Updated	Department-Agency-Org	Summary	Total Funding	Description	Recovery Support Function	Funding Type	Deadline
Oct-15-2021	Non-Governmental Organizations	FY22 Women's Studio Workshop: Art-in-Education Artist Book Residency	Funding not identified. Allocated: $0	Works to operate and maintain an artist's workspace that encourages the voice and vision of individual women and trans, intersex, nonbinary, and genderfluid artists. WSW provides professional opportunities for artists at various stages of their careers. The Women's Studio Workshop in Rosendale, New York, works to operate and maintain an artist's workspace that encourages the voice and vision of individual women and trans, intersex, nonbinary, and genderfluid artists. WSW provides professional opportunities for artists at various stages of their careers and promotes programs designed to stimulate public involvement, awareness, and support for the visual arts. WSW is accepting applications for its Art-in-Education Artist's Book Residency, which will provide an up-to ten-week residency to two emerging women artists to create a new artist's book and teach young people in WSW studios. Generally, the resident dedicates her first month to producing a limited-edition artist's book, which is hand-printed and bound in the studio. WSW can provide technical advice; training on new equipment, techniques, and materials; and production assistance. During the second half of the residency, the artist works with young people in WSW's studios, teaching one to two days per week for three to four weeks, and visiting the students twice in school. Studio space and equipment is reserved for students during program hours, but artists may work at any time outside of AIE. The program provides a stipend of $350 per week for up to ten weeks, up to $750 for materials, and up to $250 for travel within the continental United States. Free onsite housing, and 24/7 studio access during non-AIE sessions will also be provided. 			Allocated: $0	implement the Community Heart & Soul model.			
				Community Heart & Soul is a resident-driven process that engages the entire population of a town in identifying what they love most about their community, what future they want for it, and how to achieve it. Based on three powerful principles–involve everyone, focus on what matters most, and play the long game–Community Heart & Soul helps towns move toward a brighter, more prosperous future by bringing residents closer together.			

The Community Heart & Soul Seed Grant Program provides $10,000 in startup funding for resident-driven groups in small cities and towns across the United States to implement the Community Heart & Soul model. Eligible use of funds includes:

- Heart & Soul Coaching;
- Project Coordination; and
- Project-Related Expenses.

Although there is no charge to use the Community Heart & Soul model, most communities budget around $15,000 for engagement and programmatic costs. Additional funds are needed to pay for project coordination and services provided by a Heart & Soul Coach. Heart & Soul Coaches are trained by Community Heart & Soul staff to provide training, skill building and guidance to Heart & Soul teams. Successful grantees are required to contract with a Heart & Soul Coach. While fees vary between Coaches, on average, Coaching services cost $20,000 over two years. On average, it costs $57,500 annually for two years to implement Community Heart & Soul. You can find a listing of all Coaches at:
https://www.communityheartandsoul.org/coaches/.
Applications accepted on an ongoing basis.

Apr-30-2021	Executive Office of the President	PUBLICATION: National Strategy for COVID-19 Response & Pandemic Preparedness	Funding not identified. Allocated: $0	Provides a roadmap of a coordinated pandemic response that aims to improve the effectiveness of US response to COVID-19. It outlines an actionable plan across the federal government to address the COVID-19 pandemic. Through release of the National Strategy for COVID-19 Response and Pandemic Preparedness, the United States is initiating a coordinated pandemic response that not only improves the effectiveness of our fight against COVID-19, but also helps restore trust, accountability and a sense of common purpose in our response to the pandemic. The National Strategy provides a roadmap to guide America out of the worst public health crisis in a century. It outlines an actionable plan across the federal government to address the COVID-19 pandemic, including twelve initial executive actions issued by President Biden on his first two days in office: The National Strategy is organized around seven goals: 1. Restore trust with the American people. 2. Mount a safe, effective, and comprehensive vaccination campaign. 3. Mitigate spread through expanding masking, testing, data, treatments, health care workforce, and clear public health standards. 4. Immediately expand emergency relief and exercise the Defense Production Act. 5. Safely reopen schools, businesses, and travel while protecting workers. 6. Protect those most at risk and advance equity, including across racial, ethnic and rural/urban lines. 7. Restore U.S. leadership globally and build better	[Community Planning and Capacity Building, Economic, Health and Social Services, Housing, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.

