2003 Substance Abuse Testing Highlights

The *Substance Abuse Testing Report 2003* is produced as a requirement of the Maine Substance Abuse Testing Law of 1989. All companies with approved Substance Abuse Testing Policies are required to provide information for this report (exclusive of any federally mandated testing).

271 companies have approved Maine substance abuse testing policies

- ✓ All are approved to do applicant testing
- ✓ 44 are approved for employee probable cause testing (see Section III, page 2)
- ✓ 29 are approved to do random or arbitrary testing (see Section III, page 2)
- ✓ 27 are approved to do probable cause and random or arbitrary testing

The number of job applicants tested increased 21.8% from 12,595 in 2002 to 15,345 in 2003. There was an increase of 7.5% in the number of employers who have approved policies to conduct tests, from 252 in 2002 to 271 in 2003.

- ✓ 15,345 job applicant tests were conducted in 2003. Seven-hundred twenty-seven had positive test results
- ✓ The percentage of applicant positive tests decreased from 5.0% in 2002 to 4.7% in 2003
- ✓ The most common controlled substances identified from the tests were cannabinoids (85.6%), cocaine (8.3%), opiates (2.2%), amphetamines (1.9%), benzodiazepines (1.5%), followed by barbiturates (0.7%), methadone (0.7%), and phencyclidine (0.1%)
- ✓ 55 companies included alcohol in their substance abuse testing panel with 2 (0.3%) positive tests

29 employees were given tests for probable cause

- ✓ 7 tested positive

755 employees were given random or arbitrary tests

- ✓ 27 tested positive

Industry breakout with approved substance abuse testing policies

- ✓ Manufacturing – 101 companies
- ✓ Trade (wholesale & retail) – 51 companies
- ✓ Construction - 33
- ✓ Services (healthcare, professional and other services) - 50 companies
- ✓ Transportation and public utilities - 18 companies
- ✓ Other - 18 companies

Section I

Background

The Maine Department of Labor (MDOL) is submitting this report to the Joint Standing Committee on Labor in accordance with the Maine Substance Abuse Testing Law, Title 26 M.R.S.A. Section 690. This report pertains only to employer testing activities under Maine law. It is not a comprehensive study of workplace substance abuse testing because it does not include individuals who are tested under federal testing programs.

The Maine Substance Abuse Testing Law is intended to protect the privacy rights of employees, yet allow an employer to administer testing; to ensure proper testing procedures; to ensure that an employee with a substance abuse problem receives an opportunity for rehabilitation and treatment; and to eliminate drug abuse in the workplace. Regulation of testing for use of controlled substances has been in effect under Maine law since September 30, 1989.

The administration of this law is a collaborative effort of the following agencies:

- ◆ Maine Department of Labor, Bureau of Labor Standards
 - Reviews and approves substance abuse testing policies.
 - Conducts the annual survey of substance abuse testing.
 - Analyzes testing data and publishes the annual report.

Model Policies

Model policies developed by the Maine Department of Labor help employers develop substance abuse policies for their workplaces and make it easier for the MDOL to review company policies. (See Appendix 5 for model applicant policy. The model applicant policy, model applicant with point of collection policy, and model employee testing policy are on the BLS website, www.maine.gov/labor/bls/ModelDrugTest.htm.)

- ◆ Department of Human Services Health and Environmental Testing Laboratory
 - Licenses testing laboratories.

Licenses for Testing Laboratories

The Department of Human Services Health and Environmental Testing Laboratory is responsible for the licensure of laboratories that Maine employers can use for testing of controlled substances. There are 13 laboratories licensed by the State of Maine to do the substance abuse tests for Maine employers with approved testing policies. Of the 14 substance abuse testing laboratory licenses that were due for renewal in 2003, 13 were renewed. (See Appendix 3).

- ◆ Department of Behavioral & Developmental Services (formerly the Dept. of Mental Health, Mental Retardation and Substance Abuse Services), Office of Substance Abuse
 - Reviews and approves employee assistance programs for employers who do probable cause or random and arbitrary testing.

