I understand that as a wildlife rehabilitator permitted by the State of Maine, I must:

1. Follow the Department's Policy on Wildlife Rehabilitation (J1.14)
2. Hold a valid Federal Permit to possess or hold in captivity, any migratory bird (as defined by the USFWS), or endangered species under Federal jurisdiction.
3. Maintain a full and accurate record of all animals cared for under this permit (this record should be retained by permittee for 5 years).
4. Submit an annual summary of animals cared for during the calendar year to the Department by January 31st of each year.
5. Release all wildlife taken into captivity under this permit within 6 months of being accepted into my facility, unless specifically waived by MDIFW Wildlife Division.
6. Notify the Department within 48 hours, of any threatened or endangered species taken into custody; Contact: Wildlife Division (207) 287-5250.
7. Allow MDIFW personnel to visit and inspect facilities, at times without notice.
8. If I have ever housed domestic cervids at my facility, I will not accept mammals into my facility, unless specifically permitted to do so by the Department.
9. Agree that I will not use animals that I am rehabilitating for exhibition to the public (see section IV in Department J1.14 Policy for Wildlife Rehabilitation for a definition of exhibition).
10. I will take every practical measure to prevent any wild animal in my care to become habituated or dependent on humans.
11. I agree to submit to a background check.

I further agree and understand that all laws, rules and regulations applying for a Wildlife Rehabilitation Permit must be followed, and standards established by the Department must be observed or I may risk the revocation of my permit.

Wildlife Rehabilitation Permit - Applications Instructions

Applicants for a Wildlife Rehabilitation Permit must abide by minimum housing and care standards, successfully pass an examination, maintain a relationship with a veterinarian, and possess appropriate credentials.

This form must be filled out completely, signed, and submitted, along with all associated materials and forms required for becoming a permitted Wildlife Rehabilitator.

Question 1. In order to be issued a permit to rehabilitate wildlife we request that your contact information and town where your facility is located be posted on our website to allow the public to contact you. If you are only comfortable with specific items being posted, please let us know what you would be comfortable posting.

Question 2. There is a significant amount of material that will be sent to you as part of this application process. Please indicate how these materials can be sent to you.

Question 3. Please indicate which species or categories of species you would like to be permitted to provide rehabilitation to. Be sure to only indicate which species you have adequate training and experience caring for and handling, and how many of each species your current facility would appropriately house. Potential options for species categories: Small Raptors, Large Raptors, Passerines, Waterbirds, Small Mammals (mice, squirrels, woodchucks, etc.), medium mammals (fox, racoon, etc.), deer, bear, moose, turkey. ***If you plan to care for rabies vector species, be aware that there may be additional considerations.***

Question 4. In order to prevent disease transmission, if you have ever kept domestic cervids on your property you likely will not be permitted to rehabilitate mammals. However, please indicate which species, how many, for how long, and other pertinent information about these animals on your property.

Question 5. Please indicate any pets, livestock, or other domestic or exotic animals that you currently care for, or plan to care for while permitted for wildlife rehabilitation.

Question 6. It is important that you establish a working relationship with both the district game warden and regional wildlife biologist for your area. In addition to being asked to take in animals by these Departmental Staff, a working relationship will facilitate information exchange and support for care of wildlife in need. Additionally, you will be required to have an initial facilities inspection and be subject to periodic inspections by Departmental staff (which may be unannounced).

Question 7. It is not a permit requirement to be a licensed veterinarian, but if you are, please provide your credentials.

Question 8. If you would like to be permitted to rehabilitate migratory birds (which include all bird species in Maine, except for English sparrow, pigeon (rock doves), European starling, ring-necked pheasant, ruffed grouse, spruce grouse, wild turkey, and bobwhite quail), you must also be permitted by the U.S. Fish and Wildlife Service.

Questions 9, 10, 11, 12. You must disclose any criminal convictions and submit to a background check. Any of the following convictions may disqualify you from being permitted for wildlife rehabilitation:

1. Class A, B or C convictions;
 2. Class D convictions within the previous 10 years;
 3. Title 12 Class E misdemeanor convictions within the previous 5 years;
 4. Title 12 Civil violations.
 5. Title 7 Criminal or Civil convictions within the previous 10 years.
- ❖ Title 12 laws primarily pertain to forestry, wildlife, fisheries, commercial marine fisheries, hunting, fishing, trapping ATV, snowmobile, watercraft and trespass laws.
 - ❖ Title 7 laws primarily pertain to domestic animals and animal cruelty

Question 13. There may be situations where wild animals are unable to be rehabilitated. If you are unwilling to or not able to provide appropriate euthanasia, you may be disqualified from being permitted as a wildlife rehabilitator.

Question 14. This section allows you to provide any additional information pertinent to the care, feeding, and handling of native wildlife species that supports your application to become a wildlife rehabilitator.

Checklist of supporting materials: Before your application will be accepted for review and processing, you will be required to submit the additional materials on the checklist.
