

MEMORANDUM

To: Maine EMS Board
From: Maine EMS Office
Subject: IC Licensure Education Review
Date: July 31, 2026

Facts to Consider:

1. The Maine EMS Rules, Chapter 9 §2.2.C.1. requires a new IC license applicant to demonstrate completion of “A Board-approved instructor coordinator training program completed within two years of license application at the appropriate level taught by a Maine EMS licensed I/C following the guidelines set forth by the Training Center, or a program judged by Maine EMS to be equivalent.”
2. Until the recent creation of the EMS Instructor License webpage, there had not been a published list of “Board Approved” courses leading to IC Licensure since the Training Center Standards were revised and then adopted by the Board in May 2023. The revisions removed Appendix G of the Training Center Standards, citing in the change summary “Recommend Deletion and put into Maine EMS policy.”
3. The EMS Instructor License webpage lists three programs that the most recent Education Coordinator declared were approved; these include Pro-Board Fire & Emergency Services Instructor 1 & 2 and the National Association of EMS Educators (NAEMSE) Level 1 Instructor Course, which were the two programs listed in Appendix G of the previous Training Center Standards; as well as the Prodigy 40-Hour Basic Instructor course.
4. Beginning as early as March 11, 2024, Office Staff advised stakeholders that *The Doctor Medic EMS Instructor Course* was an approved course leading to IC licensure in Maine. This advice was given based on an email detailing the evaluation and approval of the course by the Education Coordinator at the time. On November 14, 2025, the subsequent Education Coordinator advised staff that the course is not approved for initial IC licensure, only for CEHs. After some discussion, that decision was upheld by the Director. Since this date, Office Staff have not continued to advise stakeholders that *The Doctor Medic EMS Instructor Course* is an approved course leading to IC licensure in Maine

For Reference:

1. Maine EMS Rules, Ch. 9
2. Former TC Standards – Appendix G
3. 2023 TC Standards Revision Change Document
4. EMS Success (Doctor Medic) Approval Email
5. Most Recent Doctor Medic Decision

Staff Request of the Board:

To Direct staff to review the EMS Success (Dr. Medic) Instructor Course for Maine EMS approval against the requirements established in the Former TC Standards – Appendix G.

16 DEPARTMENT OF PUBLIC SAFETY**163 BUREAU OF EMERGENCY MEDICAL SERVICES (MAINE EMS)****CHAPTER 9: INSTRUCTOR COORDINATOR LICENSE****§1. Licenses are issued for the following levels of Instructor Coordinators (I/C):**

1. I/C- EMT - a person licensed at the I/C - EMT level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, and EMT license levels.
2. I/C- Advanced Emergency Medical Technician (AEMT) - a person licensed at the I/C - AEMT level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, EMT and Advanced Emergency Medical Technician (AEMT) license levels.
3. I/C- Paramedic - a person licensed at the I/C- Paramedic level may act as the lead instructor in courses leading to licensure at the Emergency Medical Responder, EMT, Advanced Emergency Medical Technician (AEMT), and Paramedic license levels.

Licensed Instructor Coordinators are responsible for EMS licensure program criteria as approved by the Board. Instructor Coordinator licenses are valid for a period of two years, or as otherwise determined by Maine EMS.

§2. To obtain and maintain a new or renewed Instructor Coordinator license, the applicant must:

1. Be at least 18 years of age.
2. Submit the following to Maine EMS:
 - A. A completed Maine EMS Instructor Coordinator application signed by the applicant.
 - B. Proof of education consistent with current Maine EMS Education Standards at the:
 1. EMT level, if applying for an I/C-EMT license.
 2. Advanced Emergency Medical Technician (AEMT) level, if applying for an I/C – AEMT license.
 3. Paramedic level, if applying for an I/C – Paramedic license.
 - C. Training Certification, which may be:

1. A Board-approved instructor coordinator training program completed within two years of license application at the appropriate level taught by a Maine EMS licensed I/C following the guidelines set forth by the Training Center or a program judged by Maine EMS to be equivalent; or,
 2. For licensees whose Maine Instructor Coordinator license is current or not expired by more than two years - Maine EMS-approved continuing education hours - 16 hours of Maine EMS approved continuing education specifically designed to address educational issues and approved by Maine EMS, provided that:
 - (a) Certificates of continuing education hours have not been used for a previous license renewal and have been earned within the past two years.
 - (b) No more than 6 hours of continuing education received by the applicant for instructing Maine EMS licensing courses may be used towards fulfilling license renewal requirements.
- D. A complete history of criminal convictions as well as civil infractions for alcohol or drugs. Maine EMS will consider this to the extent allowed by Maine Law.
- E. A complete history of any action taken against any emergency medical services certification or license or professional certification or license that the applicant currently holds or has ever held.

