INSTRUCTIONS FOR COMPLETING A "*REQUEST FOR PROJECT EVALUATION*" (ESSENTIAL HABITATS OF ENDANGERED AND THREATENED SPECIES)

Formal MDIFW review of projects proposed within Essential Habitats is initiated upon submission of a "*Request For Project Evaluation*" (MDIFW Form EHR4/03) by a state agency or municipality. Both the project applicant and the agency or municipal official reviewing the project must provide information on the form.

Please read the following instructions carefully before completing a request form. Contact the appropriate MDIFW Regional Wildlife Biologist if you have questions or require assistance.

- 1. Please type or print clearly. Illegible or incomplete forms will be returned.
- 2. The **project applicant**¹, or representative, <u>must</u> complete, sign and date Section A (see both sides of form) and provide the appropriate agency or municipal official with <u>3 copies</u> of each of the following items:
 - a. a copy of that portion of the official MDIFW Essential Habitat map that denotes the affected Essential Habitat and <u>clearly shows project boundaries</u>; and
 - b. a copy of the final project application, permit, and/or license as recommended for approval by the town or state. If none of these items exist for the project, a site map must be provided (scale: 1" = 200'). Conditions agreed to as safeguards for the Essential Habitat must be itemized in the permit application, site plan, or other project documentation.

Additional project documentation is generally not required but, if included, may enable a more rapid review by the Department.

- 3. An appropriate **representative of the state agency or municipality** reviewing or proposing the project must complete, sign, and date **Section B**, and ensure that all information and attachments required from the applicant are provided.
- 4. The completed form and all attachments should be sent to:

Maine Department of Inland Fisheries and Wildlife Attn: Environmental Coordinator/EH Review 284 State Street, State House Station #41 Augusta, Maine 04333-0041

¹In cases where a state agency or municipality is proposing to fund or carry out a project within an Essential Habitat, the agency or municipality is considered the project applicant.

5. The reviewing agency or municipality <u>and</u> the project applicant should each retain a copy of the completed form and all attachments. This will facilitate response to any additional inquiries from MDIFW staff during the project evaluation.

The completed "*Request For Project Evaluation*" and all attachments will be retained on file by MDIFW and referenced to ensure that approved projects are carried out as described. **Projects that deviate from information provided on the form may be referred to the State Attorney General's Office as possible violations of the Maine Endangered Species Act.**

REQUEST FOR PROJECT EVALUATION ESSENTIAL HABITATS OF ENDANGERED AND THREATENED SPECIES

INSTRUCTIONS:

- Please type or print clearly. Incomplete or illegible forms will be returned.
- The project applicant must complete, sign, and date Section A (see both sides).
- An appropriate state agency or municipal representative must complete, sign, and date Section B (see reverse).
- Send completed form and all required attachments to: Maine Department of Inland Fisheries and Wildlife, ATTN: Environmental Coordinator/EH Review, State House Station #41, Augusta, Maine 04333-0041.

For assistance, contact the appropriate MDIFW Regional Wildlife Biologist.