Employee Assistance Programs (EAP)

Any employer with more than 20 full-time employees must have a functioning EAP prior to testing their employees as stated in Title 26 Section 683 Paragraph 1. The EAP must be certified by the Office of Substance Abuse and certification must be renewed every two years. Three EAPs were approved in 2003, bringing the total EAPs to 47 for companies with substance abuse testing policies. Some EAPs are certified for parent companies and cover multiple locations that may be listed separately. (See Appendix 2).

Section II

Substance Abuse Testing Policy Review and Approval

Department of Labor - Policy Review and Approval

In 2003, the Maine Department of Labor (MDOL) received 85 individual substance abuse testing policy submissions for review. MDOL staff completed 61 reviews. There were 24 policies pending review as of December 31, 2003 (See Table 1).

Any employer desiring to do substance abuse testing, other than federally regulated testing, must submit a substance abuse testing policy to the Department of Labor, Bureau of Labor Standards. Testing shall not be done until the business has been notified that the policy has been approved. Title 26 M.R.S.A. Section 689 addresses the penalties that can be assessed if an employer does substance abuse testing without an approved testing policy.

Table 1

Substance Abuse Testing Policies Reviewed Maine, 2002

Reviews Completed	61
Policies Approved	43
Policies Denied	18
Reviews Pending	24

Section III

Types of Testing

Drug testing policies may be approved for one or all of the following types of testing:

- ◆ job applicant testing
- ◆ employee testing
 - probable cause testing - means reasonable grounds exist to believe that an employee may be under the influence of a substance of abuse.
 - random/arbitrary testing - a method of selecting people to be tested where all potential testees have an equal chance of selection by chance or where testing is based on criteria unrelated to substance abuse such as a date of hire anniversary.

Section IV

Survey Results

Each employer with a policy approved by the Maine Department of Labor must participate in a mandatory annual survey. Information gathered in the survey includes the number of tests by type (applicant, probable cause or random/arbitrary), the substances tested for, and the number of positive tests for each substance.

Job Applicant Testing

At 15,345, the number of job applicant tests conducted in 2003 increased by 21.8% from 2002. In 2003, of all the job applicant tests conducted, 4.7% had positive results, compared to 5.0% in 2002. Cannabinoids (85.6%), cocaine (8.3%), and opiates (2.2%) were the most frequently identified substances. Other identified substances include amphetamines (1.9%) and benzodiazepines (1.5%). Barbiturates, methadone, alcohol, and phencyclidine were each identified in less than 1.0% of the tests. (See Table 2). See Appendix 6 for controlled substances and drug names.

Table 2

Results of Job Applicant Tests Under Approved Policies Maine, 2003

	<u>Tests</u>	<u>As Percent of All Tests</u>	<u>As Percent of Positive Tests</u>
Total Job Applicant Tests	15,345	100.0

Invalid	8	0.1	1.1

* May be less than total of all substances if one or more applicants tested positive for multiple substances.

-. Less than 0.05 percent.

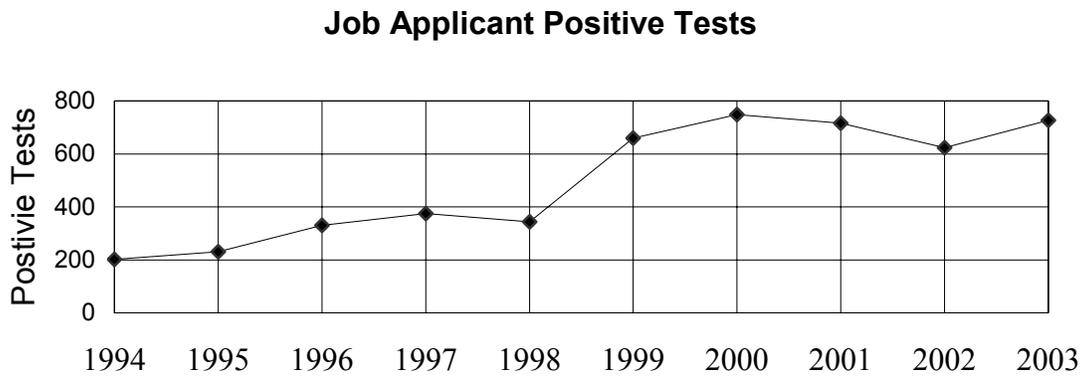

The following graph shows the number of job applicants tested for controlled substances for the years 1994 to 2003.

