of the termination or resignation of the provider. Notification to Maine EMS may be made electronically or by mail.

3. A ground ambulance service or non-transporting service may obtain Maine EMS permission to provide on some calls, based on personnel availability, a higher level of care than that for which it is licensed. In order to obtain this permission, a service must:

A. Apply on forms available from Maine EMS.

B. Submit a fee of $100. This fee is waived if the service is simultaneously applying for this permission and for a service license and is submitting the fee required for licensure.

C. Show that it can satisfy the requirements of these Rules (except that for numbers of personnel, the applicant must demonstrate that at least one Maine EMS licensed provider, licensed at the permit application level being sought, is affiliated with the applicant service).

D. Renew its permission request when it applies for license renewal, demonstrating to Maine EMS that it continues to satisfy the requirements set forth in these Rules.
E. Apply for new permission to provide a higher level of care by notifying Maine EMS.

Maine EMS may temporarily suspend a permit in accordance with 5 M.R.S.A § 10004 (3).

4. A ground ambulance service or non-transporting service may apply for approval from Maine EMS to allow the use of Epinephrine auto injectors by the service’s personnel who are licensed at the EMT level. Standards for initial and continued approval shall be in accordance with criteria approved and published by Maine EMS.

5. A ground ambulance service or non-transporting service shall not advertise (in newspapers, telephone directories, on television or commercial radio, on billboards or vehicles, or by other means of public promotion) themselves as providing a level of care other than that at which they are licensed under this section. Board permission to provide a higher level of care is not a license for advertising purposes. The Board may prohibit advertising language from any medium listed above if it deems such language to be potentially deceptive or confusing to the public with regard to the services offered.

6. A ground ambulance service or non-transporting service shall not allow persons less than 18 years of age to participate in medical response operations or medical response observation, except when Maine EMS has approved the service’s supervision plan for such persons and in accordance with Maine Department of Labor rules governing employment for minors.

A. The person whose job description includes operating an ambulance in an emergency mode or transporting a patient must possess within 6 months of being employed, certification of successful completion of a basic ambulance vehicle operator course, or a course that has been approved by the Board as an equivalent (32 M.R.S. §85(6)). Services will maintain a record of such training and make it available to Maine EMS upon request.

§8. Availability for Emergency Response
1. Any ground ambulance service offering response to emergency medical calls in the service’s primary response area must be available twenty-four hours a day, every day, with full-time dispatch capability, and written mutual aid arrangements as necessary, to ensure and must also provide a detailed plan to their primary dispatch agency indicating their mutual aid agencies and the order of contact of those mutual aid agencies.

- An annual average time of twenty minutes or less from the “call for emergency medical assistance” to “arrival at scene”, and shall not deny treatment or transport resulting from an emergency call if treatment or transport is indicated; and,

A. Failure of a ground ambulance service to comply with these emergency response requirements will be reviewed by Maine EMS to determine if corrective action is required. Maine EMS shall notify the service of any required corrective action and shall set a reasonable amount of time for the service to carry out this action.

7-2. A non-transferring service providing response to emergency medical calls must submit with its initial license application a letter of understanding if the service’s hours of availability will be other than twenty-four hours a day, every day. This letter of understanding must be approved by Maine EMS and signed by an authorized representative of the non-transferring service, and an authorized representative of the transporting service. Changes to the letter of understanding may be accomplished by written agreement of the aforementioned parties.

8-3. Non-transferring services must have a full-time dispatch capability, written mutual aid arrangements as necessary and assure an annual average response time during their hours of availability of twenty minutes or less from the "call for emergency medical assistance" to "arrival at scene" and shall not deny treatment resulting from an emergency medical call if treatment is indicated.

§9. Patient Care Report

For each request for service, or for each patient when more than one patient is involved in a call, a service must complete and submit an electronic Maine EMS patient care report, as specified by Maine EMS, within one business day.

§10. Pilot Projects
For the purpose of evaluating the workability and appropriateness of incorporating a particular emergency medical treatment technique or a type of equipment into any licensure level, the Board may elect to exempt a service from the requirements of the relevant licensure level so as to permit the service to utilize the designated techniques or equipment on an experimental basis. Such authorizations may be continued at the discretion of the Board but will be limited to a maximum of three years. Such authorizations should not be construed as levels of licensure.

§11. **Ground-Ambulance Vehicles - General**

1. Except as otherwise exempted by 32 M.R.S.A. § 82, no vehicle shall be operated as a ground ambulance (from within Maine) or emergency medical services vehicle unless it is licensed or authorized as an ambulance under in accordance with these Rules.

2. A ground-ambulance vehicle license or authorization is valid for a period of one year, starting from the month the service license is issued.

3. Maine EMS will prorate the vehicle licensing fee for a service licensing a new vehicle within its one year service license period to ensure concurrent expiration dates for service and vehicle licenses.

4. Any ground ambulance vehicle licensed in the state of Maine as of September 1, 1986 may continue to be licensed by the service owning it on that date as long as it is maintained in a condition which will meet all Department of Public Safety standards for vehicle safety and is in a clean and sanitary condition, free from interior rust, dirt, or contaminating foreign matter.

5. Any ground ambulance vehicle acquired by a Maine-licensed service as of September 1, 1986, must meet the standards set forth in these Rules.

6. A ground-ambulance vehicle license or authorization is issued to a particular service and for a particular vehicle, except as permitted in Chapter 3 §12 of these Rules. If a service is required to relicense under Chapter 3 §2 because of a change of ownership, then all of the service's ground-ambulance vehicle licenses and authorizations end, and the service must apply for new ground-ambulance vehicle licenses and/or authorizations. The fee for licensing a vehicle is $60.00.

7. When a service acquires a new or used vehicle under Chapter 3 §12 of these Rules, it shall apply to Maine EMS on forms available from Maine EMS and shall pay the prorated portion of the annual any the applicable vehicle licensing fee necessary to license the vehicle until the service's next licensing anniversary. Within 45 days, Maine EMS shall issue, or decline to issue, a license for the vehicle.
5. Vehicles licensed under this chapter must:

   A. Display the name of the service operating the vehicle on the left (driver) and right (passenger) side of the vehicle in letters no less than 6 inches high or display a logo that adequately identifies the service. Vehicles temporarily transferred to a service under the provision of Chapter 3 §12(1)(C) are exempt from this requirement;

   B. Be exclusively leased or owned, and operated by a service licensed by Maine EMS or by an agency designated by Maine EMS.

6. Upon request by Maine EMS, a licensed ambulance service shall make its ground ambulance licensed and/or authorized vehicle(s) available for inspection to ensure that each vehicle is safe, clean, and otherwise in conformity with these Rules. If a ground ambulance licensed or authorized vehicle does not pass inspection and its continued operation presents a hazard to health or safety, Maine EMS or the Board may order it removed from service suspend its license to provide emergency medical services at once consistent with Maine Law (See 5 M.R.S.A. §10004 and 4 M.S.R.A.R.S. §184). Alternatively, if the continued operation of the licensed and/or authorized vehicle at the level of care for which it is permitted pursuant to Chapter 3 §7(3) of these rules presents a hazard to health or safety, the Board may immediately suspend the licensed and/or authorized vehicle’s level of care permit consistent with Maine Law (see 5 M.R.S. §10004 and 4 M.R.S §184) and allow the licensed and/or authorized vehicle service to operate at the next lowest level of care for which it is properly equipped. If the deficiencies are not such as to require the vehicle’s immediate removal from service or the immediate suspension of its service, Maine EMS shall notify the operator of the deficiencies and set a reasonable amount of time in which the operator may continue to operate the vehicle provide emergency medical services while bringing it into conformity with the law and Rules. If the vehicle licensed and/or authorized vehicle is not brought into conformity within the time set, Maine EMS may refuse to renew, or seek revocation of, the ground ambulance vehicle licensed and/or authorized vehicle’s license to provide emergency medical services.

1. Ground Ambulance Vehicles

   In general, if control of a ground ambulance vehicle passes from one ambulance service to another, or from an ambulance manufacturer or its representative to an ambulance service, the control of the vehicle must be transferred in writing to the new service or representative. The new service or representative must provide evidence of their authority to control the vehicle to the Board of EMS. The Board of EMS must review the evidence and, if satisfied, order the transfer of control of the vehicle to the new service or representative. The Board of EMS must issue a certificate of control to the new service or representative, which must be displayed in the vehicle at all times. The certificate of control must include the name, address, and contact information of the new service or representative, as well as the date of issuance and expiration. If the vehicle is subsequently transferred to another service or representative, the new service or representative must provide evidence of their authority to control the vehicle to the Board of EMS and, if satisfied, order the transfer of control of the vehicle to the new service or representative. The Board of EMS must issue a new certificate of control to the new service or representative, which must be displayed in the vehicle at all times.
service, through any means, the ground ambulance vehicle must be licensed to the recipient
service prior to the recipient service’s operation of that vehicle as an ambulance.

A. Temporary Transfer of Ground Ambulance Vehicles.

B. If temporary control of a licensed ground ambulance vehicle, which is
owned by a licensed service, is passed to another ambulance service, the
ground ambulance vehicle transferred under this subsection will be
considered licensed pursuant to these Rules.

C. If control of a licensed ground ambulance vehicle, which is owned by a
manufacturer or manufacturer’s representative, is passed to a service, the
ground ambulance vehicle must be licensed to that service. A ground
ambulance vehicle owned by a manufacturer or manufacturer’s
representative may be simultaneously licensed to more than one service,
with each service independently responsible for its own licensure and use of
the vehicle.

D. The service temporarily assuming control of the ground ambulance vehicle
shall maintain, at its base of operations, written record as to when control is
assumed and when it is returned. These records are to be available for
inspection by Maine EMS.

2. Emergency Medical Services Vehicles

E. A. Any vehicle operated by a licensed service or any agency designated by
Maine EMS which that is not already licensed as a fire department vehicle or
ambulance, may be approved authorized by Maine EMS as an emergency
medical services vehicle, consistent with 29-A M.R.S.A. §2054 so
long as provided that vehicle:

a. Is operated in emergency response mode on public ways solely for
the purpose of carrying personnel and equipment to the scene of
an emergency medical call.

b. Meets applicable federal and Maine's safety requirements
including the state's periodic motor vehicle inspection
requirements.

c. When in emergency response mode, is operated by a driver with a
valid license who has successfully completed a Maine EMS
approved Basic Ambulance Vehicle Operator Course (AVOC), or
a similar course that has been approved by Maine EMS as
equivalent to AVOC.

d. —
3.14 Is operated in accordance with all applicable Maine Laws, including, but not limited to Title 29-A.

d. Is made available for inspection when requested by Maine EMS in order to ensure conformity with the Rules.

e. Displays the name of the service operating the vehicle on the left (driver) and right (passenger) side of the vehicle in letters no less than 6 inches high or displays a logo that adequately identifies the service. Vehicles temporarily transferred to a service under the provision of Chapter 3 §12.2(1)(F) are exempt from this requirement.

f. Is exclusively leased or owned, and operated by a service licensed by Maine EMS or by an agency designated by Maine EMS.

§13. Ground Ambulance Design Requirements

1. A ground ambulance vehicle, unless it falls within Chapter 3 §11.3 of these Rules, must meet the following standards to be licensed:

   A. Federal/state safety requirements. It must meet the applicable federal and Maine safety requirements including the State's periodic motor vehicle inspection requirements listed in the current edition of the Maine State Police Motor Vehicle Inspections Manual.

   B. Interior size. It must meet the chassis manufacturer's specifications, and must have a minimum inside height of 60 inches at the center of the patient compartment, a minimum width of 48 inches at the center of the patient compartment, a walkway parallel to the length of the primary cot adequate to allow an attendant to walk from head to foot of the cot; and a minimum inside patient compartment length of 122 inches at the cot level.

   C. Interior storage accommodations. The interior of the patient compartment must provide adequate stowage space for medical supplies, devices and installed systems. For purposes of this paragraph, "stowage" is defined as the storing, packing, or arranging of ambulance contents in a secure manner
so as to protect the contents from damage and the personnel from injury.

Interior compartment doors, latches and operating mechanisms must operate in accordance with the manufacturer's design.

D. Seat belts. Seat belts shall be provided in all permanent seat positions in the vehicle, including the squad bench. For purposes of this paragraph, "squad bench" is defined as a permanent, non-removable seat that is located in the patient compartment and which can serve as a seat for crew members or as a surface on which a patient may lie down.

E. Patient restraint. The ambulance must be equipped with a multilevel patient stretcher designed for ambulances, mounted in, and detachable from the vehicle. The head of the stretcher must elevate. At least three strap-type restraining devices (chest, hip, lower extremity), not less than 2 inches wide, shall be provided for each stretcher, cot or litter. Additionally, the head of the cot shall be furnished with upper torso (over the shoulder) restraints designed to prevent motion of the patient during severe braking or in an accident. Restraining straps shall incorporate metal-to-metal quick release buckles. The use of all lateral and shoulder straps is required while transporting a patient.

F. Stretcher fasteners. The installed stretcher fastener device(s) for wheeled stretchers shall meet the performance requirements of the following two standards, which this rule incorporates by reference:

a. Ambulance Litter Integrity, Retention, and Patient Restraint Fasteners, (J3027), July 14, 2014 edition, which is available from SAE International, 400 Commonwealth Drive, Warrendale, PA 15096; and

Copies of these standards are available through Maine EMS 152 State House Station, Augusta, ME 04333-0152. Provision shall be made for the required portable stretchers to be secured in safe positions for transport. Stretcher fasteners must be installed according to the stretcher fastener manufacturer’s directions.

Litter-Stretcher fasteners. The installed stretcher fastener device(s) for wheeled stretchers shall meet the performance requirements of SAE J3027, Ambulance Litter Integrity, Retention, and Patient Restraint Crash-stable
fasteners of the quick-release type shall secure the cot to the floor or side walls. Provision shall be made for the required portable stretchers to be secured in safe positions for transport. Stretcher mounts must be capable of fastening the stretcher to the vehicle to prevent any movement of the stretcher when in its fastened position. Fasteners must be installed according to the stretcher fastener manufacturer’s directions.

a.—This rule incorporates by reference the following National Fire Protection Association standard, available from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269: 2019 Edition of NFPA 1917

—The following Chapters and sections of the 2019 edition of NFPA 1917 shall be incorporated

—Chapter 6 (6.22) Patient Cot Retention pages 24 & 25

E-G. Patient compartment environmental equipment. The patient compartment shall be adequately heated, air-conditioned, and ventilated to provide for patient comfort.

F-H. Communications equipment shall be adequate to allow the vehicle to contact on the regional radio frequency the hospitals to which it regularly takes patients. The ambulance shall also be able to maintain two-way communications contact with a full-time dispatching facility. As of January 1, 2001, all vehicles licensed or authorized by Maine EMS shall be capable of communications utilizing the designated Maine EMS statewide frequency, 155.385

G-I. Attendants/driver communication. It shall be possible for the driver and the attendants, in their working positions, must be able to speak to one another.

H-J. Warning devices. All ambulances shall be equipped with a functional siren and with functional emergency warning lights, rotating or flashing, visible from 360 degrees at all times. Colors of ambulance lights are fixed by 29-A M.R.S.A. M.R.S. § 2054.

I-K. Patient compartment illumination. Normal white illumination shall be provided in the patient area so as to provide a minimum of 35-foot candles of illumination measured on at least 90 percent of the cot's surface area.

J-L. Name of service. Ground vehicles placed in service after March 1, 1992, must display the name of the service licensing the vehicle on the left (driver) and right (passenger) side of the vehicle in letters no less than 6 inches high
CHAPTER 3: GROUND AMBULANCE SERVICE AND NON-TRANSPORTING SERVICE LICENSES

or display a logo that adequately identifies the service. Vehicles temporarily transferred to a service under the provision of Chapter 3 §12 (1)(F)-2 are exempt from this requirement.

K. M. Main oxygen supply. The ambulance shall have a hospital type piped medical oxygen system capable of storing and supplying a minimum of 3,000 liters ("M" size tank). The oxygen pressure regulator must be a medical oxygen pressure reducing and regulator valve with an inlet filter at the cylinder and shall have a line relief valve set at 1378 kPa (200 psi) maximum, and a gauge range of 0 to 17225 kPa (0 to 2500 psi). The flow meter must be a pressure compensated type.

L. N. Suction aspirator, permanently mounted. The ambulance vehicle shall have an electrically or (engine) vacuum-powered suction unit capable of providing a free air flow of at least 20 lpm and achieving a minimum of 300 mm Hg within 4 seconds after the suction tube is closed.

O. Exterior compartments and doors. Exterior compartments, exterior compartment doors and exterior patient/passenger doors must be equipped with latches, gaskets and operating mechanisms which operate in accordance with the manufacturer's design.

§14. Ground Ambulance Vehicle Equipment Requirements

1. As of August 1, 2004, all medical equipment and medical supplies carried on a ground ambulance vehicle must be natural-rubber latex free.

   A. Each ground ambulance vehicle must carry the equipment and medical supplies listed in the equipment guideline pursuant to Chapter 17 of these Rules.

   B. If a ground ambulance service is licensed at the advanced-Advanced EMT or Paramedic level, any ground ambulance vehicle of that service responding on an emergency medical call will be equipped on those calls with the equipment and supplies pursuant to these Rules.

   C. If a ground ambulance service is permitted to a given level, it must provide at least one set of equipment and supplies required for that level pursuant to these Rules.

§15. Ground Ambulance Vehicle or Emergency Medical Services Vehicle Operation

3-17
1. A licensed ground ambulance vehicle or authorized emergency medical services vehicle shall operate in a non-emergency response mode to a location to which the ambulance or emergency medical services vehicle has been dispatched except when:

   A. Dispatch or responding personnel do not have adequate information to determine the existence or condition of persons at a scene who may require emergency medical treatment, or;

   B. The ambulance or emergency medical services vehicle is responding in accordance with a Maine-EMS-approved Response Assignment Plan.

2. A licensed ambulance shall operate in a non-emergency response mode from the scene of a call to a hospital or during the transfer of a patient from a hospital or healthcare facility to another place unless the EMS provider responsible for the care of the patient determines that a threat to the patient’s life or limb exists and necessitates emergency response mode.

3. An emergency medical services vehicle must be exclusively leased or owned, and operated by a service licensed by Maine EMS or by an agency designated by Maine EMS.

§16. Non-Transporting Service Requirements

1. As of August 1, 2004, all medical equipment and medical supplies carried by a non-transporting service must be natural-rubber latex free.

   A. A non-transporting service must haveposess the equipment and medical supplies listed in the equipment guideline of these Rules level they are licensed or permitted to for the level at which it is licensed or permitted.

   B. If a non-transporting service is permitted to a given level, it must provide at least one set of equipment and supplies required for that level as listed in the equipment guideline of these Rules.

2. Upon request of Maine EMS, a non-transporting service shall make its equipment available for inspection in order to ensure conformity with the Rules.

§17. Termination of Service

1. Any ground ambulance service or non-transporting service intending to terminate its operations must make written notification to Maine EMS at least 30 days prior to
the service termination date. The service shall notify the public at least 30 days
prior to the service termination date by placing an advertisement in the most widely
circulated newspaper(s) serving the primary service area(s). The notice must state:

A. The name of the service;
B. The date of service termination; and
C. The names of the municipalities affected by the service’s termination.

§18. Duty to Report

2. A licensee or an applicant for licensure under this chapter shall notify the Board in
writing within 10 days of a:

A. Change of name or address;
B. Criminal conviction;
C. Revocation, suspension or other disciplinary action taken in this or any other
   jurisdiction against any occupational or professional license held by the
   applicant or licensee; or,
D. Material change in the conditions or qualifications set forth in the original
   application for licensure submitted to the Board.

§1. A provider of emergency medical dispatch services must be licensed by the Board in accordance with 32 M.R.S.A. §85-A and these Rules.

§2. Licensing Factors – The license issued under this chapter is for an Emergency Medical Dispatch Center.

1. Ownership

Upon request of the Board, an applicant or licensed Emergency Medical Dispatch Center must provide the Board with the identity and legal status (e.g. municipality, corporation, limited liability company, sole proprietorship) of the person or entity that holds, or is making application for the license. Failure to provide this information will result in an application being treated as incomplete.

2. Physical address or location

A license is issued for a specific physical address or location.

§3. Change in Licensing Factors.

An Emergency Medical Dispatch Center must receive Board approval to change any of the licensing factors.

§4. Standards

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure. To obtain a new license, an EMD Center applicant must:

   A. Apply on forms available from Maine EMS; and

   B. Demonstrate to Maine EMS that:

      1. The applicant complies with the requirements of 32 M.R.S.A. §85-A, the Rules, and the Maine EMS-approved Emergency Medical Dispatch Priority Reference System;

      2. The applicant can provide the facilities, equipment, and personnel required by these Rules;
3. The applicant has an electronic version of the Maine EMS-approved emergency medical dispatch protocol on each computer used by an emergency medical dispatcher while engaged in emergency medical dispatch, or has a Maine EMS-approved printed protocol card set for each on-duty emergency medical dispatcher. The card set must be within five feet of the emergency medical dispatcher’s telecommunications console; Card sets may be used in the event of electronic software failure or as part of continuing dispatcher education; In the event of power loss, software failure or as part of continuing education, card sets or other back-up tools, approved by Maine EMS, may be used.

