

# MDIFW Fishing Regulation Proposals

## For the 2022 fishing season

Chapter 1. Open Water and Ice Fishing Regulations; Chapter 1-A. State Heritage Fish Waters

# Theme Categories of Fishing Regulation Proposals Year 2

- For the second year in a row, MDIFW is presenting proposed changes to fishing regulations in “theme categories”.
- The goal of presenting the proposals in this manner is to better facilitate the public review process and to increase understanding of the changes currently proposed.

# Outline of this Packet

## Theme Categories

- Special Need (page 4 – 8)
- State Heritage Fish Waters (page 9 – 10)
- Expanded Winter Angling Opportunity (page 11 – 21)
- Simplify to General Law (page 22 – 31)
- Errors, Conflicts, and Confusions (page 32 – 41)
- North Zone Fall Season Consistency (page 42 – 61)

\* Note in each proposal: Gray Highlighted Text = Deleted text.  
Underlined Text = New text.

## Special Need

Management initiatives, typically in response to dramatic events, an emerging situation requiring adaptive rule changes, or more complex and comprehensive initiatives to increase consistency and simplification within or between watersheds.

Number of Proposals in this Theme: 4

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Special Need				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	08616808	ABBOTT BROOK	Lincoln Plt	Oxford (North)	MDIFW

### REGULATION CHANGE DESCRIPTION

Close the section from the Rt. 16 bridge to the confluence with the Magalloway River to fishing from August 16 - September 30.

### PURPOSE

The purpose of this proposal is to add additional protection to wild brook trout while vulnerable to additional pressure and stress when seeking thermal refuge and staging to spawn. Abbott Brook is an important tributary to the Lower Magalloway River, the brook provides spawning and nursery habitat and is well known as one of the primary thermal refuges for brook trout in the Lower Magalloway. The brook flows under Route 16 in Lincoln Plt and the location brook trout utilize heavily is visible from the road. The Lower Magalloway River provides a high quality wild brook trout fishery and is one of the regions premier river fisheries. Access is easy with several access points off Route 16 owned by various entities and private landowners. The Lower Magalloway River is heavily utilized and is one of the region's most popular river fisheries. Regular creel surveys have estimated a 142 percent increase in annual angler trips on the Lower Magalloway from 2010 to 2016. A 2007 radio telemetry study determined that a significant portion of Magalloway River brook trout utilize Abbot Brook for spawning and nursery habitat. This proposal would further protect staging and spawning brook trout during the late summer time period.

### CURRENT REGULATIONS

**ABBOTT BROOK**, Lincoln Plt (North Zone). General fishing laws apply, except: From the Route 16 bridge downstream to the confluence with the Magalloway River: From August 16 - September 30: FFO, S-7.

### PROPOSED MODIFICATIONS

**ABBOTT BROOK**, Lincoln Plt (North Zone). General fishing laws apply, except: From the Route 16 bridge downstream to the confluence with the Magalloway River: From August 16 - September 30: **FFO, S-7. Closed to fishing.**

### PROPOSED REGULATIONS

**ABBOTT BROOK**, Lincoln Plt (North Zone). General fishing laws apply, except: From the Route 16 bridge downstream to the confluence with the Magalloway River: From August 16 - September 30: Closed to fishing.

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Special Need				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
G	1938	CLEAR LAKE	T10 R11 WELS	Piscataquis	MDIFW

### REGULATION CHANGE DESCRIPTION

Remove liberal special regulation on togue.