Figure 1

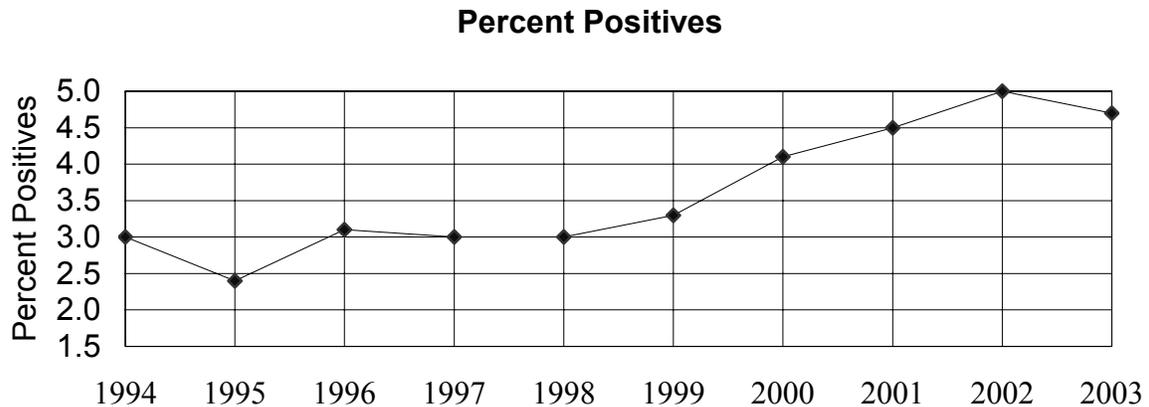

The graph below indicates the number of positive tests for job applicants from 1994 to 2003.

Figure 2

The following graph shows the percentage of positive tests each year from 1994 to 2003.

Figure 3

Employee Testing

A total of 784 employee tests were conducted in 2003 with 34 positive tests. Seven-hundred fifty-five of the employee tests were random or arbitrary testing. Of these, 27 (3.6%) were confirmed positive: 24 (88.9%) for cannabinoids, one (3.7%) for cocaine and one (3.7%) for alcohol. Twenty-nine of the tests were for probable cause. There were seven confirmed positive, six for cannabinoids and one for opiates.

Section V

Analysis of All Results (Applicants & Employees)

A total of 16,129 tests were conducted in 2003. The Services Industry conducted 5,105 tests, with 4.2% positive. The Manufacturing Industry had the most substance abuse testing policies and conducted the second highest number of tests (5,094), with 5.3% positive. The Wholesale and Retail Trade Industry conducted 2,634 tests with 5.4% positive. Transportation and Public Utilities conducted 375 tests with 3.7% positive tests. The Construction Industry conducted 2,626 tests, with 4.0% positive. (See Table 3).

Table 3

Other	18	295	16	5.4

Analysis of All Results (Applicants & Employees), continued

A drug testing panel consists of the list of substances specified in the employer's policy for which the employer will test. Although there are variations in the drug testing panels used by different employers, nearly all employers test for cannabinoids, cocaine and amphetamines. Among those tested, cannabinoids remain the substance with the highest percentage of positive tests, followed by cocaine and opiates. The substance least tested for is alcohol. Only 53 of the 210 companies who tested in 2003 included alcohol in their drug testing panel. Of all the tests conducted during 2003, 4.7% were positive. The highest percentage of positives for an individual substance was 4.2%, for cannabinoids. (See Table 4).

Table 4

*Percent positives, including that substance, of all tests conducted.

