Dec-01-2021	Non-Governmental Organizations	Merck Family Fund (MFF)	Funding not identified.	<p>The Merck Family Fund is dedicated to protecting the natural environment and ensuring a healthy planet for generations to come and to strengthening the social fabric and the physical landscape of urban communities.</p> <p>The Merck Family Fund is dedicated to protecting the natural environment and ensuring a healthy planet for generations to come and to strengthening the social fabric and the physical landscape of urban communities. The Fund provides grants to nonprofit organizations that address one of the following three program areas:</p> <ol style="list-style-type: none"> 1. The Reducing CO2 Emissions Through Energy Efficiency and Carbon Pricing program supports the development of political and economic drivers at the federal and state level in the Northeast and Southeast to establish or expand carbon pricing mechanisms. 2. The Conserving Ecologically Valuable Land program provides grants for land conservation efforts in the Southeast. 3. The Urban Farming and Youth Leadership program supports initiatives in New York City and Philadelphia as well as low-income urban areas in Massachusetts that help young people to create urban farms and local markets. <p>The MFF does not generally support governmental organizations, academic research or books, endowments, debt reduction, annual fundraising campaigns, capital construction, purchase of equipment, the acquisition of land, or video projects.</p> <p>The deadlines for letters of inquiry in 2022 are January 10 and July 11. Visit the Fund's website for details about the program areas and application process.</p> <p>Program webpage: http://www.merckff.org/</p>	[Natural and Cultural Resources]		Jan-10-2022
Dec-22-2021	Non-Governmental Organizations	Door Dash & Hello Alice - Restaurant Disaster Relief Fund	\$200,000,000 Allocated: \$0	<p>The fund supports restaurants impacted by natural disasters - like fires, floods and hurricanes - and provides relief through \$10,000 grants to help restaurants reimagine and grow their business.</p>	[Economic]		Jan-31-2022

COVID-19 Disaster Resources Report

				<p>DoorDash announced at the second annual Main Street Strong Restaurant Conference a \$1,000,000 Restaurant Disaster Relief Fund to provide relief grants to local restaurants across the United States affected by state- or federally-declared natural disasters throughout the next year in partnership with Hello Alice.</p> <p>In 2020 they launched a suite of products, programs and policies – tailored to restaurants' unique needs and inspired by their feedback – to help restaurants reimagine and grow their business.</p> <p>DoorDash launched the 2021 offering initiative as part of its ongoing five-year, \$200 million Main Street Strong pledge to empower local communities. Applications for the Restaurant Disaster Relief Fund open on Monday, November 1st: doordash.helloalice.com</p> <p>The fund will be open for eligible restaurant owners and operators including those affected by Hurricane Ida and the ongoing California Wildfires. Additional information about the program can be found below:</p> <ul style="list-style-type: none"> • Eligibility: Applicants must be experiencing hardship due to a state- or federally-declared natural disaster, be a restaurant located in the United States, operate a brick and mortar location, own three stores or less, employ fewer than 50 employees per location, be open for at least six months, and maintain revenues of \$3M or less per location in the last 12 months. A partnership with DoorDash or Caviar is not required or considered. • Grant Information: Grants will each be \$10,000. Restaurants can utilize the funds for rent, utilities, maintenance, supplies, payroll, and other essential expenses. • Timeline: Restaurateurs can apply for the Restaurant Disaster Relief Fund here beginning November 1. Applications will be processed every three months, with funding distributed for grant awardees shortly thereafter. <p>In addition to financial support for local restaurants through the Restaurant Disaster Relief Fund, DoorDash is committed to supporting affected communities at large. Through programs including Community Credits and Project DASH, DoorDash partners with nonprofit and emergency response organizations to help provide access to food and other essential items during crisis situations.</p> <p>DoorDash (helloalice.com)</p>

