Pozner on Cross: The Chapter Method of Cross Examination ©

When: July 19, 2024 from 9:00AM-4:30PM

Where: Talbot Hall at the University of Southern Maine
85 Bedford St. Portland, ME 04101

Summary: One day, one speaker, one method, leading to career-long advantages. Rarely can we say that someone “wrote the book” on a subject. Even more unusual is a book that changes a profession. In this program both are true. Larry Pozner has long been recognized as America’s authority on modern cross-examination. Pozner’s book *Cross Examination: Science and Techniques* (Lexis 3rd edition 2018, Pozner and Dodd) and his resulting seminar *Pozner on Cross: the Chapter Method* revolutionized our profession’s view of the purposes and methods of modern cross.

Pozner on Cross: The Chapter Method, is an innovative and highly entertaining program which immerses trial lawyers in the most powerful and modern techniques of drafting and delivering winning cross-examinations. For more than 25 years this ever-evolving seminar has been America’s best-attended trial techniques program. *Pozner on Cross: The Chapter Method* builds on principles of neuroscience and behavioral psychology to fashion the most reliable and advanced techniques of cross.
