

**Agreement is Not  
Valid Unless  
Executed by  
Seller**

**Constellation NewEnergy, Inc.  
Fixed Price Solutions Transaction Confirmation**

This TC is entered into pursuant to and in accordance with a Master Agreement executed on \_\_\_\_\_ by and between Constellation NewEnergy, Inc. ("**Seller**") and **Maine, State of** ("**Customer**"), and is subject to all of the provisions, terms and conditions of such Master Agreement. Notwithstanding anything to the contrary, any conflict between this TC and the Master Agreement will be resolved in favor of this TC, but only with respect to the Account(s) listed on this TC. This TC supersedes all prior agreements and understandings with respect to the Account(s), and may not be contradicted by any prior or contemporaneous oral or written agreement. Capitalized terms used herein but not defined will have the meanings ascribed to them in the Master Agreement.

**Price Terms.** The prices contained in the Account Schedule include all the costs listed below as "Fixed", meaning that they will remain constant for the existing term of this TC and may only be subject to change as a result of a Change in Law as described in the Master Agreement. Costs listed below as "Passed Through" means that charges for these costs will change during the existing term of this TC to the extent the related charges vary for any reason. At any time during the term of this TC, Customer may request the purchase of renewable energy certificates in an amount equal to a prescribed percentage of Customer's load volume by entering into one or more Retail Trade Transactions ("RTTs"), which shall be evidence by a fully executed RTT Confirmation and be incorporated herein.

**Cost Components.** Each of the items listed as "Fixed" below is included in Customer's contract prices as set forth in the Account Schedule. For each of the items listed as "Passed Through" below, Customer will be charged the costs associated with the line item in accordance with the definitions of each item in Section 1.1, Definitions.

Energy Costs	Fixed
Ancillary Services And Other ISO Costs	Fixed
Capacity Costs	Fixed
Line Loss Costs	Fixed
RPS Costs	Fixed
Class 1A RPS Costs	Fixed
Thermal RPS Costs	Not Applicable as a Cost Component
Fuel Security Costs-COS	Not Applicable as a Cost Component
Fuel Security Costs-Interim Winter Program	Not Applicable as a Cost Component

The contract prices contained in the Account Schedule have been reduced to reflect a fixed credit to Customer for the Auction Revenue Rights and Transmission Loss Credits associated with the Account(s).

**"Fuel Security Reliability Program Costs ("Fuel Security Costs"):** means those costs or charges that are incurred by load serving entities in the ISO New England service territory associated with fuel security reliability, as described in ISO New England tariff provisions accepted by the Federal Energy Regulatory Commission ("**FERC**") in Docket Nos. ER18-2364-000 and EL18-182-000 as proposed or implemented during the term of this TC, including but not limited to costs associated with cost-of-service agreements ("**COS Agreements**"), such as the agreement accepted for filing by FERC in Docket No. ER18-1639-000 (the "**Mystic COS Agreement**") and the implementation of an interim inventoried energy program during the winter months of 2023-2024 for Forward Capacity Auction ("**FCA**") 14 and 2024-2025 for FCA 15 accepted by FERC on August 6, 2019 in Docket N0 ER19-1428-001 (collectively, the "**Interim Winter Program**"). If that portion of the Fuel Security Costs associated with the Mystic COS Agreement ("**Fuel Security Costs-COS**") and/or the Interim Winter Program are **Fixed** under this TC, then such costs shall only include costs associated with the Mystic COS Agreement and/or cost associated with the Interim Winter Program, as applicable, as in effect as of date of the full execution of this TC. Any additions, modifications or conditions to the treatment of Fuel Security Costs under the ISO New England tariff or otherwise, including but not limited to any modifications of the Mystic COS Agreement (including the approval of any other COS Agreements),

FOR INTERNAL USE ONLY

modifications to the Interim Winter Program or any new or modified long-term market solutions implemented by ISO New England and accepted or approved by FERC shall be deemed a Change in Law as described in the Master Agreement.

