RE: Advanced Digital Construction Management System (ADCMS) Grant Letter of Support for the Maine Department of Transportation

Dear Secretary Buttigieg:

I am writing to express support from the New Hampshire Department of Transportation (NHDOT) for the ADCMS Grant application submitted by the Maine Department of Transportation (Maine DOT).

This grant award will propel Maine DOT's efforts in digital project delivery, which will positively impact transportation project delivery in New England, including New Hampshire and NHDOT as we share many design consultants, contractors, and cross-border projects. With the appropriate tools and resources for digital project delivery, both the State of New Hampshire and State of Maine can realize savings in project time and budget.

The Maine DOT and NHDOT are partners in many shared bi-state projects. When Maine DOT succeeds, we succeed. We urge the U.S. Department of Transportation and the Federal Highway Administration to give great consideration to the Maine DOT's grant application.

Sincerely,

A handwritten signature in blue ink that reads "William Cass".

William Cass
Commissioner
