The user should always directly consult the provider of a potential resource for current program information and to verify the applicability of a particular program.

Other Financial Resources

Updated	Department-Agency-Org	Summary	Total Funding	Description	Recovery Support Function	Funding Type	Deadline

Apr-30-2021	T-Mobile with consulting partners Smart Growth America and Main Street America	T-Mobile - FY21 Hometown Grant	$25,000,000
			
			Allocated: $0
				The Hometown Grant program invests in small towns by awarding up to 100 towns a year with project funding—up to $50,000 each. They're focusing on revitalizing community spaces in towns with 50,000 people or less.
				
				They've partnered with Smart Growth America and Main Street America, two consulting partners with a combined experience of over 60 years working to help build stronger, more prosperous small towns and rural communities. The Hometown Grant program invests in small towns by awarding up to 100 towns a year with project funding—up to $50,000 each.
				They're focusing on revitalizing community spaces in towns with 50,000 people or less. Submit a proposal for a town project of your choice, and if selected, use the funds to get started. For example, you could implement tech upgrades at your library, refresh a local park, or break ground on a new place where neighbors can connect.
				• Applications will be open on a quarterly basis with the following schedule:
				  ○ Spring: Applications open Jan – March, Towns announced in April
				  ○ Summer: Applications open April – June, Towns announced in July
				  ○ Fall: Applications open July – Sept., Towns announced in Oct.
				  ○ Winter: Applications open Oct. – Dec., Towns announced in Jan.
				• Portal will close on the last day of each quarter and reopen for the new quarter on the first of the month.

Oct-14-2020		Connecticut Center for Advanced Technology, Inc. - Connecticut Manufacturing Innovation Fund Voucher Program (Rolling Deadline) [Connecticut]	Funding not identified. Allocated: $0	CCAT's Manufacturing Innovation Fund Voucher Program provides companies with access to capital to help them obtain new equipment and the expertise they need to become To help keep pace with state-of-the art product development and manufacturing technology, CCAT's Manufacturing Innovation Fund Voucher Program provides companies with access to capital they need to become more efficient, productive, and competitive. Eligible companies can apply for vouchers up to $50,000 for the purchase of specialized equipment and expertise that will help improve operations - including marketing, LEAN, compliance, and other technical needs. Funding may be used for the following activities: • Assistance with new machinery acquisition; • Technical experts in universities, educational institutions, nonprofits, or other organizations to solve engineering, marketing and other challenges, i.e. workforce development, supply chain network development, technology insertion, research and development; • Market analysis; • Business development; • Patenting, licensing; • Financial transition and market growth planning; • Testing or research to support proof of principle; • Prototype development; • Process Improvements; • Commercialization and innovation services; • Specialized Equipment for automation;	[Economic]		Deadline not identified.

				• Compliance and Monitoring activities; • Tooling development and manufacture; and • Other such costs that the Advisory Board and/or DECD deems eligible. Manufacturing Innovation Fund Voucher Program requirements include the following: • Total project value must be at least $10,000. • A third-party vendor or service provider must be used to execute the proposed project. • Only projects that commence after submission of your application will be considered for funding. • Applicants must match grant awards dollar for dollar. • Companies that receive an award under this program will be required to complete an impact report 6 months following the project's commencement. A program of the Connecticut Manufacturing Innovation Fund, the voucher program is a partnership of the state Department of Economic and Community Development (DECD) and the Connecticut Center for Advanced Technology, Inc (CCAT).			
Sep-03-2020	Clara Lionel Foundation [Founder: Robyn "Rihanna" Fenty]	Clara Lionel Foundation - Climate Resilience & Emergency Preparedness	Funding not identified. Allocated: $0	Bridging the humanitarian and climate sectors to alleviate poverty and build communities of resilience. To reduce the impact of disasters while creating a safer future for the world's most vulnerable. Climate change is resulting in an increase in natural disasters globally. That means more people at risk, particularly vulnerable communities, and economic damage in the hundreds of billions of dollars. Rather than simply respond, we are harnessing the power of philanthropy to help more communities prepare and withstand disasters. The Clara Lionel Foundation (CLF) was founded in 2012 by pop star Robyn "Rihanna" Fenty in honor of her grandparents, Clara and Lionel Braithwaite. CLF supports and funds groundbreaking and effective education, health and emergency response programs around the world. With the voices of Rihanna and her fans, CLF also engages in global advocacy with the goal of improving the quality of life for young people everywhere. CLF supports and funds groundbreaking and effective education and emergency response programs around the world. 				charitable giving focuses on Housing Affordability, Financial Health and Small Business Growth. Guidelines for charitable contributions vary from state to state. However, Wells Fargo generally supports the following areas of interest: community development; affordable housing; education; disaster relief; financial education; environmental education; clean technology; job training; military and veterans; and, other critical social, economic, and environmental challenges.			
Dec-28-2020	Groundswell Fund	Groundswell Fund	$5,200,000	Groundswell's grantmaking focuses on bolstering and scaling organizations that are building a strong grassroots base to win policy and systems change. Groundswell's grantmaking focuses on bolstering and scaling organizations that are building a strong grassroots base to win policy and systems change as well as organizations that are reducing poor birthing outcomes by expanding access to community-based midwifery and doula care. We acknowledge that systems change takes time. Thus, the vast majority of our grants are for general support, and we commit to funding efficient and effective organizations over many years. We award grants through four funds, and through our capacity building programs. **The Catalyst Fund** supports grassroots organizing that advances reproductive justice policy, systems change and cross-movement alliances with other social justice organizations, including labor, environmental and economic justice. **The Rapid Response Fund** provides fast funding to grassroots organizations in critical but unexpected fights to protect and advance reproductive and social justice. **The Birth Justice Fund** aims to eliminate disparities in pregnancy and birth outcomes experienced by women of color, low-income women, young women and transgender people by expanding their access to midwifery and doula care and training **The Liberation Fund** supports the strongest intersectional organizing by women of color and transgender people of color across a diversity of social change movements in the United States. **The Black Trans Fund** supports Black transgender, gender non-conforming (TGNC), and non-binary communities to build power towards collective liberation. COVID-19 Disaster Resources Report

