MEMA TRAINING BULLETIN

Your source for training opportunities.

Welcome to the Maine Emergency Management Training Bulletin. Our goal is to provide you with the best opportunities for professional training to increase your preparedness and capabilities. If your organization is hosting training and would like to be featured here, please let us know at MEMAPreparedness@maine.gov.

NETC Application Process.

When applying for training through the [National Emergency Training Center \(NETC\)](#), please remember to list the State Training Officer, Ken Latham (kenneth.latham@maine.gov) as the "Head of Organization," so we can properly track your applications.

All-Hazards Instructors

FEMA is updating the All-Hazards Position Specific Instructor Program, which will require all CURRENT instructors to recertify. If you are a currently qualified Position Specific Instructor, please let us know if you wish to continue. Please reply [here](#).

Preparedness Focus: Back to School

August is [Back to School Month](#). Disasters can happen anywhere, and everyone in the family can help prepare. Whether you're a kid, teen, parent, loved one, or someone who work with youth, Ready Kids has tools and information to help prepare for before, during and after disasters.

MGT330 SUPPORT THAT SAVES: A GUIDE TO BUILDING AND SUSTAINING PEER SUPPORT

Scarborough, ME
4 August 2026 0800-1600

[Signup here.](#)

This course prepares participants to employ best practices for the planning and operational needs of children impacted by disaster. Participants will gain the skills and knowledge necessary to make pediatric considerations/accommodations while planning and preparing for community all-hazards events. The goal is the implementation of a safe, efficient, and effective integrated response with pediatric-focused utilization of public safety response assets. This course addresses pediatric emergency planning considerations through a combination of lectures and small group activities.

K0311 Hurricane Readiness for Coastal Communities

Virtual
5 August 2026 0800-1600

[Signup here.](#)

This 1-day course is an introduction to the National Hurricane Center's forecast procedures and products and the NHP's tools for how to incorporate them into planning and response. Topics include hurricane hazards, hurricane forecast products, hurricane evacuating planning and the hurricane decision process.

Public Health Decision Making in a Radiation Emergency

Old Lyme, CT
15 September 2026 0800-1700
[Signup here.](#)

The Connecticut Department of Energy and Environmental Protection (DEEP) in conjunction with the Division of Emergency Management and Homeland Security (DEMHS) and the New England Radiological Health Compact (NERHC) invite you to register for the Public Health Decision Making in a Radiation Emergency course sponsored by the Conference of Radiation Control Program Directors (CRCPD), taking place September 15-17, 2026 at DEEP Marine Headquarters in Old Lyme, Connecticut.

AAR-01: Post-Incident After Action Reports

Virtual
29 September 2026 0800-1200
[Signup here.](#)

This introductory course offers a practical overview of After-Action Reports (AARs) and their role in post-incident evaluation. The course introduces participants to the purpose and structure of AARs, the importance of collecting and analyzing data after an event, and how AARs support organizational learning and continuous improvement. Participants will explore key components of the AAR process, including data collection methods, structured analysis techniques, and the development of actionable recommendations to strengthen future preparedness and response efforts. No prior experience with AARs is required.

MGT310 Threat & Hazard Identification & Risk Assess & Stakeholder Preparedness Review

Bangor, ME
6-7 October 2026 0800-1600
[Signup here.](#)

This Threat and Hazard Identification and Risk Assessment and Stakeholder Preparedness Review course introduces the six-step THIRA/SPR process which includes identifying threats and hazards that stress a community's capabilities, giving context to those threats and hazards and identifying associated impacts consistent with specific factors, identifying community-specific capability targets, assessing current levels of capability in comparison to those targets, identifying capability gaps and subsequent strategies to close those gaps using the POETE (Planning, Organization, Equipment, Training, and Exercises) areas, and assessing and describing the impact of funding sources on building or sustaining capabilities in a community.

MGT346 Emergency Operations Center (EOC) Operations and Planning for All Hazards

Augusta, ME
6-7 October 2026 0800-1600
[Signup here.](#)

This course provides personnel who could be assigned to or work in an Emergency Operations Center (EOC) the skills necessary to effectively plan for and manage a large-scale incidents by applying and implementing an all-hazards, multi-disciplinary, management team approach. The course places specific emphasis on the planning, resource, and information management processes.

AWR232 Mass Fatalities Planning and Response for Rural Communities

Augusta, ME

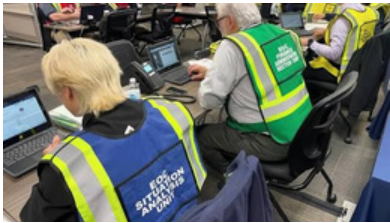

23 October 2026 0800-1700

[Signup here.](#)

AWR 232 is an 8-hour, DHS/FEMA-certified, tuition-free, awareness-level course. The goal of this course is to teach participants the basics of mass fatality response while providing opportunities to exchange rural perceptions and brainstorm solutions to simulated emergencies. Responding to a mass fatality incident, which includes the recovery, identifications, and reunification of the deceased, is one of the most difficult aspects of disaster response. In times of crisis, small, rural, and tribal communities are often ill-equipped with facilities to manage large numbers of casualties. When the time comes, communities must be prepared to use available resources to properly manage the remains that will result. Regardless of the agencies or organizations that respond, whether they be governmental agencies or private or non-governmental organizations (NGOs), the responsibility to coordinate and manage these resources rests with local authorities.

DFIN-01: It Pays to Prepare: An Overview of Disaster Finance

Virtual

123 November 2026 0800-1200

[Signup here.](#)

This half-day instructor-led course is delivered virtually, highlighting the financial considerations and best practices of disaster preparation, response, and recovery. The course is broken into two portions. The first four hours will describe the process of federal declarations, outline best practices in fiscal policies & procurement, and list common strategies for funding. The second portion of the class consists of one-hour breakout sessions where participants will learn more about their state-specific laws and processes, presented by New England financial experts and regulators.

PER 211 Medical Management of Chem, Bio, Radiological, Nuclear, and Explosive Events

Bangor, ME

11-12 January 2026 0800-1600

[Signup here.](#)

PER 211, Medical Management of Chemical, Biological, Radiological, Nuclear and Explosives (CBRNE) Events answers these questions and more as you learn how to distinguish between different agents of concern that could be used in a major incident.

Grants Management Training Opportunities

Looking to strengthen your grant management knowledge? We are offering multiple training opportunities for both the Homeland Security Grant Program (HSGP) and the Nonprofit Security Grant Program (NSGP). Whether you're new to FEMA preparedness grants or need a refresher on program requirements, these sessions are designed to help recipients and subrecipients successfully manage their awards and remain compliant with federal and state requirements.

Topics include grant administration, procurement, environmental and historical preservation application, reimbursement requests, and more!

Training schedules, course descriptions, and registration information are available on our [website](#). We encourage all grant managers, financial staff, and project personnel involved in HSGP or NSGP awards to register for the courses that are most relevant to their role.