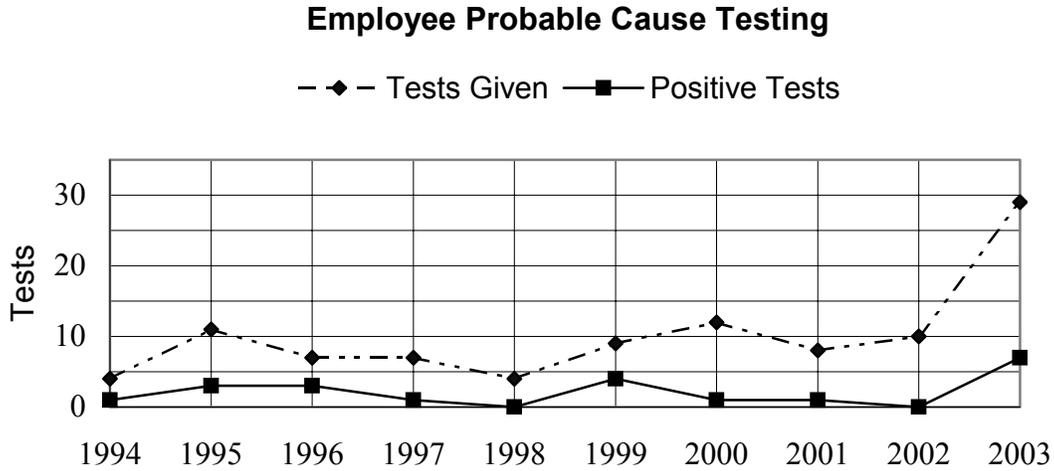

**56 companies with approved policies did no testing in 2003.

+May be less than total of all substances if one or more persons tested positive for multiple substances.

-. Less than 0.05 percent.

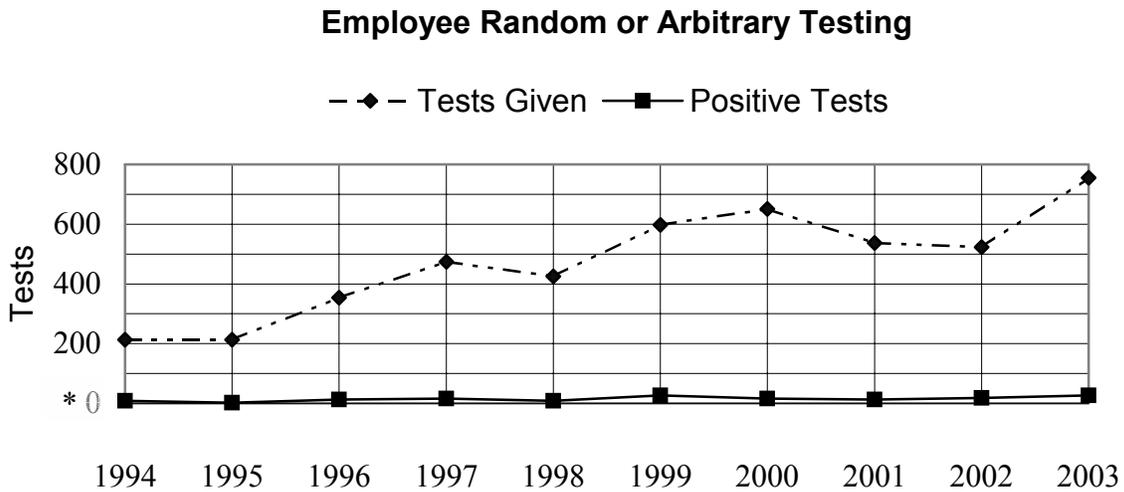

The following graph illustrates the number of probable cause tests done and the number of positives for the years 1994 through 2003.

Figure 4

The following graph shows the trend for random and arbitrary tests for the years 1994 through 2003.

Figure 5

* Range of positive test results is from 2 to 27.