2020	of Commerce Foundation (affiliate of the U.S. Chamber of Commerce)	Resilience in a Box: Business Disaster Preparedness & Resilience	identified.	to educate newcomers on business resilience. Resilience in a Box is based on best practices and designed to educate newcomers on business resilience. Small businesses are both highly vulnerable and can be without adequate resources to focus on preparedness actions. These resources will guide companies toward addressing preparedness issues while building in flexibility to handle potential business interruptions. The Resilience in a Box program is a collaborative partnership between the UPS Foundation, the U.S. Chamber of Commerce Foundation, the World Economic Forum (WEF), and the Disaster Resistant Business (DRB) Toolkit Workgroup. Additional resources for disaster preparedness globally are complimentary to the Resilience in a Box tools. We are pleased to cross share this information as well to help support businesses around the world prepare and sustain should the next disaster disrupt their operations. Resources are available in additional languages, including Spanish, French, Turkish, and Arabic. List of resources available: https://www.uschamberfoundation.org/resilience-box/resilience-101-workbook-resources Coronavirus Response & Resources: https://www.uschamberfoundation.org/reports/coronavirus-response-resources	and Capacity Building, Economic, Health and Social Services]		identified.
May-15-2020	Alfred P. Sloan Foundation	Alfred P. Sloan Foundation	Funding not identified.	The Alfred P. Sloan Foundation believes that a carefully reasoned and systematic understanding of the forces of nature and society, when applied inventively and wisely, can lead to a better world for all. The foundation makes grants to support original research and broad-based education related to science, technology, and economic performance; and to improve the quality of American life. Programs include: 1) Public Understanding of Science and Technology: This program focuses on educating the public about science and technology. It includes support for films, television, radio, books, and plays. 2) Education and Careers in Science and Technology: The foundation has long supported students interested in careers in science, technology, engineering, and mathematics (STEM). One area of focus supports research on the factors that affect STEM career choices. The foundation additionally provides fellowship funds to encourage underrepresented minorities to pursue STEM careers. 3) Basic Research: With its Basic Research program area, the foundation expands funds for original, high-quality research in science, technology, engineering, and mathematics. Grants in the Basic Research program area promise to substantively benefit	[Community Planning and Capacity Building, Economic, Health and Social Services]		Deadline not identified.

				improvement of quality of life achieved through natural resources conservation and community development which leads to sustainable communities, prudent use (development), and the management and conservation of natural resources. RC&D areas are locally sponsored areas designated by the Secretary of Agriculture for RC&D technical and financial assistance program funds.			
Jan-18-2021	Other Independent Agencies	Corporation for National & Community Service: CNCS (94.020)	Funding not identified.	Engage Americans of all ages and backgrounds in service to meet community needs including projects in education, the environment, public safety, homeland security, and other critical areas (including disaster services). The Corporation for National and Community Service is a federal agency, formed to engage Americans of all ages and backgrounds in service to meet community needs. Each year, more than 1.5 million individuals help meet local needs through a wide array of service opportunities. These include projects in education, the environment, public safety, homeland security, and other critical areas (including disaster services) through the Corporation's programs, including: (1) Senior Corps: Offers a network of programs that tap the rich experience, skills, and talents of older citizens to meet community needs; (2) AmeriCorps (including AmeriCorps*State and National; AmeriCorps*VISTA; and AmeriCorps*National Civilian Community Corps): Provides opportunities for Americans to make an ongoing, intensive commitment to service; (3) Social Innovation Fund: The Social Innovation Fund (SIF) is a new way of doing business for the federal government that stands to yield greater impact on urgent national challenges. The Social Innovation Fund targets millions in public-private funds to expand effective solutions across three issue areas: economic opportunity, healthy futures, and youth development and school support. This work will directly impact thousands of low-income families and create a catalog of proven approaches that can be replicated in communities across the country; (4) Special Initiatives: Include United We Serve/Serve.gov; Martin Luther King Jr. Day of Service; President's Volunteer Service Award; etc. AmeriCorps webpage (new): https://americorps.gov/ Funding & Resources: https://www.nationalservice.gov/grants-funding/funding-resources Program Details: https://beta.sam.gov/fal/07cb5d8ebf9d60ce5399f3f233da4e9c/view?keywords=cncs&sort=-relevance&index=&is_active=true&page=1	[Community Planning and Capacity Building, Health and Social Services, Housing, Natural and Cultural Resources]		Deadline not identified.
Dec-03-2020	Department of Transportation	WEBPAGE - DOT/FHWA: Fixing America's Surface	Funding not identified.	The FAST Act funds surface transportation programs—including, but not limited to, Federal-aid highways—at over	[Infrastructure Systems]		Deadline not identified.

