DEVELOPED FOR THE MAINE ENERGY ASSURANCE & EMERGENCY MANAGEMENT PLAN

July 2012
July 2012

Honorable, Governor Paul R. LePage
State of Maine Office of the Governor
1 State House Station
Augusta, Maine 04333-0001

Dear Governor LePage:

The Governor’s Energy Office is responsible for developing and revising the State of Maine Energy Assurance and Emergency Management Plan. The purpose of the Energy Assurance Plan is to provide the Governor, the Legislature, the Executive Departments, the energy industry and the general public with a clear, concise and comprehensive blueprint and strategy to address a potential or actual energy emergency caused by a supply disruption, a rapid and unsustainable increase in energy prices or other energy emergency situation.

The GEO created Maine’s first energy emergency plan in 2008 in response to Maine citizens’ increasing vulnerability to rapid price escalations, fossil fuel supply curtailments and infrastructure disruptions. The American Recovery and Reinvestment Act (ARRA) provided states with an opportunity to revise the plan to build greater capacity and resiliency for energy assurance and emergency planning and response.

The 2012-13 Directory of Energy Emergency Contacts and Resources is one component of a revised Energy Assurance Plan. This directory is intended as an easy reference to public and private energy assurance and emergency management resources and is structured to be a dynamic and continuously updated source of information.

Sincerely,

Kenneth Fletcher
Kenneth C. Fletcher
Director
Governor’s Energy Office

July 2012
Introduction

About This Directory

This directory is intended as an easy reference to public and private energy assurance and emergency management resources as a component of the State of Maine Energy Assurance and Emergency Management Plan (Energy Assurance Plan).

The purpose of the Energy Assurance Plan is to provide the Governor, the Legislature, the Executive Departments, the energy industry and the general public with a clear, concise and comprehensive blueprint and strategy to address a potential or actual energy emergency caused by:

- a supply disruption;
- a rapid and unsustainable increase in energy prices; or
- other energy emergency situations.

The Energy Assurance Plan updates the 2008 State Energy Emergency Management Plan and strives to:

- Identify energy hazards;
- Coordinate with state agencies and private sector stakeholders on areas of critical concerns;
- Collect and disseminate critical energy information to the Governor, Legislature and the public;
- Communicate with relevant international, federal, state and local officials to maintain the effectiveness of the Energy Assurance Plan; and
- Develop strategies to work with ISO New England, natural gas producers, heating fuels providers and electricity generators to achieve energy assurance.

The directory is intended as a dynamic document open to constant revision as additional resources are added, current contacts change and the overall Energy Assurance Plan is updated and amended.

The directory is a resource guide only! It does not provide legal or policy guidance or advice. Please contact individual organizations for most current and accurate information.
Directory of Energy Emergency Contacts and Resources

American Petroleum Institute

The American Petroleum Institute (API) is the national trade association that represents more than 400 corporate members, from the largest major oil company to the smallest of independents from all segments of the industry. They are producers, refiners, suppliers, pipeline operators and marine transporters, as well as service and supply companies that support all segments of the industry.

Health and Human Services, Department of

Emergency Assistance provides benefits to families with children in some situations when the family is threatened by destitution or homelessness due to an emergency situation. These situations include fire, other natural disasters, termination of utility service, evictions, or lack of adequate shelter. The General Assistance program provides assistance with basic needs for eligible applicants who cannot provide for themselves and their families. Basic needs are defined to include, among others, fuel and utilities. The program is administered at the local level. The Department administers the program for residents of unorganized territories and shares the administration of the program with the municipalities.

ISO New England

ISO New England roles include ensuring the day-to-day reliable operation of New England's bulk power generation and transmission system, by overseeing and ensuring the fair administration of the region's wholesale electricity markets, and by managing comprehensive, regional planning processes.

The Customer Services Hot Line (413-540-4220) is staffed Monday through Friday, 7:30 A.M. - 5:30 P.M. ET.
www.iso-ne.com

Legislature, Maine

Bills affecting production, delivery, or use of energy in Maine are generally addressed by the following committees.