4. The applicant complies with the Quality Assurance/Quality Improvement requirements as set forth in the Maine EMS approved Emergency Medical Dispatch Priority Reference System; and

5. The applicant has designated a director of Emergency Medical Dispatch, who shall act as the point of contact for the Emergency Medical Dispatch Center.

5-6. The applicant must provide a policy to address when an EMS service does not respond to the center Emergency Medical Dispatch Center’s notification to the EMS service to respond to an Emergency Medical Call.

2. An Emergency Medical Dispatch Center license is issued for a period of 24 months unless earlier suspended or revoked. A license may be issued for a shorter period of time if approved by the Board.

3. An Emergency Medical Dispatch Center must demonstrate ongoing compliance with these Rules in order to maintain its license.

§5. Renewal

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.

2. An Emergency Medical Dispatch Center may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date. An Emergency Medical Dispatch Center with an expired license cannot provide emergency medical dispatch services. An application submitted more than 90 days after expiration shall be considered a new application and subject to all requirements governing new applications.

3. In order to obtain a license renewal, an Emergency Medical Dispatch Center must:
A. Apply on forms available from Maine EMS; and

B. Demonstrate, as may be required by Maine EMS, that it meets the licensing requirements of 32 M.R.S.A-M.R.S. §85-A and these Rules.

§6. Personnel Requirements for Emergency Medical Dispatch Centers

1. An Emergency Medical Dispatch Center must use Maine EMS licensed Emergency Medical Dispatchers to receive, evaluate and process all calls for medical assistance, except that a dispatcher-in-training, under direct supervision of a Maine EMS licensed emergency medical dispatcher designated by the EMD Center director, may process calls using the emergency medical dispatch protocol after the dispatcher-in-training has attended the Maine EMS approved certification course for emergency medical dispatch. For purposes of this paragraph, direct supervision means that the designated licensed emergency medical dispatcher is contemporaneously listening to the call for medical assistance being processed by the dispatcher-in-training and is able to assume control of the call and provide emergency medical dispatch, if the dispatcher-in-training is unable to process the call in accordance with protocol.

2. An Emergency Medical Dispatch Center director must notify Maine EMS when Emergency Medical Dispatchers are employed or terminated from employment by the Center. Notification must be made electronically or by mail within five days of the employment or termination of employment of an Emergency Medical Dispatcher.

₹7. Response Standards for Emergency Medical Dispatch Centers

1. Emergency Medical Dispatch Centers must provide Emergency Medical Dispatch Services twenty-four hours a day, every day, with full-time dispatch capability to ensure that all calls for medical assistance received are processed in accordance with 32 M.R.S.A-M.R.S. §85-A, the Maine EMS-approved Emergency Medical Dispatch Priority Reference System and these Rules.

2. Emergency Medical Dispatch services must be implemented within the first 10 seconds of when a 9-1-1 call is received in at least ninety percent of the calls received.

2.3. Effective June 1, 2020, licensed EMD Centers must provide the Emergency Medical Dispatch Determinant code to responders as part of the Emergency Medical Services dispatch to a call for medical treatment or transport on all calls received through the E-911 system.

§8. Termination of Center License

1. Any Emergency Medical Dispatch Center intending to terminate its operations must make written notification to Maine EMS and the Emergency Services
Communications Bureau at least 30 days prior to the termination date. The Emergency Medical Dispatch Center shall notify the public at least 30 days prior to the service termination date by placing an advertisement in the most widely circulated newspaper(s) serving the dispatch area(s). The notice must state:

A. The name of the Emergency Medical Dispatch Center;
B. The date of termination;
C. The names of the municipalities affected by the termination; and
D. The plan in place for 9-1-1 service and Emergency Medical Dispatch coverage for municipalities affected by the termination.

§9. Transition To Statewide Emergency Dispatch Protocol

1. As of July 1, 2010 all licensed Emergency Medical Dispatch Centers in Maine must exclusively use Board approved statewide Emergency Medical Dispatch protocols.

AUTHORITY: 32 M.R.S.A. §84, 85-A, 88
EFFECTIVE DATE: September 1, 2006 (NEW)
REPEALED AND REPLACED: October 1, 2009
       May 1, 2013
CHAPTER 4: AIR AMBULANCE SERVICE LICENSES

§1. No air ambulance service shall operate administer emergency medical services unless it is duly licensed by the Board under these Rules. Licensure under this Chapter authorizes the licensee only to provide emergency medical care using an air ambulance, and does not constitute authority to provide air transportation. Such authority must be obtained from the Federal Aviation Administration and the United States Department of Transportation.

§2. License Factors – an air ambulance service license is issued for a specific:

1. Type of service - which may be:

   A. Scene Response Air Ambulance Service;
   B. Transfer Air Ambulance Service

   1. Restricted Response Air Ambulance Service (RRAAS). In order to be licensed as a Restricted Response Air Ambulance Service, an applicant must demonstrate to the Board that the limited scope of the proposed service will fulfill a unique and/or unmet need regarding the air transport of patients in the state.
   2. Only Ground Ambulance Services may apply for this type of license.

   1. Notwithstanding the requirements of this Chapter, in order to receive a license as a RRAAS, an applicant must comply with any and all restrictions or modifications placed upon the licensee by the Board, including, but not limited to:

      (a) The geographical locations primary service area to which the service may respond to emergency medical calls or non-emergency medical calls and the geographical locations to which the service may transport a patient. The Board may limit the aforementioned geographical locations to specific airports, airstrips and/or landing zones provide emergency medical services; and

      (b) The type and medical condition of patients that may be transported by the licensee. RRAAS is limited to response to non-emergency medical calls unless a Scene Response Air Ambulance Service or Transfer Air Service is unavailable to respond to emergency medical calls in the RRAAS response
areas or unless the applicant has a plan, approved by the Medical Direction and Practices Board that establishes specific patient medical condition standards for the service.

2. Level of care - which may be:

   A. EMT (Restricted Response Air Ambulance Services only).

   B. Advanced Emergency Medical Technician (AEMT) (Restricted Response Air Ambulance Services only).

   C. Paramedic (Scene Response Air Ambulance Services and Transfer Air Ambulance Services must be licensed at the-Paramedic level).

3. Ownership

   A. Upon request of the Board, an applicant for or licensee of an air ambulance service license must provide the Board with the identity and legal status (e.g., municipality, corporation, Limited Liability Company, sole proprietorship) of the person or entity that holds or is making application for the license. Failure to provide this information may result in the application being treated as incomplete.

   B. The air ambulance service license will be issued in the name of the operator, individual or organization directly responsible for the medical care aspects of the service.

4. Service Area — which includes:

   A. Primary Air Ambulance Response Area: Any area to which the service is routinely made available when called to respond to pre-hospital emergency medical calls.

      In defining a primary response area, a service will be expected to meet reasonable standards in regards to distance and response times from its base of operation to emergency scenes. Maine EMS will determine if such standards are met using the following criteria:

      1. Dispatch time/availability of ambulance and crew;

      2. Response times;

      3. Organized/coordinated dispatch;

      4. Public perception;
5.—Emergency responses across jurisdictions/public safety implications;

6.—Impact on patient care;

But does not include any other area to which the service may be made available for non-emergency medical calls.

5.4. Base Location

A. Unless otherwise approved by Maine EMS, a service must be separately licensed for each base location from which it operates; or

B. A service may apply for a single license to operate from multiple base locations provided it has a Service Medical Director and a single Quality Assurance / Quality Improvement program that is approved by the Board and the State Medical Director.

§3. Change in License Factors

A service must receive a new license before changing any licensing factors.

§4. Approval of License

Once a service’s application for a new or renewed license has been accepted as complete by Maine EMS, Maine EMS shall grant, refuse, or conditionally grant the license within seventy days.

§5. Licensing Standards

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure. To obtain a new license, an applicant must:

   A. Apply on forms available from Maine EMS.

   B. Submit a fee of $100.00.

   C. Demonstrate to Maine EMS that:

      1. The applicant has placed a notice, approved by Maine EMS, in the most widely circulated newspaper(s) serving the proposed service area(s). The notice must state:

         (a) The name and legal status of the entity making application.

         (b) The name of the proposed service;
(c) The type of service proposed;

(d) The level of care to be provided;

(e) The names of the municipalities within the primary response area of the proposed service;

(f) That the public is invited to make comment to Maine EMS regarding the proposed application, and that comments must be received by Maine EMS within 30 calendar days after the date of the notice’s publication; and,

(g) The current mailing address of the Maine EMS office.

2. The applicant has established a Maine EMS approved plan to integrate and coordinate the air ambulance service within the existing EMS system in the areas of proposed operation and a professional and community education program for those ambulance services, non-transporting services, public safety agencies and hospital personnel with whom the air ambulance service interacts. This plan must include, but not be limited to:

(a) A written policy and procedure specifying the:

   (i) Service’s mission statement;

   (ii) Scope of care to be provided by the service in accordance with Medical Direction and Practices Board-approved protocols; and

   (iii) Education, clinical experience and competency requirements of the medical crew commensurate with the scope of care to be provided.

(b) Notification phone numbers and access dispatch procedure, including identification of those who may request a mission and those who will approve missions;

(c) Capabilities of medical transport personnel;
(d) Type of aircraft vehicle(s) used and operational protocols specific to type;

(e) Coordination of medical protocols and operating practices with hospital and pre-hospital providers and other public safety agencies;

(f) Response and coverage area for the service;

(g) Preparation and stabilization of the patient;

A safety program of policies and procedures specific to patient care. A safety program of policies and procedures specific to the operational environment (i.e., weather, terrain, aircraft performance, and patient care issues) in selection of transport mode.

(h) An ongoing safety education program consisting of patient preparation and personal safety around the aircraft, including landing zone (LZ) designation and communications for rotor wing services.

(i) Coordination of medical protocols and operating practices with those of the hospital and pre-hospital providers and public safety agencies with whom the service will interact;

(j) Ongoing familiarization for those ambulance and non-transporting services, public safety agencies, and hospital personnel with whom the air ambulance service may interact routinely.

(k) Scene Response Services must have ongoing safety communications program consisting of integration with Public Safety Answering Points and other emergency dispatch facilities in the state.

(k) Scene Response Services must be able to demonstrate environmental integration with local community noise abatement utilizing procedures consistent with the “Fly Friendly Guidelines” published by Helicopter Association International.

(l) Procedures for acceptance of requests, referrals, and/or denial of service for medically related reasons.
(m) Geographical boundaries and features for the service area.

(n) Service area maps shall be readily available.

(o) Scheduled hours of operation

(p) Criteria for the medical conditions and indications or medical contraindications for flight.

(q) Field triage criteria for all trauma patients that include anatomic, physiologic, and situational components identified in order to risk-stratify injury severity and guide decisions as to activation, destination, and transport modality.

(r) Procedures for call verification and advisories to the requesting party.

(s) Acceptable destinations and landing areas.

(t) Procedures for medical crew assignments and notification including rosters of medical personnel.

(u) Written policy that ensures that air medical personnel shall not be assigned or assume cockpit duties concurrent with patient care duties and responsibilities.

(v) Written policy that directs air ambulance personnel to honor a patient request for a specific service or destination when the circumstances will not jeopardize patient safety or delay care.

(w) Communications procedures.

(x) On-ground communications

(y) Flight cancellation procedures

(z) Mutual aid procedures

(aa) The licensee shall have a written plan that addresses the actions to be taken in the event of an emergency or patient crisis during transport operations.
(bb) Procedures for informing requesting party of flight procedures, anticipated time of helicopter arrival, and termination of flight.

(cc) Patient tracking procedures that shall assure air/ground position reports at intervals not to exceed fifteen minutes (inflight) and 45 minutes for ground.

(dd) Scene Response Services must have provisions for contemporaneous flight following and during all operations and a readily accessible post-accident incident plan as they apply to patient care.

(ee) Services that respond to incident scenes and/or support disaster response shall provide Helicopter Safety and Landing Zone Procedures in a written format to all public safety/law enforcement agencies and hospital personnel who interface with the medical service that includes but is not limited to the following:

1. The identification, designation and preparation of appropriate landing zones.
2. Ground personnel safety in and around the aircraft.
3. Ground to air communications.
4. Victim recovery procedures in the post-crash or unanticipated incident.

(l) Scene Response Services must be able to demonstrate environmental integration with local community noise abatement utilizing procedures consistent with the “Fly Friendly Guidelines” published by the Helicopter Association International.

(m) Scene Response Services must have provisions for contemporaneous flight following and during all operations and a readily accessible post-accident incident plan.

The applicant is an aircraft operator, or will utilize an aircraft operator, who complies with that holds:

— A current applicable Part 135 Federal Aviation Regulations (FAR) Part 135 certificate; and.
The Federal Aviation Administration (FAA) Operations Specifications A021 (rotor wing) and/or A024 (fixed wing); is authorized by the FAA to provide air ambulance operations.

3. The applicant can readily provide the equipment, vehicles, and trained personnel required by these Rules for the type of service and level of care proposed.

4. The applicant can provide personnel required by these Rules for the type of service and level of care proposed.

5. An applicant for a Scene Response Air Ambulance Service or Restricted Response Air Ambulance Service must demonstrate full time dispatch capabilities.

6. The applicant possesses two-way radio communications equipment and frequencies for the proposed type of service, including, but not limited to the hospital-ambulance frequencies utilized in the service area(s) pursuant to these Rules, and the designated Maine EMS statewide frequency "155.385."

7. The applicant has in effect a plan to ensure that the service’s equipment is compatible with the service’s licensed aircraft and with the flight environment to which the equipment will be exposed. Applicants for licensure must demonstrate liability coverage for injuries to persons and for loss or property damages resulting from negligence by the service or medical crew. A license holder should immediately notify the Department/Agency Maine EMS and cease operations if the coverage required by this section is cancelled or suspended. The State Maine EMS will not issue an air ambulance service license to an air ambulance service unless the applicant for a license or the licensee has:

a. Evidence of medical professional liability insurance that requires the insurer to compensate for injuries to persons or unintentional damage to property.

i. Applicants should provide a copy of the current certificates of insurance demonstrating coverage for each air ambulance medical crew member that demonstrates, at a minimum, aggregate limits of $1,000,000 per claim made and a total of $1,000,000 per claim made.
4. $3,000,000 for all claims made against the provider during the policy year.

a-b. Worker’s compensation coverage is required as defined by individual state regulating bodies.

The applicant has in effect public liability insurance.

8. The applicant meets the quality assurance/quality improvement requirements of Chapter 18 of these Rules.

5. The applicant has a physician medical director who is:

(a) Licensed and authorized to practice as a physician in Maine and is board certified in a specialty consistent to the mission of the service and actively practices in the care and management of critically ill or injured adult and pediatric patients;

(b) Experienced in both air and ground emergency medical services and is familiar with the national consensus criteria of appropriate utilization of air medical and ground inter-facility critical care services;

(c) Responsible for supervising and evaluating the quality of medical care provided by the medical personnel and the program;

(d) Actively involved in the selection, training and recurrent education and practice of the flight medical crew and has expertise with the flight environment, including flight physiology and the management of diseases affected by altitude;

(e) Actively involved in the Quality Assurance / Quality Improvement (QA/QI) program for the service, including the review of all missions by a qualified physician and in administrative decisions affecting medical care provided by the service;

(f) Familiar with Maine EMS Protocols, the Maine Trauma System and the capabilities of referring and receiving hospitals;

(g) Knowledgeable of the capabilities and limitations of the aircraft used in the service; and,
(h) Responsible to ensure that appropriate aircraft, medical crew
and equipment are provided for each mission based on a
system of preflight patient evaluation for inter-hospital
transports and an established protocol consistent with types of
scene responses anticipated if so licensed.

(i) Has established a plan for on-line medical direction if needed
during transport.

6. The applicant will use and monitor compliance with dispatch
response criteria as approved and published by the Board.

7. The applicant has made adequate arrangements for dispatching
necessary for the proposed type of service and level of care and
can provide the two-way radio communications equipment and
frequencies to accomplish this, including regional and state public
safety frequencies, the designated Maine EMS statewide frequency
155.385 and the hospital-ambulance frequencies utilized in the
service area(s) listed in these Rules.

8. If the application is for a new service or a change of service
ownership: the applicant, if an individual is of good character, and
if a partnership or corporation, its partners or principal officers are
of good character. Four character references, written within the
past year, must be submitted as a condition of meeting this
requirement; none may be from a relative or employee of the
applicant.

9. If the application is for a restricted air ambulance service,
the service has either (1) guaranteed continuity of care for the
patient by entering into written agreements with the ambulance
services that will transport its patients or (2) otherwise addressed
these concerns in a plan approved by Maine EMS that includes as a
component a written agreement of this nature with at least one
ambulance service.

10. The applicant has submitted a quality assurance plan that is
subject to Maine EMS approval and that includes review of all
flights by a qualified physician pursuant to these Rules.

11. The applicant has established a service level Quality
Assurance/Quality Improvement Committee (for approval under
M.R.S.A. § 92-A).

12. The applicant has designated a service director, who shall act as
the point of contact for the service.
15. The applicant has designated a person whose serves as the training and education point of contact for the service.

16. The applicant demonstrates that all medical crew members are appropriately trained and qualified.

17. The applicant has identified the designated infection control officer for the proposed service. Pursuant to 42 U.S.C. §300ff-136, each employer of emergency response employees in the State of Maine must have a designated infection control officer (ICO) for the purposes of receiving notifications and responses and making requests under 42 U.S.C. Chapter 6A, Subchapter XXIV, Part G. The licensee shall provide the ICO name and contact information to Maine Emergency Medical Services (EMS), and promptly notify Maine EMS of any changes in ICO during the term of its license. Maine EMS will provide this information to the Department of Health and Human Services, Maine Center for Disease Control, Division of Infectious Disease.

The applicant demonstrates that all medical crew members are appropriately trained and qualified.

The applicant has entered into a written contract with a single hospital which has a pharmacy, several hospitals with either individual or central supply points, or some other source approved by the Board which will provide a system of control and accountability of drugs/medications as required pursuant to these Rules, complies with the drugs and medication requirements in Chapter 6 of these Rules.
12. The applicant has a Maine EMS approved risk management plan consistent with the mission of the service which requires reporting of aviation or ground ambulance accidents, incidents, or safety occurrences to Maine EMS and appropriate government agencies and the accountable individual with responsibility to report.

13. Scene Response Services must have a Maine EMS approved risk management program for night scene responses. The applicant complies with the drugs and medication requirements in Chapter 6 of these Rules.

2. Except as provided in paragraph 3, below, a service license is issued for a period of 12 months. Maine EMS may issue a license that expires prior to the twelfth month and may prorate the licensing fee; if it is determined that such a change is in the best interest of the service and the system.

3. Effective January 1, 2017, initial and renewal service applications will be issued/renewed with a November 30, 2017 expiration date in order to establish a common month of expiration for all services. Maine EMS will prorate service and vehicle fees during the transition period.

4. Notwithstanding the notice requirements of §5(C) (1), Maine EMS may issue a temporary service license for up to 60 days to an applicant if Maine EMS determines that issuance of the temporary license will avert the disruption of emergency medical services in the primary service area(s) listed in the applicant’s application.

§6. Renewal of Service License

1. Renewal of a service license must be obtained each year, not later than the twelfth month after the license is issued. If Maine EMS and the service agree, a license may be renewed in less than a year, and the licensing fee prorated in order to shift the service's licensing anniversary.

2. A licensee shall submit an application for renewal prior to the expiration date of the license. To ensure timely processing, the application should be submitted thirty (30) days prior to the expiration of a license. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure. A service may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license. An air ambulance service with an expired license cannot act as an air ambulance service provide emergency medical services until a renewed license has been issued. An application submitted more than 90 days after the license
expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

3. In order to obtain and maintain a license renewal, a service must, for each base location:

   A. Apply on forms available from Maine EMS;

   B. Submit a fee of $100.00;

   C. Demonstrate, as required by Maine EMS, that it meets the licensure requirements called for in these Rules;

   D. Scene Response Air Ambulance Services must demonstrate accreditation by the Commission for Accreditation of Medical Transport Systems (CAMTS), an accreditation organization approved by the Board that includes in its voting membership professional physicians, medical associations and medical transport associations. Scene response air ambulance services must be fully accredited by a national or international accreditation service as recognized by the state, provided the accreditation service meets the following minimum standards:

       a. Provides accreditation for no more than three consecutive years without an updated inspection and reaccreditation.

       b. Has a multi-disciplinary Board of Directors representing medical transport organizations.

       c. Uses trained site-surveyors with experience in medical transport at the level of accreditation and license.

       d. Assures services that have identified standards deficiencies will implement corrective action or improvement plans to correct any deficiencies.

       e. Has an open process that encourages and accepts comments on changes to its accreditation standards.

       f. Provides transparency to the public on its standards, accreditation process, list of accredited programs, and policies and procedures.

       a-g. Maintains insurance (General liability, Medical Professional Liability, Directors & Officers and Travel) and be able to present their current certificates of insurance to the state licensing agency Maine EMS.

