Maine EMS 2025 Protocol Updates

With the upcoming release of the 2025 Maine EMS Protocols, the MDPB is excited to announce the dates of the Maine EMS 2025 Protocol Update Webinars. The times of these virtual meetings were chosen to accommodate as many schedules as possible, with weekday days, afternoon, and evening timeslots as well as a weekend time slot. These are all virtual via Zoom (please note the links are different for each webinar), and CEH will be awarded upon completion. Dates are as follows:

Sept 15 0900-1200

For those who cannot attend the webinar, Maine EMS Clinicians will be able to participate in the MEMSEd online Maine EMS 2025 Protocol updates. These will be available 24/7 online and is expected to be available on the MEMSEd website in the first weeks of September. You will only need to complete either the virtual live webinar or the MEMSEd recorded online course. Per Maine EMS rules, the recorded MEMSEd online course will have a test (open book) on the protocols after completing it. The live webinar will not require a test.

We plan to release a PDF document of the 2025 protocols the week of September 1, along with other resources, and these will be found at <https://www.maine.gov/ems/protocols-resources/pre-hospital-care-protocols>, although not all of the functional links will be active yet. The protocol app will be updated on November 30/December 1 when they become active. More information on this update will be released closer to that timeframe.

All EMRs, EMTs, Advanced EMTs, and Paramedics must complete the protocol update before responding to any EMS call as a Maine EMS clinician on or after December 1, 2025.

For questions or comments, please contact Maine EMS at maine.ems@maine.gov or 207-626-3860.

Thank you for your participation in the process.