2021	Governmental Organizations	Grants for Planetary Environmental Health & Peace	identified. Allocated: \$0	brighten the future and advance peace. Grants in support of pioneering yet practical projects in many endeavors, including but not limited to environmental initiatives to eliminate pollution. The New Earth Foundation was founded in 1997 by John Bigelow Loveland who upon receiving a family inheritance decided to allocate it to advance peace, harmony, and benevolence. To that end, NEF invites applications for innovative projects with the potential to enhance life on our planet and brighten the future and advance peace. The foundation will award grants in support of pioneering yet practical projects in many endeavors, including but not limited to environmental initiatives that are working to eliminate pollution and save the planet's ecosystems; community efforts that create models of social sustainability; educational innovations that prepare youth to become the socially responsible leaders of the future; and strategies that offer economic improvement and opportunities. The foundation particularly seeks projects with the potential to be replicated so that excellent ideas and work can multiply and benefit many. Aug-13-2021	Environmental Protection Agency	Integrating Water Reuse into the Clean Water State Revolving Fund	<p>Funding not identified.</p> <p>Allocated: \$0</p>	<p>This guide highlights successful state policies and practices, and demonstrates the potential for the Clean Water State Revolving Fund (CWSRF) to support water reuse. It also references documents EPA believes would be helpful to CWSRF programs</p> <p>This initiative was developed with the goal of advancing the consideration of water reuse across the water sector through a series of actions taken by EPA, other federal agencies, industry associations, and relevant stakeholders. In the development of the Water Reuse Action Plan (WRAP), there was a clear need for federal funding programs for water infrastructure to ensure that practices and policies help facilitate the adoption of water reuse among communities across the country. This specific action was developed to identify successful state policies and practices and demonstrate the potential for the Clean Water State Revolving Fund (CWSRF) to support water reuse. As part of the WRAP, the Office of Wastewater Management developed this document to highlight current policies and practices used by state CWSRF programs that support water reuse projects. Since 1987, the 51 CWSRF programs have each developed unique policies and practices to suit the specific needs of the states and communities they serve. In terms of water reuse, some states have had great success in financing projects and have developed policies to encourage or incentivize sustainable water reuse practices. Water reuse is a rapidly evolving practice in regions of the country where it was not previously a common practice. This document will clarify eligibility for the full range of potential sources of water for reuse and different end use applications, and help learn from the experiences of others to develop successful policies and programs.</p> <p>According to Bluefield Research, capital expenditures for municipal wastewater reuse are expected to total \$21.5 billion between 2017 and 2027. Much of this growth is expected to come from states like California, Florida, and Texas, but other states and regions are expected to see increased adoption of water reuse as well. To facilitate this</p>	[Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

COVID-19 Disaster Resources Report

				investment, it is important for CWSRF programs to understand the different types of water reuse projects; the social, environmental, and economic benefits water reuse can provide; and how projects should be properly evaluated for potential financial support. While this guide primarily focuses on the CWSRF, many of the practices and policies highlighted may be applicable to Drinking Water State Revolving Fund programs as well.			
Oct-15-2021	Executive Office of the President	Justice40 Initiative	Funding not identified. Allocated: \$0	<p>Justice40 is a whole-of-government effort to ensure Federal agencies work with states & local communities to deliver at least 40% of overall benefits from Federal investments in climate and clean energy to disadvantaged communities.</p> <p>Executive Order: Justice40 is a whole-of-government effort to ensure that Federal agencies work with states and local communities to make good on President Biden's promise to deliver at least 40 percent of the overall benefits from Federal investments in climate and clean energy to disadvantaged communities. Priorities include:</p> <ul style="list-style-type: none"> • Center the Climate Crisis in U.S. Foreign Policy and National Security Considerations • Take a Whole-of-Government Approach to the Climate Crisis • Leverage the Federal Government's Footprint and Buying Power to Lead by Example • Rebuild Our Infrastructure for a Sustainable Economy • Advance Conservation, Agriculture, and Reforestation • Revitalize Energy Communities • Secure Environmental Justice and Spur Economic Opportunity <p>The pilot identifies 21 priority programs to immediately begin enhancing benefits for disadvantaged communities. These priority programs will provide a blueprint for other agencies to help inform their work to implement the Justice40 Initiative across government. This initial set of programs was selected following extensive consultation with environmental justice stakeholders and the recently established White House Environmental Justice Advisory Council and the White House Environmental Justice Interagency Council. Programs include:</p> <ul style="list-style-type: none"> • Department of Homeland Security Flood Mitigation Assistance Program, which provides funding to states, local communities, tribes and territories for projects that reduce or eliminate the risk of repetitive flood damage to buildings • Environmental Protection Agency Drinking Water State Revolving Fund, which provides funds to improve drinking water quality, prevent water contamination, and support water systems 	[Community Planning and Capacity Building, Natural and Cultural Resources]		Deadline not identified.