The following table shows the trend of drug testing from 1994 through 2003. The number of employers with approved policies has increased from 112 in 1994 to 271 in 2003. The total number of tests given has decreased 22.2% since the peak of 20,725 in 1999. The percentage of positive tests has fluctuated, with the lowest (2.4%) in 1995 and the highest (4.9%) in 2002. Positive results for job applicant testing were lowest (2.4%) in 1995 and highest (5.0%) in 2002. The highest number of probable cause tests was in 2003. Positive probable cause was lowest (0.0%) in 1998 and 2002, and highest (44.4%) in 1999. The percentage of positive random tests was lowest (0.9%) in 1995 and highest (44.4%) in 1999. The percentage of positive random tests was lowest (0.9%) in 1995 and highest (44.4%) in 1999.

Figure 6

Employers With Approved Substance Abuse Testing Policies 1994-2003

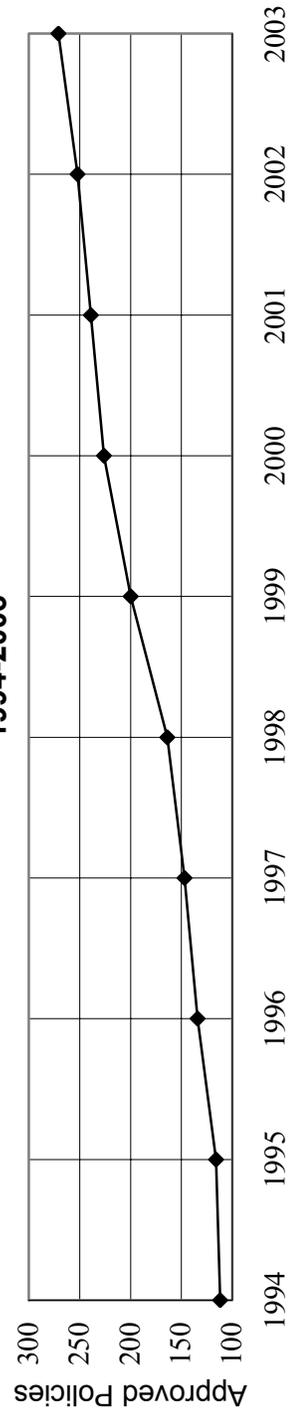

Table 6 shows the cumulative total of tests and positives for job applicants and employees from 1994 through 2003. It also shows the percentage positive for each substance as it relates to the total number of tests and to the total number of positives. The data shows that of the controlled substances tested for, cannabinoids had the highest percentage of positives.

Table 6
Positives By Substance
1994 - 2003 (Cumulative)

	Number of Tests	As % of All Tests	As % of Positives
Total Tests	137,883	100.0	*****

Section VI

Summary

During 2003, the Maine Department of Labor reviewed 61 substance abuse testing policies. Of the 61 reviewed, 43 new policies were approved, 18 policies were denied pending submission of revisions, and 24 policies were pending at year end.

As of December 31, 2003, a total of 271 approved policies were in force.

The Department of Labor surveys all employers with approved policies for this report. The 2003 survey showed that 15,345 job applicants had been tested, with 727 (4.7%) confirmed positive tests. There were 29 employee probable cause tests, with 7 (24.1%) reported as positive and 755 employee random or arbitrary tests, with 27 (3.6%) positives reported.

Appendix 1

Employers with Approved Policies

The following is a listing of employers with approved substance abuse testing policies, the date of initial approval and the type of testing allowed.

Company Name	Date Approved	Applicant Testing	Probable Cause	Random or Arbitrary
AAA Automobile Association	10/29/03	X

Quest Diagnostics	400 Egypt Rd. Norristown, PA 19403	06/24/04

Appendix 4

Policy Submission Instructions

These instructions are to assist you in submitting the paperwork for your Substance Abuse Testing Policy approval.