§3. License Renewal and Expiration

1. An application will not be accepted as complete unless it includes all materials required to be evaluated for licensure.
2. At the time of renewal, each licensee must certify, on an application provided by Maine EMS, the number of continuing education hours completed for license renewal. No additional information or continuing education documentation is required to be submitted at the time of renewal. However, the licensee shall retain documentation of continuing education hours included in the current renewal period. For purposes of this paragraph, “current renewal period” means the 24-month period prior to the application date. In calculating continuing education hours completed prior to the month of application, the last day of each month shall be considered the completion date for all continuing education completed within a given month.
3. Applicants for license renewal will be selected by Maine EMS on a random basis for audit of continuing education compliance. In addition, an individual licensee

may be selected for an audit as part of an investigation or if there is reasonable cause to believe the licensee has provided a false certification concerning the completion of continuing education requirements. An audit will review the last two continuing education hour certifications submitted by the licensee, including the current renewal period.

4. Licensees selected for audit will be notified to submit documentation of the continuing education hours that were certified by the licensee at the time of renewal. Licensees will have ten (10) days from the date of notification to submit all requested documentation. Continuing education hours that cannot be documented in accordance with the documentation requirements determined by the Board or that do not satisfy the requirements for continuing education contained in these Rules will be disallowed.
5. Applicants for license renewal must present proof of satisfactory completion of continuing education in accordance with these Rules. Failure to comply with the continuing education rules may, at Maine EMS's discretion, result – in accordance with 32 M.R.S. Chapter 2B and the Maine EMS Rules - in disciplinary action to deny license renewal or may result in a decision to enter into a consent agreement and probation setting forth terms and conditions to correct the licensee's failure to complete continuing education or may result in any other disciplinary action available to the Board. Terms and conditions of a consent agreement may include requiring completion of increased hours of continuing education, civil penalties, suspension and other terms as the Board, the licensee and the Department of the Attorney General determine appropriate.
6. A person may apply for a renewal license for up to ninety (90) days after the date of expiration. The ninety-day period does not postpone the expiration date of the license.
7. Licensees whose licenses have expired cannot act in an Instructor Coordinator capacity in any class leading to licensure until a renewed license has been issued.
8. An application submitted more than ninety (90) days after the license expiration date shall be considered an application for a new license and subject to all requirements governing new applications.

§4. Duty to Report

1. A licensee or an applicant for licensure under this chapter shall notify the Board in writing within 10 days of a:
 - A. Change of name or address;
 - B. Criminal conviction;

- C. Revocation, suspension, or other disciplinary action taken in this or any other jurisdiction against any occupational or professional license held by the applicant or licensee; or,
- D. Material change in the conditions or qualifications set forth in the original application for licensure submitted to the Board.

TCAP Appendix G

Maine EMS

Instructor Coordinator Program Guidelines

Approved by the MEMS Education Committee on November 13, 2013.
Forwarded to Board: December 4, 2013

*Maine EMS has identified standards for courses that lead to licensure for Instructor Coordinators

- A. The course must:
 - a. Address components of the 2002 National Guidelines for Education EMS Instructors related to the secondary instructor
 - b. Have a secure, reliable written exam
 - c. Examination results must be available to Maine EMS
- B. Courses that currently meet this criteria
 - a. National Association of EMS Educators Instructor 1 course
 - b. Proboard certified Fire Instructor 1 & 2
- C. Individuals with alternative training may take a test in lieu of taking one of the previously mentioned courses
 - a. The exam currently identified for this purpose is the National EMS Educator Certification

Training Centers are expected to develop clear policies to address the following

- A. Instructor standards & qualifications for:
 - a. Primary Instructor roles
 - b. Secondary Instructor roles
- B. Evaluation of instructors, by student and the Training Center supervisors
- C. Professional development of instructors

***This standard removes the requirement for an Instructor Coordinator candidate to complete student teaching prior to becoming licensed.**

Summary of 2023 Changes and Implementations to the Training Center Standards

Throughout the standards and interpretations is a requirement for CAAHEP accredited Programs to comply with standards, policies, and procedures as directed by CAAHEP/CoAEMSP.