Dec-08-2021	Non-Governmental Organizations	Pew Charitable Trusts - "How States Can Direct Economic Development to Places & People in Need: Strategies to strengthen place-based programs, better support distressed areas"	Funding not identified. Allocated: \$0	<p>Through the lens of Fiscal & Economic Policy, this site explores strategies to strengthen place-based programs and better support distressed areas.</p> <p>Pew's analysis found that the criteria that states use to geographically target their programs are often ill-conceived or out-of-date, with the result that initiatives end up serving wealthy locations instead of disadvantaged ones. And even when programs do reach the intended communities, they often are not well-suited to help residents.</p> <p>Pew's research indicates that to begin solving these problems, states should:</p> <ul style="list-style-type: none"> • Target programs using quantitative measures. To ensure that benefits accrue to communities in need, policymakers should use carefully selected objective measures of distress to determine eligible areas. • Systematically assess geographic targeting. States should regularly examine where businesses using programs are located in order to identify and correct instances in which wealthier areas unintentionally benefit. • Regularly update the set of eligible locations. Because local economic conditions change over time, policymakers should regularly review where programs are available to ensure that those places still need assistance. • Tailor economic development strategies to local needs. Financial incentives alone may be insufficient to encourage private investment in areas that lack trained workers or necessary infrastructure, so policymakers should address these prerequisites to growth. • Create job opportunities for low-income 	[Community Planning and Capacity Building, Economic]	Deadline not identified.

COVID-19 Disaster Resources Report

				<p>residents. Even programs that successfully encourage investment in distressed areas may not provide benefits to the local population, so states should embrace strategies—such as prioritizing industries that offer good jobs to people without college degrees—that can help direct economic gains to community members.</p> <p>Some states are demonstrating that progress is possible. For instance, in response to assessments that revealed flawed targeting, New Jersey and North Carolina changed their approaches to more effectively direct the benefits to the intended locations. Through similar reforms, policymakers in other states could ensure that place-based economic development programs help combat poverty, joblessness, and disinvestment in some of America's poorest communities.</p>			
Jun-29-2021	Operation HOPE, Inc.	Operation Hope	<p>Funding not identified.</p> <p>Allocated: \$0</p>	<p>Partnering with American Red Cross, FEMA, & industry leaders, disaster response teams deploy to serve as financial advocates for residents & small business owners. Working to disrupt poverty & empower inclusion for low & moderate-income youth & adults.</p> <p>For individuals, families, and businesses, either directly or indirectly affected by the Coronavirus, the financial impact of the occurrence, especially for people in underserved communities, is extensive.</p> <p>Faced with the financial reality of job loss, business interruption, credit issues, and debt, affected Americans need the support of HOPE Inside Disaster, formerly known as HOPE Coalition America (HCA), HOPE's division for disaster preparedness and recovery.</p> <p>On, March 13, 2020, Coronavirus was officially declared a U.S. national emergency. At some point, we believe every American will begin to experience some level of economic stress as a result of Coronavirus.</p> <p>HOPE Inside Disaster is a national financial emergency preparedness and recovery service created following the events of 9/11. In partnership with FEMA, Operation HOPE pioneered the new federal policy space of emergency disaster preparedness, response and recovery.</p> <p>Through partnerships with the American Red Cross, FEMA, and industry leaders, our teams deploy in response to federally-declared disasters to serve as a financial advocate for local residents and small business owners.</p>	[Community Planning and Capacity Building, Economic, Health and Social Services]		Deadline not identified.

This report describes, among other objectives, key characteristics of federal contracting obligations awarded in response to the COVID-19 pandemic.</p> <p>According to the Centers for Disease Control and</p>	[Community Planning and Capacity Building, Economic]		Deadline not identified.

