

Quarantine Guidance for EMS Clinicians Exposed to Confirmed Cases of COVID-19 (Updated December 10, 2020)

This guidance is intended for use in collaboration with a service's Infection Control Officer (ICO)

This guidance is intended for use in collaboration with a service's Infection Control Officer (ICO)

* N95 respirators (equivalent or higher) are recommended when caring for COVID-19 patients.

Cloth face coverings are not considered PPE for patient interactions

^ Full airborne PPE: N95 respirator (equivalent or higher), gloves, gown, and eye protection

† Actively monitoring means daily symptom and temperature checks (on and off duty)

Note: This is interim guidance and is subject to change, current as of December 10, 2020.