D.E. Scene Response Air Ambulance Services must submit on an annual basis, a utilization report to Maine EMS and the Medical Direction and Practices Board (MDPB) that includes at minimum:
1. Medically related data from all flights discharged from receiving hospitals in less than 24 hours;
   Annual utilization data, including night operations;

14. A review of all flights discharged from receiving hospitals in less than 24 hours;

15. Annual safety data including compliance with the services safety program and review of occurrence and incidents; and

16. Clinical performance data as requested by the MDPB.

§7. Personnel Requirements for Air Ambulance Service Licensees

1. Scene Response Air Ambulance Services and Transfer Air Ambulance Services

   A. The flight medical crew must consist of at least two people medically certified/licensed by the State. One of these crew members must be trained and licensed at the Paramedic level licensed by Maine EMS or designated as a flight nurse pursuant to 32 M.R.S § 83, and must have:

       1. Successfully completed a course based upon standards approved by the Board that includes, but is not limited to, altitude physiology and air operations safety;

       2. Successfully completed a Maine EMS-approved interfacility transport program;

       2. Current certifications in any specialty programs as required, and published, by the Board.

   3. Scene Response Air Ambulance Service must provide one crew member licensed at the Paramedic level while responding to scene requests.

   4. All paramedics must have completed the Maine EMS Paramedic Interfacility Transport Program training.

   B. Personnel in addition to the Paramedic will be utilized consistent with the patient's needs.

2. Restricted Response Air Ambulance Service
A. The flight medical crew must consist of at least one person medically certified/Paramedic, Registered Nurse, Advanced Practice Nurse, Physician, or Physician’s Assistant, licensed by the State, at or above the level to which the service is licensed and who has completed a course in altitude physiology and air operations safety based upon standards approved by the Board that includes, but is not limited to, altitude physiology and air operations safety.

B. Personnel in addition to the person identified in §7.2.A of this chapter may be utilized consistent with the patient’s needs.

C. A Restricted Response Air Ambulance Service may obtain Maine EMS permission to provide on some calls, based on personnel availability, a higher level of care than that for which it is licensed. In order to obtain this permission, a service must, for each base:

1. Apply on forms available from Maine EMS.

2. Submit a fee of $100. This fee is waived if the service is simultaneously applying for this permission and for a service license and is submitting the fee required for licensure.

3. Demonstrate that it can satisfy the requirements of Chapter 4 §5.1.C of these Rules (except that for numbers of personnel, the applicant must demonstrate that at least one Maine EMS licensed provider, licensed at the permit application level being sought, is an employee or member of the applicant service).

4. Renew its permission request when it applies for license renewal, demonstrating to Maine EMS that it continues to satisfy the requirements of Chapter 4 §5.1.C of these Rules.

3. A service must report to Maine EMS the addition of any licensed EMS person to its roster of responding personnel prior to that person responding on behalf of the service and must report the termination or resignation of any EMS provider from the service within 5 days of the termination or resignation of the provider. Notification to Maine EMS may be made electronically or by mail.

4. Services shall not advertise (in newspapers, telephone directories, on television or commercial radio, on billboards or vehicles, or by other means of public promotion) themselves as providing a level of care other than that at which they are licensed under this section. Board permission to provide a higher level of care is not a license for advertising purposes. The Board may prohibit advertising language from any medium listed above if it deems such language to be potentially deceptive or confusing to the public with regard to the services offered.
CHAPTER 4: AIR AMBULANCE SERVICE LICENSES

4. Pursuant to 42 U.S.C. §300ff-136, each emergency medical services agency licensed under this chapter shall designate an infectious control officer (ICO) to perform the duties and responsibilities established in the Ryan White Comprehensive AIDS Resources Emergency Act, P.L. 111-381. The licensee shall provide the ICO name and contact information to Maine Emergency Medical Services, and promptly notify Maine EMS of any changes in ICO during the term of its license. Maine EMS will provide this information to the Department of Health and Human Services, Maine Center for Disease Control, Division of Infectious Disease. Pursuant to 42 U.S.C. §300ff-136, each employer of emergency response employees in the State of Maine must have a designated infection control officer (ICO) for the purposes of receiving notifications and responses and making requests under 42 U.S.C. Chapter 6A, Subchapter XXIV, Part G. The licensee shall provide the ICO name and contact information to Maine Emergency Medical Services, Maine EMS, and promptly notify Maine EMS of any changes in ICO during the term of its license. Maine EMS will provide this information to the Department of Health and Human Services, Maine Center for Disease Control, Division of Infectious Disease.

§8. Service Availability for Response

1. An air ambulance service offering response to emergency medical calls in the service’s primary response area must be available twenty-four hours a day, except as limited by safety considerations.

1. An air ambulance service must provide prompt notification to the requesting agency of the air ambulance’s estimated time of arrival to the scene of a medical emergency or interfacility transfer pick-up location. This notification shall be made in as timely manner as possible. Changes in estimated time of arrival will be immediately communicated to the requesting agency by the air ambulance service.

2. Failure of a service to comply with these response requirements will be reviewed by Maine EMS to determine if corrective action is required. Maine EMS shall notify the service of any required corrective action and shall set a reasonable amount of time for the service to carry out this action.

§9. Patient Care Report

For each request for service, or for each patient when more than one patient is involved in a call, an air ambulance service must complete and submit an electronic Maine EMS patient care report as specified by Maine EMS, within 1-business-day twenty-four hours.

§10. Pilot Projects

For the purpose of evaluating the workability and appropriateness of incorporating a particular emergency medical treatment technique or a type of equipment into any licensure level, the
Board may elect to exempt a service from the requirements of the relevant licensure level so as to permit the service to utilize the designated techniques or equipment on an experimental basis. Such authorizations may be continued at the discretion of the Board but will be limited to a maximum of three years. Such authorizations should not be construed as levels of licensure.

§11. Air Ambulance Vehicles - General

1. Except as otherwise exempted by 32 M.R.S.A. § 82 and §12 of this chapter, no aircraft shall be operated as an air ambulance from shall provide emergency medical services within Maine unless it is licensed as an ambulance under these Rules.

2. An air ambulance vehicle license is valid for a period of one year, starting from the month the service license is issued. Maine EMS will prorate the vehicle licensing fee for a service licensing a new vehicle within its one year service license period to assure concurrent expiration dates for service and vehicle licenses.

3. An aircraft licensed as an air ambulance shall meet all applicable FAA standards and must be maintained in a clean and sanitary condition, free from interior corrosion, dirt, or contaminating foreign matter.

4. An air ambulance vehicle license is issued to a particular service and for a particular vehicle, except as permitted in Chapter 4 §12.2 of these Rules. If a service is required to relicense under Chapter 4 §3 of these Rules because of a change of ownership, then all of the service's vehicle licenses end, and the service must apply for new vehicle licenses. The fee for licensing a vehicle is $60.00.

5. When a service acquires a new or used vehicle air ambulance under Chapter 4 §12 of these Rules, it shall apply to Maine EMS on forms available from Maine EMS and shall pay the prorated portion of the annual vehicle licensing fee necessary to license the vehicle until the service's next licensing anniversary. Within 45 days, Maine EMS shall issue, or decline to issue, a license for the vehicle.

6. At least once each year, Maine EMS shall inspect each air ambulance aircraft to be sure that it is clean, and otherwise in conformity with these Rules. If a vehicle does not pass inspection and its continued operation presents a hazard to health or safety, Maine EMS-the Board may order it removed from service as an air ambulance suspend its license to provide emergency medical services at once consistent with Maine Law (See 5 M.R.S.A. M.R.S. §10004 and 4 M.S.R.A. §184). Alternatively, if the continued operation of the air ambulance aircraft at the level of care for which it is permitted pursuant to Chapter 4 §2(2) of these Rules presents a hazard to health or safety, the Board may immediately suspend the aircraft’s level of care permit consistent with Maine law (see 5 M.R.S. §10004 and 4 M.R.S. §184) and allow the aircraft to operate at the next lowest level of care for which it is properly equipped. If the deficiencies are not such as to require the immediate removal from service as an air ambulance immediate suspension of the
aircraft’s license to provide emergency medical services or the immediate suspension of its level of care permit, then Maine EMS shall notify the operator of the deficiencies and set a reasonable amount of time in which the operator may continue to operate the aircraft as an air ambulance service while bringing it into conformity with the law and Rules. If the aircraft is not brought into conformity within the time set, Maine EMS may refuse to renew, or seek revocation of, the aircraft’s ambulance vehicle license.

§12. Air Ambulance Vehicle Licensing Requirements

1. Permanent Air Ambulance Vehicles - Any air ambulance vehicle used by a licensed air ambulance service for providing emergency medical services more than four times in any one-year period must be licensed to the respective service. An air ambulance vehicle may be licensed to more than one service, with each service independently responsible for its own licensure and use of the vehicle.

2. Temporary Air Ambulance Vehicles – Any air ambulance vehicle used for patient transport by a licensed air ambulance service no more than four times in any one-year period will be considered to be duly licensed to that service by the Board if it meets the requirements of this chapter. Within 7 days after such a transport, the service must notify Maine EMS of the date, time, and origin/destination points of the transport as well as the type and registration number of the aircraft and the reason for its use instead of a "permanent" vehicle. Maine EMS will place this information in the service file and may inspect the aircraft.

§13. Scene Response and Transfer Air Ambulance Vehicle Design Requirements

1. An air ambulance vehicle must comply with all Federal Aviation Administration (FAA) requirements for aircraft and air ambulance services. In addition, Maine EMS requires that an aircraft licensed by the Board must:

   A. Be multi-engine if licensed by a Scene Response Air Ambulance Service or Transfer Air Ambulance Service. A Restricted Response Air Ambulance Service may receive Board licensure for a single-engine aircraft provided that:

   B. The aircraft engine is a gas turbine type;

   C. The licensee demonstrates that the aircraft operator maintains and routinely practices engine failure contingency plans specific to the restricted operations area designated by the Board;

   D. The aircraft is routinely operated according to FAA Visual Flight Rules (VFR).
E. If a rotorcraft, be equipped with a 180 degree controllable searchlight of at least 400,000 candlepower and a functioning radar altimeter or other approved terrain warning system.

F. A. Be configured to allow medical attendants to have full-body patient view and access, and access to equipment and supplies in order to initiate both basic and advanced life support emergency procedures;

G. B. Be designed and configured for patient placement that allows for safe crew egress without compromising patient stability during loading, unloading or in-flight operations;

H. C. Be configured to allow operation of the aircraft doors from the interior and that the doors be capable of being fully opened and held by a mechanical device;

I. D. Have sufficient space to accommodate at least one patient on a stretcher, two medical attendants, and the medical equipment required;

J. E. Be equipped with a FAA approved patient stretcher and patient securing systems/straps capable of accommodating adult and pediatric patients. The stretcher must be designed to support effective cardiopulmonary resuscitation (CPR) or a backboard or equivalent device to achieve CPR must be readily available;

1. Patients under 60 pounds (27 kg.) shall be provided with an appropriately sized restraining device (for patient's height and weight) which is further secured by a locking device;

2. All patients under 40 lbs. must be secured in a five-point safety strap device that allows good access to the patients from all sides and permits the patient’s head to be raised at least 30 degrees;

3. If a car seat is used to transport an infant or child—it must have a FAA-approved sticker;

4. There must be some type of restraining device within an isolette to protect the patient in the event of air turbulence and the isolette must be capable of being opened from its secured position in order to provide full access to the infant in the event of complicated airway problems or extrication from the isolette becomes necessary;

5. There shall be access and necessary space to ensure any on-board patient's airway is maintained and to provide adequate ventilatory
support from the secured, seat-belted position of medical transport personnel.

K.F. Be equipped with FAA-approved safety belts and securing restraints adequate to stabilize and secure any patient, medical attendants, pilots, other individuals, and equipment shall be provided. Medical attendants must be able to wear seat belts while having access to the patient's head and upper body;

L.G. Be large enough to accommodate loading of a stretcher without rotating it more than 30 degrees about the longitudinal axis or 45 degrees about the lateral axis of the patient and does not compromise functioning of monitoring systems, intravenous lines and manual or mechanical ventilation;

M.H. Be equipped with climate controls capable of preventing adverse effects on patients or medical personnel on board;

N.I. Be configured so that operational controls and communications equipment are protected from intended or accidental interference by the patient, medical transport personnel, medical equipment or medical supplies;

O.J. Be designed and configured so that the head-strike envelope for the patient and medical attendants is clear of objects or surfaces that could cause injury in the event of air turbulence or sudden hard landing. Medical and Flight crews in rotorcraft must wear FAA-approved helmets.

P.K. Be pressurized if an altitude is to be flown which would otherwise compromise the patient's condition.

Q.L. Be equipped with an FAA-approved oxygen system with adequate capacity and available oxygen for every mission. Oxygen tanks must be secured to prevent movement. No oxygen tank may be secured on the area of the stretcher designed for patient placement.

1. Medical transport personnel will be able to determine if oxygen is “on” by in-line pressure gauges mounted in the patient care area indicating quantity of oxygen remaining and measurement of liter flow;

2. Each gas outlet will be clearly marked for identification, and oxygen flow can be stopped at or near the oxygen source from inside the aircraft or ambulance;

3. Oxygen flow meters and outlets must be padded, flush mounted, or so located to prevent injury to medical transport personnel;
CHAPTER 4: AIR AMBULANCE SERVICE LICENSES

4. There must be a back-up source of oxygen (of sufficient quantity to get safely to a facility for replacements) in the event the main system fails. This back-up source can be the required portable tank as long as the portable tank is accessible in the patient care area during flight and must be located and secured in a FAA approved design. Under no circumstances will a portable tank be located between the patient’s legs.

R-M. Be designed so that hangers/hooks are available to secure IV solutions, or a mechanism is provided for delivery of high flow fluids. IV hooks must be padded, flush mounted, or so located to prevent head trauma to the medical transport personnel in the event of a hard landing in the aircraft;

S-N. Be designed so that medications, medical supplies and equipment - consistent with the service’s scope of care and necessary for patient medical care - are accessible to the flight medical crew while they are secured in seatbelts;

T-O. Be designed so that the cardiac monitor, defibrillator and external pacemaker displays are visible and that the equipment is secured and positioned to provide easy access by the flight medical crew while they are secured in seatbelts. Extra batteries or other power source must be available;

U-P. Be designed and configured so that the service’s mission and ability to transport two or more patients does not compromise the airway or stabilization or the ability to perform emergency procedures on any on-board patient, and be designed to provide access for simultaneous airway management if there is a two-patient configuration;

V-Q. Be designed so that the floor, sides and ceiling in the patient compartment have a surface capable of being cleaned and disinfected in accordance with Occupational Safety and Health Administration regulations.

W-R. Have overhead illumination at the patient level sufficient for patient care.

X. Be configured and/or equipped to protect the pilot’s night adaptation vision.

Y-S. Carry, in addition to FAA-required communications equipment, radios capable of communicating: with all Maine hospitals which may be over flown; Maine EMS Statewide frequency 155.385; with the flight service dispatch; and with personnel on the ground if scene pickups are routinely conducted. Headset equipment for pilot/medical crew communication is required if such communication would not otherwise be possible.

Z-T. Be capable of communications utilizing the designated Maine EMS statewide frequency "155.385".
AA.U. Be equipped with an FAA-approved electrical power source(s) that will accommodate commonly carried medical equipment (AC or DC powered) without compromising the operation of any aircraft electrical equipment and that is not dependent upon a portable battery.

BB.V. Be configured and equipped so as to prevent interference with medical, communications, avionics and other aircraft systems.

CC. Be equipped with a suction aspirator that must be powered by the aircraft’s electrical or engine-vacuum system and that must be capable of providing a free air flow of at least 20 lpm and achieving a minimum of 300 mm. Hg within 4 seconds after the suction tube is closed.

§14. Air Ambulance Service Equipment Requirements

1. As of August 1, 2004, all medical equipment and medical supplies carried on an air ambulance vehicle shall be natural rubber-latex free.

A. Transfer Air Ambulance Services must utilize equipment consistent with the patient’s needs and must carry as a minimum, that equipment listed in these Rules.

B. Scene Response Air Ambulance Services must comply with the air ambulance equipment requirements included in these Rules unless an air ambulance service demonstrates to Maine EMS that such equipment is not practicable for air ambulance services in general or that a substitute piece of equipment would be more appropriate in an air ambulance. All medical equipment and supplies must be secured according to FAR.

C. Restricted Response Air Ambulance Services must comply with the air ambulance equipment requirements included in these Rules up to and including the service’s license or permit level, unless the air ambulance service demonstrates to Maine EMS that such equipment is not practicable for air ambulance services in general or that a substitute piece of equipment would be more appropriate in an air ambulance.

§15. License Waiver

1. It is not the intent of these Rules to prohibit transport of a patient, in extraordinary circumstances, in an aircraft not licensed as an air ambulance when it is in the best interest of the patient, and no licensed air ambulance is available within a reasonable time as determined by on-line medical control.

2. An aircraft not licensed as an air ambulance, and not operated by an air ambulance licensee, may be used to transport a patient when:
A. The licensed ambulance service transporting the patient has determined after consultation with online medical control that transport by an unlicensed air ambulance is in the best interests of the patient;

B. A record of the run that documents the medical control transport order, attempts by medical personnel to secure a licensed air ambulance service to perform the run, and the circumstances and rationale for the transport is submitted to Maine EMS within 10 days of the run;

C. An aircraft is used that is FAA-certified and that allows head/torso access by medical crew;

D. An FAA license appropriate for the aircraft and run is held by the pilot;

E. The Board has not forbidden the ambulance service from conducting unlicensed air ambulance runs;

F. The medical crew (except as provided for in 32 M.R.S.A. M.R.S. § 86(2)) consists of at least one person licensed by Maine EMS at the level that is medically required for care of the patient. Personnel in addition to the required medical crew member will be utilized consistent with the patient's needs;

G. The flight medical crew carries equipment and supplies as required for care appropriate to the patient's condition; and

H. The ambulance service initiating the air transport/transfer ensures that a method of communications has been established to allow for communications among the transporting medical crew, the receiving ground ambulance service and local medical control.

§15. Duty to Report

2. A licensee or an applicant for licensure under this chapter shall notify the Board in writing within 10 days of a:

   A. Change of name or address;
   B. Criminal Convictions;
   C. Revocation, suspension or other disciplinary action taken in this or any other jurisdiction against any occupational or professional license held by the applicant or licensee; or,
   D. Material change in the conditions or qualifications set forth in the original application for licensure submitted to the Board.

AUTHORITY: 32 M.R.S.A. M.R.S., Chapter 2-B.
CHAPTER 4: AIR AMBULANCE SERVICE LICENSES

EFFECTIVE DATE: July 3, 1978 (EMERGENCY)

AMENDED: April 1, 1982
December 25, 1982 - Sec. 2.31, 3131, 6.311, 6.63 and 6.73
January 1, 1984 - Sec. 1, 2, 3, 5, 6, 8.32, 10.2, 10.3, 11.1066 and 11.1067
April 30, 1985 - Sec. 1, 2.846.222, 6.332, 9.313, 8.3216 and 9.11
January 1, 1986 - Sec. 1, 6.8.15, 8.2, 8.3, 8.4 and 11.103
September 1, 1986
August 25, 1987 - Sec. 5, 6.011 and 12 (added)
July 1, 1988
March 4, 1992
September 1, 1996
EFFECTIVE DATE (ELECTRONIC CONVERSION): July 1, 2000
REPEALED AND REPLACED: July 1, 2000
July 1, 2003
October 1, 2009
May 1, 2013
CHAPTER 5: PERSONNEL LICENSES

§1. Personnel licenses are issued for the following levels of care, in ascending order:

1. Emergency Medical Responder (EMR)

2. Ambulance Attendant - No new licenses at this level issued after September 1, 1996
   A. Effective December 1, 2014, Maine EMS-licensed Ambulance Attendant licenses will convert to the Emergency Medical Responder level, maintaining the same expiration date as that of the Ambulance Attendant license it replaces.

3. Emergency Medical Technician (EMT)

4. Advanced Emergency Medical Technician (AEMT)

5. EMT - Critical Care (EMT-CC) - No new licenses issued at this level after January 1, 1998.
   A. Effective June 1, 2016, Maine EMS-licensed Critical Care licenses will convert to the AEMT level, maintaining the same expiration date as that of the Critical Care license it replaces.

6. Paramedic

§2. Scope of Practice. The U.S. Department of Transportation’s National Highway Traffic Safety Administration’s (“NHTSA”) National EMS Scope of Practice Model, February 2007 edition, defines the scope of practice for Emergency Medical Responders, Emergency Medical Technicians, Advanced Emergency Medical Technicians, and Paramedics. Accordingly, the National EMS Scope of Practice Model, February 2007 edition, which is available at [address], is incorporated by reference. Licensees may perform the following treatments:

1. Basic Emergency Medical Treatment: All licensed personnel may provide basic emergency medical treatment within the scope of their training as defined by Maine EMS-approved curricula and training practice as defined below, as permitted by protocol and in accordance with this chapter of the Rules.