COVID-19 Disaster Resources Report

				<p>Prevention, as of June 30, 2020, the United States has documented more than 2.5 million confirmed cases and more than 125,000 deaths due to COVID-19. To facilitate the U.S. response to the pandemic, numerous federal agencies have awarded contracts for critical goods and services to support federal, state, and local response efforts. GAO's prior work on federal emergency response efforts has found that contracts play a key role, and that contracting during an emergency can present unique challenges as officials can face pressure to provide goods and services as quickly as possible.</p> <p>The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) included a provision for GAO to provide a comprehensive review of COVID-19 federal contracting. This is the first in a series of GAO reports on this issue. This report describes, among other objectives, key characteristics of federal contracting obligations awarded in response to the COVID-19 pandemic; and the flexibilities available to federal agencies through the CARES Act, or other means to help facilitate the federal government's contract response. Future GAO work will examine agencies' planning and management of contracts awarded in response to the pandemic, including agencies' use of contracting flexibilities provided by the CARES Act. GAO analyzed data from the Federal Procurement Data System-Next Generation on agencies' reported government-wide contract obligations for COVID-19 through June 11, 2020. GAO also analyzed contract obligations reported at the Departments of Health and Human Services, Defense, Homeland Security, and Veterans Affairs—the highest obligating agencies.</p>			
Oct-28-2021	Environmental Protection Agency	Smart Growth Technical Assistance Programs	<p>Funding not identified.</p> <p>Allocated: \$0</p>	<p>EPA offers technical assistance to help communities learn about and implement smart growth approaches.</p> <p>EPA offers the following technical assistance to help communities learn about and implement smart growth approaches:</p> <ul style="list-style-type: none"> • Building Blocks for Sustainable Communities – Two-day, targeted technical assistance to give communities tools to implement smart growth development approaches. Eligible applicants are tribal, county, and local governments, and nonprofit organizations that have the support of the local government on whose behalf they are applying. • Cool & Connected – Helps rural communities use broadband service to revitalize main streets and promote economic development. Any community representative can apply. • Governors' Institute on Community Design – Helps governors help their states develop in an 	[Community Planning and Capacity Building, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

				<p>environmentally and economically sound way. States are eligible to apply.</p> <ul style="list-style-type: none"> • Greening America's Communities – Helps cities and towns envision and implement design strategies for more sustainable communities. The program currently serves communities in partnership with the EPA Office of Water Stormwater Management Program. Formerly called Greening America's Capitals. • Healthy Places for Healthy People – Helps communities create walkable, healthy, economically vibrant places by engaging with their health care facility partners such as community health centers (including Federally Qualified Health Centers), nonprofit hospitals, and other health care facilities. Eligible applicants include local government representatives, health care facilities, local health departments, nonprofit organizations, tribes, and others proposing to work in a neighborhood, town, or city anywhere in the United States. • Local Foods, Local Places – Helps communities develop and implement action plans that promote local foods and downtown revitalization. Representatives of communities anywhere in the United States are eligible to apply. This program builds on the Livable Communities in Appalachia Program, which offered technical assistance to help small towns and rural communities in Appalachia revitalize their traditional downtowns to boost the local economy and improve quality of life. • Recreation Economy for Rural Communities – Helps communities develop strategies and an action plan to revitalize their Main Street through outdoor recreation. Eligible applicants include local governments, Indian tribes, and nonprofit institutions and organizations representing any community in the United States. • Smart Growth Implementation Assistance – Works with public-sector entities that want to incorporate smart growth techniques into their development. As of 2015, EPA's regional staff identified and selected communities to assist. Summaries and reports from past SGIA projects can be helpful to communities facing similar issues. • Special Smart Growth Technical Assistance Projects – Additional technical assistance projects done in partnership with other entities. <p>Program webpage:</p>