- ✓ You must submit **two (2) copies** of your policy and accompanying forms/certificates.
- ✓ You must have a **signed cover letter** stating that the **policy complies with all applicable statutes and regulations**.
- ✓ Copies of any forms used should be attached, as well as a copy of the Department of **Human Services certification of an Employee Assistance Program** if the policy is for employee testing.
- ✓ If this is an employee policy, you must provide a description of the method used to consult with the employees as to the development of the policy. This should include how input was received from employees, such as employee meetings or written comments. A written description of how employee input may have been used in the development of the policy should also be included. If the description is not a part of the policy, it should be included in the cover letter.
- ✓ If this is an employee policy, you must also describe the method used to notify the employees of the submission of the plan to the Maine Department of Labor (MDOL), to include the manner in which and time limit that the employees have to comment on the policy to MDOL, and you must also provide the employees with the MDOL address.
- ✓ It is important that the policy be written in such a manner that it is likely to be understood by a large majority of the employees.

If you follow these instructions and the Model Policy, the review and approval of your policy will be expedited.

Appendix 5

Following is a Model Substance Abuse Testing Policy for applicant testing. There are also Model Substance Abuse Testing Policies for Applicant with Medical Review Officer and another for employee testing. All of the model substance abuse testing policies can be viewed on the web at www.state.me.us/labor/bls/ModelDrugTest.htm.

Model Substance Abuse Testing Policy Job Applicants

A. Covered Establishment:

Company name: [Provide name, address, etc. of employer]

Street address:

Mailing address:

Phone:

Contact regarding substance abuse testing policy:

[Name & Title of Contact]

[Phone Number of Contact]

Location(s) Covered: [List Location(s) Covered]

This policy complies with the Maine Substance Abuse Testing Law (Title 26 M.R.S.A. Section(s) 681-690) and the Maine Department of Labor Rules relating to Substance Abuse Testing (adopted October 27, 1989).

Applicants will be notified at the time of initial application that they may be tested for Substance Abuse and will be advised where they may review the policy and statute.

Prior to testing, an applicant as defined in this policy, shall be provided with a copy of the policy and statute.

B. Scope of Testing:

Only individuals who are “applicants” as defined by this program and state law will be tested as “applicants.” For the purpose of this program, an “applicant” will not be any person separated from employment by this employer while receiving a mandated benefit from or on account of this employer, including but not limited to Workers’ Compensation, Unemployment Compensation and Family Medical Leave and for a period of 30 days beyond the termination of the benefit, nor will an “applicant” be any

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

person separated from employment by this employer while receiving a benefit not mandated from or on account of this employer for a period of 30 days beyond the separation.

1. Substances to be tested for:

a. test procedure to be used and cutoff limit for positive screening test.

(1)	Screening will be the EMIT (Enzyme Multiplied Immunoassay Test) methodology	
(2)	Substances	Screening Concentration <u>Cutoff (In Urine)</u>
	Alcohol	0.02 G/100 ML
	Amphetamine/Methamphetamine	1000 NG/ML
	Barbiturates	300 NG/ML
	Benzodiazepines	300 NG/ML
	Cannabinoids	50 NG/ML
	Cocaine and/or Metabolites	300 NG/ML
	Methadone	300 NG/ML
	Methaqualone	300 NG/ML
	Opiates	2000 NG/ML
	Phencyclidine	25 NG/ML

b. test procedure to be used and cutoff limit for positive confirmation test.

(1)	Confirmation test will be by GC/MS (Gas Chromatography Spectrometry) methodology	
(2)	Substances	Confirmation Concentration <u>Cutoff (In Urine)</u>
	6-acetyl morphine (only if morphine >2000)	10 NG/ML
	Alcohol	0.02 G/100ML
	Amphetamine/Methamphetamine	500 NG/ML
	Barbiturates	300 NG/ML
	Benzodiazepines	200 NG/ML
	Cannabinoids	15 NG/ML
	Cocaine and/or Metabolites	150 NG/ML

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

Substances	Confirmation Concentration <u>Cutoff (In Urine)</u>
Methadone	300 NG/ML
Methaqualone	300 NG/ML
Opiates	2000 NG/ML
Phencyclidine	25 NG/ML

2. Testing of Applicants:

Classifications or position titles to be tested:

[List classifications or positions to be tested (may be “All”)]

Substance abuse tests will be administered only to those applicants who are in the above classification or position titles who (1) have been offered employment with the Company or who have been offered a position by the Company on a roster of eligibility from which applicants shall be selected for employment.