Jun-24-2021	Department of Agriculture	Resource Guide: FY21 "Recreation Economy at USDA, Economic Development Resources for Rural Communities"	Funding not identified. Allocated: $0	USDA's Forest Service, Rural Development, and the National Institute for Food and Agriculture developed this resource guide for rural communities to identify resources that develop the recreation economy. USDA's Forest Service, Rural Development, and the National Institute for Food and Agriculture developed this resource guide for rural communities to identify resources that develop the recreation economy. Growing and maintaining a healthy recreation sector that benefits residents over the long term requires balancing natural resource management, conservation efforts, infrastructure investment, business development and many other factors. It also requires active stakeholder engagement, a robust understanding of potential challenges and opportunities, collaboration among various levels of government and landowners and a strong plan for the region's future. These efforts present unparalleled economic opportunities—to revitalize main street, preserve cultural heritage, support entrepreneurship and small business growth, reinvest in communities and more. PDF download available from USDA: https://www.rd.usda.gov/sites/default/files/RD_Recreation_Economy_USDA.pdf	[Community Planning and Capacity Building, Economic, Natural and Cultural Resources]		Deadline not identified.
Oct-29-2020	Japan Foundation, New York	Japan Foundation, New York - FY21 JFNY Grant for Arts & Culture (Rolling Deadline)	Funding not identified.	The JFNY Grant for Arts & Culture program supports nonprofit organizations in the U.S. that organize projects that will further the understanding of Japanese arts and culture within the 37 states east of the Rocky Mountains, plus Washington, DC. The mission of the Japan Foundation is to promote international cultural exchange and mutual understanding between Japan and other countries. This grant aims to support projects that will further understanding of Japanese arts and culture, or to produce U.S.-Japan collaborative projects through performing arts, exhibitions, film screening, lectures, symposia, and other cultural events. This grant also supports online projects related to Arts & Cultural Exchange that incorporate issues pertaining to the COVID-19 global pandemic such as virtual exhibitions, virtual performances, film streaming, online conference as well as webinar. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.	[Natural and Cultural Resources]		Deadline not identified.

<td>For online projects, applications are accepted on a rolling basis and must be received by JFNY at least 1 month prior to the project start date. For other projects, applications must be submitted at least 3 months prior to the project start date. The grant will be paid in the form of a reimbursement for preceding expenses, and the award money will be remitted upon receipt of the final report and the appropriate proofs of payments. Successful projects are granted up to $5,000.
Funding may be used for any of the following expenses:
1. Publicity;
2. Printing costs of programs, leaflets, and catalogs;
3. Honoraria for artists and lecturers;
4. Domestic/international travel expenses for artists and lecturers, including per diem and accommodation expenses;
5. Shipping costs of films, exhibits and/or other materials related to the proposed event;
6. Online related costs (e.g. creating online contents, purchasing a domain, server fees, equipment rental fees, etc.) - Note: JFNY only supports those services directly related to the grant project.
Successful applicants must submit a final report, due one month after the completion of the project, along with the appropriate proofs of payments.

<td>Army Corps of Engineers</td>
<td>USACE: Environmental Program</td>
<td>Funding not identified.</td>
<td>The Corps of Engineers' environmental programs work to restore degraded ecosystems, construct sustainable facilities, regulate waterways, manage natural resources, and clean up contaminated sites from past military activities.

As the nation's environmental engineer, the U.S. Army Corps of Engineers manages one of the largest federal environmental missions: restoring degraded ecosystems; constructing sustainable facilities; regulating waterways; managing natural resources; and, cleaning up contaminated sites from past military activities.
Our environmental programs support the warfighter and military installations worldwide as well as USACE public recreation facilities throughout the country. In 2002, USACE adopted its seven Environmental Operating Principles, or green ethics, which continue to guide our environmental and sustainability work today.
USACE works in partnership with other federal and state agencies, non-governmental organizations and academic institutions to find innovative solutions to challenges that affect everyone – sustainability, climate change, endangered species, environmental cleanup, ecosystem</td>