Apr-30-2021	Department of Commerce	StatsAmerica.org	Funding not identified. Allocated: \$0	Provide actionable data for economic developers to use in site requests, developing metrics, grant writing and strategic planning. StatsAmerica compiles various economic data. The goal of StatsAmerica is to provide actionable data for economic developers to use in site requests, developing metrics, grant writing and strategic planning. StatsAmerica is a service of the Indiana Business Research Center (IBRC) at Indiana University's Kelley School of Business, which is ranked among the nation's top business schools . With support from the Economic Development Administration, the IBRC developed a unique and useful set of tools and reports, as well as providing access to other EDA-funded projects. The IBRC obtains thousands of data items from hundreds of data sets from dozens of federal and state sources, along with some commercial or private source data. While StatsAmerica adds value to these data through easy access and functionality, the IBRC acknowledges the direct agency source of the data on every table, profile or map. Data will provided in a form of calculations, graphs, comparisons of time or geography, time series and maps. To ensure total accuracy, all data are verified first by analyzing the source data and the resulting calculations we generate. These data are updated as they are released and arrive from the sources. Nov-03-2021	Non-Governmental Organizations	Alfred P. Sloan Foundation	Funding not identified.	<p>response-resources</p> <p>The foundation makes grants to support original research and broad-based education related to science, technology, and economic performance; and to improve the quality of American life.</p> <p>The Alfred P. Sloan Foundation believes that a carefully reasoned and systematic understanding of the forces of nature and society, when applied inventively and wisely, can lead to a better world for all. The foundation makes grants to support original research and broad-based education related to science, technology, and economic performance; and to improve the quality of American life.</p> <p>Programs include: 1) Public Understanding of Science and Technology: This program focuses on educating the public about science and technology. It includes support for films, television, radio, books, and plays. 2) Education and Careers in Science and Technology: The foundation has long supported students interested in careers in science, technology, engineering, and mathematics (STEM). One area of focus supports research on the factors that affect STEM career choices. The foundation additionally provides fellowship funds to encourage underrepresented minorities to pursue STEM careers. 3) Basic Research: With its Basic Research program area, the foundation expands funds for original, high-quality research in science, technology, engineering, and mathematics. Grants in the Basic Research program area promise to substantively benefit society or significantly add to the body of scientific knowledge. 4) Economic Performance and the Quality of Life: The Alfred P. Sloan Foundation believes that a theory-based, empirically-tested understanding of the U.S. economy is essential to improving the American quality of life. The foundation funds grants for high-quality original research that promise to broaden that understanding or use it to improve American institutions. 5) Select National Issues: The National Issues program area looks for unique opportunities where foundation funds promise to advance a significant national interest, in fields outside of science, education, and economics. 6) Civic Initiatives: With its Civic Initiatives program, the foundation responds to unique opportunities to benefit the New York City metro area in ways that advance the foundation's other interests in science, technology, and economic performance.</p>	[Community Planning and Capacity Building, Economic, Health and Social Services]		Deadline not identified.

Aug-26-2021	Non-Governmental Organizations	Nathan Cummings Foundation, Inc.	Funding not identified.	<p>Core funding areas: Arts & Culture; Environment; Health; Social & Economic Justice; Jewish Life & Values.</p> <p>Several basic themes run through all of the foundation's programs and inform the foundation's approach to grant making: Concern for the poor, disadvantaged, and underserved; Respect for diversity; Promotion of understanding across cultures; and Empowerment of communities in need. The foundation's core funding areas are: (1) Arts and Culture: Priority is given to initiatives that have national or regional impact, address issues that are timely and relevant, involve participating artists or cultural institutions demonstrating effective practices, and have broad and innovative plans for the dissemination of the work. (2) The Environment: The objective is to fund programs that encourage the development of broad alliances that advance integrated and sustainable approaches to social, economic, and ecological justice; and</p>	[Community Planning and Capacity Building, Health and Social Services, Natural and Cultural Resources]	Deadline not identified.	

