

# Maine Artificial Intelligence Task Force

Meeting #1

February 14, 2025

# Agenda

**Welcome**

**AI Technology Overview**, Dr. Usama Fayyad, Roux Institute at Northeastern University

**Overview of State & Federal Actions on AI**, Cass Madison, Center for Public Sector AI and Nishant Shah, State of Maryland

**Task Force Discussion & Debrief**, Task Force Members

**Looking Ahead**, Task Force Staff

# Discussion

- Does learning about the national landscape shape where Maine's Task Force should focus our recommendations?
- Are there new opportunities, challenges, or implications for Maine from AI that you hadn't previously considered?
- Are there examples of AI in Maine that would be particularly relevant for us to learn about?

# Survey

1. **AI Opportunities & Risks in Maine:** Where do you see the most relevant opportunities and/or risks related to AI for the people of Maine? Are there specific sectors, communities, or policy areas where AI could have a significant impact?
2. **Discussion Topics:** What specific topics or issues would you like the Task Force to explore in the coming months? Are there any individuals, organizations, or experts you would like to invite to present or engage with the Task Force?
3. **Research Needs:** What additional research, data, or background materials would be helpful for your work on the Task Force? Are there specific areas where staff support would be beneficial?
4. **AI Integration:** How do you think the Task Force could leverage AI to enhance its work? Are there particular use cases, tools, or areas of interest related to AI that you'd like to explore?
5. **Presentations:** Would you be interested in presenting to the Task Force on a relevant topic or project in the coming months? If so, what topics would you be open to discussing?

# Closing

Next Meeting:

**March 13, 2025, 2pm – 4pm**
