Updated	Department-Agency-Org	Summary	Total Funding	Description	Recovery Support Function	Funding Type	Deadline
Mar-01-2021	Non-Governmental Organizations	Scherman Foundation Rosin Fund - Environmental Program Grant	Funding not identified.	Supporting projects focused on new paradigms in sustainable urbanism. Urban Sustainability - Deadline was March 16, 2020 however LOIs are accepted on a rolling basis for most program options. Projects focused on new paradigms in sustainable urbanism including but not limited to: 1) the redesign of the built environment, especially high rise commercial and residential structures, to improve quality of life and reduce harmful environmental impacts 2) the improvement of mass transit, as well as the expansion of transit-focused residential development 3) development of green infrastructure, from storm water management and drinking water systems to decentralized renewable electricity generation and green roofs 4) recycling and waste management 5) food quality and availability 6) urban agriculture; and 7) open space development. Full Program Areas include: • Arts: http://scherman.org/programs/arts/core-fund/ • Environment: http://scherman.org/programs/environment/core-fund/ • Governmental Transparency and Accountability: http://scherman.org/programs/government-transparency-and-accountability/ • Human Rights and Liberties: http://scherman.org/programs/human-rights-and-liberties/ • Reproductive Rights and Justice: http://scherman.org/programs/reproductive-rights-and-justice/ • Strengthening NY Communities: http://scherman.org/programs/strengthening-ny-communities/core-fund/	[Community Planning and Capacity Building, Health and Social Services, Infrastructure Systems, Natural and Cultural Resources]	Non-Supplemental	Deadline not identified.
Aug-05-2021	Non-Governmental Organizations	HDR Foundation	Funding not identified.	Grant funding for education, public health and environmental projects.	[Community Planning and Capacity Building, Health and	Non-Supplemental	Deadline not identified.

Date	Organization	Resource	Funding	Description	Category		Deadline
				The foundation's areas of focus mirror HDR's breadth of knowledge and expertise. We provide grants for projects that demonstrate direct impact as well as projects that can be replicated or scaled. Our areas of focus included: Education Healthy Communities Environmental We promote the value of environmentally responsible practices to our clients, employee-owners and communities. Examples of projects we may fund include: •Active transportation modes, such as walking or biking •Water, energy and waste reduction projects •Innovative, small-scale renewable energy and water reuse •Community-led environmental restoration efforts Other, Employee Directed	Social Services, Infrastructure Systems]		
May-03-2021	Maine Technology Institute	Maine Technology Institute - FY21 Maine Clean Energy Innovation Challenge	$500,000 Allocated: $0	To support technologies and services across the clean energy and climate spectrum. To contribute to the achievement of the State of Maine clean energy and climate goals. The purpose of the Maine Clean Energy Innovation Challenge will be to: • Bring to market advanced technologies and services across the clean energy and climate spectrum (energy generation, energy efficiency, clean transportation, energy storage, data or software for energy management and innovative combinations of the aforementioned). • Contribute to the achievement of state's clean energy and climate goals.	[Community Planning and Capacity Building, Economic, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.
Sep-01-2021	Coquille Economic Development Corporation (CEDCO)	Coquille Economic Development Corporation - Tribal One Broadband	Funding not identified. Allocated: $0	Tribal One Broadband (T1B) provides comprehensive IT, telecom and fiber optic network solutions and integrated control systems (ICS) for businesses and governments throughout the country. Tribal One Broadband (T1B) provides comprehensive IT, telecom and fiber optic network solutions and integrated control systems (ICS) for businesses and governments throughout the country. Tribal One's redundant network was the first and only metropolitan Ethernet service in Coos Bay and North Bend. Utilizing state of the art solutions, Tribal One is able to provide Fiber-To-The-Premises solutions as well as traditional and enhanced TDM and DSL services. • Inside Building and Outside Plant Structured Cable and Wireless Infrastructure Design • Build Telecommunications Systems Operations • Photovoltaic Solar • Industrial Control Systems/SCADA *Tribal One Broadband was established in 2002 as a division of the Coquille Economic Development Corporation (CEDCO).*	[Community Planning and Capacity Building, Economic, Infrastructure Systems]		Deadline not identified.

