- 5) On the search screen, you can look up cases by the name of the utility or the type of utility involved. There are many options, but typically searching by utility name is the most effective. In the Pertaining to Utility/Company box, find the utility you are interested in and select it. To further narrow the results, make sure that you go to the Status option and select Open. Hit the Search button at the bottom of the box. Reviewing the results should provide you with the case number needed to subscribe.