### PURPOSE

Clear Lake is a 614 acre water located in T10 R11. It was previously stocked with togue from 1994-2010. Around 2014, Clear Lake experienced a surge in wild recruitment of togue that resulted in complaints of numerous and very skinny fish. We obtained a small sample of togue at that time and confirmed fish were in very poor condition. In addition to this, 2011 and 2015 winter creel surveys confirmed that togue were overabundant and lacking forage based on poor condition factors. In January 2016, the current liberal rule was established to help reduce the population and restore fish condition and health. Winter creel surveys over the last 10 years have allowed us to evaluate how the population has changed, including an intensive winter season-long survey in early 2021. These data clearly show a declining catch rate which indicates the population has effectively been reduced in recent years. Body condition and health of togue has also been greatly improved with condition factors of 0.92 in 2020 and 0.97 in 2021 (a condition factor of 1.00 is considered optimal). Based on current data, the special regulation on togue is no longer necessary and the proposed change general law (2 fish, 18 inch minimum length) is appropriate at this time.

### CURRENT REGULATIONS

**CLEAR LAKE**, T10 R11 WELS (North Zone). General fishing laws apply, except: **B.** S-11, S-16. Daily bag limit on togue: 6 fish; minimum length limit: 14 inches, only 1 may exceed 23 inches. Daily bag limit on whitefish: 1 fish. Minimum length limit on whitefish: 18 inches.

### PROPOSED MODIFICATIONS

**CLEAR LAKE**, T10 R11 WELS (North Zone). General fishing laws apply, except: **B.** S-11, S-16. Daily bag limit on togue: 6 fish; minimum length limit: 14 inches, only 1 may exceed 23 inches. Daily bag limit on whitefish: 1 fish. Minimum length limit on whitefish: 18 inches.

### PROPOSED REGULATIONS

**CLEAR LAKE**, T10 R11 WELS (North Zone). General fishing laws apply, except: **B.** S-11, S-16. Daily bag limit on whitefish: 1 fish. Minimum length limit on whitefish: 18 inches.

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Special Need				
--------	--------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
C	4332	CRAIG POND	Orland	Hancock	MDIFW

**REGULATION CHANGE DESCRIPTION**

Change catch and release togue regulation to a 1 fish bag limit (S-25) and a minimum length limit of 23 inches.

**PURPOSE**

Craig Pond is 218 acre water located in Orland. Winter angling use is high on this water that is stocked with brook trout and salmon and has a wild togue population. Togue abundance was historically low. MDIFW has a long history efforts to conserve and enhance this wild population through protective regulations, an attempt to augment spawning habitat, and even an attempt at seeding the spawning area with fertilized eggs taken from Craig Pond togue. After years of monitoring the population, recent data indicates that togue abundance has increased and togue condition factor is poor. This proposal would allow limited harvest of togue over 23 inches with the goal of improving growth and condition in this relatively small body of water. Moving forward, MDIFW will continue to closely monitor this population to ensure sustainability, while balancing angler interests on this high use water.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS
<p><b>CRAIG POND</b>, Orland (South Zone). General fishing laws apply, except: S-8. Closed to the taking of togue. ## 2022 Rule Making Proposals - Statewide Waters

THEME:	Special Need				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
A	6755	ROUND POND AND TRIBUTARIES AND OUTLET	Albany Twp	Oxford (South)	MDIFW

### REGULATION CHANGE DESCRIPTION

Remove S-10 and fall season, add CO and S-20.

### PURPOSE

Round Pond is a 14 acre remote water located within the White Mountain National Forest. This water was previously managed as a stocked fishery, which supported multiple age classes of brook trout of average size quality with the occasional trophy trout caught. Competition from other species limited the trout fishery, which led to the decision to chemically reclaim Round Pond in 2015. The expectation was that reclamation would remove competitors, thus improving the stocked trout fishery (with the potential for some wild recruitment from stocked trout.) Recent sampling has confirmed that the reclamation successfully eradicated competing fish species within Round Pond, but in addition, data shows that the brook trout population is now predominately made up of wild fish - surpassing expectations and providing a surprising, yet welcomed outcome. The combination of wild recruitment, along with low angler use and harvest has resulted in an overabundant brook trout population which is no longer meeting size quality objectives. The stocking program has been terminated and management goals will be shifted to manage solely for wild trout.

