Banded killifish  
Pumkinseed sunfish

Physical Characteristics

Area - 576 acres

Temperatures

Maximum depth - 21 feet

Surface - 68° F.

18 feet - 68° F.

Suggested Management

Mattaseunk Lake is a shallow, warm-water lake. It should be managed primarily for its warm-water fishes. Habitat conditions are ideal for the white perch and pickerel and the study showed both these fisheries in a healthy condition.

No stocking is necessary.