I. Sponsorships

- a. Added:
 - i. Secondary schools, High Schools & CTEs
 - ii. Licensed EMS Services
 - iii. Adult Education Centers

II. Consortiums

- a. One of the members must have a physical presence within the State of Maine
- b. Specific policies needed by the Training Center.

III. Training Center Responsibilities

- a. Need to identify a Training Center Director (*may serve as multiple roles*).
- b. Notice of academic credit for all programs and courses. All MCCS Colleges with EMS Programs currently award college credit through PLA for current NREMT certification or Maine EMS licensure at the EMR, EMT, AEMT, and Paramedic levels for students that enroll in academic programs.
- c. Specific policies needed by the Training Center.

IV. CAAHEP Accreditation

- a. All programs that require CAAHEP accreditation will need to be accredited or in process to maintain their Program status. As an example, a Training Center that wishes to deliver Paramedic education will need to be accredited by CAAHEP to maintain their Program status and deliver Paramedic programs.
- b. Specific policies needed by the Training Center.

V. Programs

- a. The Training Center will need to ensure compliance with all Program standards for each Program. They will need to identify a qualified Program Director for each Program. A Program Director could serve as a director for multiple Program types.

VI. Program Goals and Objectives

- a. Specific policies needed by the Training Center.

VII. Program Advisory Committee

- a. Required to have an advisory committee for each Program, with specific make up. Training Center may have one Advisory Committee that serves all Program needs.
- b. Specific policies needed by the Training Center.

VIII. Program Offerings

- a. Each Training Center will need to decide what EMS Programs it will deliver, options are:
 - i. EMR
 - ii. EMT
 - iii. AEMT
 - iv. Paramedic
- b. The Training Center may opt to teach only one program, example Paramedic, but will not be able to offer separated EMR, EMT, or AEMT training until they have authorized programs.

IX. Resource Types and Amounts

- a. Requires annual assessment of the Training Center, and each individual Program to ensure that resources are necessary to meet outcomes. Specific surveys, assessment, and evaluation methods will exist.
- b. Removes specific equipment lists and numbers from Appendix C and focuses on objective based equipment and resources of a comprehensive program based upon the National EMS education standards, National EMS Scope of practice, and Maine EMS scope of practice.
- c. Establishes “Main,” “Satellite,” and “Alternative” campuses/sites for a training center. Establishes that “Lead Instructors” must be appointed and supervise education at “Satellite”, and “Alternative” campuses/sites. For ease of understanding a “Satellite” campus/site is location where the full program may be delivered without a student ever going to the “Main” campus/site. An “Alternative” campus/site would be a remote laboratory site with an “on-line” program or lecture at the “main” campus.

- d. Specific policies needed by the Training Center.

X. Hospital/Clinical, Field Experience, and Capstone Field Internship Affiliations

- a. EMR has no requirement for clinical or field experience. If a program chooses to have a clinical or field program for EMR they will be expected to follow all guidelines for EMT.
- b. Requires programmatic preceptor training for EMT, AEMT, and Paramedic site supervisors and preceptors.
- c. Requires ten (10) patient assessments/treatment plans (*National Education Standards recommendation*) documented in MEFIRS for all EMT students. May be simulated in a laboratory as part of the course.
- d. Requires “live” clinical and field patients for AEMT and Paramedic. Allows for simulation if large scale pandemic issues ever occur again.
- e. Requires 30 airway managements (*simulated*) for all AEMT students, with success rates.
- f. Requires 50 airway managements (*simulated*) for all Paramedic students, with success rates.
- g. Psychomotor portfolios and student minimum competencies for all levels
- h. Define “Team Lead” contact for all license level for minimum competency, includes an “advanced life support (ALS)” patient definition and “interfacility transport (IFT)” patient definition.