COVID-19 Disaster Resources Report

				<p>promote innovative public policies and other approaches by which corporations, governments, and other institutions take responsibility for the real risks and costs of their activities and become drivers of positive ecological and social change. (3) Health: Priority is given to initiatives that have state-wide, regional, or national impact to ensure access to high quality and affordable health care for all by supporting systemic change, fostering innovation, and facilitating the development and implementation of equitable and sustainable public policies; creating a healthier quality of life through public policies resulting in businesses, government, and other institutions taking responsibility for the real health and social impacts of their activities; and increase the capacity of healthcare advocates, healthcare consumers, and other stakeholders to influence public debates, shape public policy, and build effective alliances. (4) Inter-Program Initiatives for Social and Economic Justice: Promotes collaboration and integration among its program areas of Arts and Culture, the Environment, Health, and Jewish Life and Values. It seeks initiatives that foster institutional accountability and alliance building through: collaboration between the foundation's program areas; promote the concept of corporations, government, and other institutions taking responsibility for the real risks and costs of their activities, becoming agents for social change; and building cross-cutting alliances that support systemic or institutional solutions while creating the social basis needed for their implementation. (5) The Jewish Life and Values/Contemplative Practice Programs: Promotes strengthening leadership, capacity, and engagement of Jews; promotes interfaith coalitions that address issues of social and economic justice; and advances a more just and vibrant Israel by empowering women as agents of social change.</p>			
Aug-26-2021	Non-Governmental Organizations	Surdna Foundation, Inc. Dec-23-2021	International Economic Development Council (IEDC)	IEDC - Opportunity For All: Strategies for Inclusive Economic Development	Funding not identified.	<p>Explores the issue of how to expand economic opportunity for all.</p> <p>Though the U.S. economy has been growing since the Great Recession ended, many people have not experienced the fruits of that growth. In communities across the country, some residents are thriving while others experience declining household incomes, low labor force participation and increasingly concentrated poverty, trends that often have been in place for years. The issue of how to expand economic opportunity for all is one of increasing concern to economic developers. Not only does it impact their ability to grow their regional economies, but they also have an important role to play in potential solutions. This paper explores the issue of economic opportunity from an economic development perspective by presenting evidence of the problem, examining why it matters, and offering common themes and promising practices from nine case studies.</p>	[Economic]		Deadline not identified.
Dec-23-2021	Other Independent Agencies	Citizens' Institute on Rural Design (CIRD)	Funding not identified.	<p>Provides a forum for rural technical assistance providers to share their professional skills, learn new techniques that would aid them in their work with rural communities, and exchange ideas and experiences with rural communities and other providers.</p> <p>About The Citizens' Institute on Rural Design (CIRD) is a leadership initiative of the National Endowment for the Arts in partnership with the Housing Assistance Council, along with buildingcommunityWORKSHOP. Focusing on communities with populations of 50,000 or less, CIRD's goal is to enhance the quality of life and economic viability of rural America through planning, design, and creative placemaking. CIRD is intended to empower local citizens to capitalize on unique local and regional assets in order to guide the civic development and future design of their own communities. The CIRD program goals include:</p> <ul style="list-style-type: none"> • Building capacity in rural communities to plan comprehensive revitalization strategies; • Introducing creative placemaking, arts, culture, and design strategies as drivers of economic development in rural America; • Facilitating a network of rural communities for idea exchanges and peer learning; and • Preparing communities to be ready and competitive for state and federal funding 	[Community Planning and Capacity Building, Housing, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

COVID-19 Disaster Resources Report

				<p>opportunities.</p> <p>How We Work CIRD provides communities access to the resources they need to convert their own good ideas into reality. The program offers competitive funding to small towns and rural and tribal communities to host a multi-day community design workshop. With support from a wide range of design, planning, and creative placemaking professionals, the workshops bring together local residents and local leaders from non-profits, community organizations, and government to develop actionable solutions to the community's pressing design challenges. The community receives additional support through webinars, web-based resources, and customized follow-up support after the workshop. Under the Housing Assistance Council's leadership, the program has expanded to include support for up to 20 additional rural communities. Selected community leaders are invited to gather together for peer learning; training in design, planning, community engagement, and facilitation techniques; and support in navigating funding opportunities to make their vision a reality. Both parts of the CIRD program connect rural residents with resources and ideas for developing locally driven solutions to community design challenges. A Request for Applications will be released beginning in 2021, inviting communities to apply to the CIRD program.</p>			
Dec-23-2021	National Governor's Association supported by the Cognizant U.S. Foundation	National Governor's Association - Workforce Innovation Network (NGA WIN)	Funding not identified. Allocated: \$0	<p>States build capacity for near-term innovation & longer-term strategy to prepare workforces for a post-COVID-19 economy. A non-partisan learning & action collaborative for state leaders demonstrating strong commitment to building a resilient workforce.</p> <p>Supported by the Cognizant U.S. Foundation, the Workforce Innovation Network (NGA WIN) is helping states build capacity for near-term innovation and longer-term strategy to prepare their workforces for a post-COVID-19 economy. NGA WIN serves as a non-partisan learning and action collaborative for state leaders who have demonstrated strong commitments to building a resilient workforce. The Network plans to devote particular attention to four areas:</p> <ul style="list-style-type: none"> • Expanding access to essential support services • Rapidly connecting jobseekers to work • Advancing digital access and skill development • Enhancing job quality for all workers <p>NGA and the Cognizant U.S. Foundation invite states and territories to join the Workforce Innovation Network to</p>	[Community Planning and Capacity Building, Economic]		Deadline not identified.

