| 231 | number of 9-1-1 activations, including scene responses,      |
| 232 | mutual aid requests, and ambulance intercepts that each      |
| 233 | eligible EMS entity experienced for each zip code, for the   |

| 236 | B. Calculations  |
| 237 |  |
| 238 | (1) The Director shall perform the calculations below to     |
| 239 | determine the distribution percentage or "DP" for each       |
| 240 | eligible EMS entity. These calculations shall be performed   |
| 241 | separately for Ambulance Services and Non-Transporting       |
| 242 | Services.  |
| 243 |  |
| 244 | (2) A rurality-weighted call volume or "RWCV" will be        |
| 245 | calculated for each eligible EMS Service by multiplying the  |
| 246 | number of activations the entity experienced for each zip    |
| 247 | code by each zip code's rurality score and then totaling the |
| 248 | resulting products.  |
| 249 |  |
|     |  |

| 250  | (3) The total rurality-weighted call volume, or "TRWCV" for  |
|--|--|
| 251  | each category (Ambulance Services and Non-Transporting   |
| 252  | Services) will be the sum of the RWCVs of all eligible   |
| 253  | EMS entities in the respective category.   |
| 254  |  |
| 255  | (4) An eligible EMS Service's distribution percentage or "DP"  |
| 256  | will equal the eligible EMS Service's RWCV divided by  |
| 257  | the TRWCV of the eligible entity's respective category   |
| 258  | (Ambulance Services or Non-Transporting Services).   |
| 259  |  |
| 260  | C. Allocation Process  |
| 261  |  |
| 262  | (1) The Director shall identify all eligible Ambulance Services  |
| 263  | and Non-Transporting Services based on the information   |
| 264  | available to the Office of Emergency Medical Services and  |
| 265  | determine the final maximum allocation or "FMA" for each   |
| 266  | of these entities. The Director shall provide a list of these  |
| 267  | entities and their corresponding FMAs in the   |
| 268  | Announcement of Funding Opportunity.   |
