

Siphonurus barbaroides (A Mayfly)

Priority 3 Species of Greatest Conservation Need (SGCN)

Class: *Insecta* (Insects)

Order: *Ephemeroptera* (Mayflies)

Family: *Siphonuridae* (Primitive Minnow Mayflies)

General comments:

1 EO (Lily Bay Brook); G3; only other global EOs from NY and eastern Canada; restricted to cold streams and stream inlets; moderate to high survey effort for Siphonuridae in ME has not yielded additional records

The Wildlife Action Plan was developed through a lengthy participatory process with state agencies, targeted conservation partners, and the general public. The Plan is non-regulatory. The species, stressors, and voluntary conservation actions identified in the Plan complement, but do not replace, existing work programs and priorities by state agencies and partners.
