

*Learn and Serve with
Emergency Medical Services
in Your Community!*

A program with:

v10.09.2024

Mission

To give Mainers the opportunity to learn about the field of emergency medical services, connect with local healthcare and public safety professionals, and serve their communities.

The program provides training and mentorship in a safe, supportive environment that builds connections between participants and EMS in their communities.

*Career exploration helps
you make an informed
decision about the future!*

Learners will gain
communication and
leadership skills, build
relationships with EMS
professionals, and develop
their career goals.

Program Overview

Level 1 Learners:

- Train with Mentors at their local EMS agency;
- Engage with local healthcare and public safety partners;
- Obtain CPR certification; and
- Complete online training in Professionalism, Expectations, Boundaries, and Mental Health.

Level 2 Learners:

- Learn about scene safety, bedside manner, medical ethics, and HIPAA;
- Obtain First Aid and Stop-the-Bleed certification; and
- Ride on EMS calls with an assigned Mentor.