Page 8 This information was exported from MAX-TRAX on May-05-2021 by Anne Fuchs(NONFED). Search Criteria: project = RR AND status = Available AND component in (Connecticut, Maine, Massachusetts, National, "New Hampshire", "Rhode Island", Vermont) AND (Deadline >= endOfWeek() OR Deadline is EMPTY) AND issuetype in ("Technical Support Resource", "Financial Resource", "Material Resource", "Information Resource", "Education Resource") AND (description ~ "Economic Support" OR description ~ "Economic Development" OR description ~ "Economic Mobility" OR description ~ "Main Street" OR description ~ "Economic Zone") ORDER BY cf[18801] ASC

| | | Transportation Act - FAST Act (supersedes MAP-21) | | $305 billion for fiscal years (FY) 2016 through 2020.

On December 4, 2015, President Obama signed into law Public Law 114-94, the Fixing America's Surface Transportation Act (FAST Act). The FAST Act funds surface transportation programs—including, but not limited to, Federal-aid highways—at over $305 billion for fiscal years (FY) 2016 through 2020. It is the first long-term surface transportation authorization enacted in a decade that provides long-term funding certainty for surface transportation. This summary reviews the policies and programs of the FAST Act administered by the Federal Highway Administration (FHWA).
The Moving Ahead for Progress in the 21st Century Act (MAP-21), enacted in 2012, included provisions to make the Federal surface transportation more streamlined, performance-based, and multimodal, and to address challenges facing the U.S. transportation system - including improving safety, maintaining infrastructure condition, reducing traffic congestion, improving efficiency of the system and freight movement, protecting the environment, and reducing delays in project delivery. The FAST Act builds on the changes made by MAP-21.
Setting the course for transportation investment in highways, the FAST Act:
• Improves mobility on America's highways;
• Creates jobs and supports economic growth; and
• Accelerates project delivery and promotes innovation.
The act's five years of predictable formula funding enables transit agencies to better manage long-term assets and address the backlog of state of good repair needs. It also includes funding for new competitive grant programs for buses and bus facilities, innovative transportation coordination, workforce training, and public transportation research activities.

				compassionate society. 5. **Sustainable Ithaca:** Supports efforts to help Tompkins County become a fully sustainable community (environmentally; socially; and economically). Priority is given to projects that incorporate a collaborative approach to reaching sustainability goals. Priority is also given to projects that utilize inclusive approaches to address racial; economic; and other forms of inequality. 6. **Community Needs:** Seeks to meet the basic needs of low income and underserved people in Tompkins County; New York and to alleviate the impacts of poverty. Priority is given to programs that serve people who are vulnerable to social and economic challenges including homelessness; food insecurity; racial inequity; poor physical and mental health outcomes; poor academic performance; school drop-out; illiteracy; and unemployment. Programs serving all ages are supported; but youth populations are given higher priority.			
Sep-22-2020		GE Foundation	Funding not identified.	Grant funding for employment, education, public health, and disaster relief. GE provides grants and invests in initiatives that work to solve some of the world's most difficult problems. In coordination with its partners; the foundation supports U.S. and international education; developing health globally; the environment; public policy; human rights; disaster relief; and community success around the globe. U.S. priorities include: (1) Developing Futures in Education: Through the Developing Futures in Education program; GE Foundation has committed nearly $150 million to six U.S. school districts to improve student achievement through a rigorous math and science curriculum; professional development opportunities for teachers; and management capacity improvement. (2) Employee Programs: Through the GE Foundation Matching Gifts Program; GE employees can donate to an eligible nonprofit organization and GE Foundation will provide a dollar-for-dollar match. Total gifts in 2012 reached nearly $38 million. (3) Disaster Relief: When disasters strike; the GE family commits resources and employee support to assist affected communities. GE Foundation commits resources via grants to relief organizations and through the GE Foundation Matching Gifts Program. In addition; GE volunteers work through networks at the disaster sites to organize local support and align employees in the region. Key partners include GE employees; International Red Cross; UNICEF; AmeriCares; and Save the Children. Some recent examples of GE	[Health and Social Services]	Non-Supplemental	Deadline not identified.

| | | | | Foundation disaster relief efforts in the United States include: A) Oklahoma Tornado (2013) After a severe tornado caused destruction in the suburbs of Oklahoma City; GE and the GE Foundation committed equipment and funding to support relief and recovery efforts. This included donating GE Healthcare medical equipment and accessories to a regional hospital. The GE Foundation also announced a $250;000 donation to the American Red Cross Disaster Giving Program in addition to its annual $1 million grant to the organization. B) Superstorm Sandy (2012) The GE Foundation donated a total of $5.8 million in support of Superstorm Sandy relief-and-recovery efforts in New York; New Jersey; and Connecticut including $4 million to the Robin Hood Foundation to support longer-term housing; physical and mental health services; food banks; and local economic recovery in hard-hit communities. C) Tornado in Joplin; Missouri (2011) GE is a member of the American Red Cross Annual Disaster Giving Program (ADGP). Thanks to annual $1 million contributions to the Disaster Relief Fund (DRF) from ADGP members; the Red Cross can respond immediately to the needs of individuals and families affected by disasters anywhere in the United States. In May 2011; a major tornado hit Joplin; killing at least 116 people and devastating the town. The American Red Cross responded quickly by coordinating with emergency officials and local community partners to help people impacted by the tornado get back on their feet. Some immediate actions included providing shelter; food; emotional support; and other assistance to people in need. (4) Public Policy: GE Foundation funds initiatives that enhance public policy dialogue. Its support in this area encourages constructive dialogue with key stakeholders. This involvement helps GE Foundation identify and learn about the next generation of policy issues in order to work toward effective solutions to significant policy dilemmas. (5) Developing Health: Aims to increase access to primary care for underserved populations in targeted communities. | | | |
| Sep-16-2020 | Non-Governmental Organizations | Council on Foundations - Comprehensive Coronavirus Legislation Guide for the Charitable Sector | Funding not identified.