**Capacity Cost (Fixed):** Customer has elected the "Fixed" option for Customer's "Capacity Costs" as noted in the table above. "Fixed" means Seller has included Capacity Costs in Customer's contract price (set forth in the Account Schedule) based on the current Capacity Costs associated with Customer's Accounts as of the effective date of this TC. Customer's Capacity Costs will not be subject to change during the term of this TC except as a result of Change in Law as described in the Master Agreement. For avoidance of doubt, except as otherwise agreed to herein, Customer's Fixed contract price will not be adjusted (either upward or downward) to pass through any changes in Customer's Capacity Costs based on monthly or annual changes to the Capacity Obligation for the Account(s). "Capacity Obligation" means the Accounts' ICAP Tags as provided by the UDC, as modified utilizing the applicable ISO methodology factors (including but not limited to reserve margin) as defined by the ISO as of the date this TC. "ICAP Tag (kW)" means the peak load contribution for the Account(s) measured in kilowatts (kW) as determined by the UDC and reported to the applicable ISO. For illustrative purposes only, please see the Capacity Obligation Components table below:

<b>CAPACITY OBLIGATION COMPONENTS</b>	
ICAP Tags	Fixed
Other ISO/Utility factors (such as reserve margin)	Fixed

**Billing.** Customer's Account(s) will be billed as follows per the Master Agreement: UDC Consolidated Billing.

**Section 1.1. Definitions.**

**"Ancillary Services And Other ISO Costs"** means for any billing period the applicable charges regarding ancillary services as set forth in the applicable ISO Open Access Transmission Tariff ("OATT") and for other ISO costs not otherwise included in any of the defined cost components in this TC. Seller will reasonably determine an Account's monthly Ancillary Services And Other ISO Costs based on the Account's \$/kWh share of cost for Ancillary Services And Other ISO Costs or otherwise reasonable allocation method as Seller may determine from time to time based on how Ancillary Services And Other ISO Costs are assessed by the ISO.

**"Auction Revenue Rights"** means revenue credits resulting from the annual financial transmission rights auction conducted by the ISO that are applicable with respect to transmission peak load contribution.

**"Capacity Costs"** means a charge for fulfilling the capacity requirements for the Account(s) imposed by the ISO or otherwise.

**"Covered Bandwidth"** does not apply to this TC.

**"Energy Costs"** means a charge for the cost items included in the Locational Marginal Price for the ISO zone identified in the Account Schedule.

**"Holdover Fee"** means a cost of \$.005250 per kWh in the holdover rate.

**"Line Loss Costs"** means the costs (to the extent not already captured in the applicable Energy Costs) applicable to each Account based on the kWh difference between the UDC metered usage and the ISO settlement volumes. If Line Loss Costs are "Fixed," the Line Loss Costs are included in the Energy Costs and will not be invoiced as a separate line item. If Line Loss Costs are "Passed Through," the Line Loss Costs will be invoiced as a separate line item and calculated based on the applicable fixed price or locational marginal price for the corresponding usage.

**"LMP" or "Holdover Market Price"** means the ISO-published Day Ahead locational based marginal price for the ISO zone applicable to each Account expressed in \$/kWh. Such prices are published hourly or sub-hourly depending on the ISO.

**"Non Time Of Use" or "NTOU"** means all hours of each day.

**"Off Peak"** means all hours other than Peak hours.

**"Payment Date"** means the date 20 days following the invoice date, by which Customer's payment to Seller is due without offset or reduction of any kind.

**"Peak"** means the hours designated as peak from time to time by the UDC.

**"Pricing Schedule"** means "Transaction Confirmation" or "TC".

**"Renewable Portfolio Standards Costs ("RPS Costs")"** means the costs associated with meeting renewable portfolio standards costs at the levels required by currently applicable Law. If Renewable Portfolio Standards Costs are not included in the contract price, such costs for a particular month will be the product of (i) the Monthly RPS Price; and (ii) an Account's monthly kWh usage. The Monthly RPS Price is the price of renewable portfolio standards compliance for the Account, for a particular month, fixed by reference to the renewable portfolio standards forward price curve for the state where the Account is located.

**"Class 1A RPS Costs"** means RPS Costs, charges and/or obligations to comply with S.P. 457-L.D.1494 (signed into law by the State of Maine on June 26, 2019), which implemented Class 1A requirement on January 1, 2020 for agreements entered into on or after September 19, 2019, based on applicable law and regulations in effect on the Effective Date of this TC.