| | | | | restoration, and more.
USACE works to restore degraded ecosystem structure, function and dynamic processes to a more natural condition through large-scale ecosystem restoration projects - such as the Everglades, the Louisiana Coastal Area, the Missouri River, and the Great Lakes - and by employing system-wide watershed approaches to problem solving and management for smaller ecosystem restoration projects. USACE's regulatory program works to ensure no net loss of wetlands while issuing about 90,000 permits a year.
USACE environmental cleanup programs focus on reducing risk and protecting human health and the environment in a timely and cost-effective manner. USACE manages, designs, and executes a full range of cleanup and protection activities, such as:
  • Cleaning up sites contaminated with hazardous, toxic or radioactive waste or ordnance through the Formerly Used Defense Sites program.
  • Cleaning up low-level radioactive waste from the nation's early atomic weapons program through the Formerly Utilized Sites Remedial Action Program.
  • Supporting the U.S. Environmental Protection Agency by cleaning up Superfund sites and working with its Brownfields and Urban Waters programs.
  • Supporting the Army with the Base Realignment and Closure Act program.
  • Ensuring that facilities comply with federal, state and local environmental laws.
  • Conserving cultural and natural resources.
USACE is striving to restore ecosystem structure and processes, manage our land, resources and construction activities in a sustainable manner, and support cleanup and protection activities efficiently and effectively, all while leaving the smallest footprint behind.
OUR MISSION
The mission of the U.S. Army Corps of Engineers is to deliver vital public and military engineering services; partnering in peace and war to strengthen our nation's security, energize the economy and reduce risks from disasters.

				The MLB-MLBPA Youth Development Foundation is dedicated to promoting the growth of youth baseball and softball in the United States and throughout the world by funding programs that encourage youth participation in the game. What do we support? The Foundation considers requests for a variety of purposes including funding capital projects (e.g., field renovations), baseball/softball programs, and education initiatives. • Capital projects include: building and renovating fields and practice facilities and installing lighting. • Baseball/Softball programs include: in-school/after-school baseball/softball programming, equipment and uniforms, umpire fees, player registration fees and practice facility rental fees. • Education initiatives include: programs, exhibits and other learning opportunities that use baseball and softball as its primary focus to promote interest and engagement in the game. What we do not support? The Foundation does not support annual operating expenses including, but not limited to, fundraising costs, salaries, insurance costs, administrative expenses, membership dues, advertising and promotional expenses, bank charges, audit expenses, and other third-party overhead costs. • Fields used for sports and activities other than youth baseball and softball. • Travel teams, except for those serving low-income players. • Restroom and concession stand construction. • Individual player scholarships or sponsorships.			
Jun-23-2021	Non-Governmental Organizations	City Parks Alliance - Equitable Park Funding Hub	Funding not identified. Oct-14-2021	Environmental Protection Agency	Smart Growth Technical Assistance Programs	Funding not identified. Allocated: $0	EPA offers technical assistance to help communities learn about and implement smart growth approaches. EPA offers the following technical assistance to help communities learn about and implement smart growth approaches:	[Community Planning and Capacity Building, Infrastructure Systems, Natural and Cultural Resources]		Deadline not identified.
				• **Building Blocks for Sustainable Communities** – Two-day, targeted technical assistance to give communities tools to implement smart growth development approaches. Eligible applicants are tribal, county, and local governments, and nonprofit organizations that have the support of the local government on whose behalf they are applying. • **Cool & Connected** – Helps rural communities use broadband service to revitalize main streets and promote economic development. Any community representative can apply. • **Governors' Institute on Community Design** – Helps governors help their states develop in an environmentally and economically sound way. States are eligible to apply. • **Greening America's Communities** – Helps cities and towns envision and implement design strategies for more sustainable communities. The program currently serves communities in partnership with the EPA Office of Water Stormwater Management Program. Formerly called Greening America's Capitals. • **Healthy Places for Healthy People** – Helps communities create walkable, healthy, economically vibrant places by engaging with their health care facility partners such as community health centers (including Federally Qualified Health Centers), nonprofit hospitals, and other health care facilities. Eligible applicants include local government representatives, health care facilities, local health departments, nonprofit organizations, tribes, and others proposing to work in a neighborhood, town, or city anywhere in the United States. • **Local Foods, Local Places** – Helps communities develop and implement action plans that promote local foods and downtown revitalization. Representatives of communities anywhere in the United States are eligible to apply. This program builds on the Livable Communities in Appalachia Program, which offered technical assistance to help small towns and rural communities in

				Appalachia revitalize their traditional downtowns to boost the local economy and improve quality of life. • **Recreation Economy for Rural Communities** – Helps communities develop strategies and an action plan to revitalize their Main Street through outdoor recreation. Eligible applicants include local governments, Indian tribes, and nonprofit institutions and organizations representing any community in the United States. • **Smart Growth Implementation Assistance** – Works with public-sector entities that want to incorporate smart growth techniques into their development. As of 2015, EPA's regional staff identified and selected communities to assist. Summaries and reports from past SGIA projects can be helpful to communities facing similar issues. • **Special Smart Growth Technical Assistance Projects** – Additional technical assistance projects done in partnership with other entities.
