Subject: Question on Draft RFP for Energy Storage Projects

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Thank you for releasing the Draft RFP for Energy Storage Projects! We are excited that DOER is moving forward with this procurement and has provided stakeholders with an opportunity to provide feedback on the draft RFP.

As we consider our comments for the April 20 deadline, I was hoping that you could please clarify a couple of items ahead of the April 16 meeting:

1. **Pricing**: Based on the draft proposal, will the Fixed Price Proposal be adjusted by both an Energy Market Adjustment *and* Capacity Value, such that the total contract payment formula looks like this (the formula in Appendix C does not contain the Capacity Value Adjustment):

   Fixed Price Proposal with Energy Market Adjustment:
   $$\textit{Total Contract Payment}_{Monthly} = \textit{Fixed Price}_{Monthly} - \textit{EMA}_{Monthly} - (\textit{Capacity Value}_{Monthly} * BC)$$

   Fixed Price Proposal without Energy Market Adjustment:
   $$\textit{Total Contract Payment}_{Monthly} = \textit{Fixed Price}_{Monthly} - (\textit{Capacity Value}_{Monthly} * BC)$$

2. **Eligible Projects**: Based on the draft proposal, are energy storage systems that are co-located with other generators eligible to participate so long as they meet all of the other criteria outlined in the draft proposal?

3. **Standard Form Contract**: Does DOER anticipate releasing a draft standard form contract as part of the stakeholder review process or in the filing with the PUC later this year?

Thank you in advance!

Best,

Alex