The proposed regulations would prohibit angling during the fall period to protect staging and spawning trout. Additionally, this proposal would add the S-20 regulation which is intended to direct harvest toward smaller and more plentiful age classes of fish in order to improve size quality. This reclamation was extremely successful, but management changes will be required to address the current abundance of wild trout.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS
<p><b>ROUND POND AND TRIBUTARIES AND OUTLET</b>, Albany Twp (South Zone). General fishing laws apply, except:</p> <p>Pond: <b>CI</b>, S-4, S-10. Closed to the taking of live baitfish. # State Heritage Fish Waters

Proposed additions or removals to the State Heritage Fish Waters List consistent with statutory requirements and MDIFW's Heritage Waters consideration data review process.

Number of Proposals in this Theme: 1

## 2022 Rule Making Proposals - Statewide Waters

THEME:	State Heritage Fish Waters				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
C	1322	BUTCHER LAKE	Codyville Plt	Washington	MDIFW

### REGULATION CHANGE DESCRIPTION

Amend Chapter 1A by removing this water from the State Heritage Fish Waters list.

Remove from the law book and revert to General Law.

### PURPOSE

Butcher Lake was first surveyed in 2005 and was added to the State Heritage Fish Waters list in 2011. No Brook Trout were sampled in the original survey. Since that time, anecdotal reports from the few spring anglers that have fished it, report catching only the occasional Brook Trout. Mid-summer water quality at Butcher Lake is unfavorable for Brook Trout survival. The pond is shallow (4 feet maximum depth, 2 feet average depth), contains large areas of emergent vegetation, and lacks cold water refugia for Brook Trout to survive over the summer. There is no spawning habitat within Butcher Lake and no spring seeps have been identified. Findings from a recent resurvey (2020) showed an abundant population of baitfish species present (golden shiner, banded killifish, and Norther Redbelly Dace) and suggest that occasional trout are only present seasonally (likely originating from the outlet system - Tomah Stream). Also, during the last visit to the pond a large beaver dam was noted on the outlet, possibly further limiting fish movements at low water levels.

The original survey and subsequent resurvey of Butcher Lake showed poor water quality for Brook Trout during the mid-summer and no spring seeps were identified. Data indicates that Butcher Lake does not support a self-sustaining population of Brook Trout. The few fish that are reportedly caught occasionally in the pond are likely only there seasonally in the spring. Therefore, Butcher Lake is proposed for removal from the State Heritage Fish Waters list. The current special regulations are unnecessary and are proposed to be simplified to general law.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS

# Expanded Winter Angling Opportunity

Creation of new or expanded winter fishing opportunities commonly associated with stocked waters or warmwater fisheries and supported by public interest. This theme includes opportunities that align with MDIFW's priority to engage new anglers and considers management goals and objectives (including terminal tackle restrictions), anticipated angler use, and ease of angler access.

Number of Proposals in this Theme: 10

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Expanded Winter Angling Opportunities				
--------	---------------------------------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	0278	AUSTIN POND	Bald Mountain Twp T2 R3	Somerset	MDIFW

**REGULATION CHANGE DESCRIPTION**

Open to ice fishing under special season code "B."

**PURPOSE**

This proposal will create a new winter fishing opportunity in a stocked water supported by public interest and priority to engage new anglers. Austin Pond is a 684 acre pond with limited development and surrounded by commercial forest land. The pond is stocked annually with brook trout and managed primarily as a put and take fishery, but does provide opportunity for limited hold over. The pond also has a small remanent landlocked salmon population. Austin Pond a popular open water fishery and receives regular angler use.

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
G	427253_BLNK	BLACK RIVER, LITTLE	T19 R12 WELS to Allagash	Aroostook	MDIFW

**REGULATION CHANGE DESCRIPTION**

Open to ice fishing under special season code "B."  
 Add "except by hook and line".  
 Modify fall season opportunity.

