CAG2025-6 Community Action Grant Informational Webinar

Today's Agenda

- 1. Maine's Climate Goals
- 2. Community Resilience Partnership overview
- 3. Community Action Grant overview
- 4. Questions

CLIMATE COUNCIL GOALS

12.01.24

Updated Climate Action Plan Due Achieve State Carbon Neutrality by

⊌₀

2045

REDUCE MAINE'S GREENHOUSE GAS EMISSIONS BY TARGETS OUTLINED IN STATE LAW

45% BELOW 1990 LEVELS BY 2030 80% BELOW 1990 LEVELS BY 2050

ENSURE MAINE PEOPLE, INDUSTRIES, AND COMMUNITIES ARE RESILIENT TO THE IMPACTS OF CLIMATE CHANGE.

MAINE WON'T WAIT

SOUR VEAR PLAN FOR CLIMA PE RCHIDZ

ANTE CLIMATE COUNCIL

Maine Won't Wait Goals:

- 1. Reduce Maine's greenhouse gas emissions
- 2. Strengthen **resilience** to climate impacts
- 3. Create **jobs** and **economic prosperity**
- 4. Bring climate action to all Maine people

Maine Won't Wait Strategies:

Α

Embrace the future of transportation in Maine

Protect the environment and natural and working lands and waters in Maine

Modernize Maine's buildings: energyefficient, smart, and cost-effective homes and businesses

F

G

Build healthy and resilient communities

Transition to clean energy

Engage with Maine people on climate action

6

Create jobs and grow Maine's economy through climate action

Community Resilience Partnership

www.maine.gov/future/climate/community-resilience-partnership

Purpose

Through grants and technical assistance, the Community Resilience Partnership assists communities to:

- reduce carbon emissions,
- transition to clean energy, and
- become more resilient to climate change effects such as to extreme weather, flooding, rising sea levels, public health impacts, and more.

Community Action and Service Provider Grant Funding Allocation

- Grants to communities for planning and implementation
 - \$4.7 million available for award this round; anticipating 55-65 awards
- Grants to service provider organizations to help communities get started and to complete vulnerability assessments
 - \$600,000 available for award this round
- A portion of this funding derives from federal sources and may carry additional federal requirements. Successful applicants will be notified if their award contains federal funding.

Community Action Grants

Grants to communities for priority projects that reduce energy use and costs and/or make their community more resilient to climate change effects, such as flooding, extreme weather, drought, and public health impacts.

Intended outcomes:

- Emissions reductions and improved community resilience.
- Leveraging federal and other funds for larger projects.

Community Action Grant Eligibility

Eligibility

- Municipalities and federally recognized tribes in Maine
 - Townships, plantations, unorganized territories are eligible
 - Collaborative multi-community applications are encouraged
- **Currently enrolled or submitting an enrollment** form with Community Action Grant application
- Regional planning organizations (RPOs, COGs, EDOs, and EMAs) may apply on behalf of enrolled communities with letters of commitment
- Communities that already have an active Community Action Grant from a previous round are eligible to apply in this round but may not apply for new funds to support a previous scope of work.

Community Action Grants - Option 1

Two options

Option 1: No-match grants for one or more activities on the updated List of **96 Community** Actions (updated June 2025) that align with Maine Won't Wait 2024

e ins	structions on Introduction and Example tabs.				
Stra	ategy Areas & Actions (mark Columns A, B, C as complete, in ogress, or no progress)	Community Enrollment Notes	Community Action Grant Eligibility and Funding Notes	Community Action Grant Additional Notes	
e o	f Transportation				
(EVs					
A1	Purchase or lease light-, medium- and heavy-duty electric vehicles, e-bikes, electric lawn or maintenance equipment, electric school buses, or electric boat engines for municipal or tribal government-owned vehicle fleets.		 Maximum of \$7,500 in grant funds may be applied to each vehicle or piece of equipment. Where applicable, Efficiency Maine's electric vehicle rebate must be included in the applicant's project budget. 	 A strong proposal will include a scrappage pl for fossil-fuel powered vehicles that are being replaced. Federal Commercial Clean Vehicle Credit Information: https://www.irs.gov/credits- deductions/commercial-clean-vehicle-credit 	
A2	Develop a fleet transition plan to transition to an electric municipal or tribal government-owned fleet.				
A3	Install publicly accessible or workplace EV chargers on publicly or tribal government-owned land.		Where applicable, Efficiency Maine's EV charging rebate or grant funding must be included in the applicant's project budget.	Federal Alternative Fuel Vehicle Refueling Property Credit Information	
A4	Adopt ordinances to encourage EV charging infrastructure, including at multifamily dwellings, businesses, and public parking areas.				
A5	Adopt an anti-idling ordinance.				
A6	Fund nationally accredited (NFPA) training and educational opportunities for local first responders to be prepared to safely handle fires involving EV batteries.			Learn more about the National Fire Protection Association (NFPA)	
A7	Develop and implement a community EV education and awareness campaign.	8			
tatio					
A8	Adopt a Complete Streets policy which addresses safety, bike/pedestrian uses, and transit.				
	Implement strategies that increase public transit ridership and alternative			This could include bike or e-bike lending programs, land use and development policies that reduce the need for driving, or	

Community Action Grants - Option 2

<u>Option 2</u>: Grants for other community-identified climate priorities that support capacity building, planning, and implementation of clean energy, emissions reduction, and community resilience projects (local match required, in-kind allowed). Must identify relevant Maine Won't Wait strategy.

