SENATOR DANTON: Mr. President, I offer Senate Amendment "D" to L. D. 2389 and move its Adoption.

THE PRESIDENT: The Senator from York, Senator Danton, presents Senate Amendment "D" and moves its Adoption.

Senate Amendment "D" (S-390) was READ.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Dickens.

SENATOR DICKENS: Mr. President, I would ask for a division on this motion to Adopt Senate Amendment "D".

The State Government Committee did a tremendous amount of work on this Bill to establish standards and policy for compensation for members of boards, commission, and similar organizations. After they come out with their report. There were different groups that came to the Senate, with a few speaking out forth because they weren't getting paid enough for serving on these different committees or commissions, that the committee agreed, had a right to probably have a little higher commission than what the Committee had decided upon. But, I don't think the Turnpike Authority can complain at the regular per diem salary that the Legislature gives and I think it's just opening the door for other groups to start coming in and crying because they don't think they're getting quite enough.

On a personal basis, I've served on several committees throughout the State and granted it was a privilege, or felt it was a privilege to serve on these committees for just travel expenses and meals involved in meeting at those things. I don't think that these other committees and boards should expect high compensation, although fifty dollars isn't that high, but I think the thirty-five dollars which we receive is enough for these other commissions and boards.

(OFF RECORD REMARKS)

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Wood.

SENATOR DANTON: Mr. President and Members of the Senate. First, I want to quickly tell you that the Maine Turnpike Authority does pay their per diems and that they are turning back to twenty to fifty dollars, that it's a shame now that they are turning back to the projects that they have to do.

But, I want to tell you that the Maine Turnpike Authority members, up to two years ago, did a great job and to perhaps since its inception was only getting twenty dollars per meeting.

Now, the four members of the Authority, I'm sure we're not going to go back about the loss of that fifteen dollars per meeting. I just thought that I would offer this amendment, after all, we just brought their per diem up to fifty dollars per meeting. They meet twice a year, that's six hundred dollars, four members, that's twenty-four hundred dollars.

What do they turn back to the State? They turn back to the State about six million dollars.

They have a big job on this Authority, and I'm just going to just quickly read off a few of the things that members of the Authority do: they acquire real estate properties and contracts with the United States, any other government, city, town, county; accept grants from corporations, public and private; they have architectural designers that they employ and sit and meet with; they borrow money all the time for the projects that they have to do on the Maine Turnpike Authority. It's really a detailed Authority. There's really a lot of work that goes on.

The reading that takes place from meeting to meeting is really enormous. Like I said, I don't think any of them are going to go through any big loophole financially if they don't have the fifteen dollars. I just thought where the Legislature, in its wisdom just two or three years ago, I wasn't here when it happened, raised them from twenty to fifty dollars, that's a shame now that they are turning back to the State six or seven million dollars, that you say thanks for the six or seven million bucks, but they're not even return pay from fifty to thirty-five dollars a meeting.

THE PRESIDENT: The Chair recognizes the Senator from Aroostook, Senator Violette.

SENATOR VIOLETTE: Mr. President, I have a personal basis, I've served on several committees throughout the State and granted it was a privilege, or felt it was a privilege to serve on these committees for just travel expenses and meals involved in meeting at those things. I don't think that these other committees and boards should expect high compensation, although fifty dollars isn't that high, but I think the thirty-five dollars which we receive is enough for these other commissions and boards.
a member of the other Body, Representative Gwadosky, and I must compliment them on their work. No one knew how many boards and commissions there were in State Government. There are one hundred and ninety-eight. That is aside from legislative bodies, that is aside from legislative entities, and a number of gubernatorial, there are existing out there one hundred and ninety-eight boards and commissions. This legislation organizes and groups these boards and commissions and has put them all together in one section of the statute.

FURTHER, it established a number of broad categories, such as those for professional licensing. Then we come to this category, Category Number 7, Financing and Administrative Organizations, and it treats them all alike. Before the legislation, there was nothing to use as a roll model if you wished to create a new board or commission, or if you wished to make some change in the structure of the board or commission, or if you wondered as to what compensation they ought to receive. The Maine Turnpike Authority is going to be treated in the same way as the Maine Port Authority, the Maine Health and Higher Education Facilities Authority, the Maine School Building Authority, the Finance Authority of Maine, and the Maine State Housing Authority.

I don't know if the debate should end with which one of us gets a little more or a little less. The Committee felt that they should all be treated the same and they are. I really would hope that we wouldn't, well you know, it's the prerogative of the Senate to do as it wishes, but I would hope that we wouldn't start to nit-pick and to kind of tear apart what's been put together here.

There's a substantial amount of work that went in by that Subcommittee and by the full Committee, perhaps about bringing about a structure to the boards and commissions, and treat those boards and commissions that share similar powers and duties alike. That didn't exist. The compensation was raised two or three years ago, but it exists, hopefully, after we pass this legislation. We'll be able to use this as a bench mark, so to speak, in determining what that board or commission ought to operate, it provides for a central place for providing for a central place for a new board or commission, or if you wondered as to exactly what the Legislature gets.