Allocated: $0 | This guide highlights the provisions in each of the four COVID-19 Supplemental bills that are relevant to, and impact, the charitable sector.

Since the Coronavirus was introduced into the United States, Congress has passed four separate packages to address a wide variety of issues and support the health care sector, businesses, individuals and families. While a majority of the relief will target businesses, individuals, families and health care, certain provisions in each bill have relevance to the charitable sector. We have summarized each bill and highlighted the specific provisions that may impact the charitable sector.

					Resources]		
				Through this solicitation, NSF seeks to foster a network of S-STEM stakeholders and further develop the infrastructure needed to generate and disseminate new knowledge, successful practices and effective design principles arising from NSF S-STEM projects nationwide. The ultimate vision of the legislation governing the S-STEM parent program and of the current S-STEM-Net solicitation) is that all Americans, regardless of economic status, should be able to contribute to the American innovation economy if they so desire. The target audience for this dissemination effort is the community of higher education institutions, faculty, scholars, researchers and evaluators, local and regional organizations, industry, and other nonprofit, federal, state, and local agencies concerned with the success of domestic low-income STEM students in the United States. To support collaboration within the S-STEM network, NSF will fund two types of investments: An S-STEM Resource and Evaluation Center (S-STEM-REC) and several S-STEM Research Hubs (S-STEM-Hub). The S-STEM Network(S-STEM-Net) will collaborate to create synergies and sustain a robust national ecosystem consisting of multi-sector partners supporting domestic low-income STEM students in achieving their career goals, while also ensuring access, inclusion, and adaptability to changing learning needs. This network will also synthesize current achievements and investigate evolving barriers to the success of this student population. It will also disseminate the context and circumstances by which interventions and practices that support graduation of domestic low-income students pursuing careers in STEM are successful.

Mar-05-2021	Environmental Protection Agency	Smart Growth Implementation Assistance Program	Funding not identified.	EPA's Smart Growth Implementation Assistance program provides recipients (state, local, regional, and tribal governments) direct technical assistance in policy analysis or public participatory processes. EPA's Smart Growth Implementation Assistance program is an annual, competitive solicitation open to state, local, regional, and tribal governments - along with nonprofits that have partnered with a governmental entity - that want to incorporate smart growth techniques into their future development. Once selected, communities receive direct technical assistance from a team of national experts in one of two areas: 1) policy analysis, such as reviewing state and local codes, school siting guidelines, transportation policies, etc.; or 2) public participatory processes, such as visioning, design workshops, alternative analysis, build-out analysis, etc. The assistance is tailored to the community's unique situation and priorities. EPA provides the assistance through a contractor team rather than a grant. Through a multiple-day site visit and a detailed final report, the multidisciplinary team provides information to help the community achieve its goal of encouraging growth that fosters economic progress and environmental protection. EPA initiated the SGIA program in 2005 with three goals in mind: 1) To support communities interested in implementing smart growth policies; 2) To create regional examples of smart growth that can catalyze similar projects in the area; and 3) To identify common barriers and opportunities for smart growth development and create new tools that other communities can use. Current topics for suggested proposal development include: Community Resilience to Disasters and Climate Change; Redevelopment for Job Creation; The	[Community Planning and Capacity Building, Economic, Housing, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

Mar-17-2021	International Economic Development Council (IEDC)	IEDC - Opportunity For All: Strategies for Inclusive Economic Development	Funding not identified.	Explores the issue of how to expand economic opportunity for all. Though the U.S. economy has been growing since the Great Recession ended, many people have not experienced the fruits of that growth. In communities across the country, some residents are thriving while others experience declining household incomes, low labor force participation and increasingly concentrated poverty, trends that often have been in place for years. The issue of how to expand economic opportunity for all is one of increasing concern to economic developers. Not only does it impact their ability to grow their regional economies, but they also have an important role to play in potential solutions. This paper explores the issue of economic opportunity from an economic development perspective by presenting evidence of the problem, examining why it matters, and offering common themes and promising practices from nine case studies.	[Economic]		Deadline not identified.