**PURPOSE**

The purpose of this proposal is to provide increased winter angling opportunity in an area that is devoid of lakes and ponds and that will not impact native fishery resources. The Saint John River system, including major tributaries, have largely been colonized by invasive muskellunge that have impacted the wild brook trout resources in much of this system. Local anglers and guides have expressed interest in increasing opportunities to fish in this area during the winter season. This water is proposed as it is unlikely that ice anglers will encounter brook trout on this water, as very few remain. This proposal is intended balance angler desires of increased winter opportunity in a location that is unlikely to impact native populations.

Also, with proposed expanded winter opportunity and considerate of the lack of brook trout resources in this water, the fall season is proposed to be simplified.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Expanded Winter Angling Opportunities				
--------	---------------------------------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	3964	LINCOLN POND	Parkertown Twp	Oxford (North)	MDIFW

**REGULATION CHANGE DESCRIPTION**

Open to ice fishing under special season code "B".

Expand fall angling opportunity by adding "Open to open water fishing from October 1 - November 30: ALO, S-7."

**PURPOSE**

This proposal will create a new winter fishing opportunity in a remote water creating a unique angling experience. Supported by public interest and priority to engage new anglers, the proposal also aligns with management goals and objectives for this water. Lincoln Pond is a 340 acre pond surrounded by commercial forest land and has one private camp. The pond receives limited fishing pressure due to the remote setting. Typical access requires 4WD vehicle and 5-10 minute walk into pond depending on road conditions and forestry operations. Lincoln Pond is stocked annually with brook trout and was previously stocked with togue (last stocked in 1991). The togue population is now self sustaining and over abundant. Togue growth and condition is poor and the stunted fishery is not meeting management objectives. Togue regulations were changed from general law (2 fish, minimum length limit of 18") to S-26 (Daily bag limit on togue: 3 fish; minimum length limit: 14", only 1 may exceed 18") in 2000 to promote harvest and improve the overall health of the fishery. Due to lack of use and harvest by open water anglers, the S-26 regulation has been unsuccessful in improving the health of the togue fishery.

Additionally, following the review of fall season opportunities on lakes and ponds in the North Zone, this water was identified as one where allowing fall angling would not compromise management goals and objectives and would create an additional opportunity during that time period.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Expanded Winter Angling Opportunities				
--------	---------------------------------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	3298	PEPPERPOT POND	Adamstown Twp	Oxford (North)	MDIFW

**REGULATION CHANGE DESCRIPTION**

Open to ice fishing under special season code "A".

**PURPOSE**

This proposal would create a new winter fishing opportunity in a water supported by public interest and priority to engage new anglers. Pepperpot Pond is approximately 50 acres and the shoreline is mostly undeveloped and surrounded by Bureau Parks and Land property. Yellow perch are the predominant species present, but the pond does receive occasional drop down stocked brook trout from West Richardson Pond upstream. However, water quality is poor and is the limiting factor for year-round trout survival. If this proposal is advanced, this water may be considered for a future put and take brook trout program. Access is fairly easy, approximately 200 yards from Route 16. The pond receives low summer use, but could provide a fast action warm water winter fishing opportunity.

THEME:	Expanded Winter Angling Opportunities				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	0184	TIBBETTS POND	Concord Twp	Somerset	MDIFW

### REGULATION CHANGE DESCRIPTION

Open to ice fishing under special season code "A."

Add S-11.

Open to fall fishing.

### PURPOSE

The proposal creates a new winter and fall fishing opportunity in a stocked water supported by public interest and priority to engage youth anglers. Tibbetts Pond is a 6 acre pond surrounded by property owned by MDIFW and is managed as special opportunity water open to fishing only for persons under 16 years of age or persons holding an eligible complimentary fishing license. Tibbetts Pond is stocked annually with brook trout and the pond receives heavy fishing pressure during the open water and ice fishing seasons. This pond has no outlet and an abundant population of golden shiners. This proposal would increase angling opportunity by changing the special season code from "B" to "A", allowing the use of live fish as bait, and would open the pond to fall fishing.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	2336	TOOTHAKER POND	Phillips	Franklin	MDIFW

**REGULATION CHANGE DESCRIPTION**

Open to ice fishing under special season code "A." Remove S-9. Add S-11.

