Instructions to download and install the Computrace Security Software for BTOP Laptops

1. Power up a laptop and login as **Admin**
2. Do all updates (Java, Trend Micro, etc.)
3. Go to: B**TOP Resources for Public Libraries** http://www.maine.gov/msl/libs/btop/index.html
4. Under Laptop Security Software Instructions, right click on **Installation Download**
5. Select **Save Target as**…
6. Download to the Desktop or Downloads Folder (you will need to know where you are saving this file so you can access it after the download).
7. Save this file
8. Double click on this saved file - **Computrace Installer,** Click Run
9. **Note**: At times during this process, you will see a **Windows Security Center Shield** in the task bar. Click on this shield and answer yes to any questions such as…
10. Do you want to allow the following program to install software on this computer? Yes.
11. Do you want to allow the following program to make changes to this computer? Yes.
12. Once the installation is complete, restart the computer so the Computrace Monitoring Center can now locate the laptop.