C. ACTIONS TO BE TAKEN:

Action to be taken for refusal to submit to a test: Applicant will not be hired.

Action to be taken between a test and receipt of test results: Applicant will not be hired.

Action to be taken based on a confirmed positive result from a test of an applicant:
Applicant will not be hired.

D. TESTING PROCEDURES:

1. Identify sample collection facility or facilities

[List name and address of sample collection facility or facilities]

2. Method of sample collection:

a. Procedure to segregate a portion of the sample at applicant’s request:

At the request of the applicant, at the time the test sample is taken, a portion of the sample collected, sealed, and labeled according to

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

State regulations and these procedures, will be segregated for that person's own testing. This sample will be stored by the laboratory and chain of custody shall be maintained as provided in this policy. Within five days after notice of the test result is given to the applicant, the applicant shall notify the employer and the facility of the testing laboratory selected for that person's own testing. The laboratory so selected must be licensed by the Maine Department of Human Services. The employer's laboratory shall promptly send the segregated portion of the specimen to the selected laboratory, subject to the same chain of custody and security requirements as observed for the employer's specimen.

The applicant will be required to pay for the segregation of a second sample as well as the expense of said additional testing only if and when the applicant notifies the employer that the applicant actually wishes the test to be made and the applicant notifies the employer of the choice of laboratory to which the second sample is to be sent.

b. Procedure to collect:

The employer will not require an applicant to remove any clothing for the purpose of collecting a urine sample, except that the employer will require that an applicant leave any personal belongings other than clothing and any unnecessary coat, jacket or similar outer garments outside the collection area.

No applicant may be required to provide a urine sample while being observed, directly or indirectly, by another individual.

(If employer's policy calls for specimen assessment) *Each urine specimen will be assessed by the person in charge of collection, in the presence of the applicant by measuring:*

A. The temperature of the specimen within three minutes of voiding - must be between 97-99 degrees F. (unless the applicant's temperature is higher than 99 degrees or lower than 97 degrees F.)

B. The pH of the specimen - must be between five and eight.

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

and by evaluating the odor and color of the specimen for other signs of contamination.

If the specimen does not meet any of these assessment standards, the specimen will be rejected and the applicant will be given an opportunity to provide a second specimen. The applicant will remain under observation at the medical facility and may be given liquids until the second specimen is provided. If the second specimen fails to meet any assessment standard, the employer may deny employment to the applicant and neither specimen will be tested for substances of abuse.

3. Storage of Sample:

a. At collection point:

Samples will be collected in new, clean containers manufactured for the purpose of urine collection. Immediately after assessment, the container will be sealed with tamperproof tape and labeled in the presence of the applicant. The seal will cover the cap and extend over the sides of the container. The label will contain the date and time of collection, and the identifying number of the applicant. All information on the label will be written clearly and with indelible ink.

Samples will be transported or shipped promptly to the testing laboratory in a secure fashion, so as to prevent tampering. If shipment or transport is not feasible, the specimen shall be refrigerated within one hour, at less than 6 C for no more than three days, or frozen at -20 C or less, for no more than two weeks before shipment.

b. At laboratory:

All positive specimens will be retained by the laboratory in the original containers in secure storage at freezing temperatures (-20 C or less) for at least six months.

Should legal challenge occur, the specimen will be retained throughout the period of resolution of the challenge.

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

4. Chain of Custody:

a. Labeling and Packaging:

Immediately upon collection of each sample, a chain of custody record will be established for that sample, indicating the identity of each person having control over the sample, and the times and dates of all transfers or other actions pertaining to the sample.

b. Transport:

Samples will be picked up from the facility within 24 hours of collecting the sample and will be transported in a secure fashion, so as to avoid tampering.