Dec-23-2021	Department of Agriculture	PUBLICATION - USDA/RD: Rural Transportation Infrastructure - Information & Guidance	Funding not identified.	<p>Community Facilities Programs can help bring needed resources and innovation to create a framework for rebuilding transportation infrastructure in rural America.</p> <p>USDA Rural Development's flexible Community Facilities Programs can help bring needed resources and innovation to create a framework for rebuilding transportation infrastructure in rural America.</p> <p>Gaining access to sufficient capital for transportation infrastructure is a threshold condition for spurring economic growth. While rural communities share some common challenges with distressed urban areas, they also face some unique challenges in accessing financing and attracting private-sector investment. Rural communities have smaller populations, lower population densities, a smaller tax base, and sometimes lack resources for loan repayments. In addition, rural projects often lack economies of scale, and rural communities frequently lack the capacity and expertise necessary to negotiate complex financing transactions. However, it is possible to overcome these challenges and deliver critically-needed investments for transportation infrastructure to rural areas.</p> <p>Community Facilities Programs, in partnership with capital credit markets, financial consultants, industry experts, and other stakeholders such as Federal, state and local entities, can contribute to building and strengthening rural transportation infrastructure. Community Facilities Programs provide long-term, fixed-rate, low-cost direct loans and loan guarantees for commercial banks to help rural communities finance the development and/or improvement of rural community infrastructure and essential community facilities for public use. Community Facilities Loan Programs can finance more than 100 different facility types, including rural transportation infrastructure such as roads, bridges, airports, inland waterways, port-and railroad-related infrastructure,</p>	[Community Planning and Capacity Building, Economic, Infrastructure Systems]		Deadline not identified.

COVID-19 Disaster Resources Report

				<p>intermodal terminal facilities, and street improvements. Funding may be used to finance both public and nonprofit rural airports as well as bus and rail infrastructure. This includes facilities and services such as terminals, hangars, runways, parking areas, roadway, curbside, and administrative facilities. Community Facilities Program funds also may be used for infrastructure and space for commercial businesses that are customarily located on or near airport, rail, and bus infrastructure, such as facilities for rental car businesses, mechanical services, and parking operators. For these types of commercial businesses, the facility space must be owned by an eligible applicant and leased to the commercial entity. These types of commercial enterprises are essential to the operation of the underlying facility and not subject to leased space limitations. Public bodies, nonprofit organizations and Federally-recognized Indian Tribes can use program funds to construct, expand or improve rural transportation infrastructure in eligible rural communities with populations of 20,000 or fewer. The project must be located within an eligible rural area and primarily serve and benefit rural residents and communities.</p> <p>Through its Community Facilities Programs, USDA Rural Development facilitates and strengthens Public Private Partnerships (P3) with capital credit markets, financial consultants and industry experts. Our goal is to improve rural America's access to capital for rural community infrastructure, and to leverage resources and expertise to better manage credit risk while fostering development in rural communities. By bringing together financial, project development and technical expertise, resources and innovation through the P3 approach, rural communities can build or repair rural transportation infrastructure quicker and at a lower cost.</p> <p>These investments in critical rural transportation infrastructure can help ensure America's rural communities are repopulating, self-sustaining, and thriving economically. https://www.rd.usda.gov/files/508_RD_CFRuralTransportation_Guide916193.pdf</p>

Dec-28-2021	Environmental Protection Agency	PUBLICATION - Federal Resources for Sustainable Rural Communities (Summer 2012)	Funding not identified.	<p>Highlights federal resources rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It provides key information on funding and technical assistance opportunities.</p> <p>Rural communities across America are working to strengthen their economies, provide better quality of life for residents, and build on assets such as traditional main streets, agricultural and working lands, and natural resources. The Partnership for Sustainable Communities—made up of the U.S. Department of Housing and Urban Development (HUD), the U.S. Department of Transportation (DOT), and the U.S. Environmental Protection Agency (EPA)—is coordinating with the U.S. Department of Agriculture (USDA) to ensure that the four agencies' spending, policies, and programs support rural communities' efforts to be vibrant, thriving places for current and future generations.</p> <p>This guide to HUD, DOT, EPA, and USDA programs highlights federal resources rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It provides key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have put these programs into action. Each agency offers different ways of approaching infrastructure planning and construction, economic development, pollution cleanup, and other issues that are part of achieving sustainable</p>	[Community Planning and Capacity Building, Economic, Housing, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