XI. Personnel Job Descriptions

- a. Highlights of any new responsibilities and qualifications

b. **Training Center Director**

- i. Administrative head of the Training Center. Examples of people that would fill this role:
 - 1. Chief Executive Officer (CEO), President, Vice-President, Assistant Vice President
 - 2. Chief Academic Officer (CAO), Dean, Associate Dean, Assistant Dean, Department Head/Chair
 - 3. Executive Director, Director, Assistant Director
 - 4. Chief, Assistant Chief, Deputy Chief, Battalion Chief
- ii. This person may be a Program Director also.

c. **Program Director**

- i. Will need an appointed Director for each Program. One person may serve as all Program Directors if qualified. The Program Director is the person who is responsible for all compliance with educational requirements.
- ii. Specific requirements added:
 - 1. Paramedic Program Director must hold a bachelor's degree in any field, CAAHEP/CoAEMSP requirement.
 - 2. EMR, EMT, and AEMT Program Director must hold an associate degree in any field.
 - 3. Required to be licensed as a Maine EMS Instructor/Coordinator
- iii. Specific Job Description statements

d. **Medical Director**

- i. Specific Job Description statements

e. **Associate Medical Director**

- i. Not required. Delegated authority from Medical Director.
- ii. Specific Job Description statements

f. **Assistant Medical Director**

- i. Not required. Delegated authority from Medical Director. Program must have an Assistant Medical Director for clinical and field rotations outside the State of Maine when the Medical Director (*or Associate Medical Director*) is not licensed to practice medicine in that State.
- ii. Specific Job Description statements

g. **Lead Instructor**

- i. Will need an appointed Lead Instructor for each Program with “Satellite” and “Alternative” campuses. This person supervises the education at these sites. Programs may appoint Lead instructors at their “Main” campus.
- ii. Specific requirements added:
 - 1. Paramedic Lead Instructor must hold an associate degree in any field, CAAHEP/CoAEMSP requirement.
 - 2. Required to be licensed as a Maine EMS Instructor/Coordinator

- iii. Specific Job Description statements

h. **Instructional Faculty**

- i. Requirement that these instructional faculty be oriented by the Training Center and Program to their role and related policies and procedures annually to perform their tasks.
- ii. No requirement to hold an Instructor/Coordinator (IC) license.

- iii. Specific Job Description statements

i. **Clinical Coordinator**

- i. Specific Job Description statements

XII. Curriculum

- a. Curriculum must meet or exceed 2021 National EMS Education Standards and Maine EMS Scope of Practice
- b. Reinforcement of Team Leadership in clinical and field internship education for AEMT and Paramedic student
- c. Specific policies needed by the Training Center.

XIII. Resource Assessment

- a. Requirement to annually assess educational resources and efficacy. Feedback from students, graduates, and stakeholders required.
- b. Specific policies needed by the Training Center.

XIV. Student Evaluation

- a. Evidence of formative assessment for affective, cognitive, and psychomotor domains
- b. Requirement to make all summative examinations reliable and validated through examination analysis.
- c. Need for minimum psychomotor competencies.
- d. Summative examinations for affective, cognitive, and psychomotor domains
- e. Need for terminal competency (*think final sign off record keeping*) record for each student.
- f. Specific policies needed by the Training Center.

XV. Outcome Assessment and Reporting

- a. Defines that all programs will need to achieve the following goals:
 - i. Retain and graduate 70% of all enrolled students.
 - 1. A student is considered enrolled once they have completed 10% of the Program (CoAEMSP standard)
- b. 70% of retained and graduated students are certified by the NREMT within three (3) attempts.
- c. 70% of the NREMT certified graduates are employed in a position that uses their certification.
 - i. Employed is a loose term, exceptions are made for military personnel, students that are continuing their education, and volunteers.
- d. Reported annually to Maine EMS through annual reports.
- e. Corrective action plans must be reported to Maine EMS if goals cannot be achieved.
- f. Specific policies needed by the Training Center.

XVI. Continuing Education

- a. Specific policies needed by the Training Center.

XVII. Publications and Disclosures

- a. Specific policies needed by the Training Center.

XVIII. Lawful and Non-Discriminatory Practices

- a. Specific policies needed by the Training Center.

XIX. Student Records

- a. Specific policies needed by the Training Center.

XX. Substantive Change

- a. Specific policies needed by the Training Center.

XXI. Agreements and Contracts

- a. Specific policies needed by the Training Center.

XXII. APPENDIX A

- a. Original removed from document. Information was appropriately dispersed throughout the documents required policies.

XXIII. APPENDIX B

- a. Original removed from document. Information was appropriately dispersed throughout the documents required policies.

XXIV. APPENDIX C – Equipment

- a. Will become the new Appendix A.
- b. Reduces ALS and BLS lists to standards, making them more adaptable to changes for the future. The standard will be that each Program and laboratory space for the program will have all equipment that is specified for each psychomotor objective and psychomotor portfolio.