- 10% local match for Tier 1 and Tier 2 communities
- 20% local match for Tier 3 communities

Community Tiers

- Tier 1 Population below 4,000
- Tier 2 Population between 4,000 and 10,000 or state tax assessment less than \$25 million
- Tier 3 Population above 10,000 and state tax assessment over \$25 million

Community Action Grant Awards

<u>Maximum award</u>: \$75,000 for individual communities and \$175,000 for multi-community proposals

Grant Project Timeline: 12 to 24 months

<u>Reporting</u>: All funded projects will be required to provide quarterly updates, project deliverables, and a brief project case study that communicates lessons learned.

• The applicant(s) should develop and track metrics, both for success of the project and progress toward long-term community goals.

Community Action Grant - Community Engagement

Approach to Community Access and Engagement

- Applicants should describe actions that will be taken to include community stakeholders in the project <u>during the grant period</u>, including underrepresented and more vulnerable community members.
 - This could include educational outreach around the community benefits of the project and *why* it's important to be taking these action(s).
- Approach to Community Access and Engagement make up a third of the of Scope of Work score

Community Action Grants - Community Access

Community Access

- Maine's climate response must ensure shared benefits across all Maine people.
 - Who in your community should participate in this project and/or benefit from it?
- Applicants should consider the potential benefits of their proposed climate action projects and, if applicable, describe how the project promotes access to those benefits.

Maine Social Vulnerability Index

- The MSVI is used by this grant program to understand socio-economic vulnerabilities that may be unique to a community.
- Applicants should reference the updated MSVI, linked in the Program Statement, to determine the current community vulnerability categorization.
- Updated in 2024

Information for this Grant Round

• Max grant amounts:

- \$75,000 for individual community grants
- \$175,000 for multi-community grants
- State and Federal funding sources
 - Additional funding available on top of the award for administration of grants funded using federal sources
- Updated List of Community Actions for no-match grant funding (updated June 2025)
- Maine Social Vulnerability Index (Updated 2024)

Applying to the Community Action Grant Program Statement

- Application deadline: August 29, 5pm local time
- Questions can be submitted to Ashley Krulik (ashley.krulik@maine.gov)
 - Responses will be posted to the Partnership website on a rolling basis until August 8, 2025
- Program Statement available at: <u>https://www.maine.gov/future/climate/community-resilience-partnership/grants</u>
 - Program Statement contains the required application form.
 - Application form and any letters of support must be submitted as a package via the instructions in the Program Statement.
 - Email file size cannot exceed 20MB
- Award notifications anticipated approximately mid December
- Grant start date will be around January 15, 2026

Future Grant Round

The next Community Action Grant round is expected to occur in the **Winter 2026 (Round 7):** This round will be open to all enrolled communities.

Enrolling in the Partnership

1. Complete two self-assessments

- List of Community Actions (updated June 2025)
- Community Resilience Self-evaluation
- 2. Hold a community workshop and set priority action items
- 3. Pass a municipal resolution or obtain a letter from a tribal chief or UT supervisor committing to participate
 - Model language provided
- 4. Submit enrollment materials through the online form
- 5. Reenrollment every two years.

Rolling enrollment – no deadlines.

Need help? Service Provider Grants are available.

Service Provider Grants

Service Provider Grants support organizations to assist communities with climate action, energy and resilience planning.

- There are two Service Provider Grant Tracks:
 - Track 1 Community Enrollment Service Provider Grants
 - **Track 2** Community Vulnerability Assessment Service Provider Grants to complete community vulnerability assessments
- A Community may participate in applications for both a Community Action Grant and a Track 2 Community Vulnerability Assessment Grant but may only participate in one (1) application per grant opportunity.
- An information webinar on the Service Provider Grant was held June 12th at 10am. A recording will be available on the Partnership website.
 www.maine.gov/future/climate/community-resilience-partnership

Tips for a Strong Application

- Clearly defined project tasks, deliverables, outcomes, roles and responsibilities, and timeline
- Community engagement throughout the duration of the project
- Description of how the project will benefit the community
- Accurate budget that includes vendor estimates and Efficiency Maine incentives if applicable
