2024 Annual Report

The Board is also required to submit the number of physician adverse licensing actions tabulated by the Federation of State Medical Boards (FSMB). For 2024 the FSMB tabulated 42 actions taken by the Board. However, the FSMB system tabulates a change or reduction in discipline as a new action and breaks some disciplines into multiple reports, which accounts for its variance with the 33 adverse licensing actions actually taken by the Board in 2024. In addition, not all adverse actions taken by the Board are necessarily assigned a complaint number. For example, there may be situations that occur during licensure or re-licensure where the individual withdraws their license while under investigation, which is a reportable adverse licensing action to the FSMB and National Practitioner Data Bank (NPDB) but does not have a corresponding complaint number in ALMS. In addition, there are sometimes multiple complaints against a single licensee that results in a single global disposition of all of the complaints pursuant to a consent agreement.

Please contact me if you have any questions about the data.

Respectfully,

Timothy E. Terranova  
Executive Director
