REGISTRATION CLOSING 11/3

**Boost fidelity, without  
breaking the bank!**

Are you an educator using simulation — or *hoping to start*? Whether you work with high-tech manikins or simple setups, this hands-on workshop will give you practical tools to make your scenarios more realistic and impactful.

### **What you'll gain:**

- Creative ways to increase realism using moulage, props, and simple technology
- Strategies to ensure safety for both participants & patients
- Opportunities to connect with fellow educators and build your sim network
- A toolkit full of resources to bring back to your own training sessions

*This workshop supplements other MaineHealth simulation courses — all are welcome, whether or not you've attended a prior course!*