You know, they go to Portland once a month and they meet from nine o'clock in the morning to eleven-thirty, usually that's how long the meetings take, usually they're businessmen or professionals who are being paid by either their business or they have the time to do it. They don't need seventy-five dollars a day. They don't need anything. I think we should leave them there, they're all qualified, capable, good, experienced people who are willing to serve on the State's behalf.

The Compensation Committee has recommended that that go to fifty dollars a day and the Committee in realizing the recommenda-
tion that they felt was only appropriate for those positions.

We are recommending that the vast majority of boards and commissions receive nothing but expenses. We have removed vast numbers of boards and commissions that were receiving anything from salaries with retirement benefits, to hourly compensation with expenses. Nothing but expenses! We have removed all of those and have reduced the number of those boards and commissions that share similar powers and duties alike. That didn't exist.

In addition to that, it provides for another thing, a number of other things, such as how boards and commissions ought to be paid. It provides for a central place for providing for a list of those boards and commissions and reporting on the activities of the boards and commissions. I'm sure that in other further work of the committee, quite frankly, is going to be that some of these boards and commissions ought to be done away with and when some of them haven't met for in excess of three years but that was not felt to be the goal this time around. I would hope that we would oppose this good Senator's amendment, and other amendments that are offered from the Floor and we make changes in what the Committee has recommended. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Aroostook, Senator Violette.

SENATOR VIOLETTE: Mr. President and Ladies and Gentlemen of the Senate, the issue is whether or not some compensation is needed by the individuals that serve in these positions on boards and commissions of the State, and the figures that we're talking about. That's the per diem compensation. We have removed all of those and there are only a few that we felt ought to receive some kind of compensation. People that serve in these positions in them because they want to contribute to State Government, and not for the level of compensation. This group ought to be treated as all the others that are not elected. These people are elected by the people of the State. They are serving the people who are willing to serve on the Maine Turnpike Authority.

There were rare exceptions made from the per diem. There's a very, very limited number of cases, I think well be discussing that one in another minute because the good Senator from Kennebec, Senator Bustin, has an amendment before us that the Board of the Main Turnpike Authority had to have some high skill of which there were very, the pool was small very for the number and we had to attract them, such as an actuary and the Maine Turnpike Authority, that there was a compensation. This is not the case with the Maine Turnpike Authority, and so I would hope we would defeat the good Senator's amendment and I would say for a division, Mr. President. Will all those Senators in favor of the Adoption of Senate Amendment "D" (S-390), please rise and remain standing in their places until counted.

Will all those Senators opposed, please rise and remain standing in their places until counted.

9 Senators having voted in the affirmative and 21 Senators having voted in the negative, the motion to ADOPT Senate Amendment "D" (S-390) was REJECTED.

THE PRESIDENT: The Chair recognizes the Senator from Kennebec, Senator Bustin.

SENATOR BUSTIN: I present Senate Amendment "B" (S-376) and move its Adoption.

SENATE AT EASE

The Senate called to order by the President.

THE PRESIDENT: The Senator from Kennebec, Senator Bustin, presents Senate Amendment "B" and moves its Adoption. Senate Amendment "B" (S-376) was READ.

THE PRESIDENT: The Chair recognizes the Senator from Aroostook, Senator Violette.

SENATOR VIOLETTE: Mr. President and Ladies and Gentlemen of the Senate, I understand it, this Amendment would raise the per diem rate, the rate of compensation, for members of the Maine Health Care Finance Commission back to a hundred and fifty dollars a day.

In the original legislation last year that was passed by the Legislature, the rate for the Maine Health Care Finance Commission was set at one hundred and fifty dollars a day. The Committee felt that there are no other groups being paid a hundred and fifty dollars a day, no one else in State Government. It felt the next closest was the Maine Labor Relations Board, as well as, there is another entity, (it slips my mind) that's being paid a hundred dollars a day. There are only two others and this Board has, there is no special, within the Legislation, there is no special expertise, there is a broad class of people that fill from a pool of individuals from which potential people to serve on this board can be drawn, there is only one qualification, it says that at least one of the members have had five years of experience or the like, with respect to hospital administration or the like.

There has been no difficulty filling this Board. One hundred dollars a day, plus expenses, was felt to be more than adequate. I think there was a compromise made here, quite frankly. I think Mr. President, the committee have done what it should have, would have further decreased this compensation rate. This rate is higher than members of the Public Utilities Commission are presently paid on a weekly basis, and to suggest that individuals who are already drawing their own compensation, these are only meetings, these are rates paid when they do, when they attend meetings, it is not a full time job, to be paid that much money is inequitable. There has been no difficulty filling these positions, they fell within this classification, these are not members of the Executive Branch of Government and I would hope that you would defeat the Senators' amendment. A hundred a day compensation, with expenses is more than adequate and I think, the members of that group did not come before our Committee and oppose the reduction to a hundred dollars a day.

THE PRESIDENT: The Chair recognizes the Senator from Kennebec, Senator Bustin.

SENATOR BUSTIN: Thank you, Mr. President, Ladies and Gentlemen of the Senate. Not without the opportunity to state that the six members come before you and plead for more money, that's not what they are for, you are absolutely correct, they probably would work for nothing, but that's not the point.

The point is a point of keeping faith. I can't believe that the Governor had pushed so
