

# Maine EMS Service Inspection Form

Ambulance Service Equipment Requirements [ ( ) indicates Non Transporting requirements]

## Emergency Medical Technician (EMT):

- |  |                                    |                                    |
|--|------------------------------------|------------------------------------|
| 2 (2) Reflective Vests                 | 1 Main Oxygen Supply 3440liter     | 4 (2) 8"x30" Universal Dressings   |
| 1 Fire Ext. 5lb B/C or equivalent      | 1 (1) Portable Oxygen 410liter     | 2 (1) Sterile Burn Sheet           |
| 24 (24) Disaster Tags                  | 2 (1) Adult Nasal Cannula          | 12 (12) 4"x4" Sterile Sponges      |
| 2 (1) Flashlights (D-Cell)             | 2 (1) Adult NRB o/2 mask           | 6 (6) 3" Roller Bandage            |
| 1 Traction Splint                      | 2 (1) Pediatric NRB o/2 mask       | 6 (6) 5"x9" Surgical Dressings     |
| 2 (2) 3"x15" Rigid Splints             | 2 (1) Infant o/2 mask              | 4 (4) Triangular Bandage           |
| 2 (2) 3"x36" Rigid Splints             | 1 (1) Large Adult OP & NP Airways  | 1 (1) Band aids- assorted box      |
| 1 Folding Stretcher                    | 1 (1) Child OP & NP Airways        | 3 (2) Adhesive Tape – min 1" width |
| 1 S.I.D-Short board                    | 1 (1) Infant OP & NP Airways       | 1 (1) Aluminum Foil or equiv       |
| 1 (1) S.I.D Longboard                  | 1 (1) Adult Bag Valve Mask         | 1 Sterile Obstetrical Kit          |
| 1 (1) Head Immobilizer                 | 1 (1) Pediatric Bag Valve Mask     | 2 (1) Bandage Shears               |
| 6 (6) Straps-9' x1-3/4" w/buckle (3)   | 1 (1) Pocket Mask w/ Oxygen Inlet  | 4 (2) Towels – medium size         |
| 1 (1) Cervical Collar-Large            | 1 (1) Portable Suction Apparatus   | 4 Sheets                           |
| 1 (1) Cervical Collar-Medium           | suction 11.8 "Hg w/in 4 sec        | 2 Pillows                          |
| 1 (1) Cervical Collar-Small            | 1 (1) Bulb Aspirator               | 4 (1) Blankets                     |
| 1 (1) Cervical Collar-Pediatric        | 1 Non-Glass Fever Thermometer      | 1 Sharps Container secured         |
| 1 Amb. Cot w/shoulder straps           | 1 (1) Sphygmomanometer-Large Adult | 10 (10) Pairs of Latex Free Gloves |
| 2 (1) Oral Glucose Tube                | 1 (1) Sphygmomanometer-Adult4      | (4) Masks-surgical type            |
| 2 (0.5) Liters of Sterile Saline       | 1 (1) Sphygmomanometer-Pediatric   | 4 (2) Protective Goggles           |
| 1 Pulse Ox                             | 1 (1) Sphygmomanometer-Infant      | 4 Protective Gowns                 |
| 1 (1) Tourniquet Commercially Prepared | 1 (1) Stethoscope                  | 2 Emesis Basins                    |
| Windless type combat style, 1          |                                    |                                    |
| (1) AED                                | 1 Blood Glucose Monitor            | 2 Quick Clot Gauze                 |

## Advanced EMT (AEMT):

- |  |                                |   |
|--|--------------------------------|---|
| 1 Cardiac Monitor 12 Lead                  | 6 Liters of IV Fluids          | 1 Drug Storage Container  |
| 1 End Tidal CO2 continuous Waveform device | 3 Macro drip IV sets           | 1 Drug Log containing Date & Seal # when received, Meds used & MEMS Run Number OR, Old & New Seal # when used Legible signature & License # |
| 1 ea. LMA 1, 1.5 2, 2.5, 3, 4, 5           | 2 ea. IV Caths/Needles 14-20ga | 2 Intraosseous needles  |
| 1 ea. Transglottice device 2, 2.5, 3, 4, 5 |                                |   |

## Paramedic

- |   |   |   |
|---|---|---|
| 1 Laryngoscope Handle                                   | 1 Microdrip IV set                        | Small Magil Forceps   |
| 1 ea. Laryngoscope Blades #0-#4,                        | 100 Grams Activated Charcoal              | Large Magil Forceps   |
| 1 ea. 2.5/3.0/4.0 uncuffed ET Tube                      | 1 Bougie                                  | 1 IV Infusion pump  |
| 1 ea. 5.0-8.0 cuffed ET Tubes1                          |   |   |
| 1 Surgical Airway/ Chest Decompression Kit containing:  | (e) 2 each #11 scalpel blades             | (k) 2 each 14 ga. 3.25 inch IV catheters                                  |
| (a) 1 each tracheostomy tube                            | (f) 1 each scalpel blade handle           | (l) 4 each betadine swabs or any equivalent surgical antiseptic           |
| (b) 1 each tracheal retractor                           | (g) 2 each sterile surgical gloves        | (m) 2 each 20 ml syringes   |
| (c) 1 each Kelley clamp                                 | (h) 1 each 10 ml syringe                  | (n) 2 each one way type valve assembly, or Maine EMS approved equivalent. |
| (d) 6 each sterile 4 inches by 4 inches sterile sponges | (i) 1 each transtracheal inflation tubing |   |
|   | (j) 2 each 14 ga. 2 inch IV catheters     |   |