XXV. APPENDIX D – Sample Forms

- a. Deleted

XXVI. APPENDIX E – Fees and Honoraria

- a. Recommend deletion and put into Maine EMS Policy

XXVII. APPENDIX F – References

- a. Updated

XXVIII. APPENDIX G

- a. Recommend Deletion and put into Maine EMS policy

XXIX. APPENDIX H

- a. Recommend deletion and put into both Maine EMS policy and update of Maine EMS Rule

Subject: FW: EMS Success IC Course

I understand there was some confusion about the approval of the EMS Success/Dr. Medic Initial I/C course. I'm tracking down the original approval information from Chris, but in my research, I located this email from Chris to Leah Mitchell and Aiden Koplovsky regarding the process he used for review and which courses are approved in March of 2024.

I'll send the other information as soon as I locate it.

Subject: EMS Success IC Course

Leah,

While reading the February EdComm minutes, I did see your concern noted about the above course which has recently been filling social media with advertisements for the course. Please know that a number of others share your concern, including Tim Beals and a number of other ICs who have contacted me regarding it. So, I did check it out. Here's the short.

The course is based out of Oklahoma and produced and delivered by a company called "The Doctor Medic" and supported by a foundation called "EMS Success." I contacted the owner of the company and spoke with him at length about the course, as well as had him send me the course syllabus.

The course is a 40-hour online course similar to the NAEMSE Level 1 class. But, it's more asynchronous, is self-paced and is spread out over 6-7 weeks. It is based upon the 2002 National Standards for Educating EMS Instructors and uses the NAEMSE *Foundations of Education: An EMS Approach* textbook. The course standard, however is the lead instructor level, whereas the Maine EMS standard is that of the adjunct/assistant instructor. So, in that respect, the course exceeds the Maine EMS standard for IC licensure courses. There are assignments, a capstone project quizzes and a final exam. The course is also CAPCE approved.

With regard to Maine EMS's acceptance/approval of the course, the greatest consideration was that it exceeds the standards that Maine EMS has set for IC licensure – and there are only three:

- Course must address components of the 2002 National Guidelines for Educating EMS Instructors related to the secondary instructor
- Have a secure, reliable, written exam
- Exam results must be available to Maine EMS

Regardless of the mode of delivery, the course exceeds the first standard and meets the remaining two. As you know, IC licensure courses are not widely available or accessible across the state of Maine. By the volume of emails I get on the subject, I feel there is certainly a need for IC courses. This is especially true for those who may not be eligible or in a position to take a 60 hour NFPA 1041 course. While the current list of “acceptable” courses hasn’t been updated in some time and only reflects the NAEMSE Level 1 course and the NFPA 1041 course, I can’t see that I couldn’t accept the course if someone presented it for IC licensure.

I’m aware of the volume of work you’ve done in the past regarding IC licensure and training. I’m happy to discuss anything regarding IC licensure, training and/or support and development of ICs, as well as this course with either of you, if you’d like.

I hope I’ve provided some helpful information regarding the course. If you have any questions, please contact me at your convenience.

Subject: RE: Maine EMS I/C application - DRAFT Response

Importance: Low

Jason,

This looks fine except that the *Doctor Medic/EMS Success Instructor Course* is not appropriate for initial I/C licensing. It is however, appropriate for I/C CEH. If you have any questions, please contact me.

V/r,
John

Hey John et al; can you look and make sure my response is accurate?

Respectfully,
Jason C.

Good afternoon, thank you for reaching out to Maine EMS.

There is an application located in the eLicensure Portal called “EMS Instructor/Coordinator – New Application”.

Maine EMS’s Rules, Chapter 9, § 2(C) states that an applicant must submit to Maine EMS Training Certification, which may be a Board-approved instructor coordinator training program completed within two years of license application at the appropriate level taught by a Maine EMS license I/C following the guidelines set forth by the Training Center or a program judged by Maine Ems to be equivalent. Currently, programs known to meet Maine EMS’s Instructor/Coordinator initial licensure educational requirements are:

Fire Instructor I and II, Pro-board;

NAEMSE Instructor Level 1;
Prodigy EMS Instructor Course;
Doctor Medic/EMS Success Instructor Course

Respectfully,

**Jason J. Cooney; B.S., NRP, I/C-P
