Adjustment of the
Alternative Compliance Payment (ACP) Rate
For Compliance Year 2019

January 31, 2019

Pursuant to Chapter 311 §3(A), Competitive Electricity Providers (CEP’s) must meet portfolio requirements for new renewable resources beginning January 1, 2008. Chapter 311 §3(C) establishes an Alternative Compliance Payment Rate to be used as an alternative to meeting the new renewable resource requirements.

Chapter 311 §3(C)(2) states that the alternative compliance base rate shall be \$57.12 per megawatt-hour. Beginning in 2008, the Commission will adjust the alternative compliance payment rate by the annual change in the U.S. Bureau of Labor Statistics Consumer Price Index. For each year, the Commission will calculate and publish the alternative compliance payment rate no later than January 31 for applicability in that year.

The Consumer Price Index (CPI)¹ for 2018 is 265.139 up from 259.238 in 2017, an increase of 1.02276%². Accordingly, the ACP Rate for Compliance Year 2019 has been determined to be **\$70.44 per MWh**³.