   A. Emergency Medical Responder NHTSA’s National EMS Scope of Practice Model, February 2007 edition, defines the scope of practice for a
person licensed at the Emergency Medical Responder level. An Emergency Medical Responder’s clinical practice is defined by Maine EMS protocol. A person licensed at the Emergency Medical Responder level may operate without the supervision of another Maine EMS licensee at the scene of a medical emergency until such time that a person licensed above the Emergency Medical Responder level arrives at the scene. Once on the scene, personnel licensed above the Emergency Medical Responder level are responsible for supervising Emergency Medical Responder licensed personnel, who may not operate without such supervision.

Final patient immobilization for transport, patient loading, and patient care during transport must be directly supervised by personnel licensed above the Emergency Medical Responder level. Any basic emergency medical treatments not contained in the current Emergency Medical Responder course curriculum approved by Maine EMS described in the scope of practice for an Emergency Medical Responder in NHTSA’s National EMS Scope of Practice Model, February 2007 edition, may only be performed while assisting, and in the presence of personnel licensed above the Emergency Medical Responder level.

One EMS provider licensed at or above the EMT level must accompany the patient in the patient compartment of the ambulance during transport.

B. Emergency Medical Technician NHTSA’s National EMS Scope of Practice Model, February 2007 edition, defines the scope of practice for a person licensed at the Emergency Medical Technician level. An Emergency Medical Technician’s clinical practice is defined by Maine EMS protocol. A person licensed at the EMT level may, in addition to basic emergency medical treatment, perform the following skills or treatments, within the scope of their Maine EMS approved education and training as defined by Maine EMS approved curricula as defined by Maine EMS approved curricula, as permitted by protocol and in accordance with this chapter of the Rules:

1. IV maintenance (non-medicated fluids).

2. Under direct supervision of an Advanced Emergency Medical Technician (AEMT) or above, set up of intravenous administration equipment and attachment of cardiac monitor leads to a patient.

3. Assisting a patient in the administration of the patient’s own medication.

4. Drug and medication administration, and procedures as approved by the Board and as allowed by Maine EMS protocol.
C-B. Additions for Emergency Medical Technicians With Certification As "Wilderness EMT"

Any licensee certified as a Wilderness Emergency Medical Technician (WEMT), consistent with Chapter 2 of these Rules, may apply the WEMT emergency medical care as allowed by the Maine EMS protocol, principles for cardio-respiratory arrest, spinal injury, dislocations, and wounds taught in the course, when in the context of delayed/prolonged transport as defined in that course, and as consistent with Maine EMS protocols.

7-2. Advanced Emergency Medical Treatment: The following advanced emergency medical treatments may be provided only by those licensed at, or above, the levels indicated, within the scope their practice as defined below of training as defined by Maine EMS-approved curricula, as permitted by protocol and in accordance with this section of the Rules:

C. Advanced Emergency Medical Technician (AEMT): NHTSA’s National EMS Scope of Practice Model, February 2007 edition, defines the scope of practice for a person licensed at the Advanced Emergency Medical Technician level. An Advanced Emergency Medical Technician’s clinical practice is defined by Maine EMS protocol. All practices, skills, and techniques authorized at the Emergency Medical Technician (EMT) level; advanced life support airway – Blind Insertion Airway Devices; IV/IO therapy; blood sampling; cardiac monitoring/counter shock (semiautomatic external or manual); drug and medication administration as approved by the Board and as allowed by Maine EMS protocol; and other techniques and practices approved and published by the Board.

D. EMT-Critical Care: All practices, skills, and techniques authorized at the Advanced Emergency Medical Technician (AEMT) level; advanced life support airway-endotracheal intubation; magill forceps for foreign body airway obstruction; drug and medication administration as approved by the Board and as allowed by Maine EMS protocol; and other techniques and practices approved and published by the Board.

Paramedic: NHTSA’s National EMS Scope of Practice Model, February 2007 edition, defines the scope of practice for a person licensed at the Paramedic level. A Paramedic’s clinical practice is defined by Maine EMS protocol.

E. All practices, skills, and techniques authorized at the Advanced Emergency Medical Technician (AEMT) level; advanced life support airway-endotracheal intubation; magill forceps for foreign body airway obstruction; drug and medication administration as approved by the Board and as allowed by Maine EMS protocol; chest decompression; transtracheal
insufflation; cricothyrotomy; and other techniques and practices approved and published by the Board.

### F-D. Paramedic Inter-Facility Transfer (PIFT) - In order to practice as a PIFT provider, a Maine licensed Paramedic must:

(a) Complete a Maine EMS approved PIFT provider course; and,

(b) Be affiliated with a Maine EMS licensed service that is approved by the Board to provide PIFT services.

### §3. A licensee may perform emergency medical treatment when:

A. The licensee practices in accordance with Maine EMS Protocols.

B. The licensee acts with the approval of the ambulance crew member in charge of the call.

### §3. Patient Care Report:

In addition to providing patient care, the licensee who provided primary patient care is responsible for completing and submitting an electronic Maine EMS patient care report, as specified by Maine EMS, for each request for service, or for each patient when more than one patient is involved in a call. Reports must be submitted within twenty-four hours.

### §4. A license is valid for three years from the month of issuance unless otherwise specified in these Rules. A license issued on or after May 1, 2020, will be valid for a period of two years from the month of issuance unless otherwise specified in these Rules.

### §4, §5. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure. To obtain a new or renewed license, an applicant must:

1. Provide proof of parental consent if the applicant is less than 18 years of age. No application for licensure by a person under 18 years of age will be approved unless the service(s) with which the applicant will be practicing emergency medical care submits and maintains a Maine EMS-approved plan for supervision. No one under the age of 16 may be licensed.

An applicant must be at least 18 years of age in order to be eligible for licensure above the EMT level.
CHAPTER 5: PERSONNEL LICENSES

2796 — Not have received a three-year Maine EMS license at the same level within the past year. — Effective May 1, 2020 — Not have received a two-year Maine EMS license at the same level within the past year.

2799 2.

2800 3. — Be able to read, write, speak, and understand the English language.

2802 4. — Be physically capable of performing the practices included in the license level applied for, as described by the approved Maine EMS functional position description and as indicated by the ability to pass the appropriate state practical examination.

2807 5.3. Submit the following to Maine EMS:

2809 A. A completed Maine EMS application signed by the applicant.

2811 B. Certification of Board-approved training or training judged by Maine EMS to be equivalent. If the training was completed more than a year prior to application, a license may be issued that is valid for three years from the month of the training completion date (or from the month of the required test if that preceded training completion). Board approved training includes a Board approved initial course at the appropriate level, or a course judged by Maine EMS to be equivalent.

2819 C. Certification of Board-approved continuing education hours (CEH) at the appropriate level, or continuing education hours judged by Maine EMS to be equivalent, in the case of an applicant whose Maine license is current or not expired by more than two years, or who submits a history of training which Maine EMS accepts as qualifying him/her to use continuing education hours for licensure.

2826 1. The categories for CEH are:

2828 (a) Category 1 — Operations

2830 (a) Category 2 — BLS Topics

2831 (a) Category 3 — BLS Skills

2832 (a) Category 4 — ALS Topics

2833 (a) Category 5 — ALS Skills

2834 (a) Category 6 — Electives

2835 (a) Category 7 — Instructor Coordinator Recertification

2836 2.5. CEH must be of the type and amount appropriate to the level, and may be used to fulfill training requirements provided that:

2838 (a) The applicant's Maine license is current or not expired by more than two years; and

2841
(b) Certificates of continuing education hours have not been used for a previous license renewal, and have been earned within the past three years. "Training completion date" for the purpose of setting a license expiration date will be the date of the most recently completed continuing education program, which is submitted for licensure.

(c) Continuing education hours appropriate to each level are as follows:

   (i) Emergency Medical Responder - 26 total hours: 4 hours in category 1; 8 hours in category 2; 8 hours in category 3; and 6 hours in category 6.

   (ii) Ambulance Attendant - 32 total hours: 6 hours in category 1; 10 hours in category 2; 8 hours in category 3; and 8 hours in category 6.

   (iii) EMT - 38 total hours: 8 hours in category 1; 12 hours in category 2; 8 hours in category 3; and 10 hours in category 6.

   (iv) Advanced Emergency Medical Technician (AEMT) - 46 total hours: 8 hours in category 1; 6 hours in category 2; 4 hours in category 3; 16 hours in category 4; 4 hours in category 5; and 8 hours in category 6.

   (v) EMT CRITICAL CARE - 52 total hours: 8 hours in category 1; 7 hours in category 2; 4 hours in category 3; 18 hours in category 4; 6 hours in category 5; and 9 hours in category 6.

   (vi) PARAMEDIC - 58 total hours: 8 hours in category 1; 8 hours in category 2; 4 hours in category 3; 20 hours in category 4; 8 hours in category 5; and 10 hours in category 6.

   (vii) The above requirements for category 6 (electives) may be satisfied by completing CEH programs in that category or by utilizing excess CEH credit accumulated in Categories 1–5.

(d) Effective May 1, 2013, continuing education hour (CEH) categories will change to the categories listed below. All current CEH earned by a licensee prior to the May 1, 2013
categories change will convert to the new categories as indicated:

(i) Category 1—EMS Operations convert to Preparatory and Operations

(ii) Category 2—BLS Topics and Category 4—ALS Topics convert to Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma or Obstetrics and Pediatrics, as applicable

(iii) Category 3—BLS Skills convert to BLS Psychomotor Skills

(iv) Category 5—ALS Skills convert to ALS Psychomotor Skills

(v) Category 6—Electives convert to Further Continuing Education.

(e) Concurrent with the CEH change on May 1, 2013, continuing education hours required for each level will be:

(i) Emergency Medical Responder - 26 total hours: 4 hours in Preparatory and Operations; 8 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 8 hours in BLS Psychomotor Skills; and 6 hours in Further Continuing Education

(ii) Ambulance Attendant - 32 total hours: 6 hours in Preparatory and Operations; 10 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 8 hours in BLS Psychomotor Skills; and 8 hours in Further Continuing Education

(iii) EMT - 38 total hours: 8 hours in Preparatory and Operations; 12 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 8 hours in BLS Psychomotor Skills; and 10 hours in Further Continuing Education

(iv) Advanced Emergency Medical Technician (AEMT) - 46 total hours: 8 hours in Preparatory and Operations;
CHAPTER 5: PERSONNEL LICENSES

5-8

22 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 4 hours in BLS Psychomotor Skills; 4 hours in ALS Psychomotor Skills; and 8 hours in Further Continuing Education.

(v) EMT - Critical Care—52 total hours: 8 hours in Preparatory and Operations; 25 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 4 hours in BLS Psychomotor Skills; 6 hours in ALS Psychomotor Skills and 9 hours in Further Continuing Education.

(vi) Paramedic—58 total hours: 8 hours in Preparatory and Operations; 28 hours total in any of the following categories—Airway, Breathing and Cardiac, Patient Assessment, Medical, Trauma and Obstetrics and Pediatrics; 4 hours in BLS Psychomotor Skills; 8 hours in ALS Psychomotor Skills; and 10 hours in Further Continuing Education.

(f) Effective May 1, 2016, continuing education hour requirements will be:

(i) Emergency Medical Responder - 32 total hours consisting of: 2 hours in Preparatory and Operations; 8 hours in Airway, Breathing and Cardiac; 2 hours in Patient Assessment; 4 hours in Medical; 4 hours in Trauma; 4 hours in Obstetrics and Pediatrics; and 8 hours in BLS Psychomotor Skills.

(ii) EMT - 52 total hours consisting of: 2 hours in Preparatory and Operations; 8 hours in Airway, Breathing and Cardiac; 4 hours in Patient Assessment; 8 hours in Medical; 6 hours in Trauma; 8 hours in Obstetrics and Pediatrics; 8 hours in BLS Psychomotor Skills; and 8 hours in Further Continuing Education.

(iii) Advanced Emergency Medical Technician (AEMT)-56 total hours consisting of: 2 hours in Preparatory and Operations; 12 hours in Airway, Breathing and Cardiac; 4 hours in Patient Assessment; 8 hours in Medical; 6 hours in Trauma; 8 hours in Obstetrics and Pediatrics; 4 hours in BLS Psychomotor Skills; 4 hours in ALS.
Psychomotor Skills; and 8 hours in Further Continuing Education.

(iv) Paramedic - 72 total hours consisting of: 2 hours in Preparatory and Operations; 16 hours in Airway, Breathing and Cardiac; 4 hours in Patient Assessment; 12 hours in Medical; 8 hours in Trauma; 8 hours in Obstetrics and Pediatrics; 4 hours in BLS Psychomotor Skills; 8 hours in ALS Psychomotor Skills; and 10 hours in Further Continuing Education

(d) Effective May 1, 2024, continuing education hour requirements will be:

(i) Emergency Medical Responder - 32 total hours consisting of: 28 hours in Preparatory and Operations BLS Skills and 4 in any of the following categories - Airway, Breathing; Respiratory, and Ventilation, Cardiology, Patient Assessment, Medical, Trauma, and Obstetrics and Pediatrics.

(ii) EMT - 52 total hours consisting of: 28 hours in Preparatory and Operations BLS Skills and 50 hours total in any of the following categories - Airway, Breathing; Respiratory, and Ventilation, Cardiology, Medical, Trauma, and Operations.

(iii) Advanced Emergency Medical Technician (AEMT) - 56 total hours consisting of: 42 hours in Preparatory and Operations BLS Skills and 4 in BLS Skills and Operations and 50 hours total in any of the following categories - Airway, Breathing; Respiratory, and Ventilation, Cardiology, Medical, Trauma, and Operations.

(iv) Paramedic - 72 total hours consisting of: 28 hours in Preparatory and Operations BLS Skills, 4 Hours in BLS Skills and 70 hours total in any of the following categories - Airway, Breathing; Respiratory, and Ventilation, Cardiology, Medical, Trauma, and Operations.
(e) Effective July 1, 2021, continuing education hour requirements will be:

(v) Emergency Medical Responder - 24 total hours in any of the following categories - Airway, Respiratory, and Ventilation (ARV), Cardiology, Medical, Trauma, and Operations. The licensee must also provide an accompanying skills competency verification.

(vi) EMT - 44 total hours in any of the following categories - Airway, Respiratory, and Ventilation (ARV), Cardiology, Medical, Trauma, and Operations. The licensee must also provide an accompanying skills competency verification.

(vii) Advanced Emergency Medical Technician (AEMT) - 48 hours total in any of the following categories - Airway, Respiratory, and Ventilation (ARV), Cardiology, Medical, Trauma, and Operations. The licensee must also provide an accompanying skills competency verification.

(viii) Paramedic - 60 hours total in any of the following categories - Airway, Respiratory, and Ventilation (ARV), Cardiology, Medical, Trauma, and Operations. The licensee must also provide an accompanying skills competency verification.

(f) Effective May 1, 2022, Continuing Education Requirements will be based upon a two-year licensing cycle and shall be in accordance with the National Registry of Emergency Medical Technicians’ 2016 National Continued Competency Program Hour Requirements, as approved by the Board listed below: This rule incorporates by reference the National Registry of Emergency Medical Technicians’ Agency Guide for Recertification (October 2017 edition). Copies of this standard are available from the National Registry of Medical Technicians, 6610 Busch Blvd., Columbus, OH 43229, or Maine EMS, Department of Public Safety, 45
(ix) Emergency Medical Responder (EMR) - 16 Total Hours consisting of 8 hours in National Continued Competency Requirements (NCCR), 4 hours in Maine-EMS-approved Local Core Competency Requirements (LCCR), and 4 hours in Individual Core Competency Requirements.

(x) Emergency Medical Technician (EMT) - 40 Total Hours consisting of 20 hours in National Continued Competency Requirements (NCCR), 10 hours in Maine-EMS-approved Local Core Competency Requirements (LCCR), and 10 hours in Individual Core Competency Requirements.

(xi) Advanced Emergency Medical Technician (AEMT) - 50 Total Hours consisting of 25 hours in National Continued Competency Requirements (NCCR), 12.5 hours in Maine-EMS-approved Local Core Competency Requirements (LCCR), and 12.5 hours in Individual Core Competency Requirements.

(xii) Paramedic - 60 Total Hours consisting of 30 hours in National Continued Competency Requirements (NCCR), 15 hours in Maine-EMS-approved Local Core Competency Requirements (LCCR), and 15 hours in Individual Core Competency Requirements.

(g) Further Continuing Education as identified in the aforementioned CEH requirements is not a category, but represents additional training in categories 1-5. Category 7 CEH is not considered Further Continuing Education for purposes of this Chapter.

(h) Nationally standardized training programs may be awarded continuing education hours, which will be credited to an applicant for license renewal or relicensure when that applicant provides proof of current certification at the time of
application. Current certification is determined by definition of the national sponsor of the training program.

(i) In lieu of the license renewal continuing education hour requirements of this Chapter, an applicant may submit a current certification card at the license level being renewed from a national EMS certifying entity approved by the Board. Unless Maine EMS determines otherwise, a license renewal based upon a national EMS certifying entity certification shall carry an expiration that is concurrent with the applicant’s national EMS certifying entity certification’s expiration date.

6. At the time of renewal, each licensee must certify, on an application provided by Maine EMS, the number of continuing education hours completed for license renewal. No additional information or continuing education documentation is required to be submitted at the time of renewal. However, the licensee shall retain documentation of continuing education hours included in the current renewal period. For purposes of this paragraph, “current renewal period” means the 36-month period prior to the application date. In calculating continuing education hours completed prior to the month of application, the last day of each month shall be considered the completion date for all continuing education completed within a given month.

7. Applicants for license renewal will be selected by Maine EMS on a random basis for an audit of continuing education compliance. In addition, an individual licensee may be selected for an audit as part of an investigation or if there is reasonable cause to believe the licensee has provided a false certification concerning the completion of continuing education requirements. An audit may will review the last two continuing education hour certifications submitted by the licensee for the past two license renewals, including the current renewal period.

8. Licensees selected for audit will be notified to submit documentation of the continuing education hours that were certified by the licensee at the time of renewal. Continuing education hours that cannot be documented in accordance with the documentation requirements determined by the Board or that do not satisfy the requirements for continuing education contained in these Rules will be disallowed.

9. Applicants for license renewal must present proof of satisfactory completion of continuing education in accordance with these Rules. Failure to comply with the continuing education rules may,
at Maine EMS’ discretion, result – in accordance with 32 M.R.S.A. §90 A and Chapter 12 of these 32 M.R.S. Chapter 2-B and the Maine EMS Rules - in disciplinary action to deny license renewal or may result in a decision to enter into a consent agreement and probation setting forth terms and conditions to correct the licensee’s failure to complete continuing education or may result in any other disciplinary action available to the Board. Terms and conditions of a consent agreement may include requiring completion of increased hours of continuing education, civil penalties, suspension and other terms as the Board, the licensee and the Department of the Attorney General determine appropriate.

D. Board-approved testing certification:

1. An applicant must demonstrate successful completion of a Board approved cognitive exam and practical skills evaluation - at the license level being sought - within three years of the application date.

2. For applicants whose initial course completion date is on or after March 1, 2016 - an applicant for an initial license at any provider level must successfully complete the Maine-EMS-Board-approved cognitive test and practical skills evaluation – for the license level being sought - within two (2) years of the course completion date of the initial course.

4.3.5. except that Notwithstanding paragraphs 1 and 2 above, an applicant is not required to submit testing certification as part of the license application process if:

(a) An applicant, whose Maine EMS license has expired within two years prior to the application date is applying for a new or renewed license at the license level held within the aforementioned two-year period; or,

(b) An applicant is determined by Maine EMS to be eligible to license based upon possesses a current certification or license from another state or territory; or,

(c) An applicant is determined by Maine EMS to be eligible to license based upon current certification from a national EMS certifying entity.

2.4. For purposes of paragraph 1, above, if the test is more than a year old, a license may be issued which is valid for three years.
licensing period as calculated from the month of the test (or from
the month of the required training course if that precedes the test).
When practical and written portions of the test are completed in
different months, the test date will be the month the first test was
completed.

E. Continued Competency Verification

1. For an applicant or licensee renewing a license at any level, or for
a licensee who is applying for a license within two years of license
expiration, continued competency may be verified by:

(i) A Service Director, Training Officer or Service Medical
Director of a Maine-licensed EMS service that is
licensed or permitted at or above the level at which the
applicant or licensee is seeking licensure and with
which the licensee is affiliated; or,

(ii) The Director or his or her designee of a Maine EMS
Authorized Training Center; or,

(iii) Successful completion of a Board approved cognitive
exam and practical skills evaluation - at the license
level being sought - within two years of the application
date.