Also, Create consistent fall season dates and text: From October 1 - November 30: ALO, S-7.

**PURPOSE**

This proposal will expand an ice fishing opportunity in a stocked water supported by public interest and priority to engage new anglers. Toothaker Pond is a lightly developed 30 acre pond with a hand carry access site found directly off the Toothaker Pond Road. The pond currently receives regular use during the summer months and is annually stocked with brook trout. During winter months, the pond is only open to kids under the age of 16 and eligible complimentary license holders. MDIFW has documented little winter angling activity by anglers, due to the recent opening of another winter kids angling water within 6 miles of Toothaker that is smaller in size and provides faster action for brook trout. Opening Toothaker Pond to all license holders during the ice fishing season will expand winter opportunity for all anglers and better realize the use potential for this water. Additionally, this proposal would establish fall season dates and text consistent with other similarly managed waters.

## Simplify to General Law

Consistent with ongoing MDIFW commitments to simplify the law book, proposals under this theme would result in complete removal from the “special fishing laws” section.

This theme identifies waters with special regulations that can be effectively managed under general law.

Removals typically result where there are changes in management, including suspension of ineffective stocking programs, lost public access and suspension of intensive management, and antiquated rules reflecting historical management needs that are no longer relevant.

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Simplify to General Law				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
E	4122	BAKER POND	Tomhegan Twp	Somerset	MDIFW

### REGULATION CHANGE DESCRIPTION

Removing all special regulations and simplify to general law.

### PURPOSE

Baker Pond is a 74-acre shallow pond located just off the Twenty Mile Rd in Tomhegan Twp. The pond has a maximum depth of just 6 ft. Gillnet surveys indicate the pond likely experiences both summer and winter mortality associated with poor water quality. Yellow perch, common suckers, and creek chubs are present. A recent angler count and a voluntary creel box survey demonstrated the pond is used very lightly and the catch is very poor. Based on the expense, lack of survival, and lack of angler use, the stocking program for this water has been terminated. This proposal would eliminate unnecessary special regulations and be simplified to general law.

### CURRENT REGULATIONS

**BAKER POND**, Tomhegan Twp (North Zone). General fishing laws apply, except: **CI**. S-19. Open to open water fishing from October 1 - November 30: ALO, S-7.

### PROPOSED MODIFICATIONS

**BAKER POND**, Tomhegan Twp (North Zone). General fishing laws apply, except: **CI**. S-19. Open to open water fishing from October 1 - November 30: ALO, S-7.

### PROPOSED REGULATIONS

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Simplify to General Law				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
B	3820	BARTLETT POND	Livermore	Androscoggin	MDIFW

### REGULATION CHANGE DESCRIPTION

Removing all special regulations and simplify to general law.

### PURPOSE

Historically, Bartlett Pond was managed as a put-grow-and-take brook trout pond, however, trout survival is too low to sustain that type of fishery. The pond has marginal water quality for brook trout survival which makes it impossible to maintain multiple age classes of fish and grow them to larger sizes. Bartlett Pond is located in an area that is deficient of trout fishing opportunities. This proposal would eliminate unnecessary special regulations and allow this water to be managed as a year-round angling opportunity under general law.

### CURRENT REGULATIONS

**BARTLETT POND**, Livermore (South Zone). General fishing laws apply, except: **CI**. S-4, S-10. From October 1 - November 30: ALO, S-7.

### PROPOSED MODIFICATIONS

**BARTLETT POND**, Livermore (South Zone). General fishing laws apply, except: **CI**. S-4, S-10. From October 1 - November 30: ALO, S-7.

### PROPOSED REGULATIONS

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Simplify to General Law				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
C	1322T	BUTCHER LAKE TRIBUTARIES	Codyville Plt	Washington	MDIFW

**REGULATION CHANGE DESCRIPTION**

Removing all special regulations and simplify to general law.

