## **I. SUMMARY**

Through this Order, we set the energy component and resulting standard offer retail energy prices<sup>1</sup> for the large non-residential classes in the service territory of Central Maine Power Company (CMP) and Emera Maine Bangor Hydro Service Area (BHD) for April 2018. The energy components are \$0.03280/kWh for CMP and \$0.03198/kWh for BHD, and the resulting standard offer retail energy prices for April 2018 will be \$0.040685/kWh for the CMP large class and \$0.047698/kWh for the BHD large class. The standard offer prices will include these retail energy prices plus the capacity components as specified in the November 7, 2017 and November 8, 2017 Orders. The specified capacity components for April 2018 are \$9.62/kW-month for the CMP large class and \$9.62/kW-month for the BHD large class.

## **II. BACKGROUND**

On November 7, 2017, the Commission issued an Order Designating the Standard Offer Provider for the BHD Large Class for the twelve-month term beginning January 1, 2018 and ending December 31, 2018. On November 8, 2017, the Commission issued an Order Designating the Standard Offer Provider for the CMP Large Class for the twelve-month term beginning January 1, 2018 and ending December 31, 2018. Both the November 7 and November 8 Orders specified that the actual retail energy prices for CMP's and BHE's large customer class will be determined prior to each month of the January-December term based on ISO-NE Internal Hub Peak and Off-Peak Locational Marginal Pricing (LMP) electricity futures as settled through CME Group on the 15th day of the prior month.

<sup>1</sup> In this Order, the "standard offer retail energy prices" refer to all components of the price that are billed on a kWh basis, including line loss, uncollectible and fixed adder factors. In accordance with the November 7, 2017 and November 8, 2017 Orders, the "energy component" is set by reference to the current forward market price for electricity for the applicable month plus line losses and the uncollectible factors.

### III. DECISION

Based on the methodology adopted in the Commission's November 7, 2017 and November 8, 2017 Orders, the following standard offer retail energy prices for April 2018 are established for the CMP and BHD large non-residential classes:

CMP--\$0.040685/kWh

BHD--\$0.047698/kWh

As specified in the November 7, 2017 and November 8, 2017 Orders, the capacity components for April 2018 are:
