Preparedness Focus: Winter Preparedness

December is [Winter Preparedness Month](#)! Being [#WinterReady](#) means understanding winter risks you face and taking steps now to prepare. This page will be updated throughout the winter to add more resources and information.

- Sixty-three percent of temperature-related deaths are [attributable to cold exposure](#).
- Home heating is the second leading cause of home fires, and winter is when most home fires happen.
- Travel during the winter has unique risks, especially if you travel by car.

MGT315 Conducting Risk Assessments for Critical Community Assets

Wiscasset, ME

6-7 January 2026, 0800-1600

[Sign up here](#)

The Conducting Risk Assessments to Critical Community Assets course teaches the critical components of risk management and provides participants the basic fundamentals of determining and mitigating risks associated with their critical infrastructure. Through a combination of lecture, facilitated discussion, and group activities, participants will learn how threats, vulnerabilities, and consequences determine risk and are given an opportunity to practice the fundamentals of conducting vulnerability assessments by conducting an on-site site-specific risk assessment of select local facilities. Additionally, they will identify potential mitigation measures associated with their findings and work together to develop and present a risk assessment report.

Individuals completing this course in combination with AWR213, MGT310, MGT414, and MGT452 are awarded the [TEEX Infrastructure Protection Certificate](#)