**PURPOSE**

The special regulation for Butcher Lake Tributaries was added to the law book in 2020 as part of a statewide wild trout conservation strategy that added an S-4 to all Heritage Water tributaries in the South Zone. Butcher Lake is being proposed for removal from the Heritage List this year and General Law is sufficient to meet management goals and objectives if this water is no longer on the Heritage List. This proposal will simplify the law book by completely removing this regulation and applying general law restrictions.

<p><b>CURRENT REGULATIONS</b></p> <p><b>BUTCHER LAKE TRIBUTARIES</b>, Codyville Plt (South Zone). C	4416	MYRICK POND	T10 SD	Hancock	MDIFW

**REGULATION CHANGE DESCRIPTION**

Removing all special regulations and simplify to general law.

**PURPOSE**

Myrick Pond's special regulation (S-4) was added to the law book in 2006 when Myrick Pond was added to the Heritage List to comply with the Heritage Law which precludes the use/possession of live fish as bait; additional season language was added to the regulation since, to accommodate subsequent changes in statewide season dates. Myrick Pond was removed from the Heritage List last year (effective 1/1/21), but the regulation was not updated accordingly. General Law is sufficient to meet management goals and objectives. This proposal will simplify the law book by completely removing this regulation and applying general law restrictions.

THEME:	Simplify to General Law				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
B	4858	ROSS POND	Bristol	Lincoln	MDIFW

### REGULATION CHANGE DESCRIPTION

Removing all special regulations and simplify to general law.

### PURPOSE

Historically, Ross Pond was managed as a put-grow-and-take brook trout pond, however, trout survival is rare. Even with the current restrictive regulations, the low level of trout survival will not sustain a fishery for multiple age classes of trout. Water quality is the limiting factor for Ross Pond, with summer temperature and dissolved oxygen levels unsuitable for year round brook trout survival. This proposal would eliminate unnecessary special regulations and allow for year round angling opportunity under general law.

### CURRENT REGULATIONS

**ROSS POND**, Bristol (South Zone). General fishing laws apply, except: **CI**. S-10. From October 1 - November 30: ALO, S-7.

THEME:	Simplify to General Law				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
E	9764	SPAULDING POND	Dole Brook Twp	Somerset	MDIFW

### REGULATION CHANGE DESCRIPTION

Removing all special regulations and simplify to general law.

### PURPOSE

Spaulding Pond is a 28-acre shallow pond located just off the Dole Pond Rd. The pond has a maximum depth of just 6 ft. Gillnet surveys indicate the pond likely experiences both summer and winter mortality associated with poor water quality. Abundant white suckers compete with stocked brook trout for limited habitat during critical periods. The fishery is marginal to non-existent in most years. Angler use and success at catching brook trout is very low. There are many other better brook trout ponds in this area that likely get most of the fishing pressure. Based on the expense, lack of survival, and lack of angler use, the stocking program for this water has been terminated. This proposal would eliminate unnecessary special regulations and be simplified to general law.

## Errors, Conflicts, and Confusions

Last year a significant effort was made to correct previously identified issues related to conflicting regulations, inconsistencies, inadvertent omissions, errors, and confusing regulations that also created challenges for mapping special regulations in FLOAT. This theme is retained for any newly identified issues following last year's effort.

Number of Proposals in this Theme: 9

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Errors, Conflicts, and Confusion				
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
D	086168_BLNK	MAGALLOWAY RIVER INCLUDING TRIBUTARIES ABOVE PARMACHENEE LAKE	Parmachenee Twp to Magalloway Plt	Oxford (North)	MDIFW

### REGULATION CHANGE DESCRIPTION

Correctly describe the townships affecting by the regulation, remove confusing specials codes from heading, and add "brook" before trout.

### PURPOSE

This regulation affects tributaries that extend into Bowmantown Twp, so it should appear in the heading. The specials codes in the heading creates confusion as they do not apply uniformly to regulated reaches and the reaches are labeled with the appropriate codes.