Mar-17-2021		PUBLICATION - Federal Resources for Sustainable Rural Communities (Summer 2012)	Funding not identified.	Highlights federal resources rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It provides key information on funding and technical assistance opportunities. Rural communities across America are working to strengthen their economies, provide better quality of life for residents, and build on assets such as traditional main streets, agricultural and working lands, and natural resources. The Partnership for Sustainable Communities—made up of the U.S. Department of Housing and Urban Development (HUD), the U.S. Department of Transportation (DOT), and the U.S. Environmental Protection Agency (EPA)—is coordinating with the U.S. Department of Agriculture (USDA) to ensure that the four agencies' spending, policies, and programs support rural communities' efforts to be vibrant, thriving places for current and future generations. This guide to HUD, DOT, EPA, and USDA programs highlights federal resources rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It provides key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have put these programs into action. Each agency offers different ways of approaching infrastructure planning and construction, economic development, pollution cleanup, and other issues that are part of achieving sustainable communities. Coordinating and leveraging multiple funding and assistance sources can help communities advance their overall visions and goals. While this guide is not exhaustive and the programs listed may change, it provides a menu of options rural communities and small towns can consider when planning and implementing projects. The guide is organized by agency and then by broad topic areas that are similar across agencies. For current funding and technical assistance opportunities, as well as the companion *Supporting Sustainable Rural*	[Community Planning and Capacity Building, Economic, Housing, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

Mar-17-2021		PUBLICATION - USDA/RD: Rural Transportation Infrastructure - Information & Guidance	Funding not identified.	Community Facilities Programs can help bring needed resources and innovation to create a framework for rebuilding transportation infrastructure in rural America. USDA Rural Development's flexible Community Facilities Programs can help bring needed resources and innovation to create a framework for rebuilding transportation infrastructure in rural America. Gaining access to sufficient capital for transportation infrastructure is a threshold condition for spurring economic growth. While rural communities share some common challenges with distressed urban areas, they also face some unique challenges in accessing financing and attracting private-sector investment. Rural communities have smaller populations, lower population densities, a smaller tax base, and sometimes lack resources for loan repayments. In addition, rural projects often lack economies of scale, and rural communities frequently lack the capacity and expertise necessary to negotiate complex financing transactions. However, it is possible to overcome these challenges and deliver critically-needed investments for transportation infrastructure to rural areas. Community Facilities Programs, in partnership with capital credit markets, financial consultants, industry experts, and other stakeholders such as Federal, state and local entities, can contribute to building and strengthening rural transportation infrastructure. Community Facilities Programs provide long-term, fixed-rate, low-cost direct loans and loan guarantees for commercial banks to help rural communities finance the development and/or improvement of rural community infrastructure and essential community facilities for public use. Community Facilities Loan Programs can finance more than 100 different facility types, including rural transportation infrastructure such as roads, bridges, airports, inland waterways, port-and railroad-related infrastructure, intermodal terminal facilities, and street improvements. Funding may be used to finance both public and nonprofit rural airports as well as bus and rail infrastructure. This includes facilities and services such as terminals, hangars, runways, parking areas, roadway, curbside, and administrative facilities. Community Facilities Program funds also may be used for infrastructure and space for commercial businesses that are customarily located on or near airport, rail, and bus infrastructure, such as facilities for rental car businesses, mechanical services, and parking operators. For these types of commercial businesses, the facility space must be owned by an eligible applicant and leased to the commercial entity. These types of commercial	[Community Planning and Capacity Building, Economic, Infrastructure Systems]		Deadline not identified.

Page 22 This information was exported from MAX-TRAX on May-05-2021 by Anne Fuchs(NONFED). 				enterprises are essential to the operation of the underlying facility and not subject to leased space limitations. Public bodies, nonprofit organizations and Federally-recognized Indian Tribes can use program funds to construct, expand or improve rural transportation infrastructure in eligible rural communities with populations of 20,000 or fewer. The project must be located within an eligible rural area and primarily serve and benefit rural residents and communities. Through its Community Facilities Programs, USDA Rural Development facilitates and strengthens Public Private Partnerships (P3) with capital credit markets, financial consultants and industry experts. Our goal is to improve rural America's access to capital for rural community infrastructure, and to leverage resources and expertise to better manage credit risk while fostering development in rural communities. By bringing together financial, project development and technical expertise, resources and innovation through the P3 approach, rural communities can build or repair rural transportation infrastructure quicker and at a lower cost. These investments in critical rural transportation infrastructure can help ensure America's rural communities are repopulating, self-sustaining, and thriving economically.			
Mar-17-2021	Department of Transportation	State of Good Repair Grant Programs (20.525)	Funding not identified.	FTA's State of Good Repair Formula Program grants are distributed to state and local governments in urbanized areas for repairs and upgrading of rail and bus rapid transit systems that are at least seven years old. Public transportation provides millions of Americans with daily access to jobs, schools, health care and other essential services. U.S. DOT has found that an estimated 40 percent of buses and 23 percent of rail transit assets are in marginal or poor condition, with a backlog of $98 billion in deferred maintenance and replacement. The State of Good Repair Program is FTA's first stand-alone initiative written into law that is dedicated to repairing and upgrading the nation's rail transit systems along with high-intensity motor bus systems that use high-occupancy vehicle lanes, including bus rapid transit (BRT). These funds reflect a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably so that communities can offer balanced transportation choices that help to improve mobility, reduce congestion, and encourage economic development. Funds may be used to assist state and local governmental authorities in financing capital projects to maintain public transportation systems in a state of good repair. Eligible projects include the replacement and rehabilitation of rolling stock, track, line equipment and structures, signals and communications, power equipment and substations, passenger stations and terminals, security	[Community Planning and Capacity Building, Infrastructure Systems]		Deadline not identified.

