

MIDAS # 1518

STINK POND

T. 15. R. 9., AROOSTOOK CO.

AREA 16 ACRES

STINK POND

T15 R9, Aroostook Co.
U.S.G.S. Deboullie Pond, Maine (7 1/2')

Fishes

Brook trout
Yellow perch

Minnows
Finescale dace

Physical Characteristics

Area - 16 acres
Average depth - 4 feet
Maximum depth - 5 feet

Temperatures:
Surface - 64⁰F
5 feet - 64⁰F

Principal fishery: Brook trout

Stink Pond is a shallow, spring-fed trout pond. The trout fishery is maintained entirely by natural reproduction in spring seepages and the small spring inlet.

Yellow perch have now become established and limit trout numbers by competing for food and space.

Conservative fishing regulations have been implemented to maintain and enhance the sport fishery.

South Little Black Pond is one of many ponds situated in close proximity in T15 R9, a township owned by the State of Maine. Access to the pond is via a foot path from the improved gravel road system in T15 R9.