Last year a regulatory theme clarified the use of "trout" vs. "brook trout". This water was inadvertently omitted.

The terms "trout" and "brook trout" are both defined separately. "Brook trout" includes brook trout, splake, and Arctic charr. The term "trout", when used alone, adds rainbow trout and brown trout to the species defined by the term "brook trout". The use of the two terms is currently inconsistent. Adding "brook" before trout will clarify intent and create consistency.

### CURRENT REGULATIONS

**MAGALLOWAY RIVER INCLUDING TRIBUTARIES ABOVE PARMACHENEE LAKE**, Parmachenee Twp to Magalloway Plt (North Zone). General fishing laws apply, except: FFO, S-20, S-22.

– Upstream of Aziscohos Lake, including tributaries above Parmachenee Lake: FFO, S-20, S-22. Daily bag limit on trout: 1 fish. From August 16 - September 30: S-7.

– Downstream of Aziscohos Lake Dam to the border with New Hampshire: FFO, S-22. Use of barbed hooks is prohibited. All trout caught must be released alive at once. From August 16 - September 30: S-7.

– From Bennett's Covered Bridge in Lincoln Plt. to red markers approximately 1,300 feet upstream: From June 1 - August 15, persons under 16 years of age wishing to fish under the S-4 regulation may do so only from the shore with barbless hooks; all other length and bag limits apply.

### PROPOSED MODIFICATIONS

**MAGALLOWAY RIVER INCLUDING TRIBUTARIES ABOVE PARMACHENEE LAKE**, Parmachenee Bowmantown Twp to Magalloway Plt (North Zone). General fishing laws apply, except: FFO, S-20, S-22.

– Upstream of Aziscohos Lake, including tributaries above Parmachenee Lake: FFO, S-20, S-22. Daily bag limit on brook trout: 1 fish. From August 16 - September 30: S-7.

– Downstream of Aziscohos Lake Dam to the border with New Hampshire: FFO, S-22. Use of barbed hooks is prohibited. All brook trout caught must be released alive at once. From August 16 - September 30: S-7.

– From Bennett's Covered Bridge in Lincoln Plt. to red markers approximately 1,300 feet upstream: From June 1 - August 15, persons under 16 years of age wishing to fish under the S-4 regulation may do so only from the shore with barbless hooks; all other length and bag limits apply.

THEME:	Errors, Conflicts, and Confusion				
--------	----------------------------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
F	4766	NICATOUS LAKE AND TRIBUTARIES	T40 MD	Hancock	MDIFW

**REGULATION CHANGE DESCRIPTION**

Include tributaries in the 1 quart daily smelt possession limit; apply consistent daily bag limit and possession limit text.

**PURPOSE**

In 2018, the 1 quart daily smelt limit was added to limit harvest of smelt and balance the forage base. The intent was that this limit would apply during the smelt spawning runs in the spring. However, a camp owner recently inquired about whether or not the 1 quart limit applied to the tributaries as originally intended. By adding "And Tributaries", this proposal would clarify that the 1 quart limit is intended to apply to the tributaries as well.

Additional in text edits create consistency.

## 2022 Rule Making Proposals - Statewide Waters

THEME: Errors, Conflicts, and Confusion					
REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
C	426_BLNK	SAINT CROIX RIVER	Forest City Twp to Calais	Washington	MDIFW
REGULATION CHANGE DESCRIPTION					
Delete last bullet.					
PURPOSE					
This water was originally flagged because the "Unionville Bridge located at the end of Todd Street" no longer exists, creating challenges displaying this regulation in MDIFW's Fishing Laws Online Angling Tool. Upon further review it was determined that the "FFO" regulation on this section is not necessary. This proposal would eliminate confusion related to Todd Street not ending at bridge and eliminate an unnecessary restriction.