2. Persons listed in paragraph 1, above as being authorized to verify
continued competency shall base continued competency
verifications upon the National Continued Competency Program
Hour Requirements as provided in the National Registry of
Emergency Medical Technicians’ Agency Guide for
Recertification (October 2017 edition), which is hereby
incorporated by reference. Copies of this standard are available
from the National Registry of Medical Technicians, 6610 Busch
Blvd., Columbus, OH 43229, or Maine EMS, Department of
Public Safety, 45 Commerce Drive, Suite 1, 152 State House
Station, Augusta, ME 04333-0152.

3. Persons authorized under paragraph 1, above to verify competency
cannot verify their own continued competency.

E.F. A complete history of criminal convictions as well as civil infractions for
alcohol or drugs. Maine EMS will consider this to the extent allowed by
Maine Law.
F-G. A complete history of any action taken against any emergency medical services certification or license or professional certification or license that the applicant currently holds or has ever held.

§5-§6. License Expiration and Renewal

1. A licensee shall submit an application for renewal prior to the expiration date of the license. To ensure timely processing, the application should be submitted thirty (30) days prior to the expiration of a license. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.

2. A person may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license. Licensees whose licenses have lapsed as of the expiration date cannot provide emergency medical treatment until a renewed license has been issued.

3. An application submitted more than 90 days after the license expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

§7. Duty to Report

1. A licensee or an applicant for licensure under this chapter shall notify the Board in writing within 10 days of a:

   A. Change of name or address;
   B. Criminal Convictions;
   C. Revocation, suspension or other disciplinary action taken in this or any other jurisdiction against any occupational or professional license held by the applicant or licensee; or,
   D. Material change in the conditions or qualifications set forth in the original application for licensure submitted to the Board.

§1. Except as provided for in these Rules, no person shall provide emergency medical dispatch services unless the person is licensed as an Emergency Medical Dispatcher by the Board in accordance with 32 M.R.S.A. § 85-A and these Rules.

§2. The type of license issued under this chapter is for an “Emergency Medical Dispatcher.”

§3. Scope of Practice

1. An Emergency Medical Dispatcher may provide emergency medical dispatching in accordance with the Maine EMS-approved Emergency Medical Dispatch Priority Reference System, within the scope of the dispatcher’s Maine EMS-approved training and in accordance with 32 M.R.S.A. § 85-A and these Rules.

2. An Emergency Medical Dispatcher may perform emergency medical dispatching services when the Dispatcher:

A. Holds a current Emergency Medical Dispatcher license issued by the Board;

B. Is employed by and acts with the approval of an Emergency Medical Dispatch Center licensed by the Board in accordance with 32 M.R.S.A. § 85-A and these Rules;

C. Practices in accordance with the Maine EMS-approved Emergency Medical Dispatch Priority Reference System and in accordance with 32 M.R.S.A. § 85-A and these Rules;

§4. License

1. A license issued by the Board under this chapter is valid for twenty-four months from the month of issuance unless earlier suspended or revoked or as otherwise specified in these Rules.

A. The Board may issue a license valid for twenty-seven months in order to ensure that the applicant’s license expiration date occurs three months after the applicant’s training certification expiration from the entity that provides the Board approved statewide emergency medical dispatch protocols. Once the three-month separation is established, the license issued will be for a period of twenty-four months, unless the Board determines that a
license issued for a shorter period of time is in the best interests of the
system.

2. An application will not be accepted as complete unless it includes all materials
required to be evaluated for licensure. To obtain a new or renewed license, an
applicant must:

   A. Be at least 18 years of age on the date of application;
   B. Not have received a two-year Maine EMS Emergency Medical Dispatcher
   license within the past year;
   C. Be capable of performing emergency medical dispatch services, as described
   by the approved Maine EMS Emergency Medical Dispatcher Functional
   Position Description;
   D. Be employed by a Maine licensed Emergency Medical Dispatch Center; and,
   E. C. Submit the following to Maine EMS:

       1. A completed Maine EMS application.
       2. Current training certification from the entity that provides the
          Board approved statewide emergency medical dispatch protocols.

          (a) A current training certification or recertification cannot be used
          more than one time to fulfill Maine EMS Emergency Medical
          Dispatcher training requirements for a new or renewal license.

          (b) If a training certification or recertification was completed more
          than a year prior to application, a license may be issued that is
          valid for two years from the certification month.

       3. Board-approved testing in accordance with the Maine EMS-approved Emergency
       Medical Dispatch Priority Reference System.

       4. A complete history of criminal convictions, as well as civil infractions involving
       alcohol or drugs. Maine EMS will consider this to the extent allowed by Maine
       Law.

       5. A complete history of any action taken against any emergency medical dispatch
       certification or license or any other professional certification or license that the
       applicant currently holds or has ever held.
§5. License Expiration and Renewal and Expiration

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.

2. At the time of renewal, each licensee must certify, on an application provided by Maine EMS, the number of continuing education hours completed for license renewal. No additional information or continuing education documentation is required to be submitted at the time of renewal. However, the licensee shall retain documentation of continuing education hours included in the current renewal period. For purposes of this paragraph, “current renewal period” means the 36 month period prior to the application date. In calculating continuing education hours completed prior to the month of application, the last day of each month shall be considered the completion date for all continuing education completed within a given month.

3. Applicants for license renewal will be selected by Maine EMS on a random basis for audit of continuing education compliance. In addition, an individual licensee may be selected for an audit as part of an investigation or if there is reasonable cause to believe the licensee has provided a false certification concerning the completion of continuing education requirements. An audit will review the continuing education hour certifications used for the past two license renewals, the last two continuing education hour certifications submitted by the licensee, including the current renewal period.

4. Licensees selected for audit will be notified to submit documentation of the continuing education hours that were certified by the licensee at the time of renewal. Continuing education hours that cannot be documented in accordance with the documentation requirements determined by the Board or that do not satisfy the requirements for continuing education contained in these Rules will be disallowed.

5. Applicants for license renewal must present proof of satisfactory completion of continuing education in accordance with these Rules. Failure to comply with the continuing education rules may, at Maine EMS’ discretion, result – in accordance with 32 M.R.S. Chapter 2-B and the Maine EMS Rules 32 M.R.S.A. §90-A and Chapter 12 of these Rules - in disciplinary action to deny license renewal, or may result in a decision to enter into a consent agreement and probation setting forth terms and conditions to correct the licensee’s failure to complete continuing education or may result in any other disciplinary action available to the Board. Terms and conditions of a consent agreement may include requiring completion of increased hours of continuing education, civil penalties, suspension and other terms as the Board, the licensee and the Department of the Attorney General determine appropriate.
5-6. A person may renew a license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license. Emergency Medical Dispatchers whose licenses have lapsed as of the expiration date cannot provide emergency medical dispatch services until a renewed license has been issued.

6-7. An application submitted more than 90 days after the license expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

§6.—Transition to Statewide Emergency Medical Dispatch Protocol

1.—As of July 1, 2010, Maine EMS licensed Emergency Medical Dispatchers must be certified by the entity selected to provide the Board-approved statewide Emergency Medical Dispatch protocol.

AUTHORITY: 32 M.R.S.A. § 85-A, 88
EFFECTIVE DATE: September 1, 2006 (New)
REPEALED AND REPLACED: October 1, 2009

CHAPTER 6: ADVANCED LIFE SUPPORT DRUGS AND MEDICATIONS

§1. GENERAL

1. For the purpose of this Section, "drugs and medications" include only those substances used by Maine EMS licensed services and persons in the delivery of Advanced Emergency Medical Treatment, consistent with Maine EMS Protocols. Maine EMS will maintain a list of approved drugs and medications and will revise and publish the list when changes in protocol dictate.

2. The administration of drugs or medications to a patient shall be determined by applicable protocols, and recorded on the Maine EMS run report.

3. A service authorized by Board license or permit to handle drugs or medications shall:
   
   A. Use as a Food and Drug Administration (FDA)-state or federally approved the source of drugs and medications a single hospital that has a pharmacy, several hospitals with either individual or central supply points, or some other source approved by the Board. The system distribution of drugs and medications distribution to the service will be overseen by a responsible licensed pharmacist, or by a regional medical director or his/her physician designee licensed physician.

   A.B. A service authorized by Board license or permit to handle drugs or medications shall operate consistent with these Rules except when an alternative system for the supply, storage, and logging of drugs and medications has been approved by a responsible pharmacist, by the regional medical director, and by Maine EMS. Under any such system, all drugs and medications shall be properly stored with provision for climate control.

   C. Any instances of missing controlled drugs or medications must be reported to Maine EMS as soon as possible. A full report of the service’s investigation of the missing drugs and any action the service may have taken regarding the incident must be sent to MEMS-Maine EMS as soon as it is complete.

§2. STORAGEING DRUGS AND MEDICATIONS
1. All drugs and medications must:

   A. be stored in packaging as dispensed and/or labeled by a pharmacy.

   B. All drugs and medications shall be properly stored with provision for reasonable climate control.

   C. Unless otherwise approved by the Board, all drugs and medications must be secured in a storage box unless otherwise approved by the Board. The box must be secured with a one-time, pharmacy-type, numbered seal applied and recorded by an authorized representative of the hospital. The box must have a label attached indicating the name of the earliest expiring item and its expiration date.

2. Maintain a drug/medication log for each vehicle (or, in the case of a non-transporting service, for each drug box) must be kept by the service indicating:

   A. Date the service received the storage box with new seals.

   B. Seal numbers (old and new) whenever seal is broken and replaced.

   C. Use and disposal of drugs/medications including applicable Maine EMS patient/run record number.

   D. Legible signature and license number of person making the log entry.

   E. To ensure that drugs and medications have not expired or been tampered with, the integrity of the seal and the expiration date must be checked at least daily for scheduled drugs and weekly for non-scheduled drugs, and recorded in the drug/medication log. Any service utilizing only one licensee authorized to treat with drugs and medications will ensure that this check of seal integrity is carried out by an authorized official of the service other than this licensee.

   F. The drug/medication log will be checked at the annual service inspection, or as requested by the Board. Services shall maintain drug/medication logs for a minimum of 5 years.

3. A service authorized by Board license or permit to handle drugs or medications and which elects to store those drugs that have been approved by the Board to be stored outside of the sealed drug box, shall comply with these Rules as applicable and any criteria approved and published by the Board.
The administration of drugs to a patient shall be determined by applicable protocols and recorded on the run report.

§1. Training Courses

1. Training courses must be conducted in accordance with the Board-approved Training Center Standards.

2. The following training courses are approved for licensure at the EMR, EMT, AEMT and Paramedic levels indicated levels:

   A. Emergency Medical Responder (EMR):

      1. For initial licensure at the Emergency Medical Responder level - A Maine EMS approved Emergency Medical Responder course, or any equivalent course which in itself, or with specified supplementary instruction, is approved by the Board as including all of the required objectives for this training.

      2. For renewal at the Emergency Medical Responder level - A Maine EMS approved EMT-continuing education hours in accordance with the licensing requirements of Chapter 5 of these Rules Emergency Medical Responder course or any other course which is approved by the Board as including all of the required objectives for this training.

   B. Ambulance Attendant:

      For renewal at the Ambulance Attendant level - A Maine EMS approved EMT-continuing education hours in accordance with the licensing requirements of Chapter 5 of these Rules Emergency Medical Responder course or any other course which is approved by the Board as including all of the required objectives for this training.

   C. EMT:

      1. For initial licensure at the EMT level:

         (a) A Maine EMS EMT course, or any equivalent course which in itself, or with specified supplementary instruction, is approved
by the Board as including all of the required objectives for this training; or

(b) A Board-approved EMT bridge course for physicians, physician assistants, nurses, and other licensed/certified allied health care professionals who receive permission from Maine EMS to use this course for licensure; or

(c) A Board-approved bridge course for Emergency Medical Responders.

2. For renewal at the EMT level—Maine EMS continuing education or any other continuing education program or course that is approved by the Board as containing all of the objectives required for this training.

D. Advanced Emergency Medical Technician, Critical Care, Paramedic:

1. For initial licensure at the Advanced Emergency Medical Technician or Paramedic level:

(a) An original course of training for students who have met the training requirements for licensure as an advanced EMT which is approved by the Board as including all of the objectives required for the level for which licensure will be sought; or

(b) Bridge courses for persons who have met the training requirements for licensure as an advanced EMT which are approved by the Board as including all of the objectives required to bridge the particular levels; or

(c) Any other course of training that is approved by the Board as including the objectives required for the particular level of training.

2. For renewal at the Advanced Emergency Medical Technician, Critical Care, or Paramedic level—Maine EMS continuing education or any other continuing education program or course of training that is approved by the Board as including all of the objectives for the particular level.

E.B. Any course (not including continuing education hour programs) leading to certification for EMS provider licensure must be supervised by an instructor/coordinator licensed by Maine EMS for that particular level and must be approved by a Maine EMS Training Center. Out-of-state courses
and certifications will be judged on a case-by-case basis using a comparison of Maine EMS approved curricula.

C. Applicants to conduct courses leading to certification for EMS provider licensure must comply with the requirements for conducting courses as approved and published by Maine EMS.

F-D. Candidates must meet the training requirements for licensure at the level from which the course starts.

§2. EMS Continuing Education Programs

1. A program held in Maine or out of state may be approved for continuing education hours (CEH) if it meets the following conditions:

A. The sponsor must apply before the program is to begin. Only under unusual circumstances, such as those set forth in Chapter 13 §§2.1–5, of these Rules, may continuing education hour courses be approved after they have occurred;

B. The topics to be taught must be relevant to EMS;

C. The instructor must be qualified to instruct the topic by knowledge and/or training in the topic area;

D. The sponsor must make known to the students those requirements the students must meet in order to receive attendance certification;

E. The sponsor must submit to the approver, who must submit the Maine EMS-approved attendance roster for the program to Maine EMS, a final attendance list for the program. The roster must include the names and license numbers of those attending, attendees’ signatures, the number and type of hours approved, and the approval number. The list must be physically or electronically signed by the sponsor as verification of attendance;

F. The program must be open to all EMS providers the public unless otherwise specifically approved by the approver Maine EMS, a regional council or a Training Center; and

G. The sponsor must provide the students an opportunity to comment in writing on the program and must make these comments available to Maine EMS upon request within thirty days after the end of the program. Sponsors of
CEH offered through publications approved by Maine EMS need not provide this opportunity.

2. Maine EMS may grant continuing education hours for programs offered through professional journals, audio and visual media, teleconferencing, the Internet, and other forms of distributive learning, or for other educational programs not described in this Chapter, when requested by the sponsor applicant. For Maine EMS to consider granting CEH approval the applicant must submit to Maine EMS:

   A. An outline and description of the program, to include program handouts;

   B. The name and address of the program sponsor;

   C. The names of any EMS agencies granting the program continuing education hours;

   D. A contact name and telephone number for attendance verification;

   E. A program completion certificate, or equivalent;

   F. If applicable, approval from the Commission on Accreditation For Pre-Hospital Continuing Education (CAPCE), formerly known as the Continuing Education Coordinating Board for EMS (CECBEMS); and

   G. Proof, if the program was not supervised, that the program required, and the applicant successfully completed, a knowledge test in order to receive a program completion certificate.

3. Programs that have been previously approved by Maine EMS, a regional council or a Training Center may be approved without further review, provided that:

   A. Maine EMS, regional council, or a Training Center has not rescinded the program’s approval; and

   B. No significant changes have been made to the program content or faculty;

3.4. Maine EMS may delegate approval of in-state continuing education programs that meet the requirements of this chapter, pursuant to these Rules, to regional councils or a Maine EMS approved Training Center provided that they maintain a system for assuring high quality programs and provide such program information in a timely manner as requested by Maine EMS.

§1. A provider of emergency medical services education and training courses-leading-to-licensure in Maine must be authorized by the Board in accordance with 32 M.R.S.A. §88(2)(D) and these Rules.

§2. Authorization Factors – The authorization issued under this chapter is for a Training Center

1. Ownership

Upon request of the Board, an applicant or authorized Training Center must provide the Board with the identity and legal status (e.g. municipality, corporation, limited liability company, sole proprietorship) of the person or entity that holds, or is making application for the authorization. Failure to provide this information will result in an application being treated as incomplete.

2. Physical address or location

An authorization is issued for a specific physical address or location.

§3. Change in Authorization Factors

A Training Center must receive Board approval to change any of the authorization factors.

§4. Standards

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for authorization. To obtain new authorization, a Training Center applicant must:

   A. Apply in a format prescribed by Maine EMS; and,

   B. Demonstrate to Maine EMS that the applicant complies with the requirements of 32 M.R.S.A. §88(2)(D), the Rules, and the Board-approved Training Center Standards.

2. A Training Center Authorization is issued for a period of 60 months unless earlier suspended or revoked. An authorization may be issued for a shorter period of time if approved by the Board.
3. A Training Center must demonstrate ongoing compliance with these Rules and the Training Center Standards in order to maintain its authorization.

§5. Renewal

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for authorization.

2. A Training Center may apply for a renewal authorization for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date. A Training Center with an expired authorization cannot provide education and training courses pursuant to the Training Center Standards. An application submitted more than 90 days after expiration shall be considered a new application and subject to all requirements governing new applications.

3. In order to obtain an authorization renewal, a Training Center must:
   A. Apply electronically or by mail; and,
   B. Demonstrate, as may be required by Maine EMS, that it meets the licensing requirements of 32 M.R.S.A. §88(2)(D), these Rules and the Training Center Standards.

§6. Termination of Training Center Authorization

Any Training Center intending to terminate its operations must make written notification to Maine EMS at least 30 days prior to the termination date.

AUTHORITY: 32 M.R.S.A. §84, §88

EFFECTIVE DATE: May 1, 2013 (NEW)
§1. Licenses are issued for the following levels of Instructor Coordinators (I/C):

1. I/C - EMT - a person licensed at the I/C - EMT level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, and EMT license levels.

2. I/C - Advanced Emergency Medical Technician (AEMT) - a person licensed at the I/C - AEMT level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, EMT and Advanced Emergency Medical Technician (AEMT) license levels.

3. I/C - Paramedic - a person licensed at the I/C - Paramedic level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, EMT, Advanced Emergency Medical Technician (AEMT), and Paramedic license levels.

§2. Licensed Instructor Coordinators are responsible for EMS licensure program criteria as approved by the Board. Instructor Coordinator licenses are valid for a period of three years, or as otherwise determined by Maine EMS.

§3. To obtain and maintain a new or renewed Instructor Coordinator license, the applicant must:

Be at least 18 years of age.

1. Be able to write, speak, and understand the English language.

2. Possess 3 years of experience in emergency medicine at the level for which they are applying.

3.2. Submit the following to Maine EMS:

A. A completed Maine EMS Instructor Coordinator application signed by the applicant.

B. Proof of operational experience and education consistent with current Maine EMS Education Standards at the:
CHAPTER 9: INSTRUCTOR COORDINATOR LICENSE

1. EMT level, if applying for an I/C-EMT license.

2. Advanced Emergency Medical Technician (AEMT) level, if applying for an I/C – AEMT license.

3. Paramedic level, if applying for an I/C – Paramedic license.

C. Training Certification, which may be:

1. A Board-approved instructor coordinator training program completed within three two years of license application at the appropriate level taught by a Maine EMS licensed I/C following the guidelines set forth by the Training Center or a program judged by Maine EMS to be equivalent; or,

2. For licensees whose Maine Instructor Coordinator license is current or not expired by more than two years - Maine EMS-approved continuing education hours - 2416 hours in category 7 of Maine EMS approved continuing education, Instructor Coordinator Recertification - specifically designed to address educational issues and approved by Maine EMS, provided that:

   (a) Certificates of continuing education hours have not been used for a previous license renewal and have been earned within the past three two years.

   (b) No more than 6 hours of continuing education received by the applicant for instructing Maine EMS licensing courses may be used towards fulfilling license renewal relicensure requirements.

D. A complete history of criminal convictions as well as civil infractions for alcohol or drugs. Maine EMS will consider this to the extent allowed by Maine Law.

E. A complete history of any action taken against any emergency medical services certification or license or professional certification or license that the applicant currently holds or has ever held.

§4. License Expiration and Renewal and Expiration

1. A Licensee shall submit an application for renewal prior to the expiration date of the license. To ensure timely processing, the application should be submitted thirty (30) days prior to the expiration of a license. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.
2. At the time of renewal, each licensee must certify, on an application provided by Maine EMS, the number of continuing education hours completed for license renewal. No additional information or continuing education documentation is required to be submitted at the time of renewal. However, the licensee shall retain documentation of continuing education hours included in the current renewal period. For purposes of this paragraph, “current renewal period” means the 36 month period prior to the application date. In calculating continuing education hours completed prior to the month of application, the 31st last day of each month shall be considered the completion date for all continuing education completed within a given month.

3. Applicants for license renewal will be selected by Maine EMS on a random basis for audit of continuing education compliance. In addition, an individual licensee may be selected for an audit as part of an investigation or if there is reasonable cause to believe the licensee has provided a false certification concerning the completion of continuing education requirements. An audit may review the last two continuing education hour certifications submitted by the licensee, including for the current renewal period.