Page 23 This information was exported from MAX-TRAX on May-05-2021 by Anne Fuchs(NONFED). 				equipment and systems, maintenance facilities and equipment, operational support equipment (including computer hardware and software), and development and implementation of a transit asset management plan. Preventive maintenance is eligible for funding so long as it is specifically for a fixed guideway system. Funds must be used for the replacement and/or rehabilitation of existing high intensity fixed guideway and high intensity motorbus systems that have been in operation for at least seven years. • Re-authorized under the 2015 FAST Act, the **SGR Competitive Grants** provide funding through a competitive allocation process to states and transit agencies to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. The competitive allocation provides funding for major improvements to bus transit systems that would not be achievable through formula allocations. • FTA's **State of Good Repair Formula Program** grants are distributed to state and local governments in urbanized areas for repairs and upgrading of rail and bus rapid transit systems that are at least seven years old. • Helping transit agencies maintain bus and rail systems in a State of Good Repair (SGR) is one of FTA's highest priorities. FTA recommends **Transit Asset Management** (TAM) practices to preserve and expand transit investments. Having well maintained, reliable transit infrastructure – track, signal systems, bridges, tunnels, vehicles and stations – will help ensure safe, dependable and accessible services. Asset Management Pilot Projects demonstrate solutions to the challenges faced in the phases of the asset management cycle, as well as improve the overall asset management flow and approach. The TAM webpage is designed to support successful agency implementation of Transit Asset Management. This website contains background information, requirements and deadlines, technical assistance, and examples of best practices. It also includes materials such as official FTA guidance, resources from webinars and roundtables, and external stakeholder information to assist agencies in asset inventory creation, resource management, and target setting. COVID-19 Disaster Resources Report

<table>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td>

Note on COVID-19 Funding:
https://www.emergentfund.net/covid-19
Projects may focus on the following options:
- Efforts that support emergent strategies that help communities respond to rapidly changing conditions. This includes resisting new or amplified threats and building power to move a proactive agenda.
- Efforts seeking long-term social justice and economic justice in a political and social climate that seeks to dismantle such efforts.
- Emergent work: New solutions responding to rapidly changing conditions in the current political environment
- Visionary and Power Building: Seeks transformational systemic changes rooted in social and economic justice. Develops community power through organizing and/or leadership development (including through new tools), direct action, and/or cultural work
- Leadership from affected communities
- Intersectional Analysis: Engages multiple identities and multi-racial alliance building as core to theory of change
- Endorsed: Recommended by a member of the Nominations Network
- Right size of need: The level of Emergent Fund support is appropriate to the work

Proposals can be ideas, collaborations, campaigns, or organizations, whether or not they are fully formed; don't worry about your notes being perfect or comprehensive. The Emergent Fund was established immediately after the 2016 election to help move quick resources with no strings attached to communities that were and continue to be under attack by federal policies and priorities – immigrants, women, Muslim and Arab-American communities, Black people, LGBTQ communities, and all people of color.

| | | | | rural America through planning, design, and creative placemaking.

CIRD is intended to empower local citizens to capitalize on unique local and regional assets in order to guide the civic development and future design of their own communities. The CIRD program goals include:

• Building capacity in rural communities to plan comprehensive revitalization strategies;
• Introducing creative placemaking, arts, culture, and design strategies as drivers of economic development in rural America;
• Facilitating a network of rural communities for idea exchanges and peer learning; and
• Preparing communities to be ready and competitive for state and federal funding opportunities.

How We Work
CIRD provides communities access to the resources they need to convert their own good ideas into reality. The program offers competitive funding to small towns and rural and tribal communities to host a multi-day community design workshop. With support from a wide range of design, planning, and creative placemaking professionals, the workshops bring together local residents and local leaders from non-profits, community organizations, and government to develop actionable solutions to the community's pressing design challenges. The community receives additional support through webinars, web-based resources, and customized follow-up support after the workshop.
Under the Housing Assistance Council's leadership, the program has expanded to include support for up to 20 additional rural communities. Selected community leaders are invited to gather together for peer learning; training in design, planning, community engagement, and facilitation techniques; and support in navigating funding opportunities to make their vision a reality. Both parts of the CIRD program connect rural residents with resources and ideas for developing locally driven solutions to community design challenges.
A Request for Applications will be released beginning in 2021, inviting communities to apply to the CIRD program. | | | |
| Mar-18-2021 | Operation HOPE, Inc. | Operation Hope | Funding not identified.

Allocated: $0 | Partnering with American Red Cross, FEMA, & industry leaders, disaster response teams deploy to serve as financial advocates for residents & small business owners. Working to disrupt poverty & empower inclusion for low & moderate-income youth & adults.

Apr-12-2021	The Kresge Foundation	Kresge American Cities Program & Neighborhood Investment Trust Models	$40,000,000 Allocated: $0	Seeks to expand opportunity by promoting effective and inclusive community development practices in American cities. ${wiki:Description}	[Community Planning and Capacity Building]		Deadline not identified.
Apr-07-2021	Non-Governmental Organizations	Pew Charitable Trusts - "How States Can Direct Economic Development to Places & People in Need: Strategies to strengthen place-based programs, better support distressed areas"	Funding not identified. Allocated: $0	Through the lens of Fiscal & Economic Policy, this site explores strategies to strengthen place-based programs and better support distressed areas. Pew's analysis found that the criteria that states use to geographically target their programs are often ill-conceived or out-of-date, with the result that initiatives end up serving wealthy locations instead of disadvantaged ones. And even when programs do reach the intended communities, they often are not well-suited to help residents. Pew's research indicates that to begin solving these problems, states should: • **Target programs using quantitative measures.** To ensure that benefits accrue to communities in need, policymakers should use carefully selected objective measures of distress to determine eligible areas. • **Systematically assess geographic targeting.** States should regularly examine where businesses using programs are located in order to identify and correct instances in which wealthier areas unintentionally benefit. • **Regularly update the set of eligible locations.** Because local economic conditions change over time, policymakers should regularly review where programs are available to ensure that those places still need assistance. • **Tailor economic development strategies to local needs.** Financial incentives alone may be insufficient to encourage private investment in areas that lack trained workers or necessary infrastructure, so policymakers should address these prerequisites to growth. • **Create job opportunities for low-income residents.** Even programs that successfully encourage investment in distressed areas may not provide benefits to the local population, so states should embrace strategies—such as prioritizing industries that offer good jobs to people without college degrees—that can help direct economic gains to community members. Some states are demonstrating that progress is possible. For instance, in response to assessments that revealed	[Community Planning and Capacity Building, Economic]		Deadline not identified.

