

SNOW & ICE CONTROL on Maine's LOCAL ROADS

Presented by: Paul Brown "Road Ranger" Maine Local Roads Center

WHO:

Any municipality, county or private contractor who is responsible for winter maintenance. This includes operators, foremen, supervisors, or other town officials. **We highly encourage municipal decision-makers to attend.**

WHY:

Maintaining winter roads is expensive. It's critical to have appropriately trained personnel, with the right tools and approaches, to keep costs down in order to provide safe driving conditions.

WHAT:

- what road conditions are expected in your town
- typical precipitation types and Maine weather
- materials – sand, salt, liquids, "hot loads", etc.
- the true cost of sand
- air vs pavement temperatures
- timing of applications: before, during, and after a storm
- proper material placement on the road
- the importance of calibration of spreaders
- environmental concerns
- PLUS MUCH MORE!!
