# PEDIATRIC DISASTER RESPONSE AND EMERGENCY PREPAREDNESS

## MGT-439

A 2010 report by the National Commission on Children and Disasters identified a training gap for emergency responders, first receivers, and emergency management personnel that reduced their effectiveness in responding to pediatric patients and their unique needs/considerations. This course addresses pediatric emergency planning and medical response considerations through a combination of lectures, and small group exercises.

### Topics

- Introduction to Pediatric Response
- Pediatric Emergency Management Considerations
- Considerations for Managing Pediatric Surge
- Children with Access and Functional Needs
- Pediatric Considerations in Mass Sheltering
- Pediatric Triage and Allocation of Scarce Resources
- Pediatric Reunification Considerations
- Pediatric Decontamination Considerations

### Recommendations

Familiarity with the National Incident Management System (NIMS) and the Incident Command System (ICS) via completion of study courses IS-100, IS-200, and IS-700

### Course Length

Two days (16 hours)

### Venue

**Eastern Maine Medical Center  
Mason Auditorium  
489 State Street  
Bangor, ME 04401**

### Registration Information

Registration deadline is November 15, 2024

Register at: <https://teex.org/class/MGT439/>