COVID-19 Disaster Resources Report

Sep-01-2021		OWEESTA Corporation: COVID-19 Response Loan Products (for Native Community Development Financial Institutions)	Funding not identified.	Providing low-risk Working Capital/Operating Loans and Lines of Credit designed to help Native CDFIs who may be experiencing a difficult time during the Covid-19 pandemic or waiting to receive grant revenue they have been awarded, but not received. The origination fees on these loan products will be waived until August 1st in support of communities affected by the COVID-19 crisis. **Working Capital/Operating Loan** The Working Capital/Operating Loan is designed to help Native Community Development Financial Institutions (CDFIs) who may be experiencing a difficult time during the Covid-19 pandemic or waiting to receive grant revenue they have been awarded, but not received. With this short term temporary loan Native CDFIs can ensure their operating capital will be there when they need it. While the interest rate on this loan will—in the long-term—vary based on market conditions, it is currently the cost of capital plus 1.5-2.5% with an origination fee of 2%. **Line of Credit** Line of Credit is a renewable line of credit for any general lending capital needs. This is an opportunity for Native CDFIs to launch an emergency loan product. On a one-year term, the current interest rate is the cost of capital plus 1.5-2.5% with an origination fee of 1%. This loan will have either quarterly or monthly interest-only payments with the principal due at maturity.	[Community Planning and Capacity Building, Economic, Natural and Cultural Resources]		Deadline not identified.
Sep-30-2021	Department of Energy	Financing Solutions and Energy Efficiency Leadership Framework	Funding not identified.	Innovative & traditional financing tools for state & local government strategic energy goals. Some mechanisms include bonding tools, energy savings contracting (ESPC), property assessed clean energy (PACE), & on-bill financing. An important component of an energy strategy is finding a way to pay for key energy initiatives. Many state and local governments have found ways to use both innovative financing mechanisms as well as traditional finance tools to support their strategic energy goals. Some mechanisms include bonding tools, energy savings contracting (ESPC), property assessed clean energy (PACE), and on-bill financing. https://www.energy.gov/eere/slsc/establish-financing http://energy.gov/eere/slsc/financing-solutions "The U.S. Department of Energy's Weatherization and Intergovernmental Programs Office strategically plans its technical assistance for states, local governments, and K–12 school districts using a synthesis of stakeholder feedback and public-sector leadership best practices known	[Economic]		Deadline not identified.