FOR INTERNAL USE ONLY

**"Thermal RPS Costs"** means RPS Costs, charges and/or obligations to comply with S.P. 457-L.D.1494 (signed into law by the State of Maine on June 26, 2019), which implemented thermal energy renewable portfolio standards obligations as of January 1, 2021, based on applicable law and regulations in effect on the Effective Date of this TC.

**"Transmission Loss Credits"** means the credit amounts applicable to the Accounts under the ISO's marginal loss construct.

**"Utility"** means the "local electricity distribution company" or "UDC".

**Section 2.1. Initial Term.** With respect to each Account set forth in the Account Schedule below, electricity supply shall commence on or about the date set forth under "Start Date", and end on or about the date set forth under "End Date" in accordance with the terms of the Agreement. Service may be extended for a holdover term as described in the Master Agreement.

**Section 2.2. Seller and UDC Contact Information.** Customer may contact Seller regarding its invoice or other matters concerning this TC at Seller's Customer Service Department by toll-free telephone at 844-636-3749, or email at CustomerCare@Constellation.com. **CUSTOMER AGREES TO CONTACT ITS UDC IN THE EVENT OF A POWER OUTAGE OR OTHER ELECTRICITY RELATED EMERGENCY AT THE FOLLOWING TELEPHONE NUMBERS:**

UDC Name	UDC Abbreviation	Contact Numbers
Bangor Hydro Electric	BHE	1-800-440-1111
Central Maine Power Company	CMP	1-800-696-1000

Maine Public Utilities Commission. Additional information, including information on consumer rights, may be obtained by contacting the Maine Public Utilities Commission at (207) 287-3831.

**Section 2.3. Miscellaneous.** For Account(s) located in the State of Maine:

(i) Withdrawal from the ISO. Any withdrawal of the Utilities located in the State of Maine (the "Maine Transmission and Distribution Utilities") from the ISO, which is the New England Regional Transmission Organization approved by the Federal Energy Regulatory Commission, or any action taken to restructure or otherwise significantly change the participation of the Maine Transmission and Distribution Utilities in ISO (including but not limited to the situation where the Maine Transmission and Distribution Utilities form an independent transmission company managing access to Maine's transmission system or join a Canadian transmission system) (the "**Maine Restructuring Event**") shall be deemed a Change in Law pursuant to the Master Agreement and Seller has the right to adjust upward the amounts payable by Customer under this Agreement to take account of such circumstances. Notwithstanding any other provision of this Agreement, where a Maine Restructuring Event has occurred or is occurring and Seller is unable to carry out its obligations under this Agreement due to such Maine Restructuring Event, Seller shall have the right to terminate this Agreement by providing Customer thirty (30) days prior written notice.

(ii) Disclosure of Risks and Costs Associated With Real-Time or Indexed Electricity Products. Maine regulations require that electricity suppliers, brokers and aggregators provide the following disclosure to customers regarding electricity products in which the prices paid by consumers vary with changes in wholesale electricity prices, other energy prices, or an energy price index. Customer acknowledges:

(a) Volatility Risk: Electricity prices may be subject to substantial volatility based on economic conditions, fuel prices, seasonal electricity demands, generator outages, weather and other factors;

(b) Future Performance: Past results regarding particular electricity products are not necessarily an indication of future results;

(c) Additional Costs: Electricity supplied directly through the ISO-NE administered day-ahead and real-time energy markets can involve substantial direct and indirect costs, including but not limited to capacity and ancillary service costs, credit assurances, and NEPOOL and ISO expense assessments. In addition, participation in these markets may require processes such as load forecasting, scheduling, and settlement in accordance with ISO-NE market rules.

Signed  
Products.

Please initial your acknowledgement to the Disclosure of Risks and Costs Associated with Real-Time or Indexed Electricity Products.

(iii) Certain Warranties. Customer warrants and represents that the electricity supplied under this Agreement is not for use at a residence. For Account(s) located in the State of Maine, Customer represents and warrants that Customer's AGGREGATE PEAK LOAD DURING ANY 12 MONTH PERIOD IS GREATER THAN 20 KILOWATTS.
