Prehospital Management of Obstetric, Neonatal, and Pediatric Emergencies

Saturday, May 18th, 2024

08:00 am to 12:30 pm

Hannaford Center for Safety, Innovation & Simulation

Maine Medical Center Brighton Campus, 3rd floor
335 Brighton Avenue, Portland, ME

To celebrate EMS Week 2024, the Hannaford Center for Safety, Innovation & Simulation, in partnership with the Emergency Medicine Division of EMS, is pleased to offer this educational opportunity for prehospital care providers. Physicians, advanced practice providers, nurses, EMS clinicians, and simulation specialists from MaineHealth will provide hands-on education with simulation management scenarios.

Utilizing immersive, high-fidelity simulation capabilities, this conference for Maine EMS clinicians will focus on obstetric, neonatal, and pediatric emergency management in the prehospital setting. Upon registration, EMS clinicians will choose the **Obstetrics and Neonatal** or **Pediatrics** track for the day.

Participants will leave the course with simulation resources including learning objectives, skills competency checklists, and experiential cases to be utilized for local training. Maine EMS CEH will be available.

Conference Registration fee is **\$50.00** and includes beverages and food. Please [click to register here](#). Register early as space is limited! MaineHealth cannot invoice or accept purchase orders for this event.