COVID-19 Disaster Resources Report

				<p>communities. Coordinating and leveraging multiple funding and assistance sources can help communities advance their overall visions and goals. While this guide is not exhaustive and the programs listed may change, it provides a menu of options rural communities and small towns can consider when planning and implementing projects. The guide is organized by agency and then by broad topic areas that are similar across agencies.</p> <p>For current funding and technical assistance opportunities, as well as the companion <i>Supporting Sustainable Rural Communities</i> publication, visit the Partnership for Sustainable Communities' website, www.sustainablecommunities.gov. https://www.sustainablecommunities.gov</p>			
Dec-29-2021	Non-Governmental Organizations	Isora Foundation	Funding not identified.	<p>Grant funding that supports individuals in improving conditions in their communities in the areas of health, education, economic development, and social justice.</p> <p>The Isora Foundation is committed to empowering individuals worldwide to improve conditions within their communities in the areas of health, education, economic development, and social justice. Criteria for selection is as follows: Projects which support sustainable economic development within grassroots communities; Projects which attempt to change negative social, economic, and cultural barriers through their efforts in education, leadership development, and advocacy; Projects which utilize the use of visual/performing arts and social media to empower individuals and inform communities; Projects which have a strong evaluation plan to demonstrate their success in achieving their goals; Projects which are new and organizations which may have limited access to sources of fundraising.</p>	[Community Planning and Capacity Building, Economic, Natural and Cultural Resources]	Non-Supplemental	Deadline not identified.
Dec-29-2021	Non-Governmental Organizations	GE Foundation	Funding not identified.	<p>Grant funding for employment, education, public health, and disaster relief.</p> <p>GE provides grants and invests in initiatives that work to solve some of the world's most difficult problems. In coordination with its partners; the foundation supports U.S. and international education; developing health globally; the environment; public policy; human rights; disaster relief; and community success around the globe. U.S. priorities include:</p> <p>(1) Developing Futures in Education: Through the Developing Futures in Education program; GE Foundation has committed nearly \$150 million to six U.S. school districts to improve student achievement through a rigorous math and science curriculum; professional development opportunities for teachers; and management capacity improvement.</p> <p>(2) Employee Programs: Through the GE Foundation</p>	[Health and Social Services]	Non-Supplemental	Deadline not identified.

COVID-19 Disaster Resources Report

				<p>Matching Gifts Program; GE employees can donate to an eligible nonprofit organization and GE Foundation will provide a dollar-for-dollar match. Total gifts in 2012 reached nearly \$38 million.</p> <p>(3) Disaster Relief: When disasters strike; the GE family commits resources and employee support to assist affected communities. GE Foundation commits resources via grants to relief organizations and through the GE Foundation Matching Gifts Program. In addition; GE volunteers work through networks at the disaster sites to organize local support and align employees in the region. Key partners include GE employees; International Red Cross; UNICEF; AmeriCares; and Save the Children. Some recent examples of GE Foundation disaster relief efforts in the United States include: A) Oklahoma Tornado (2013) After a severe tornado caused destruction in the suburbs of Oklahoma City; GE and the GE Foundation committed equipment and funding to support relief and recovery efforts. This included donating GE Healthcare medical equipment and accessories to a regional hospital. The GE Foundation also announced a \$250,000 donation to the American Red Cross Disaster Giving Program in addition to its annual \$1 million grant to the organization. B) Superstorm Sandy (2012) The GE Foundation donated a total of \$5.8 million in support of Superstorm Sandy relief-and-recovery efforts in New York; New Jersey; and Connecticut including \$4 million to the Robin Hood Foundation to support longer-term housing; physical and mental health services; food banks; and local economic recovery in hard-hit communities. C) Tornado in Joplin; Missouri (2011) GE is a member of the American Red Cross Annual Disaster Giving Program (ADGP). Thanks to annual \$1 million contributions to the Disaster Relief Fund (DRF) from ADGP members; the Red Cross can respond immediately to the needs of individuals and families affected by disasters anywhere in the United States. In May 2011; a major tornado hit Joplin; killing at least 116 people and devastating the town. The American Red Cross responded quickly by coordinating with emergency officials and local community partners to help people impacted by the tornado get back on their feet. Some immediate actions included providing shelter; food; emotional support; and other assistance to people in need.</p> <p>(4) Public Policy: GE Foundation funds initiatives that enhance public policy dialogue. Its support in this area encourages constructive dialogue with key stakeholders. This involvement helps GE Foundation identify and learn about the next generation of policy issues in order to work toward effective solutions to significant policy dilemmas.</p> <p>(5) Developing Health: Aims to increase access to primary care for underserved populations in targeted communities.</p> <p>http://www.gefoundation.com/</p>
