HOT POND
T6 R6, T6 R7, Penobscot Co.
U. S. G. S. Shin Pond, Me.

Fishes

Yellow perch
Chain pickerel
Hornpout (bullhead)

Eel
White sucker
Minnows

Physical Characteristics

Area - 70 acres
Maximum depth - 7 feet
Temperatures
Surface - 66° F.
5 feet - 64° F.

Suggested Management

Hot Pond is considered good chain pickerel habitat. The pond is shallow and weedy with suitable water temperatures and is productive of food organisms.

The old dam at the pond outlet is an obstruction to fish migration at most water levels, but has little effect on the pickerel fishery.

Hot Pond should be opened to ice fishing for pickerel.
