

In 2017, over 62,000 students from 350 schools participated in the Maine Integrated Youth Health Survey (MIYHS), providing insight into childhood and adolescent health. MIYHS data is used daily at the school, county, public health district, state, and even the national level to make informed health decisions.

If you haven't already, be sure to check out the State Level Health Snapshots for K/3, 5/6, Middle School, and High School at: <https://data.mainepublichealth.gov/miyhs/Snapshots>

Your school has been selected to participate in the upcoming 2019 MIYHS.

All Maine middle and high schools and selected K-6 schools are invited and encouraged to participate. Your school's involvement will directly increase your county's and/or public-health district's ability to get representative data.

SAVE THE DATE

The 2019 MIYHS will be administered during the weeks of **February 4th and 11th, 2019.**

Our survey partner, Pan Atlantic Research, will reach out to you in early September with registration and other information about the survey. In the meantime, if you would like more information about the 2019 MIYHS, please call Gregory McHugh, Pan Atlantic Research at 1-844-308-8906 or email him: miyhs@panatlanticresearch.com.

PLEASE
PLACE
STAMP
HERE

Our thanks and appreciation go out to all schools that have participated in previous MIYHS administrations!

School and SAU district level results of the 2017 MIYHS as well as school level snapshots are available to Superintendents.

Please contact your Superintendent or Reid Plimpton at (207) 287-5084 or

Reid.Plimpton@maine.gov to receive your school's 2017 report, if you haven't already.

Thanks again!