4. Licensees selected for audit will be notified to submit documentation of the continuing education hours that were certified by the licensee at the time of renewal. Licensees will have ten (10) days from the date of notification to submit all requested documentation. Continuing education hours that cannot be documented in accordance with the documentation requirements determined by the Board or that do not satisfy the requirements for continuing education contained in these Rules will be disallowed.

5. Applicants for license renewal must present proof of satisfactory completion of continuing education in accordance with these Rules. Failure to comply with the continuing education rules may, at Maine EMS’ discretion, result – in accordance with 32 M.R.S.A., §90-A and Chapter 2B Chapter 12 of the Maine EMS Rules – in disciplinary action to deny license renewal or may result in a decision to enter into a consent agreement and probation setting forth terms and conditions to correct the licensee's failure to complete continuing education or may result in any other disciplinary action available to the Board. Terms and conditions of a consent agreement may include requiring completion of increased hours of continuing education, civil penalties, suspension and other terms as the Board, the licensee and the Department of the Attorney General determine appropriate.

6. A person may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license.
5.7. Licensees whose licenses have lapsed as of the expiration date cannot provide instruction expired cannot act in an Instructor Coordinator capacity in any class leading to licensure until a renewed license has been issued.

8. An application submitted more than ninety (90) days after the license expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

§5. Duty to Report

9. A licensee or an applicant for licensure under this chapter shall notify the Board in writing within 10 days of a:

A. Change of name or address;
B. Criminal Convictions;
C. Revocation, suspension or other disciplinary action taken in this or any other jurisdiction against any occupational or professional license held by the applicant or licensee; or,
D. Material change in the conditions or qualifications set forth in the original application for licensure submitted to the Board.

9-4
§1. Emergency Medical Dispatch Training Courses

1. Training courses for certification leading to licensure or relicensure as a Maine Emergency Medical Dispatcher must meet the requirements set forth in the Maine EMS approved Emergency Medical Dispatch Priority Reference System.

2. Applicants to conduct courses leading to Emergency Medical Dispatcher licensure must comply with requirements set forth in the Maine EMS approved Emergency Medical Dispatch Priority Reference System.

§2. Emergency Medical Dispatch Instructors

Any course leading to certification for licensure must be supervised by an instructor that meets the requirements set forth in the Maine EMS approved Emergency Medical Dispatch Priority Reference System.

§3. Emergency Medical Dispatcher Continuing Education Programs

1. Emergency Medical Dispatcher continuing education training programs shall be conducted in accordance with the requirements of the Maine EMS Board-approved certifying entity.

2. The Board may require specific continuing education programs for Maine licensed Emergency Medical Dispatchers, based upon an educational or training need identified by Maine EMS.

3. A program held in Maine or out of state may be approved for the Emergency Medical Dispatcher continuing education hours (CEH) pursuant to these Rules if it meets the following conditions:

   A. The sponsor must apply before the program begins. Only under unusual circumstances, such as those set forth in Chapter 13 §2.1—5 of these Rules, may continuing education hour courses be approved after the courses have been conducted;

   B. The topics to be taught must be relevant to Emergency Medical Dispatchers;
C. The instructor must be qualified by education, training, and experience to instruct the topic;

D. The sponsor must advise the students of requirements the students must meet in order to receive an attendance certificate;

E. The sponsor must submit to the approver, who must submit to Maine EMS, a final attendance list for the program, which includes the names and certificate numbers of those attending, the number and type of hours approved, and the approval number. The list will be signed by the sponsor as verification of attendance;

F. The program must be open to all Emergency Medical Dispatchers unless otherwise specifically approved by the approver; and

G. The sponsor must provide the students an opportunity to comment in writing on the program and must make these comments available to Maine EMS upon request within thirty days after the end of the program. Sponsors of CEH offered through publications approved by Maine EMS need not provide this opportunity.

---

Maine EMS may grant Emergency Medical Dispatchers continuing education hours, required by the Rules for programs offered through professional journals, audio and visual media, teleconferencing, the Internet and other forms of distributive learning, or for other educational programs not described in this Chapter. To receive approval the applicant must submit to Maine EMS:

A. An outline and description of the program, including program handouts;

B. The name and address of the program sponsor;

C. The names of any agencies granting the program continuing education hours, to the extent known;

D. A contact name and telephone number for attendance verification;

E. A program completion certificate, or equivalent;

F. If applicable, approval from the Continuing Education Coordinating Board for EMS (CECBEMS);

G. Proof, if the program was not supervised, that the program required, and the applicant successfully completed, a test in order to receive a program completion certificate.
5. When Maine EMS, or its delegate, approves specific program content and instructor for Emergency Medical Dispatcher continuing education hours that are used to fulfill the requirements of Chapter 5-A and has not rescinded such approval, subsequent applications by the instructor for that program will be approved without further review if there are no changes in program content or faculty.

6. Maine EMS may delegate approval of in-state continuing education programs. The entity or person delegated to approve in-state continuing education programs must maintain a system substantially equivalent to or stricter than the continuing education approval requirements included in these Rules. The delegated approver will ensure high-quality programs and will provide program information in a timely manner as requested by Maine EMS.

CHAPTER 10: RECIPROCITY

§1. Any ambulance service, vehicle or person licensed in another state or territory to provide emergency medical treatment, and entering Maine in response to a call to assist in a mass-casualty situation, is exempt from the provisions of these Rules requiring licensure in Maine.

§4. If a person holds a valid license or certificate entitling him/her to practice as an EMS provider in another state or territory, he/she may receive reciprocal licensing provided he/she satisfies all the requirements of Chapter 5. Licensure and license expiration date will be based on materials supplied by the applicant which demonstrate the following:

1. Certification of training history.
2. Certification of testing history.
3. Certification/licensure in another state or territory.
4. History of criminal convictions and actions taken against professional licenses in accordance with Chapter 5 of these rules. Maine EMS will consider this to the extent allowed by Maine law.

§1. The Board may refuse to issue or renew a license, or may modify, suspend, or revoke a license, if an applicant or licensee engages, or attempts to engage in any of the following, which shall be considered unprofessional conduct:

1. Obtaining a license or certification by fraud, by deceit, by misrepresentation, or by concealing material facts.

2. Violating a lawful order, rule or consent agreement of the Board.

3. Violating any of the provisions of 32 M.R.S.A, Chapter 2-B.

4. Any criminal conviction, subject to the limitations of Maine statute.

5. Acting in ways that are dangerous or injurious to the licensee or other persons.

6. Renting, selling, bartering or lending a license to another person.

7. Addiction to a drug, including alcohol or responding to the scene of a call while under the influence of drugs or alcohol, whether or not the use of such substances is habitual.

8. Initiating the transport of a person, knowing that the person does not need to be transported, or treating a person knowing the person does not need to be treated, when the primary purpose of the action is to collect a fee or charge.

9. Obtaining a fee by fraud, deceit or misrepresentation.

10. Responding to the scene of an accident or incident to which the licensee has not been dispatched, when there is reason to believe that another licensee has been or will be called to that scene, and refusing to turn over the care of the patient to the responsible service when it arrives.

11. Failing to provide patient information to a hospital or other health care facility in response to an authorized request.
12. Disclosing or causing to be disclosed confidential patient information to an unauthorized person or using confidential patient information for personal or unauthorized financial benefit.

13. Engaging in conduct prohibited by law, other than conduct that falls within the following categories and is not related to the practice: minor traffic violations; minor civil violations; and conduct that could be charged as Class E crimes under Maine law.

   Possession of a useable amount of marijuana in violation of 22 M.R.S.A § 2383 is not considered a minor civil violation.

14. Violation of any standard established in the profession.

15. Inaccurate recording of material information, or falsifying or improperly altering a patient or healthcare provider record.

16. Exploiting the provider-patient relationship for the purpose of personal or financial gain by the licensee or by a third party including, but not limited to, promoting or selling services, goods, appliances or drugs.

17. Diverting drugs, supplies or property of patients, patient’s families, services, or healthcare providers.

18. Possessing, obtaining, furnishing or administering prescription drugs, equipment or supplies to any person, including one’s self, except as directed by a person authorized by law to prescribe such items.

19. Impersonating another licensed practitioner.

20. Impersonating any applicant or licensee, or acting as proxy for the applicant or licensee in any licensing exam.

21. Acting negligently or neglectfully when caring for or treating a patient.

22-21.

22. Incompetent practice. A licensee or applicant shall be deemed incompetent in the practice if the licensee or applicant has:

   A. Engaged in conduct which evidences a lack of ability or fitness to discharge the duty owed by the licensee to a client, patient, student or the general public; or
CHAPTER 11: STANDARDS AND PROCEDURES FOR REFUSING TO ISSUE, OR RENEW, A LICENSE, AND FOR MODIFYING, SUSPENDING, OR REVOKING A LICENSE

B. Engaged in conduct that evidences a lack of knowledge or inability to apply principles or skills to carry out the practice or instruction for which he/she is licensed, or for which a Training Center is authorized.

24.22 Losing certification or license, when the certification or license is a necessary condition of licensure. For instance, a person licensed in Maine on the basis of training obtained in another state would lose his Maine license if the other state revoked his or her certification or license.

25.23 Acting negligently or neglectfully in conducting an ambulance service.

26.24 Acting negligently or neglectfully in conducting a Maine EMS continuing education program or licensure program.

27.25 Altering or falsifying a license or documents used or intended to be used to obtain a course card or certificate.

28.26 Operating an ambulance or EMS vehicle that is not licensed or authorized by the Board.

29.27 Using or attempting to use as a valid license one that has been purchased, counterfeited materially altered, or obtained by fraud, deceit or misrepresentation.

30.28 Transferring a license from one vehicle to another without the consent of the Board.

34.29 Willfully making a false statement in an application for a license or renewal of a license, or in any activity or documents intended to be used to satisfy a requirement for licensure.

32.30 Providing treatment or Emergency Medical Dispatch, at a level for which a person is not licensed or for which a service is not licensed or permitted.

33.31 The practice of fraud, deceit, misrepresentation, or the concealment of material facts in connection with service rendered within the scope of the license issued.

34.32 Habitual intemperance in the Misuse of drugs, including alcohol, or other substances, the use of which has resulted or may result in the licensee performing his or her duties in a manner that endangers the health or safety of his or her patients or students.

35. A professional diagnosis of a mental or physical condition that has resulted or may result in the licensee performing his or her duties in a manner that endangers the health or safety of his or her patients or students.
36. Aiding or abetting the practice of emergency medical treatment by a person not duly licensed under 32 M.R.S.A., Chapter 2-B.

34. Delegation of practice, skills, treatment or educational instruction to a person who is not licensed or qualified to perform said practice, skills or treatment.

37-35. Abandonment or neglect of a patient.

Abandonment or neglect of a patient requiring emergency medical treatment.

38-36. Causing physical or emotional injury to a patient in violation of the applicable standard of care.

39-37. Failing to safeguard the patient’s dignity and right to privacy in providing services regardless of race, creed, color, sexual orientation, gender or socio-economic status.

40-38. Sexual misconduct as defined in Chapter 14 of these Rules.

41-39. Providing instruction at a level for which a person is not licensed.

42-40. Providing instruction at a level for which a Training Center is not authorized or licensed to provide.

43-41. Aiding or abetting the practice of instruction by a person not duly licensed as a Maine EMS Instructor Coordinator, when a licensed Instructor Coordinator is required.

44-42. Violating any of the requirements of the Training Center Standards.

43. Failure to provide program or course documentation when required or requested by Maine EMS.

44. Inaccurate recording of material information, or falsifying or improperly altering an emergency medical dispatch record.

45. Acting negligently or neglectfully in the provision of emergency medical dispatch services to a caller or patient.

46. Acting negligently or neglectfully in conducting an Emergency Medical Dispatch Center.

Providing emergency medical treatment or emergency medical dispatch services when not licensed to do so.
Abandonment or neglect of a patient or caller requiring emergency medical dispatch services.

47. Aiding or abetting the practice of emergency medical dispatch services by a person not duly licensed as a Maine EMS Emergency Medical Dispatcher

48. Failing to participate in Maine EMS approved quality assurance activities.

49. Failure to comply with continuing education requirements for license renewal.

§1. Disciplinary Actions

1. Investigation of Complaints

   The Board, its subcommittee or staff shall investigate complaints in accordance with 32 M.R.S.A. § 90-A (1). The investigating body may require that the complaint be submitted on complaint forms developed for that purpose and with supporting documentation in order to have sufficient information to evaluate the complaint. The board or, as delegated, its staff, shall investigate a complaint on its own motion or upon receipt of a written complaint filed with the board regarding noncompliance with or violation of this chapter or of any rules adopted by the board. Investigation may include an informal conference before the board, its subcommittee or staff to determine whether grounds exist for suspension, revocation or denial of a license or for taking other disciplinary action pursuant to this chapter. The board, its subcommittee or staff may subpoena witnesses, records and documents, including records and documents maintained by a health care facility or other service organization or person related to the delivery of emergency medical services, in any investigation or hearing it conducts.

2. Notice of Complaints and Response

   A. Notice

      The Board, its subcommittee or staff shall notify an individual or organization of the content of a complaint filed against the individual or organization not later than sixty (60) days after receipt of the initial pertinent information, in accordance with 32 M.R.S.A. § 90-A (2). Notice shall be in writing. Service of the notice is complete upon mailing to the party, the party’s attorney, or upon in-hand delivery to the party or the party’s office in accordance with 5 M.R.S.A. § 8051 (2).

   B. Response

      If the licensee wishes to contest the complaint or dispute the information that forms the basis of the complaint, the licensee must respond to the Board in writing by certified mail, return receipt requested. For this response to be considered timely, it must be received by Maine EMS within thirty (30) days of
receipt of the Board’s notice in accordance with 32 M.R.S. § 90-A (2). Service of the licensee’s response is complete when the Board or the Board’s Staff receives the response by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1).

C. Additional Information

The Board, its subcommittee or staff may request additional information from the licensee, in support of any response received. If the licensee’s response to the complaint satisfies the Board, its subcommittee or staff that no further action is warranted on the complaint, the complaint may be dismissed. Notice of the dismissal must be sent to any complainants.

D. Further Communications with Complainant

The Board, its subcommittee or staff may provide the complainant with a copy of the licensee’s response or portions thereof, as the members or staff determines to be necessary to facilitate the investigation. The Board, subcommittee or staff may request additional information from the complainant in support of the original complaint or in response to the licensee’s response. The complainant must provide this additional information to the Board, subcommittee or staff within thirty (30) days of being requested to do so, or indicate why the information cannot be obtained within that time.

E. Resolution of Complaints without Discipline

Upon the written information provided by the complainant, licensee and any others in support of the complaint and responses, the Board, its subcommittee or staff may take any of the following actions, which do not constitute discipline, except as specifically indicated:

2. The Board, its subcommittee or staff may issue a letter of guidance or concern pursuant to 32 M.R.S.A. § 88(4);

3. The Board or staff may dismiss the complaint and refer it to the Regional Medical Director for resolution to the extent that the complaint alleges conduct that relates solely to clinical practice issues. A complaint may be referred to both the Regional Medical Director for review of clinical practice issues and for further disciplinary procedures in accordance with these Rules, if the complaint alleges both clinical practice issues and issues appropriate for discipline by the Board;
4. The Board or staff may dismiss the complaint upon a finding that the complaint is factually unfounded or alleges conduct that is not a violation of EMS Rules or statutes;

4. Dismiss the complaint with a warning to the licensee if it finds all of the following:

(a) Misconduct subject to sanction under EMS Rules or statutes has occurred;

(b) The misconduct is minor;

(c) There is little or no injury to the public, the emergency medical services system or the profession; and

(d) There is little likelihood of repetition.

3. Informal Conferences

A. If, in the opinion of the Board, its subcommittee or staff, the factual basis of the complaint is or may be true and the complaint is of sufficient gravity to warrant further action, the licensee may be requested to participate in an informal conference in accordance with 32 M.R.S.A. § 90. The licensee shall be provided with at least seven days written notice of the conference and of the issues to be discussed, unless the licensee waives such right to notice or extraordinary circumstances warrant a shorter period of notice.

B. If, after the informal conference, the Board, subcommittee or staff determines that resolution without discipline is appropriate, the matter may be resolved by referral to the Regional Medical Director, a letter of guidance or concern, or dismissal, or dismissal with warning, as appropriate, and in accordance with EMS statutes and these Rules.

4. Sanctions

A. If, upon review of the written information provided by the complainant, licensee and any others in support of the complaint and responses, or after an informal conference, the Board, its subcommittee or staff determines that the complaint is or may be true, that a current or former licensee has violated Maine EMS statutes or Rules, and the violation is of sufficient gravity to warrant further action, any of the following may occur:
1. The Board, its subcommittee or staff may enter into a consent agreement with the licensee in accordance with 32 M.R.S.A. §88(3)(E) and §90-A (4)(A). Any remedy, penalty or fine, or cost recovery that is otherwise available by law may be achieved by consent agreement, including long-term suspension and permanent revocation of a license.

2. The Board, its subcommittee or staff may negotiate the voluntary surrender of a license by means of a consent agreement, in accordance with 32 M.R.S.A. 90-A (4)(B).

B. If the Board, its subcommittee or staff concludes that modification, nonrenewal, or suspension or other discipline within the Board’s authority pursuant to 32 M.R.S.A. § 88(3) (civil penalty; warning censure or reprimand; probation; suspension of up to 90 days per violation) is in order, the process is as follows:

1. The board shall notify the licensee in writing of the licensee’s right to request an adjudicatory hearing and concerning any proposed action of the Board.

2. The licensee must file a written request for hearing within twenty (20) thirty (30) days of receipt of the notice of opportunity for hearing. The request is considered filed when received by Maine EMS by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1). The Board may extend this period for good cause shown.

3. If the licensee makes a timely request for hearing, that hearing must be held by the Board in accordance with the Maine Administrative Procedure Act, Title 5, Chapter 375, Subchapter IV.

4. Failure to make a timely request for hearing shall be a waiver of any right to hearing and may result in a hearing being held with no further notice to the licensee, or the proposed action of the Board becoming final without further hearing.

5. If, after hearing, the Board concludes that the licensee committed one or more violations and imposes sanctions, this decision constitutes final agency action appealable pursuant to 32 M.R.S.A. 90-A (4)(C) and the Maine Administrative Procedure Act, 5 M.R.S.A, Chapter 375, Subchapter VII.

C. Except in the specific circumstances where 5 M.R.S.A. § 10004, Action without hearing, may be invoked, if the Board, its subcommittee or staff concludes that suspension beyond the authority conferred by 32
M.R.S.A. § 88 or revocation is in order, the Board, its subcommittee or staff may request the Attorney General to file a complaint in the District Court.

Time limits in these Rules may be modified as necessary to address emergency license suspensions, consistent with the Maine Administrative Procedure Act.

§2. Initial License Applications

1. Issuance Subject to Letter of Guidance or Consent Agreement

A. A license may be issued in conjunction with a letter of guidance or warning pursuant to 32 M.R.S. §88(4). The purpose of the letter is to educate the applicant, reinforce knowledge regarding legal or professional obligations, and express concern over action or inaction by the applicant that does not rise to the level of misconduct sufficient to merit denial of the application or negotiation of a Consent Agreement disciplinary action.

B. A license may be issued subject to a consent agreement with the applicant/licensee in accordance with 32 M.R.S.A. §88(3)(E) and 90-A (4)(A) if the applicant has engaged in conduct actionable under Maine EMS statutes or Rules and the terms of the consent agreement, in the opinion of the Board, subcommittee or staff, are adequate to protect the public health and safety, and to rehabilitate or educate the licensee.

2. Denial

A. Staff The staff or a subcommittee of the Board may deny an initial license application if done so in a written decision that reflects the reasons for the denial and informs the applicant of the right to appeal the decision to the Board.

B. A person or organization aggrieved by a subcommittee or staff decision to deny a license may appeal the decision to the Board for a final decision in accordance with 32 M.R.S.A. § 91-A.

C. If the applicant wishes to appeal the denial, the applicant must notify the Board in writing. The notice must be received by the Board within thirty (30) days of the applicant’s receipt of notice of the denial. Service of the notice of appeal is complete when received by Maine EMS by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1).

D. The staff’s or subcommittee’s decision stands until the Board issues a decision to uphold, modify or overrule the challenged decision.
E. The Board may, in its discretion, entertain additional evidence or argument from the parties, but need not conduct a full or formal adjudicatory hearing unless otherwise required by law.

F. The decision of the Board shall be in writing or stated on the record and contain or reflect the Board’s reasoning in a manner sufficient to inform the parties and the public, of the basis for the Board’s decision.

G. The Board’s decision constitutes final agency action, appealable to the Superior Court in accordance with the Maine Administrative Procedure Act, 5 M.R.S.A. Chapter 375, Subchapter VII.