JOINT STANDING COMMITTEE ON APPROPRIATIONS & FINANCIAL AFFAIRS
This Committee reviews state expenditures including those related to energy activities.

JOINT STANDING COMMITTEE ON LABOR, COMMERCE, RESEARCH AND ECONOMIC DEVELOPMENT
Energy policy and programs related to business & economic development are addressed by this committee.

JOINT STANDING COMMITTEE ON ENVIRONMENTAL AND NATURAL RESOURCES
This committee addresses environmental policy that can affect the siting and operations of energy facilities.

JOINT STANDING COMMITTEE ON TRANSPORTATION
Energy issues related to transportation are addressed by this committee.

JOINT STANDING COMMITTEE ON ENERGY, UTILITIES AND TECHNOLOGY
Jurisdiction over utilities and energy policy issues in Maine.

Maine Emergency Management Agency

MEMA works with state agencies and energy related authorities to ensure that adequate planning and response takes place to address energy emergencies of any kind. Shortage, price spike, and security issues are all considered.

MEMA works closely with County Emergency Management Agencies and through them with municipalities, to address potential energy emergencies as part of a multi-hazard planning approach that looks at all events that could create an emergency situation for Maine. Voluntary agencies, the first line of response in many emergencies, are also partners in the planning process.

If an emergency reaches crisis proportions, and direct response by the state is necessary, MEMA coordinates activation of the State Emergency Operations Center and
works with Emergency Response Team members to field the appropriate response to assist Maine citizens.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM (LIHEAP)

The U.S. Department of Health & Human Services Low Income Home Energy Assistance Grant to Maine helps low-income homeowners and renters with their heating costs.

LOW INCOME ASSISTANCE PLAN (LIAP)

The purpose of this program is to help low-income customers pay their electric bills. The program is funded by Maine’s energy transmission and distribution (T&Ds) utilities. Each T&D utility, except those exempted by law, is required to provide this program for its respective region.

WEATHERIZATION PROGRAM AND CENTRAL HEATING IMPROVEMENT PROGRAM

Provides grants to low-income homeowners and renters to improve home energy efficiency and performs energy-related repairs including insulation, air sealing, central heating and air quality and energy efficiency enhancements.

APPLIANCE REPLACEMENT PROGRAM

The Appliance Replacement Program is designed to help low-income households reduce their energy costs through replacement of older refrigerators, freezers, and light bulbs that are inefficient and expensive to operate, and through consumer education.

Maine State Police

The Maine State Police has authority to grant transportation waivers regarding border issues, weight limits, route restrictions and other emergency issues.

MARITIMES & NORTHEAST PIPELINE (M&NE)

Maritimes is a 685-mile transmission pipeline system built to transport natural gas from developments offshore Nova Scotia to markets in Atlantic Canada and the northeastern United States. The Maritimes system consists of an approximately 30”/24” diameter underground mainline running through Nova Scotia and New Brunswick to the Canadian - U.S. border near Baileyville, Maine. The pipeline continues through Maine and New Hampshire into Massachusetts where it connects with the existing North American gas grid.
pipeline grid at Dracut, Massachusetts. The system has delivery points in Veazie/Bangor, Bucksport, Bowdoin, Lewiston, Westbrook, Gorham, Eliot, Newington & Haverhill.
In the event of an emergency on the Maritimes U.S. facilities, contact:

**Public Utilities Commission, Maine**

The MPUC currently regulates approximately 430 electric, telephone, water, and gas utility companies and districts. For these companies, the Commission establishes rates, grants utility operating authority, regulates utility service standards and monitors utility operations for safety and reliability. The Commission responds to customer questions and complaints and provides information to the public and policy-makers. The Commission’s Consumer Assistance Division (CAD) is charged with ensuring that consumers and utilities receive fair and equitable service through Commission education and consumer complaint resolution programs. As part of this mission, the CAD is responsible for responding to information requests, resolving consumer complaints, assessing utility compliance with consumer-related statutes and Commission rules, and screening requests from utilities seeking to disconnect gas or electric service in the winter.