				as the Energy Efficiency Leadership Framework. Public-sector leaders can explore the key resources below to learn more about how to access and use financing to maximize energy and cost savings." Financing tools are not one-size-fits-all—different financing mechanisms work better for different market segments, including public (state and local facilities), residential, commercial, industrial, and small business market segments. State, local, and K-12 energy efficiency financing initiatives will often fall into one of two broad categories: **Financing for Lead by Example in Public Facilities**: State and local governments face unique challenges when funding energy upgrades on their own facilities. The financing mechanisms listed below provide an overview of the most common tools used by state and local governments to finance upgrades on their facilities. *Popular lead-by-example financing mechanisms include: ESPC, bonding tools, revolving loan funds, and leasing arrangements.* **Enabling Investment on Private Property**: State and local governments may authorize, sponsor, fund, and/or implement energy efficiency financing programs designed to serve private property owners. The financing mechanisms listed below provide an overview of the most common tools to enable energy efficiency financing for residential, multi-family, commercial and industrial properties. *Popular financing mechanisms for private property energy efficiency investment include: PACE, ESPC, leasing arrangements, on-bill finance and repayment.*			
Sep-30-2021	Department of Energy	[Weatherization & Intergovernmental Programs Office (WIP)](#)	Funding not identified.	To enable strategic investments in energy efficiency & renewable energy technologies through the use of innovative practices across the US. In partnership with a wide range of stakeholders, including state & local orgs & community-based non-profits. The Weatherization and Intergovernmental Programs Office (WIP) is part of the DOE Office of Energy Efficiency and Renewable Energy (EERE) and supports DOE's mission to create greater energy affordability, security, and resiliency. WIP's mission is to enable strategic investments in energy efficiency and renewable energy technologies through the use of innovative practices across the United States in partnership with a wide range of stakeholders, including state and local organizations and community-based non-profits. WIP is made up of two programs focused on state and local governments—the Weatherization Assistance Program (WAP) and the State Energy Program (SEP)—and a team that develops and delivers targeted technical assistance and strategic initiatives to state and local governments. Oct-15-2021	Executive Office of the President	Justice40 Initiative	Funding not identified. Allocated: $0	Justice40 is a whole-of-government effort to ensure Federal agencies work with states & local communities to deliver at least 40% of overall benefits from Federal investments in climate and clean energy to disadvantaged communities. Executive Order: Justice40 is a whole-of-government effort to ensure that Federal agencies work with states and local communities to make good on President Biden's promise to deliver at least 40 percent of the overall benefits from Federal investments in climate and clean energy to disadvantaged communities. Priorities include: - Center the Climate Crisis in U.S. Foreign Policy and National Security Considerations - Take a Whole-of-Government Approach to the Climate Crisis - Leverage the Federal Government's Footprint and Buying Power to Lead by Example - Rebuild Our Infrastructure for a Sustainable Economy - Advance Conservation, Agriculture, and Reforestation - Revitalize Energy Communities - Secure Environmental Justice and Spur Economic Opportunity The pilot identifies 21 priority programs to immediately begin enhancing benefits for disadvantaged communities. These priority programs will provide a blueprint for other agencies to help inform their work to implement the Justice40 Initiative across government. This initial set of programs was selected following extensive consultation with environmental justice stakeholders and the recently established White House Environmental Justice Advisory Council and the White House Environmental Justice Interagency Council. Programs include: - Department of Homeland Security Flood Mitigation Assistance Program, which provides funding to states, local communities, tribes and territories for projects that reduce or eliminate the risk of repetitive flood damage to buildings - Environmental Protection Agency Drinking Water State Revolving Fund, which provides funds to improve drinking water quality, prevent water contamination, and support water systems - Department of Housing and Urban Development Lead Hazard Reduction and Healthy Homes Grants, which assist states, local communities, tribes and territories in identifying and controlling lead-based paint hazards	[Community Planning and Capacity Building, Natural and Cultural Resources]		Deadline not identified.

| Oct-15-2021 | Other Independent Agencies | AmeriCorps State & National Grants: Become a Grantee | Funding not identified.

Allocated: $0 | AmeriCorps State and National engages in strategic grantmaking to support organizations that see service as a solution to local and national challenges.

AmeriCorps grants provide financial assistance to programs that recruit, train, and supervise AmeriCorps members who meet critical community needs in the areas of education, disaster services, health, environmental stewardship, economic opportunity, and veterans and military families. Multi-state, state, local and tribal grantees recruit, train and manage AmeriCorps members in direct service and capacity building activities to address unmet community needs in six focus areas: education, healthy futures, clean energy/environment, veterans and military families, disaster services, and economic opportunity. AmeriCorps members help organizations expand services, build capacity, develop partnerships, leverage resources, create sustainable programs, and recruit and manage other volunteers. Each year, AmeriCorps members serve with thousands of nonprofit, faith-based, and community organizations, helping them expand their reach and better meet their mission. These powerful service experiences also help AmeriCorps members develop lifelong civic engagement.

| | | | management program that protects against agricultural production losses due to unavoidable causes such as drought, excessive moisture, hail, wind, hurricane, tornado, lightning, and insects. In addition to these causes, revenue insurance programs are available under which producers of certain crops are protected against loss of revenue stemming from low prices, poor yields, or a combination of both. Federal crop insurance is available to producers through private insurance companies that market and service policies and also share in the risk. Thus, the program delivery is a joint effort between the federal government and the private insurance industry.