## 2022 Rule Making Proposals - Statewide Waters

THEME:	Errors, Conflicts, and Confusion				
--------	----------------------------------	--	--	--	--

REGION	WATCODE ID	WATER NAME	TOWN(S)	COUNTY OR COUNTIES	PROPOSAL SOURCE
B	153	SAINT GEORGE RIVER	Liberty to Warren	Knox, Waldo	MDIFW

**REGULATION CHANGE DESCRIPTION**

Delete "From St. George Lake in Liberty downstream to the head of tide in Warren"

**PURPOSE**

The additional text stating "From St. George Lake in Liberty downstream to the Head of tide in Warren" is redundant, unnecessary, and inconsistent with how other rivers are listed. This proposal would eliminate the unnecessary text.

CURRENT REGULATIONS	PROPOSED MODIFICATIONS	PROPOSED REGULATIONS
<p><b>SAINT GEORGE RIVER</b>, Liberty to Warren (South Zone). General fishing laws apply, except: From St. George Lake in Liberty downstream to the head of tide in Warren: Open to open water fishing from January 1 - December 31: S-19. The use of all legal forms of bait, artificial lures, and artificial flies is permitted.</p>	<p><b>SAINT GEORGE RIVER</b>, Liberty to Warren (South Zone). # North Zone Fall Season Consistency

## Goal

- Consolidate, simplify, and create consistency of fall angling opportunities on lakes and ponds within the North Zone
- Identify new additional fall angling opportunities on lakes and ponds that support stocked and warm-water fisheries.

## Process

- Fisheries staff reviewed over 400 North Zone lakes and ponds that currently allow fall angling by special rule
- We identified a variety of ways that these waters were listed including various date periods, terminal tackle provisions, and species limits

Number of Proposals in this Theme: 217

# North Zone Fall Season Consistency

## Proposed Changes

1. Redefine Special Season Code “A” to clarify that year-round angling is permitted  
(Currently allowed through overly complex special text. This proposal would result in simplification while creating little actual change to use opportunity on these waters.)
2. Eliminate unnecessary fall season gear and harvest restrictions (ALO, S-7) on “A” season warm-water fisheries
3. Utilize consistent text to describe fall angling opportunities on stocked North Zone lakes and ponds: “From October 1 – November 30: ALO, S-7”
4. Create new fall angling opportunities on 26 North Zone lakes and ponds that are stocked and/or support warm-water fisheries

## 1) Redefine Special Season Code "A" to clarify that year-round angling is permitted

LAW TYPE:	General Law	GENERAL LAW TYPE:	Statewide Waters	WATER DESCRIPTION:	"A." season waters
COUNTY TYPE:	All	COUNTY OR COUNTIES:	All	PROPOSAL SOURCE:	MDIFW
				SEASON:	Both

### REGULATION CHANGE DESCRIPTION

Modify Special Season Code "A" to allow year-round fishing.

### PURPOSE

This proposal would clarify that year-round angling is permitted on all Special Season Code "A" waters. Nearly all "A" waters currently allow year-round fishing through a combination of various special season codes and dates. This proposal would simplify the use of this regulation and align angling opportunity for waters of this type with the South Zone general law on lakes and ponds. "A" season waters are managed as special opportunity waters where the fishery is predominantly made up of stocked or warm-water fish species. The majority of these waters already provide the opportunity for year-round angling and this proposal would simply clarify the regulations and create consistent wording.

\*Note: One stream in the South Zone (Great Works Stream) that currently contains an "A" season will be modified to retain the current "A" definition.

### CURRENT REGULATIONS

**A:** Open to ice fishing and open water fishing for all fish from December 1 - April 30.

### PROPOSED MODIFICATIONS

**A:** Open to ice fishing and open water fishing for all fish from ~~December 1 - April 30~~ January 1 - December 31.

### PROPOSED REGULATIONS

**A:** Open to ice fishing and open water fishing from January 1 - December 31.

## 2) Elimination of unnecessary Fall Season gear and harvest restrictions (ALO, S-7) on "A" Season warm-water fisheries