§3. Non-Disciplinary Refusal to Renew

The staff or a subcommittee of the Board may recommend to the Board that it refuse to renew a license. Before presenting the recommended decision to the Board for consideration, staff shall mail or hand-deliver to the applicant/licensee written notice of the recommended decision and the reasons therefore with notice of applicant/licensee’s right to request a hearing in accordance with the Administrative Procedure Act. Service is complete upon mailing to the applicant/licensee or the applicant/licensee’s attorney, or upon in-hand delivery to the recipient or the recipient’s office in accordance with 5 M.R.S. § 8051 (2). Service of the notice of appeal is complete when received by Maine EMS by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1). Service is complete upon mailing or personal delivery.

1. If the applicant/licensee wishes to request a hearing, the applicant/licensee must submit a written request for a hearing to the Board. The written request must be received by the Board within thirty (30) days of the applicant/licensee’s receipt of notice of the proposed decision/opportunity to request hearing. Service of request is complete when received by Maine EMS by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1). Failure to submit a request within this period shall be deemed a waiver of the right to hearing, and the Board may adopt the recommended decision without further hearing.

1. The decision of the Board shall be in writing or stated on the record and reflect the Board’s reasoning in a manner sufficient to inform the parties and the public, of the basis for the Board’s decision.

1.2. The Board’s decision constitutes final agency action, appealable to the Superior Court in accordance with the Maine Administrative Procedure Act, 5 M.R.S.A.-M.R.S. Chapter 375, Subchapter VII.
OTHER STAFF/BOARD ACTIONS

1. A person or organization aggrieved by the decision of Maine EMS staff or a subcommittee of the Board in taking any non-disciplinary action pursuant to the Board’s statutes and Rules, including to waive the application of any rule, or in interpreting statutes or Rules governing the EMS system, may appeal the decision to the Board for a final decision in accordance with 32 M.R.S.A. §91-A.

2. In order to appeal such a decision, the person or organization must notify the Board in writing. The notice must be received by the Board within thirty (30) days of the applicant’s receipt of notice of the challenged decision. Service of the notice of appeal is complete when received by Maine EMS by mail, in-hand delivery, fax, or e-mail in accordance with 5 M.R.S. § 8051 (1).

3. The staff’s or subcommittee’s decision stands until the Board issues a decision to uphold, modify or overrule the challenged decision.

4. The Board may, in its discretion, entertain additional evidence or argument from the parties, but need not conduct a full or formal adjudicatory hearing.

5. The decision of the Board shall be in writing or stated on the record and contain or reflect the Board’s reasoning in a manner sufficient to inform the parties and the public of the basis for the Board’s decision.

6. The Board’s decision constitutes final agency action, appealable to the Superior Court in accordance with the Maine Administrative Procedure Act, 5 M.R.S.A. Chapter 375, Subchapter VII.

CHAPTER 13: WAIVER OF RULES

1. Upon the request of an individual, organization or on the Board’s own initiative, the Board may waive any of these Rules by a two-thirds majority vote of those present and voting and by no less than a majority of the appointed and currently serving members, if it determines that such a waiver would avert a significant injustice while preserving the public safety and the integrity of the statutory and regulatory components of the State’s EMS system.

§2. When determining whether to waive a rule, the Board will consider a number of factors including, but not necessarily limited to, the following:

1. Whether the person or organization seeking the waiver took reasonable steps to ascertain the rule and comply with it;

2. Whether the person or organization seeking the waiver was given inaccurate information by an agent or employee of the State EMS program;

3. Whether the person or organization seeking the waiver, or any other individual or group, would be significantly injured or harmed if the rule were not waived;

4. Whether waiver of the rule in the particular case would pose a health or safety risk to the public at large or a particular individual or community; and

5. Whether waiver of the rule in the particular case would establish a precedent that would unduly hinder the Board or office of EMS in its administration of Maine’s EMS system.

§3. A waiver is to be granted only under extraordinary circumstances. This means that the Board must find a number of the above factors weighing in favor of a waiver before it is granted.

§4. The Board shall notify any person requesting a waiver of its decision to grant or deny this request. The notice shall include a brief summary of the reasons for the Board’s decision.

§5. Any decision by the Board to deny a waiver may be appealed by the person seeking the waiver, in the manner prescribed in Chapter 12 of the Rules.

CHAPTER 14: SEXUAL MISCONDUCT

§1. Definitions

1. “EMS Provider” is an individual who is licensed or certified according to the provisions of 32 M.R.S.A. §81 et seq. and the Maine EMS Rules.

2. “EMS Provider’s sexual misconduct” is behavior that exploits the EMS Provider-patient relationship in a sexual way. This behavior is non-diagnostic and/or non-therapeutic, may be verbal or physical, and may include expressions or gestures that have a sexual connotation or that a reasonable person would construe as such. Sexual misconduct is considered incompetent professional practice and unprofessional conduct pursuant to 32 M.R.S.A. 90-A.590-A(5),E,F., and F. and Chapter 11 of the Maine EMS Rules. There are two levels of sexual misconduct: sexual violation and sexual impropriety. Behavior listed in either category may be the basis for disciplinary action.

3. “Sexual violation” is any conduct by a EMS provider with a patient that is sexual or may be reasonably interpreted as sexual, even when initiated by or consented to by a patient, including but not limited to:

   A. Sexual intercourse, genital to genital contact;
   B. Oral to genital contact;
   C. Oral to anal contact or genital to anal contact;
   D. Kissing in a sexual manner;
   E. Any touching of a body part for any purpose other than appropriate examination or treatment.
   F. Encouraging the patient to masturbate in the presence of the EMS provider or masturbation by the EMS provider while the patient is present; and,
   G. Offering to provide practice-related services, such as drugs, in exchange for sexual favors.
4. “Sexual impropriety” is behavior, gestures, or expressions by the EMS Provider that are seductive, sexually suggestive, or sexually demeaning to a patient, including but not limited to:

A. Kissing;

B. Disrobing, draping practices or touching of the patient’s clothing that reflect a lack of respect for the patient’s privacy; deliberately watching a patient dress or undress, instead of providing privacy for disrobing;

C. Examination or touching of genitals without a reported, suspected or obvious injury;

D. Inappropriate comments about or to the patient, including but not limited to making sexual comments about a patient’s body or underclothing; making sexualized or sexually demeaning comments to a patient, criticizing the patient’s sexual orientation, making comments about potential sexual performance during an examination or consultation, requesting details of sexual history or requesting information on sexual likes or dislikes;

E. Using the EMS Provider-patient relationship to solicit a date or initiate romantic relationship;

F. Initiation by the EMS Provider of conversation regarding the sexual problems, preferences, or fantasies of the EMS Provider, the sexual preferences or fantasies of the patient, or sexual problems of the patient that are not relevant to emergency medical treatment.

§2. Sanctions

1. If the Board finds that a licensee EMS Provider has engaged in sexual misconduct as defined in §1 of this chapter, the licensee EMS Provider shall be disciplined in accordance with Maine statutes and these Rules.

A. All disciplinary sanctions under 32 M.R.S. § 88 and 90-A(3) and 32 M.R.S.A § 90(A)(5) are applicable.

B. Sexual Violation – Finding of a sexual violation is egregious enough to warrant revocation of an EMS Provider’s license. The Board may, at times, find that mitigating circumstances do exist and may impose a lesser sanction.
C. Sexual Impropriety – Finding of a sexual impropriety will result in harsh sanction, which may include license revocation.

2. Special consideration should be given to at least the following when determining an appropriate sanction for sexual misconduct:

A. Patient harm;

B. Severity of conduct;

C. Motive and intent of licensee;

D. Inappropriate termination of EMS Provider-patient relationship;

E. Age of patient;

F. Physical and mental capacity of patient;

G. Frequency and duration of behavior;

H. Number of patients involved;

I. Evaluation/assessment results.

CHAPTER 15: MAINE EMS REGIONS AND REGIONAL COUNCILS

§1. Composition of Councils

A Regional Council shall, at least, provide adequate representation for ambulance and rescue services, emergency physicians and nurses, each hospital and the general public. A Regional Council shall be structured to adequately represent each major geographical part of its region. Regional Councils will identify and publicize names of representatives and their constituencies in order that constituents are able to effectively communicate with their representatives.

§2. Regional Council Activities

1. Only one Regional Council shall be recognized in any region. Any organization proposing to serve, as a Regional Council must state this intention in writing delivered to Maine EMS no later than 120 days before the start of the fiscal year in which the contract is to be written. The Board will select the organization which best demonstrates an ability to carry out those functions specified in the service contract for the upcoming fiscal year. The Board will then negotiate a price for carrying out the service contract with the organization selected to be the Regional Council. The Board may elect to enter into a 2-year contract consistent with the biennial budget process.

2. Regional Council activities specified in the service contract will include, but are not limited to those activities listed in 32 M.R.S.A., Chapter 2-B, §89. By December 31, following the year the contract was in effect, each Regional Council will submit to Maine EMS a final report for the previous fiscal year detailing its performance in carrying out the provisions of the service contract, and which includes an independently prepared financial report. Maine EMS will use financial reports for the purpose of monitoring the general activities of each Council and for setting reasonable prices for future service contracts. Because Regional Councils depend largely on Maine EMS for operational revenue, Maine EMS will endeavor to maintain a schedule of payments to the Region that provides operational funds in advance of the period in which the funds will be employed. Any regional personnel handling the disbursement of its funds shall be bonded at a minimum of $10,000.

§3. Designation of Regions

1. The Board shall delineate regions within the State in accordance with 32 M.R.S.A. Chapter 2-B §89(1).
2. Service Affiliation with Regions

   A. Services that respond only to cities, towns, townships, and territories within
      a single region will be affiliated with that region.

   B. Services that respond to cities, towns, townships and territories in more than
      one region will be affiliated with the region as determined by the initial
      hospital destination of a simple majority of the patients treated by the service
      as defined in §3.1 of this chapter.

3. Changes to Service affiliation within Regional designations are made by Maine
   EMS when they are approved by the Board and published in a document distributed
   to all service chiefs. The Board will seek advice from the services and regional
   councils affected regarding any disruption of patient service or
   EMS system caused by the proposed change in designation.

§4. Medical Control and Delegation

1. Regional Medical Directors acting within the provision of these Rules and 32
   M.R.S.A. Chapter 2-B are agents of Maine EMS. Regional Medical
   Directors may designate, with the approval of Maine EMS, licensed and qualified
   physicians to serve as their assistants in carrying out these provisions. These
   assistants will similarly be considered agents of Maine EMS.

2. A Regional Medical Director may impose conditions upon a licensee's ability to
   practice in that Director's region with the licensee's consent. In all cases, the
   Regional Medical Director must inform Maine EMS of this action as soon as
   possible and forward to Maine EMS a copy of the executed agreement. If a
   Regional Medical Director wishes to take action to modify a licensee's ability to
   practice at his or her license level or modify approval to practice and the licensee
   does not consent to the modification, the Regional Medical Director will
   immediately inform Maine EMS.

CHAPTER 16: DEATH BENEFITS FOR EMERGENCY MEDICAL SERVICES PERSONS WHO DIE IN THE LINE OF DUTY.

Summary: This chapter outlines the procedures governing the award of death benefits to the child, spouse or parent of an emergency medical services person who dies while in the line of duty.

§1. Definitions

1. “Child” means any natural born or unborn child, legally adopted child or stepchild of an emergency medical services person who, at the time of the emergency medical services person’s death, is:

   A. Conceived or less than 19 years of age;

   B. 19 or more years of age, but less than 25 years of age, and accepted for admission or enrolled in a full-time postsecondary educational institution; or

   C. 19 or more years of age and is incapable of self-support because of a physical or mental disability.

2. “Died while in the line of duty” means to cease to be alive or to sustain an injury or illness that results in death as a result of the performance of an emergency medical services person’s official duty.

3. “Director” means the Director of Maine Emergency Medical Services as defined in 32 M.R.S.A. §83, sub-§10-A.

4. “Emergency medical services person” has the same meaning as in 20-A M.R.S.A. §12552, sub-§1-C.

5. “Official duty” means an action that an emergency medical services person is authorized or obligated by law, rule, regulation or condition of employment or service to perform.

6. “Parent” means the natural or adoptive mother or father, or the stepmother or stepfather, whose parental rights have not been terminated and who contributed significantly to the upbringing of an emergency medical services person.
“Spouse” means a person who is legally married to an emergency medical services person at the time of the emergency medical services person’s death.

“Under the influence” means under the influence of alcohol, a drug other than alcohol, a combination of drugs or a combination of alcohol and drugs or having a blood alcohol level of .08% or more.

§2. Death Benefit – Amount and Receipt

1. If the Director determines that an emergency medical services person died while in the line of duty, the State shall pay a benefit of $50,000 as follows:

   A. If there is no surviving child of the emergency medical services person, to the surviving spouse;

   B. If there is a surviving child or children and a surviving spouse of the emergency medical services person, 1/2 to the surviving child or children in equal shares and 1/2 to the surviving spouse;

   C. If there is no surviving spouse of the emergency medical services person, to the child or children in equal shares; or

   D. If there is no surviving child or spouse, to the parent or parents of the emergency medical services person, in equal shares.

§3. Limitation on Benefit

1. Notwithstanding a determination by the Director that an emergency medical services person died while in the line of duty, a benefit may not be paid:

   A. If the death or the injury or illness that resulted in the death was caused by the intentional misconduct of the emergency medical services person or by the emergency medical services person’s intention to bring about the death or the injury or illness that resulted in the death;

   B. If the emergency medical services person was voluntarily under the influence at the time of the death or the injury or illness that resulted in the death and being under the influence was a substantial contributing factor in the death or the injury or illness that resulted in the death;

   C. If the emergency medical services person was performing in a grossly negligent manner at the time of the death or the injury or illness that resulted in the death;
D. To any person who would otherwise be entitled to a benefit pursuant to 25 M.R.S.A. c. 195-A and this chapter, if the person’s actions were a substantial contributing factor to the death of the emergency medical services person. Or.

E. If the potentially eligible child, spouse or parent dies prior to actual receipt of this death benefit.

§4. Filing Request for Benefit

1. A person who is potentially eligible to receive these benefits, or a person authorized to request benefits acting as an agent of a potentially eligible person, must forward a written request to the Director for a State of Maine Application for Line of Duty Death Benefit within 90 days of the emergency medical services person’s death. The 90 day period may be extended by the Director for good cause shown.

2. Upon receipt of the written request for a State of Maine Application for Line of Duty Death Benefit, the Director shall provide an application package and questionnaire that must be completed and returned within 30 days of receipt by the applicant. The 30 day period may be extended by the Director for good cause shown.

§5. Determination of Eligibility for Benefit

1. Upon receipt of a completed State of Maine Application for Line of Duty Death Benefit, the Director shall appoint a review panel consisting of at least three, but not more than five, persons knowledgeable in the emergency medical services person’s official duties.

2. The review panel shall convene to review the application, investigate the circumstances surrounding the death and make a written recommendation to approve or deny the application to the Director within 30 days. If the Director determines that further investigation is necessary, the Director may extend the review period.

3. The Director, after review of the recommendation, shall make the determination to approve or deny the application in a timely manner. The Director’s determination is the final agency decision.

§6. Interim Benefits

The Director may make interim benefits payments in accordance with and subject to the limitations outlined in 25 M.R.S.A. §1612.
§7. Appeal

An appeal of the final agency decision may be filed in accordance with the Administrative Procedures Act, 5 M.R.S.A. Chapter 375 Subchapter VII.

EFFECTIVE DATE: July 3, 1978 (EMERGENCY)

AMENDED:

EFFECTIVE DATE (ELECTRONIC CONVERSION): July 1, 2000

REPEALED AND REPLACED: July 1, 2000

July 1, 2003
Maine EMS may accept other equipment or supplies that it judges to be equivalent to these listed, however, specific approval from Maine EMS must be obtained before such a substitution is made.

EMR = Emergency Medical Responder
EMT = Emergency Medical Technician
AEMT = Advanced Emergency Medical Technician
PAR = Paramedic
ATA = Air Transfer Ambulance
SRAA = Scene Response Air Ambulance

§1. Equipment list for Non-Transporting Services

1. A non transporting service must possess, at a minimum, the equipment listed in this section and must maintain a system to ensure the availability of this equipment on any call.

   A. As of August 1, 2004, all medical equipment and medical supplies required in this section must be natural-rubber latex free.

§2. Airway management supplies

A. The Equipment list for Non-Transporting Services follows:

1. 4 Airways, Oral — One each of sizes: Large adult; adult; child; infant.

2. 4 Airways, Nasal — One each of sizes: Large adult; adult; child; infant.

3. 1 Aluminum foil — 18 inches by 25 feet roll or both an occlusive dressing and a device for wrapping the newborn, such as a "space blanket".

4. 1 Aspirator, Small Bulb.

5. 1 Automatic External Defibrillator (AED) — Must be a semi-automatic defibrillator with 1 set of pediatric and 2 sets of adult defibrillator pads.

6. 1 Bag Valve Mask, Adult — Automatic, pressure cycled resuscitators are not acceptable.

7. 1 Bag Valve Mask, Child

8. 1 Bag Valve Mask, Infant

9. 6 Bandages, Roller — self-adhering 3 inches minimum width.

10. 4 Bandages, Triangular.

11. Band aids — Box of assorted sizes.
12. 1 Blanket

13. 1 Burn sheet — Sterile.

14. 4 Collars, Extrication, Rigid — Pediatric, small, medium and large sizes required. Soft Collars are not acceptable.

15. 24 Disaster Tags — Tag type must be Maine EMS-approved.

16. 6 Dressings, Surgical — Minimum 5 inches by 9 inches.

17. 2 Dressings, Universal — 8 inches by 30 inches minimum.

18. 1 Flashlight — Battery operated containing at least 2 "D-Cell" batteries or equivalent. Penlights not acceptable.

19. 10 (Pair) Gloves

20. 1 Glucose Preparation — Commercially packaged — for emergency medical administration.

21. 2 (Pair) Goggles, Protective

22. 1 Head Immobilization Device — Any device that may be attached to a long spinal immobilization device for the purpose of immobilizing the head and cervical spine.

23. 1 Mask, Pocket — With oxygen inlet and one way valve.

24. 4 Masks — Surgical type.

25. Oxygen, Portable — At least one operable "D" cylinder, at a minimum 1500 psi, or its equivalent, equipped with a flow meter which will operate in all positions. Must have adult and child non-rebreather mask, adult nasal cannula, and infant mask.

26. Saline, Sterile — Commercially sealed container(s) must total no less than 500 ml and must not have passed expiration date.

27. 1 Shears, Trauma

28. Sphygmomanometers — Adult, large adult, child, and infant sizes.
29. **Spinal Immobilization Device, Long** — Long spine board or similar device providing adequate spinal immobilization acceptable.

30. **Splints, Padded Board** — 2 (3 inches by 36 inches) and 2 (3 inches by 15 inches). Similar splints such as cardboard, plastic, wire-ladder, or canvas with rigid inserts of like length and width may be carried in place of the 36 inch and 15 inch boards. Air splints or vacuum splints may be carried in place of one of the required padded board splints of each length.

31. **Sponges, Sterile** — 4 inches by 4 inches.

32. **Stethoscopes** — 1 adult, 1 pediatric

33. **Straps** — 9 feet in length, 2 inches minimum width; with buckles. Quick-clip and other commercial straps are acceptable; however, at least three 9 foot straps are required.

34. **Suction apparatus** — Portable unit to provide pharyngeal suction of at least 11.8 inches mercury (300mm Hg) within 4 seconds after the suction tube is clamped closed. Unit must have trap bottle, and be equipped with rigid pharyngeal suction tip and appropriate catheters.

35. **Tape, Adhesive, Roll** — At least 1 inch wide.

36. **Tourniquet** — Must be commercially prepared for hemorrhage control.

37. **Towels** — Medium size.

38. **Vests**, reflective.

---

§2. **Equipment List for Ground Ambulance Services**

1. As of August 1, 2004, all medical equipment and medical supplies required in this section must be natural-rubber latex free.

A. The Equipment list for Ground Ambulance Services follows:

1. **Airways, Oral** — One each of sizes: Large adult; adult; child; infant.
2. 4 Airways, Nasal—One each of sizes: Large adult; adult; child; infant.

3. 1 Aluminum foil—18 inches by 25 feet roll or both an occlusive dressing and a device for wrapping the newborn, such as a "Space Blanket".

4. 1 Automatic External Defibrillator (AED)—Must be a semi-automatic defibrillator with 1 set of pediatric and 2 sets of adult defibrillator pads.

5. 1 Bag Valve Mask, Adult—Automatic, pressure cycled resuscitators are not acceptable.

6. 1 Bag Valve Mask, Child

7. 1 Bag Valve Mask, Infant

8. 6 Bandages, Roller—self-adhering 3 inches minimum width.

9. 4 Bandages Triangular

10. Band aids—Box of assorted sizes.

11. 2 Emesis basins—Alternative containers acceptable.

12. 4 Blankets

13. 2 Burn sheets—Sterile.

14. 4 Collars, Extrication, Rigid—Pediatric, small, medium and large sizes required. Soft Collars are not acceptable.

15. 24 Disaster Tags—Tag type must be Maine EMS approved.

16. 6 Dressings, Surgical—Minimum 5 inches by 9 inches.

17. 4 Dressings, Universal—8 inches by 30 inches minimum.

