TTY: (207) 287-3659

FAX: (207) 287-6251

With offices located at the Central Maine Commerce Center, 45 Commerce Drive, Suite 1, Augusta, ME 04330

- a. No significant shortages at present. Watching medications commonly used for sedation throughout the pandemic – including fentanyl and versed – but no immanent shortage
- 7) COVID-19 – 1000-1010
- 8) 2021 Protocol Update –All – 1010-1100
 - a. 2021 Protocol Timeline review – Sholl/Zimmerman/All
 - b. Protocol Discussion Forums – Sholl/Zimmerman/All
 - i. Review – Jan meeting
 - ii. Next meeting March 11th at 1230
 - c. 2021 Protocol Discussion
 - i. Gold Section Wrap Up – Saquet/All
 - ii. Green Section – Meehan-Cousse/Pieh/All
 - 1. Item 2 = Motion to approve amendments to the Trauma Triage guidelines on page Green 3
 - a. Make Ventilatory support a second line under the ages...
 - b. Motion - MS
 - c. Second – MB
 - 2. Item 3 = Green 10 – add “Consider applying non-circumferential splint” with education to include no sandbags
 - a. Motion - BC
 - b. Second – MB
 - 3. Item 4 = Approval of the new TBI protocol – inclusive of the elevation of HOB – add in an antiemetic option...
 - a. Motion - MB
 - b. Second – BC
 - 4. Item 5 = Discussion re: the TBI protocol – and NV. Currently, IV ondansetron at the Medic level only – discussion re: Adding IV ondansetron to the AEMT scope. Motion – to change the scope of practice to include IV ondansetron at the AEMT scope practice
 - a. Motion - MKC
 - b. Second – BL
 - 5. Item 6 = Motion: 15. For N/V refer to Gold 19 – ADD - NOTE: patients with moderate to severe TBI should preferentially receive IV antiemetics to prevent aspiration.
 - a. Motion - KMC
 - b. Second – KZ
 - 6. Item 7 = Green 12 Add elevation (add in the next sentence).
 - a. Motion - MS
 - b. Second – BC
 - 7. KZ and MB2 – offer to review current literature on junctional TQ’s
 - 8. Item 8 = Motion to approve the changes as draft with the exception – of isolated head injury and pediatric age – pending review of the that articles and hearing from pedi trauma
 - a. Motion - MB
 - b. Second – CD
 - 9. MS Build pearl to the GI bleed and head injury piece and place this and the table on a new page.
 - 10. Item 9 = Universal pain management –
 - a. Discussion re: checking if patients have taken oral APAP. Any other contraindications – i.e. known or suspected liver failure – MS work on draft language
 - b. Table for dosing – with range similar to the manufacture’s – lower limit of age 2-3 but weight range and 1/2/3 tabs based on age/weight – BN to work on this...

c. Discussion re IV Tylenol – Come back to the cost here... All ask their pharmacists

11. Discussion re: the ability to determine weight in the field. BN relates there is a > 10% discrepancy between the estimated and actual weight BUT this is less of an issue with APAP. To this effect – discussion re: the chosen dose – 12.5 mg/kg – would 10 be easier – BUT 12.5 is the advised dose. BN to bring some ideas back to the group to review
12. Discussion re: hanging ketamine and dripping in over time – to reduce the incidence of adverse reactions. 100 cc bag – over 10 minutes
13. Discussion re: Pearls for opiates vs ketamine – KMC to work on this
14. Discussion re Green 12 – Contact OLMC to add ANY type of analgesic to another (with the exception of acetaminophen). NOTE: adding one class of medications to another can have additive adverse effects such as hypotension, bradypnea, depression of mental status, etc.
15. Discussion: adding new/second pearl – “Consider the potential for a medical events causing the traumatic injury, esp. in the elderly, syncope, lift assists and falls. IN such cases, refer to the appropriate medical protocol and monitor the patient as described”
16. Discussion re: Trauma TOR – qualifying rapid IV Bolus and early bilateral chest decompression –
17. Discussion: Open fractures – need a pearl with penicillins and cephalosporins – AND/OR Contact OLMC for questions or concerns about patient’s history of allergies. – also – add in a pearl about not LR for kids.
18. Gold 5 – change the box from coma to AMS
19. Work on language for the N/V section – “Consider IV access and fluid bolus if hemodynamic instability

Old Business – 1100 - 1110

- 1) Ops – met yesterday talking re: vaccination and exposures and FAQ’s
- 2) Education – work on protocols – working on reviewing and updating the training center standards documents – vaccination education is posted. Other states have asked for those materials Ready-Check-Vaccinate program up – 74 people have completed that (mostly EMT’s)
- 3) QI
- 4) Community Paramedicine
- 5) Maine Heart Rescue

Ongoing Items for Future Discussion:
PIFT protocols – Tilney/Sholl