Each person who takes custody of the sample in the course of transport will record on the chain of custody log the date, time, transporter's name and employer's name, origin and destination of the sample.

c. At Lab:

When a sample arrives at the lab, the person receiving the sample shall record the time of receipt and the location of each sample in the lab's storage system. Any technician or other person who removes the sample from storage or opens the sample shall record the date, time, their name and the purpose for removal or opening of the sample.

5. Identify testing laboratory:

NAME: [Name and address of testing laboratory or laboratories]
ADDRESS:

6. Procedure for notifying applicant of the result:

The applicant will be notified by personal telephone call and confirmed by mail unless the applicant otherwise instructs.

All laboratory reports, including the screening, confirmation and quality control data shall be reviewed by the *[title of employer representative to receive report]* as accurate. The report will identify the name of the laboratory, the drugs and

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

metabolites tested for, whether the test results were negative or confirmed positive, and the cutoff levels for each substance. The report will include any available information concerning the margin of accuracy and precision of the test methods employed.

- a. Unless agreed upon by the applicant, no report will show the quantity of substance detected, but only the presence or absence of that substance relative to the cutoff level.
- b. No report will show that a substance was detected in a screening test, unless the presence of the substance was confirmed in the confirmatory test. Test results will be randomly delayed from two to five days so that the employer cannot gauge screening test results from the time results are reported. In addition, all testing will be billed to the employer at a single rate per sample tested (which may be periodically adjusted by the laboratory).
- c. No substance may be reported as present if the employer did not request analysis for that substance.
- d. Reports of samples segregated at the applicant's request, for testing by the applicant's choice of laboratory, will be provided to the applicant and to the employer.

Unless the applicant consents, all test results and any information acquired by the employer in the testing process is confidential and may not be released to anyone except the applicant tested. This requirement applies to the personnel of all laboratories involved and to the employer. However, this does not prevent the disclosure of results or information if:

1. Release of information is required or permitted by state and federal law including release under Title 26 M.R.S.A. Section 683 (8) (D), or
2. The use of this information is part of any grievance procedure, administrative hearing or civil action relating to the imposition of the test or the use of test results.

Appendix 5

Model Substance Abuse Testing Policy Job Applicants, continued

The results of any test may not be required, requested or suggested by the employer to be used in any criminal proceeding as provided by Title 26 M.R.S.A. Section 685 (3) (B).

- e. The laboratory shall retain records of confirmed positive results in a numerical or quantitative form for at least two years.

7. Procedure for an applicant to appeal and contest the accuracy of a confirmed positive result:

If the applicant chooses to segregate a portion of their sample and elects to submit that sample to a laboratory of their choice, the results of the second test will be controlling. To appeal the results of a confirmed positive result in lieu of testing the segregated sample, the applicant must fill out and sign the attached “Substance Abuse Test Appeal” form submitting information explaining or contesting the results, within five working days after notice of a confirmed positive test result. The appeal process will be conducted without cost to the applicant. The applicant will then be scheduled to meet within 14 days with *[list title(s) of person(s) who will review the appeal]*. The applicant will explain the basis for the appeal and may be asked questions. After the meeting concludes, a written report of findings and conclusions will be prepared and a copy sent to the applicant.

Appendix 6

Controlled Substances, Drug Names, and Classifications

Controlled Substances and Drug Names:*

Cannabinoids:

Hashish
Marijuana
Tetrahydrocannabinol

Depressants:

Barbiturates
Benzodiazepines
Glutethimide
Methaqualone

Hallucinogens:

Amphetamine Variants
LSD
Mescaline and Peyote
Phencyclidine
Phencyclidine Analogs

Narcotics:

Codeine
Heroin
Hydromorphone
Meperidine (Pethidine)
Methadone
Morphine
Opium

Stimulants:

Amphetamines
Cocaine
Methylphenidate
Phenmetrazine

*This list is of the most common drug names; it is not meant to be all inclusive.