				were United Soybean Board, WBCSD and ERM. The COVID-19 pandemic continues to drive both a health disaster and economic disruption. Societies are confronting their own roles in the lack of social and racial equity among their citizens. While the current challenges have us all focused on the very near-term, U.S. Farmers & Ranchers in Action (USFRA) is also looking to the future, and how U.S. agriculture can continue to build greater resiliency and sustainability into the U.S. agricultural system.			
Apr-07-2021	Anthem Foundation	Anthem Foundation - Healthy Generations Program Grants (Rolling Deadline)	Funding not identified. Allocated: $0	The Anthem Foundation funds specific public health-related initiatives that address disparities and social determinants that can positively affect conditions identified through our signature Healthy Generations program. As the philanthropic arm of Anthem, Inc., the Anthem Foundation promotes the organization's commitment to improving lives and communities. Through strategic partnerships and programs, the Foundation is addressing the disparities and social determinants that will help create a healthier generation of Americans. For 20 years, we've been committed, connected and invested in communities across the country through our Healthy Generations Program, the centerpiece of the Anthem Foundation. It's our multigenerational initiative to improve public health. The Foundation's grantmaking focus is on efforts that positively affect the conditions and social drivers addressed in its Healthy Generations program: healthy hearts, cancer prevention, healthy maternal practices, healthy diabetes prevention, healthy active lifestyles, and mental health. Additionally, we're engaging in partnerships with national and local community nonprofits that are working to support social justice. We are dedicating funding to support community partners that will work to help revive and rebuild neighborhoods in Indianapolis and the communities we serve across the country, with a focus on improving health and reducing disparities, as well as economic development and job creation. There are two funding options. Before applying, please review the descriptions for both and determine which best aligns with your request. • Program Grants: Anthem Foundation Program Grants support ongoing community health programs with proven and measurable outcomes. Generally, our grant terms are one year, with a few exceptions (mostly for national grants). • Anthem's community sponsorships support fundraising events, smaller-scale programs and mission priorities that align with and promote our Healthy Generations program. Grant requests may be submitted throughout the year.	[Community Planning and Capacity Building, Economic, Health and Social Services]	Non-Supplemental	Deadline not identified.

| Apr-30-2021 | Environmental Protection Agency | Smart Growth Technical Assistance Programs | Funding not identified.

Allocated: $0 | EPA offers technical assistance to help communities learn about and implement smart growth approaches.

EPA offers the following technical assistance to help communities learn about and implement smart growth approaches:
• **Building Blocks for Sustainable Communities** – Two-day, targeted technical assistance to give communities tools to implement smart growth development approaches. Eligible applicants are tribal, county, and local governments, and nonprofit organizations that have the support of the local government on whose behalf they are applying.
• **Cool & Connected** – Helps rural communities use broadband service to revitalize main streets and promote economic development. Any community representative can apply.
• **Governors' Institute on Community Design** – Helps governors help their states develop in an environmentally and economically sound way. States are eligible to apply.
• **Greening America's Communities** – Helps cities and towns envision and implement design strategies for more sustainable communities. The program currently serves communities in partnership with the EPA Office of Water Stormwater Management Program. Formerly called Greening America's Capitals.
• **Healthy Places for Healthy People** – Helps communities create walkable, healthy, economically vibrant places by engaging with their health care facility partners such as community health centers (including Federally Qualified Health Centers), nonprofit hospitals, and other health care facilities. Eligible applicants include local government representatives, health care facilities, local health departments, nonprofit organizations, tribes, and others proposing to work in a neighborhood, town, or city anywhere in the United States.
• **Local Foods, Local Places** – Helps communities develop and implement action plans that promote local foods and downtown revitalization. Representatives of communities anywhere in the United States are eligible to apply. This program builds on the Livable Communities in Appalachia Program, which offered technical assistance to help small towns and rural communities in Appalachia revitalize their traditional downtowns to boost the local economy and improve quality of | [Community Planning and Capacity Building, Infrastructure Systems, Natural and Cultural Resources] | | Deadline not identified. |