18. 1 Fire extinguisher—A-B-C or B-C rated. Five pound size equivalent or larger. Must be secured in vehicle. Professionally inspected on annual basis.

17-25
19. 2 Flashlights—Battery operated containing at least at least 2 "D-Cell" batteries or equivalent. Penlights are not acceptable. One flashlight must be in the patient compartment.

20. 10 (Pair) Gloves

21. 1 Glucometer

22. 2 Glucose Preparation—Commercially packaged—for emergency medical administration.

23. 4 (Pair) Goggles, Protective

24. 4 Gowns/Overalls—Of adequate material and design to provide a protective barrier against contact with patient’s body fluids.

25. 1 Head Immobilization Device—Any device, which may be attached to a long spinal immobilization device for the purpose of immobilizing the head and cervical spine.

26. 1 Mask, Pocket—With oxygen inlet and one way valve.

27. 4 Masks—Surgical type.

28. 1 Obstetrical Kit—To contain sterile gloves, scalpel or scissors, umbilical clamps or tape, sterile dressings, towels, small bulb-aspirator, plastic bag, and receiving blanket. Kit must be sealed in plastic to prevent contamination.

29. Oxygen—"M" (also known as "DEY") cylinder or equivalent number of other size tanks to achieve a minimum storage capacity of 3000 liters (@ 2000 psi pressure, 70 degree temperature). "E" cylinders hold 685 liters when full (2000 psi). "D" cylinders hold 410 liters when full (2000 psi). A response-available ambulance must carry, as a minimum, the volume of portable oxygen required below plus the equivalent of an "M" cylinder at no less than 500 psi. All cylinders must be adequately secured in vehicle.

30. Oxygen Masks—2 each: adult non rebreather; adult nasal cannula; pediatric non rebreather; and, infant mask.

31. Oxygen, Portable—At least two operable "D" cylinders (410 liters each), one of which indicates a minimum pressure of 1500 psi and the other which indicates a minimum pressure of 500 psi. At least
one of the two required tanks shall be equipped with a flow meter that will operate in all positions.

32. 2 Pillows

33. 1 Pulse Oximeter

34. Saline, Sterile—Commercially sealed container(s) must total no less than 2000 ml and must not have passed expiration date.

35. 1 Sharps Container—Must be secured.

36. 2 Shears, Trauma

37. 4 Sheets

38. Sphygmomanometers—Adult, large adult, child and infant sizes.

39. 1 Spinal Immobilization Device, Long—Long spine board or similar device providing adequate spinal immobilization acceptable.

40. 1 Spinal Immobilization Device, Short—short spine board or similar device providing adequate spinal immobilization acceptable.

41. 4 Splints, Padded Board—2 (3 inches by 36 inches) and 2 (3 inches by 15 inches). Similar splints such as cardboard, plastic, wire ladder, or canvas with rigid inserts of like length and width may be carried in place of the 36 inch and 15 inch boards. Air splints or vacuum splints may be carried in place of one of the required padded board splints of each length.

42. 1 Splint, Traction—Adult size. Additional pediatric recommended.

43. 12 Sponges, Sterile—4 inches by 4 inches.

44. Stethoscopes, 1 adult, 1 pediatric.

45. 6 Straps—9 feet in length; 2 inches minimum width with buckles. Quick clip and other commercial straps are acceptable; however, at least three 9 foot straps are required.
46. **Stretcher**—as specified in Ch. 3 § 13(1)(E). All restraining straps must be used during patient transport unless they interfere with patient care, or a Child Protective Seat is in place.

47. **1 Stretcher, Folding**—Any of the following are acceptable: stair chair converting to full-length cot; army D-ring stretcher; ambulance folding stretcher; scoop stretcher.

48. **1 Suction device, Portable**, capable to provide pharyngeal suction of at least 11.8 inches mercury (300mm Hg) within 4 seconds after the suction tube is clamped closed. Unit must have trap bottle, and be equipped with rigid pharyngeal suction tip and appropriate catheters. The unit must be electrically powered—capable of operating from its own (internal) battery.

49. **3 Tape, Adhesive**—Assorted size rolls.

50. **Thermometer(s)**—Non-glass fever type. Hyperthermic and hypothermic ranges should be available.

51. **1 Tourniquet**—Must be commercially prepared for hemorrhage control.

52. **4 Towels**—cloth type.

53. **2 Vests**, reflective striping on crew member uniforms and outerwear are acceptable if the reflective striping provides 360° visibility.

---

§3. **Equipment List For Scene Response Air Ambulances**

1. As of August 1, 2004, all medical equipment and medical supplies required in this section must be natural-rubber latex free.

A. The Basic Life Support equipment list for scene response air ambulances follows:

1. **4 Airways, Oral**—One each of sizes: Large adult; adult; child; infant.

2. **4 Airways, Nasal**—One each of sizes: Large adult; adult; child; infant.
3. 1 Aluminum foil—18 inches by 25 feet roll or both an occlusive dressing and a device for wrapping the newborn, such as a "Space Blanket".

4. 1 Bag Valve Mask, Adult—Automatic, pressure-cycled resuscitators are not acceptable.

5. 1 Bag Valve Mask, Child

6. 1 Bag Valve Mask, Infant

7. 6 Bandages, Roller—self-adhering, 3 inches minimum width.

8. 2 Emesis basins—Alternative containers acceptable.

9. 2 Blankets or equivalent patient thermal covering.

10. 2 Burn sheet—Sterile.

11. 3 Collars, Extrication, Rigid—of which 2 must be adjustable to small, medium or large size, with the third being pediatric size. Soft Collars are not acceptable.

12. 1 Doppler

13. 3 Dressings, Surgical—Minimum 5 inches by 9 inches.

14. 3 Dressings, Universal—8 inches by 30 inches minimum.

15. 1 Fire Extinguisher—FAA approved A-B-C or B-C rated. Five pound size equivalent or larger. Must be secured in vehicle. Professionally inspected on annual basis.

16. 2 Flashlights—Battery-operated containing at least 2 "D-Cell" size batteries or equivalent. Penlights not acceptable. One must be in the patient compartment.

17. 10 (Pair) Gloves

18. 2 (Pair) Goggles, Protective

19. 2 Gowns/Overalls—Of adequate material and design to provide a protective barrier against contact with patient’s body fluids.
20. 1 Head Immobilization Device—Any device that may be attached to a long spinal immobilization device for the purpose of immobilizing the head and cervical spine.

21. 1 Mask, Pocket—With oxygen inlet and one way valve.

22. 2 Masks—Surgical type.

23. 1 Obstetrical Kit—To contain sterile gloves, scalpel or scissors, umbilical clamps or tape, sterile dressings, towels, small bulb-aspirator, plastic bag, and receiving blanket. Kit must be sealed in plastic to prevent contamination.

24. Oxygen System—Comprised of a portable "D" cylinder with regulator and a craft mounted cylinder with regulator with a total volume 2740 liters. Must have 2 each adult and child non-rebreather masks, adult nasal cannulas, and (simple) infant masks.

25. 2 Pillows

26. 1 Pulse Oximeter

27. Saline, Sterile—Commercially sealed container(s) must total no less than 2000 ml and must not have passed expiration date.

28. 2 Shears, Trauma

29. 4 Sheets

30. Sphygmomanometers—Adult, large adult, child and infant sizes.

31. 1 Spinal Immobilization Device, Long—Long spine board or similar device (such as a rigid flight litter) providing adequate spinal immobilization acceptable.

32. 1 Spinal Immobilization Device, Short—Short spine board, or similar device providing adequate spinal immobilization is acceptable.

33. 2 Splints—any type—each being 24 inches in length.

34. 1 Splint, Traction—Adult size.

35. 12 Sponges, Sterile—4 inches by 4 inches.
36. **Stethoscopes**—1 adult, 1 pediatric.

37. **3 Straps**—9 feet in length; 1 ¾ inches minimum width with buckles. Quick clip and other commercial straps may substitute for 3 of the required 6 straps.

38. **1 multi-point strap system.**

39. **1 Stretcher, Ambulance**—With a minimum 3 inch foam pad and must have FAA approved latching mechanism to secure the stretcher during flight. Head must elevate.

40. **1 Suction Device**—portable type—capable of providing pharyngeal suction of at least 11.8 inches mercury (300mm Hg) within 4 seconds after the suction tube is clamped closed. Unit must have trap bottle, and be equipped with rigid pharyngeal suction tip and appropriate catheters.

41. **3 Tape, Adhesive**—1 inch minimum width.

42. **1 Thermometer(s)**—Non-glass fever type. Hyperthermic and hypothermic ranges should be available.

43. **4 Towels, cloth type.**

44. **2 Vests, - Reflective**—reflective striping on crew member uniforms and outerwear are acceptable if the reflective striping provides 360° visibility.

---

**B. The Advanced Life Support equipment list for scene response air ambulances follows:**

1. **1 Cardiac Monitor/Defibrillator**—Capable of pediatric and adult defibrillation and cardioversion, manually selectable joule settings, 12 lead ECG monitoring, and paper strip ECG recordings. Must have one set of pediatric and two sets of adult monitor defibrillator pads.

2. **1 Drug Storage Container**—Must be capable of securing ALS drugs in a manner that is consistent with Chapter 6 of these Rules.

3. **1 each Endotracheal Tube, Cuffed**—Sizes 5.0, 6.0, 7.0, 8.0.

4. **1 each Endotracheal Tube, Uncuffed**—Sizes 2.5, 3.0, 4.0.
5. 1 End Tidal CO₂ Monitor—continuous waveform device.

6. 1 Logbook, for the Drug Storage Container—Must meet the logbook requirements of Chapter 6 of the Rules.

7. 1 Forceps, Magill, Large.

8. 1 Forceps, Magill, Small.

9. 1 Glucometer

10. 2 Intraosseous Needles—15-ga. or equivalent

11. 3 Intravenous (IV) Administration Set, Macrodrip.

12. 4 IV Fluid, Volume Replacement—to total 4000 ml.

13. 2 IV Pressure bags

14. 2 each IV Needle/Catheters—Sizes 14, 16, 18, 20, catheter over-the-needle type.

15. Laryngoscope Blades—Sizes 0, 1, 2, 3, 4.

16. 1 Laryngoscope Handle

17. Periglottic Devices sizes 1, 1.5, 2, 2.5, 3, 4, 5 or, Transglottic Devices sizes 2, 2.5, 3, 4, 5.

18. 1 Sharps Container—Must be specifically designed for needle disposal and be securely attached to prevent spillage.

19. 1 each Stylet—Capable of use with ET tubes sizes 2.5 to 8.0.

20. 1 Surgical Airway/Chest Decompression Set containing:

   (a) 1 each tracheostomy tube
   (b) 1 each tracheal retractor
   (c) 1 each Kelley clamp
   (d) 6 each sterile 4 inches by 4 inches sterile sponges
   (e) 2 each #11 scalpel blades
   (f) 1 each scalpel blade handle
   (g) 2 each sterile surgical gloves
   (h) 1 each 10 ml syringe
   (i) 1 each transtracheal inflation tubing
(j) 2 each 14 ga. 2 inch IV catheters
(k) 2 each 14 ga. 3.25 inch IV catheters
(l) 4 each betadine swabs or any equivalent surgical antiseptic
(m) 2 each 20 ml syringes
(n) 2 each one way type valve assembly, or Maine EMS approved equivalent.

21. 1 Ventilator with external continuous waveform end tidal Carbon Dioxide monitoring.

§4.—Equipment List for Transfer Air Ambulances
1.—As of August 1, 2004, all medical equipment and medical supplies required in this section must be natural rubber latex free:

A. The equipment list for transfer air ambulances follows:

1. 4 Airways, Oral
2. 1 Bag Valve Mask, Adult
3. 1 Bag Valve Mask, Child
4. 1 Bag Valve Mask, Infant
5. 4 Bandages, Roller
6. 2 Blankets
7. 1 Cardiac Monitor/Defibrillator—Capable of pediatric and adult defibrillation and cardioversion, manually selectable joule settings, 12 Lead ECG monitoring, and paper strip ECG recordings. Must have 1 set of pediatric and 2 sets of adult monitor defibrillator pads.
8. 4 Dressings, Surgical
9. 2 Dressing, Universal
10. 1 Drug Storage Container—Must be capable of securing ALS drugs in a manner that is consistent with Chapter 6 of these Rules.
11. 1 each Endotracheal Tube, Cuffed—Sizes 5.0, 6.0, 7.0, 8.0.
12. 1 each Endotracheal Tube, Uncuffed—Sizes 2.5, 3.0, 4.0.
13. **End Tidal CO\textsubscript{2} Monitor**, continuous waveform device.

14. **Glucometer**

15. **6 (Pair) Gloves**

16. **2 (Pair) Goggles, Protective**

17. **2 Gowns/Overalls**

18. **2 Intravenous (IV) Administration Set, Macrodrip.**

19. **4 IV Fluid, Volume Replacement**—to total 2000 ml.

20. **2 each IV Needle/Catheters**—Sizes 14, 16, 18, 20, catheter over-the-needle type.

21. **Laryngoscope Blades**, Sizes 0, 1, 2, 3, 4.

22. **2 Laryngoscope Handles**

23. **Logbook, for the Drug Storage Container**—Must meet the logbook requirements of Chapter 6 of the Rules.

24. **4 Masks**—Surgical type.

25. **1 Obstetrical Kit**

26. **Oxygen Equipment**—2 E cylinders or equivalent; 2 flow meters; 1 adult non-rebreather mask; 1 nasal cannula; and 1 pediatric non-rebreather mask.

27. **Periglottic Devices** sizes 1, 1.5, 2, 2.5, 3, 4, 5 or, **Transglottic Devices** sizes 2, 2.5, 3, 4, 5.

28. **1 Pillow**

29. **1 Pulse Oximeter**

30. **Saline, Sterile**—2000 ml total.

31. **1 Sharps Container**

32. **1 Shears, Trauma**
33. **2 Sheets**

34. **Sphygmomanometers**—Adult, large adult, pediatric and infant.

35. **4 Sponges, Sterile**—4 inches by 4 inches.

36. **Stethoscopes**—1 adult, 1 pediatric.

37. **1 Stretcher, Ambulance**—With a minimum 3 inch foam pad and must have FAA approved latching mechanism to secure the stretcher during flight. Head must elevate.

38. **1 each Stylet**—Capable of use with ET tubes sizes 2.5 to 8.0.

39. **1 Suction Device, portable type**—capable of providing pharyngeal suction of at least 11.8 inches mercury (300mm Hg) within 4 seconds after the suction tube is clamped closed. Unit must have trap bottle, and be equipped with rigid pharyngeal suction tip and appropriate catheters.

40. **1 Surgical Airway/Chest Decompression Set containing:**
   - (a) 1 tracheostomy tube
   - (b) 1 tracheal retractor
   - (c) 1 Kelley clamp
   - (d) 6 sterile 4 inches by 4 inches sterile sponges
   - (e) 2 #11 scalpel blades
   - (f) 1 scalpel blade handle
   - (g) 2 pair, size 7 1/2 sterile surgical gloves
   - (h) 1 10 ml syringe
   - (i) 1 transtracheal inflation tubing
   - (j) 2 14 ga. 2 inch IV catheters
   - (k) 2 14 ga 3.25 inch IV catheters
   - (l) 4 betadine swabs or any equivalent surgical antiseptic.
   - (m) 2 20 ml syringes
   - (n) 2 one way type valve assemblies, or Maine EMS approved equivalent.

41. **2 Tape, Adhesive, Roll**—1 inch minimum width.

42. **2 Towels**

§5.—**Advanced Life Support Equipment List**
1. As of August 1, 2004, all medical equipment and medical supplies required in this section must be natural rubber latex free.

A. The Advanced Life Support equipment list for the Advanced Emergency Medical Technician (AEMT) level follows:

1. **Cardiac Monitor/Defibrillator** — Must be capable of pediatric and adult defibrillation and cardioversion, manually selectable joule settings, 12-Lead ECG monitoring, and paper strip recordings. Must have one set of pediatric and two sets of adult monitor-defibrillator pads.

2. **End Tidal Carbon Dioxide Monitor**, continuous waveform device.

3. **Intraosseous Needles** — 15 ga. or equivalent.

4. **Intravenous (IV) Administration Set**, Macrodrip.

5. **IV Administration Set**, Microdrip — As needed for medicated drips, or otherwise locally required.

6. **IV Fluid, Volume Replacement** — Total of 6000 ml. Type(s) of fluids stocked (e.g. Normal Saline, Lactated Ringers) shall be in accordance with the Maine EMS Protocols.

7. **2 each IV Needle/Catheters** — Sizes 14, 16, 18, 20, 22 catheter over-needle type.

8. **Periglottic Devices** sizes 1, 1.5, 2, 2.5, 3, 4, 5 or, **Transglottic Devices** sizes 2, 2.5, 3, 4, 5.

9. **Phlebotomy equipment** — Local/regional dictate.

10. **Sharps Container** — Must be specifically designed for needle disposal and be securely attached to prevent spillage.

B. The Advanced Life Support equipment list for the EMT-Critical Care level includes all of the equipment required at the Advanced Emergency Medical Technician (AEMT) level with the addition of the following equipment:

1. **Drug Storage Container** — Must be capable of securing ALS drugs in a manner that is consistent with Chapter 6 of these Rules.
2. IV Fluid, D5W—As needed for medicated drips.

3. 1 each Endotracheal Tube, Cuffed—Sizes 5.0, 6.0, 7.0, 8.0

4. 1 each Endotracheal Tube, Uncuffed—Sizes 2.5, 3.4.

5. 1 Forceps, McGill large

6. 1 Forceps, McGill small

7. Laryngoscope Blades—sizes 0, 1, 2, 3, 4

8. 1 Laryngoscope handle

9. 1 Logbook, for the Drug Storage Container—Must meet the logbook requirements of Chapter 6 of the Rules.

10. 1 each stylet capable of use with ET tubes sizes 2.5-8

C. The Advanced Life Support equipment list for the Paramedic level includes all of the equipment required at the EMT—Critical Care level with the addition of the following equipment:

1. 1 Surgical Airway/Chest Decompression Set containing:

   (a) 1 tracheostomy tube
   (b) 1 tracheal retractor
   (c) 1 Kelley clamp
   (d) 6 sterile 4 inches by 4 inches sterile sponges
   (e) 2 #11 scalpel-blades
   (f) 1 scalpel blade handle
   (g) 2 pair sterile surgical gloves
   (h) 1 10 ml syringe
   (i) 1 transtracheal inflation tubing
   (j) 214 ga. 2 inch IV catheters
   (k) 2 14 ga 3.25 inch IV catheters
   (l) 4 betadine swabs or any equivalent surgical antiseptic.
   (m) 2 20 ml syringes
   (n) 2 one way type valve assemblies, or Maine EMS approved equivalent.

§1. Definitions

1. Emergency Medical Services (EMS) Quality Assurance Committee means a quality assurance committee approved by the Board pursuant to 32 M.R.S.A. §92-A, including but not limited to service-level quality assurance committees.

2. Maine EMS Quality Assurance and Improvement Committee means the standing committee established by the Board pursuant to 32 M.R.S.A. §88(2)(J).

4. Quality Improvement Marker means a measurable standard within a Maine EMS protocol established by an emergency medical services quality assurance committee.

§2. Maine EMS Quality Assurance and Improvement Committee

1. The Maine EMS Quality Assurance and Improvement Committee is authorized by the Board to perform EMS system quality assurance and improvement, including, but not limited to:

   A. Creating statewide quality improvement markers;

   B. Conducting Quality Improvement Initiatives, as approved by the Board;

   C. Receiving and interpreting results of quality marker reports;

   D. Responding, in concert with regional medical directors and regional coordinators, to requests for assistance regarding local services’ sub regional quality assurance and improvement plans;

   E. Publishing and updating the Maine EMS Quality Assurance and Improvement Manual;

   F. Leading or participating in state-based quality management education; and,
G. Reviewing quality assurance and improvement management of Board-approved pilot projects when requested by the Board, the Medical Direction and Practices Board or the pilot project participant(s).

§3. Service-Level Emergency Medical Services Quality Assurance Committees

1. A Maine EMS Board-approved emergency medical services quality assurance committee must participate in EMS quality assurance activities, including, but not limited to:

   A. Gathering and submitting data as part of a Maine EMS Quality Assurance and Improvement Committee Quality Improvement Initiative; and,

   B. Conducting a program of quality assurance and improvement in accordance with 32 M.R.S.A Chapter 2-B, and these Rules.

§4. Emergency Medical Services Persons and EMS Services

Licensed emergency medical services personnel and licensed EMS services shall participate in Maine EMS quality assurance activities in accordance with 32 M.R.S.A Chapter 2-B and these Rules.

§5. Emergency Medical Dispatchers and Emergency Medical Dispatch Centers

Emergency Medical Dispatchers and Emergency Medical Dispatch Centers shall participate in Maine EMS quality assurance activities in accordance with 32 M.R.S.A Chapter 2-B and these Rules.

EFFECTIVE DATE: February 1, 2015

ADOPTED: December 3, 2014
