6. Malpractice Claims:

Your insurance carrier or attorney must provide an independent detailed explanation of all malpractice claims. This information must be received directly from the insurance company or attorney. This information is in addition to your personal explanation. Application form items 5.13 & 5.14, regarding professional (malpractice) liability claims experience, are the questions most likely to generate follow-up letters from the Board staff and delay your licensure if not answered completely. Report all claims of which you have been noticed, as well as all claims from which you were dismissed as a defendant or for which your insurance company made a settlement of any kind with the plaintiff, or any claim for which a court found you liable in any degree. A reporting form is provided at page 11. Claims against a professional corporation are considered a claim against the individual licensee who provided the professional services in dispute. To be complete, your supplemental explanation must include, for each such claim reported, a full description using the Professional (Malpractice) Liability Claims Experience Form attached. See the following fictitious example:

The Board strongly encourages physicians/physician assistants to take steps, including seeking treatment, when necessary to establish and maintain health and wellness. One resource available to physicians/physician assistants is the Medical Professionals Health Program (MPHP). More information about the MPHP can be found at: <http://www.mainemphp.org/>.

The purpose of the following questions is to determine the current fitness of an applicant to safely practice and concern current medical conditions that impair or may impair the ability to safely practice. "Medical condition" includes any physiological or psychological disease, disorder,

syndrome or condition. Information regarding medical conditions provided by applicants is treated confidentially by the Board. The mere fact of treatment for current medical conditions is not, by itself, a basis on which an applicant is ordinarily denied licensure when he/she has demonstrated personal responsibility and maturity in dealing with the medical condition(s). The Board may deny, limit, or condition a license for applicants whose ability to safely practice or whose behavior, judgment, and understanding is currently impaired to the degree that patient safety is at risk.

SINCE YOUR LAST RENEWAL APPLICATION:

YES NO

a. Do you have a medical condition that currently impairs your ability to safely and competently practice medicine?

b. Do you currently use any chemical substance(s), including alcohol, which in any way impairs or limits your ability to practice your profession with reasonable skill and safety?

If any of your answers to questions 9(a-b) is "Yes," please provide a detailed explanation.

10. Are you currently engaged in the illegal use of illicit drugs or prescription drugs that have not been prescribed to you pursuant to a legitimate physician-patient relationship? "Legitimate" means "Being in compliance with the law or in accordance with established and accepted standards."

11. Have you furnished or provided illegal drugs to anyone other than medical marijuana per applicable state law?

12. Have you furnished prescription drugs to or written a prescription for anyone without having a legitimate physician-patient relationship (This includes conduct for which you may NOT have been adjudicated in any civil, administrative or criminal proceeding)?

13. Have you:

Possessed, used, prescribed for use, or distributed any drugs in any way other than for legitimate or therapeutic purposes?

Diverted any drugs?

Violated any drug law?

Prescribed any controlled substances, or prescribed any medications except in an emergency or isolated setting, for yourself or family/household members?

14. Have you been charged, summonsed, indicted, arrested, or convicted of any criminal offense, including when those events have been deferred, set aside, dismissed, expunged or issued a stay of execution? Please include motor vehicle offenses such as Operating Under the Influence, but not minor traffic or parking violations.

15. Have you applied for hospital, HMO or other health care entity privileges which were denied?

16. Have you had your staff privileges or employment at any hospital, long term care facility, HMO, or other health care entity terminated, revoked, reduced, restricted in any way, suspended, made subject to probation, limited in any way, or withdrawn involuntarily?

17. Have you voluntarily surrendered privileges or resigned from staff membership during peer review or investigation or to avoid peer review or investigation?

SINCE YOUR LAST RENEWAL APPLICATION:

18. Have you resigned from employment in lieu of termination or while under investigation?
19. Have you been terminated or suspended from any employment?
20. Have you been deselected from a managed care organization physician panel?
21. Have you been disciplined by a professional society or resigned while an accusation was pending?
22. Have you endangered the safety of others, breached fiduciary obligations, or violated workplace conduct rules?
23. Have you been named in any medical malpractice liability claim or lawsuit adjudicated by a court in favor of the other party, or settled by you or your insurance company/representatives with or without your express consent?
24. Do you have any open/pending malpractice claims?
25. Do you intend to practice medicine within the State of Maine without active medical staff privileges at a Maine hospital?
26. Has it been longer than 24 months since you last practiced clinical medicine?

27. The Board is concerned with physician/physician assistant health and wellness. An important piece of maintaining health and wellness is establishing a relationship with a primary health care provider who provides regular and ongoing care. The Board is conducting a voluntary survey to determine the percentage of licensees who receive ongoing and regular care from a primary care provider, and whether further education needs to be provided to licensees regarding this important issue. Please answer the following question.

- Have you been examined/evaluated by your primary health care provider within the past 24 months?