				life. • **Recreation Economy for Rural Communities** – Helps communities develop strategies and an action plan to revitalize their Main Street through outdoor recreation. Eligible applicants include local governments, Indian tribes, and nonprofit institutions and organizations representing any community in the United States. • **Smart Growth Implementation Assistance** – Works with public-sector entities that want to incorporate smart growth techniques into their development. As of 2015, EPA's regional staff identified and selected communities to assist. Summaries and reports from past SGIA projects can be helpful to communities facing similar issues. • **Special Smart Growth Technical Assistance Projects** – Additional technical assistance projects done in partnership with other entities. 				Planning Activities Eligible Under an EPA Brownfield Assessment or Multipurpose Grant Revitalizing a brownfield starts with understanding how the community's site reuse goals align with local economic, infrastructure, social and environmental conditions. Specific planning activities will help your community determine which reuses are feasible for the site. The reuse influences site assessment and cleanup decisions. Good news! Planning activities that focus on brownfields reuse are eligible under an EPA Brownfields Assessment or Multipurpose Grant. **Planning activities to initiate brownfields revitalization:** • Site Reuse Assessment; • Land Use Assessment; • Market Study; • Infrastructure Evaluation; • Community Health Assessment; and • Site Disposition Strategy. **Planning activities to prepare your brownfields site for redevelopment:** • Site Reuse Vision; • Revitalization Plan; • Resource Roadmap; and • Evaluation of Market Viability. Note: EPA grant recipients must comply with requirements for procurement contracts when using EPA funds to hire planners, architects, landscape architects, engineers and other vendors of commercial services; detailed guidance is available in EPA's Best Practice Guide for Procuring Services, Supplies, and Equipment Under EPA Assistance Agreements. Subawards to nonprofit or governmental partners must comply with requirements in EPA's Subaward Policy. EPA Brownfields: Types of EPA Brownfield Grant Funding https://www.epa.gov/brownfields/types-epa-brownfield-grant-funding EPA Brownfields: Information on Eligible Planning Activities https://www.epa.gov/brownfields/information-eligible-planning-activities EPA Brownfields: Entities Eligible to Receive Brownfield Grants https://www.epa.gov/brownfields/entities-eligible-receive-brownfield-grants

				agencies have awarded contracts for critical goods and services to support federal, state, and local response efforts. GAO's prior work on federal emergency response efforts has found that contracts play a key role, and that contracting during an emergency can present unique challenges as officials can face pressure to provide goods and services as quickly as possible. The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) included a provision for GAO to provide a comprehensive review of COVID-19 federal contracting. This is the first in a series of GAO reports on this issue. This report describes, among other objectives, key characteristics of federal contracting obligations awarded in response to the COVID-19 pandemic; and the flexibilities available to federal agencies through the CARES Act, or other means to help facilitate the federal government's contract response. Future GAO work will examine agencies' planning and management of contracts awarded in response to the pandemic, including agencies' use of contracting flexibilities provided by the CARES Act. GAO analyzed data from the Federal Procurement Data System-Next Generation on agencies' reported government-wide contract obligations for COVID-19 through June 11, 2020. GAO also analyzed contract obligations reported at the Departments of Health and Human Services, Defense, Homeland Security, and Veterans Affairs—the highest obligating agencies.			
Apr-30-2021	Cooperative Development Foundation (CDF)	Cooperative Development Foundation - Disaster Recovery Fund (Ongoing)	Funding not identified.	Grant and/or loan funding for employees and volunteers of cooperatives and cooperative support organizations to support recovery from disasters or emergencies. The Cooperative Development Foundation promotes community, economic, and social development through cooperative enterprise. CDF does this by: a) raising and distributing funds for economic and community development projects; b) building partnerships that create cooperative solutions to today's economic problems; and c) raising awareness of the role cooperatives play in the nation's and the world's economies. CDF's resources are used to support cooperative development through direct expenditure and grants and loans to cooperatives, cooperative organizations, and groups forming cooperatives. The Disaster Recovery Fund helps cooperatives and cooperators get back on their feet after disasters or other emergency hardship situations. Funding is provided for: • Aid to employees and volunteers of cooperatives and cooperative support organizations to support recovery from disasters or emergencies. Basic necessities, such as food, clothing, housing (including repairs) transportation and medical assistance (including psychological counseling). May-15-2020	Alfred P. Sloan Foundation	Alfred P. Sloan Foundation	The Alfred P. Sloan Foundation believes that a carefully reasoned and systematic understanding of the forces of nature and society, when applied inventively and wisely, can lead to a better world for all. The foundation makes grants to support original research and broad-based education related to science, technology, and economic performance; and to improve the quality of American life. Programs include: 1) Public Understanding of Science and Technology: This program focuses on educating the public about science and technology. It includes support for films, television, radio, books, and plays. 2) Education and Careers in Science and Technology: The foundation has long supported students interested in careers in science, technology, engineering, and mathematics (STEM). One area of focus supports research on the factors that affect STEM career choices. The foundation additionally provides fellowship funds to encourage underrepresented minorities to pursue STEM careers. 3) Basic Research: With its Basic Research program area, the foundation expands funds for original, high-quality research in science, technology, engineering, and mathematics. Grants in the Basic Research program area promise to substantively benefit society or significantly add to the body of scientific knowledge. 4) Economic Performance and the Quality of Life: The Alfred P. Sloan Foundation believes that a theory-based, empirically-tested understanding of the U.S. economy is essential to improving the American quality of life. The foundation funds grants for high-quality original research that promise to broaden that understanding or use it to improve American institutions. 5) Select National Issues: The National Issues program area looks for unique opportunities where foundation funds promise to advance a significant national interest, in fields outside of science, education, and economics. 6) Civic Initiatives: With its Civic Initiatives program, the foundation responds to unique opportunities to benefit the New York City metro area in ways that advance the foundation's other interests in science, technology, and economic performance.
