District Delineation

Strathglass Park, a unique collection of 50 duplex brick workers houses in a landscaped park-like area, lies in the central portion of the Town of Rumford. From an entrance on Maine Avenue the area is intersected by three streets (Erchles, Lochness Rd. and Urquart) laid out in a fork plan, all terminating at a perpendicular road, Clachan Place.

The district is perpendicular and bounded on the north by Lincoln St., the east by Hancock St., the south by Maine Ave. and the west by York St. containing 23 acres.

All buildings in the district are of the original 1904 construction and remain virtually unchanged.
